CHOCOLATE WORLD ...

THE TRENDSETTER FOR YOUR CHOCOLATE BUSINESS!

🇧🇪 Belgium is known for its rich culture of culinary specialties, of which chocolate is by far the most recognisable and mouth-watering for most of us.

For more than 30 years, **Chocolate World** has set the standard for our Belgian chocolate traditions. It offers the largest assortment of polycarbonate moulds for artisan chocolate makers, continuously striving for the highest quality.

Thanks especially to the most famous Belgian chocolate makers and craftsmen, Chocolate World took its rightful place as the world's leading supplier and manufacturer of the highest quality moulds, that are shipped around the globe.

We have the world's largest range in stock, with an ever-growing collection of no less than 1500 different designs. A myriad collection of themes, in several

shapes and sizes, are transformed into polycarbonate chocolate moulds. Our widely-varied supply, ranging from very traditional to the more modern designs, guarantees that every chocolatier can find what they are looking for to express their passion for their craft.

However, if you wish to create your own mould, and stand out that little bit extra, we have the perfect solution for you as well. You can rely on Chocolate World's know-how and craftsmanship for the creation of your unique chocolate mould. "**We Design your Chocolate**" is not just our slogan, it's our way of thinking. Our sales team and designers are keen to help you on your way to creating that special mould you had in mind, without losing your personal touch. This new catalogue is created with that in mind, to guide you on your way to becoming the chocolate maker you always aspired to be...

CHOCOLATE WORLD ...

DE TRENDSETTER VOOR UW CHOCOLADEATELIER!

🇧🇪 België staat bekend om zijn rijke cultuur van culinaire specialiteiten, waarvan chocolade veruit het bekendste en lekkerste voorbeeld is voor het grote publiek.

Al meer dan 30 jaar bepaalt **Chocolate World** de norm voor de Belgische tradities op het gebied van chocolade. Het bedrijf levert het grootste assortiment polycarbonaat vormen voor ambachtelijke chocolatiers, waarbij voortdurend naar de hoogste kwaliteit gestreefd wordt.

Chocolate World heeft de erkenning als 's werelds grootste wereldwijde leverancier en producent van hoogwaardige chocoladevormen voornamelijk te danken aan de bekendste chocolatiers van België.

Wij hebben het ruimste assortiment ter wereld op voorraad met een steeds groter wordende verzameling van maar liefst 1500 verschillende ontwerpen. Talloze thema's in verschillende vormen

en afmetingen worden omgetoverd tot polycarbonaat chocoladevormen. Dankzij ons uiteenlopende aanbod, variërend van zeer traditionele tot modernere ontwerpen, kan iedere chocolatier iets van zijn gading vinden, zodat hij zijn passie voor het vak tot uiting kan brengen.

Als u uw eigen vorm wil creëren om net dat tikkeltje meer cachet aan uw ontwerpen te geven, helpen wij u daar ook graag bij. U kunt een beroep doen op de kennis en het vakmanschap van Chocolate World voor het vervaardigen van uw unieke chocoladevorm. "**We Design your Chocolate**" is niet alleen onze slogan, het is onze hele filosofie. Ons verkoopsteam en onze ontwerpers helpen u graag bij het creëren van die ene speciale vorm die u voor ogen heeft waarbij het persoonlijke karakter behouden blijft. Met dit principe in het achterhoofd werd onze nieuwe catalogus samengesteld. Hiermee helpen wij u de chocolatier te worden die u altijd al had willen zijn ...

CHOCOLATE WORLD ...

LE CRÉATEUR DE MODE POUR VOS CHOCOLATS !

■ La Belgique est réputée pour la richesse de ses spécialités culinaires, dont le chocolat est de loin, pour la plupart d'entre nous, le secteur phare le plus alléchant.

Depuis plus de 30 ans, **Chocolate World** a fixé les normes du fameux chocolat belge. L'entreprise offre le plus large assortiment de moules en polycarbonate pour les artisans chocolatiers, œuvrant sans relâche à la meilleure qualité.

Notamment grâce aux artisans chocolatiers belges les plus célèbres, Chocolate World a pris la place qui lui revient de premier fabricant au monde de moules de haute qualité.

Nous disposons, de stock, de la gamme la plus étendue au monde, en constant développement, avec pas moins de 1 500 modèles différents. Une myriade de thèmes, de formes et tailles diverses,

sont transformés en moules de polycarbonate pour chocolats. Nos designs très variés, dont la palette couvre l'éventail du plus traditionnel au plus moderne, assurent que chaque chocolatier trouve de quoi exprimer sa passion artistique.

Si vous souhaitez toutefois créer votre propre moule et vous distinguer davantage encore, nous vous offrons également la solution parfaite. Vous pouvez compter sur le savoir-faire et les qualités artisanales de Chocolate World pour créer votre moule exclusif. « *We Design your Chocolate* » n'est pas qu'un slogan, mais bien notre façon d'agir et de penser. Notre équipe de vente et nos designers vous sont entièrement dévoués pour créer ce moule spécial que vous avez à l'esprit, dans l'absolu respect de votre personnalité. Notre nouveau catalogue est conçu dans cette optique, afin de vous guider à devenir le chocolatier que vous avez toujours rêvé être...

CHOCOLATE WORLD ...

¡ LA EMPRESA PIONERA PARA TU (NEGOCIO DE) CHOCOLATERÍA!

■ Bélgica es conocida por su rica cultura en especialidades culinarias, de las cuales el chocolate belga es con mucha diferencia el manjar más delicioso y reconocible para la mayoría de nosotros. Durante más de 30 años, Chocolate World ha establecido el estándar para nuestras tradiciones chocolateras belgas. Chocolate World ofrece el mayor surtido de moldes de polycarbonato para chocolateros artesanos, buscando siempre la máxima calidad.

Gracias a los chocolateros y artesanos belgas más famosos, Chocolate World ocupó el lugar que le corresponde como principal proveedor y fabricante mundial de moldes de la más alta calidad, y cuyos productos son enviados a nivel global.

Disponemos del mayor surtido a nivel mundial, con una colección cada vez mayor de no menos de 1500 diseños diferentes. Una colección infinita de temas, en varios tamaños y formas, son representados en moldes de chocolate de polycarbonato. Con nuestra

variada oferta, desde los diseños más tradicionales hasta los más modernos, garantizamos que cada chocolatero pueda encontrar lo que busca para expresar su pasión por esta artesanía.

No obstante, si desea crear su propio molde y destacar un poco más, tenemos también la solución perfecta para usted. Puede usted confiar en la pericia artesanal de Chocolate World para la creación de su molde de chocolate único. "We Design your Chocolate" no es solo nuestro lema, sino también nuestra forma de pensar. Nuestro equipo de ventas y diseñadores estarán encantados de acompañarle en el proceso de elaboración del molde especial que tenía usted en mente, pero sin perder su propio toque personal. Nuestro nuevo catálogo ha sido creado teniendo en cuenta ese concepto, para así poder guiarle en su camino para convertirse en el fabricante de chocolate al que siempre ha aspirado a ser...

EXCLUSIVE FRAME MOULDS

EXCLUSIVE FRAME MOULD

 You want to make an instant impact on the market with chocolates of your own design?

Our in-house specialist team of engineers and consultants is happy to help you along the way. With over 30 years of experience in designing and producing moulds and shapes, Chocolate World is recognised as setting the standard in this sector.

Thanks to the most sophisticated techniques and software, we can execute your ideas with high precision, without losing sight of your wishes. It will always be you, the customer, who decides on the size, colour and reference of your personal mould. Flexibility is one of our major selling points. We look at each project with one goal in mind: deliver a final product of the highest quality, customised completely by our client.

We will keep you up to date at every step along the way in order to achieve the final result you had in mind.

MOULES ENCADRE EXCLUSIFS

 Souhaitez-vous surprendre instantanément le marché avec des chocolats de votre propre création ?

Nos ingénieurs et consultants internes seront heureux de vous assister tout au long du processus. Avec plus de 30 ans d'expérience en conception et production de moules et de formes, Chocolate World est reconnue pour être la référence du secteur.

Grâce aux techniques et logiciels les plus sophistiqués, nous pouvons donner vie à vos idées avec grande précision, sans perdre de vue vos desideratas. Les décisions portant sur la taille, la couleur et la référence de votre moule personnel resteront toujours votre prérogative. La flexibilité est l'un de nos principaux arguments de vente. Nous examinons chaque projet avec un seul objectif à l'esprit : fournir un produit final de la plus haute qualité, entièrement personnalisé par notre client.

Nous vous tiendrons au courant à chaque étape du développement, afin que le résultat final corresponde parfaitement à ce que vous imaginiez.

EXCLUSIEVE KADERVORMEN

 Wilt u de markt rechtstreeks betreden met zelfontworpen chocolade?

Ons eigen gespecialiseerde team met ingenieurs en consultants staat paraat om u hierbij te helpen. Met meer dan 30 jaar ervaring in het ontwerpen en produceren van vormen en figuren, wordt Chocolate World beschouwd als dé toonaangevende speler binnen de sector.

Met behulp van de meest geavanceerde technieken en software, voeren we uw ideeën zo nauwkeurig mogelijk uit, zonder daarbij uw behoeften uit het oog te verliezen. U zal als klant altijd de eindbeslissing nemen over de afmetingen, kleur en referentie van uw gepersonaliseerde vorm. Flexibiliteit is één van onze belangrijkste verkoopstoeven. We hebben bij elk project maar één doel voor ogen: een volledig door onze klant gepersonaliseerd eindproduct van topkwaliteit afleveren.

We houden u tijdens het proces van elke stap op de hoogte om zo tot het uiteindelijke resultaat te komen dat u voor ogen had.

MOLDES DE MARCOS EXCLUSIVOS

 ¿Quieres llegar pisando fuerte en el mercado con chocolates de diseño propio?

Nuestro equipo interno de ingenieros y consultores especialistas estará encantado de ayudarle durante todo el proceso. Con más de 30 años de experiencia en el diseño y la producción de moldes y formas, Chocolate World es reconocida como la empresa referente en el sector.

Gracias a las técnicas más sofisticadas y software, podemos realizar sus ideas con gran precisión, sin perder de vista sus deseos. Como cliente, será siempre usted quien decida sobre el tamaño, el color y la referencia de su molde personal. Ser una empresa flexible es uno de nuestros mayores argumentos de venta. Abordamos cada proyecto con un objetivo en mente: entregar un producto final de la más alta calidad, enteramente personalizado por nuestro cliente.

Le informaremos de cada paso del proceso para lograr el resultado final que tenía proyectado.

3 WAYS TO MAKE YOUR EXCLUSIVE PROFESSIONAL POLYCARBONATE FRAME MOULDS

1. FULL-EXCLUSIVE CONCEPT

We simply design your chocolate, your idea, your dream. Any conical shape or size is possible upon request. This is the perfect solution for both artisan and industrial producers, who know the design they want, and how they want it. This is the most professional exclusive polycarbonate mould service you will find in the market these days.

The options are endless, we work together with you to create that perfect mould you have always wanted. With a minimum order quantity of 50 pieces, this is an ideal way to promote your own design. For more information on available sizes, please check p.8.

2. SEMI-EXCLUSIVE CONCEPT

If you want to personalise an existing mould with your logo or brand name, this is the perfect cost-effective solution for the same minimum order quantity of 50 pieces. Choose from the selected range of moulds we think are best suited for this purpose, and we can work from there. For more information on available sizes, please check p. 22, 23.

3. LIMITED EXCLUSIVE CONCEPT

If you are rather looking for a smaller number of moulds to kick-start your production, we would suggest our click-and-play frame system. This option allows you to make 10 customised polycarbonate moulds, which considerably reduces the cost of the project. This solution is limited to praline moulds, caramels, small bars and tablets with sides measuring no more than 50 mm. This concept provides you with 6 cavities per frame.

OPTIONS

→ SANDBLASTED VERSUS POLISHED EFFECTS

These different effects are just a matter of preference. Some chocolates will look lovely with a polished finish, while others are better suited to a more sandblasted finish. It is up to you to choose which one you prefer. These visual effects can be applied to any kind of tooling.

→ CENTRE SYSTEMS (FOR FULL EN SEMI EXCLUSIVE CONCEPT)

At Chocolate World we offer our customers the option of centring pins, to ensure faultlessly- balanced double moulds.

3 MOGELIJKHEDEN OM UW EXCLUSIEVE, PROFESSIONELE POLYCARBONAAT KADERVORMEN TE MAKEN

1. VOLLEDIG EXCLUSIEF CONCEPT

Wij ontwerpen eenvoudigweg uw chocolade, uw idee, uw droom. Conische vormen zijn in verschillende afmetingen op aanvraag verkrijgbaar. Dit is de perfecte oplossing voor zowel ambachtelijke als industriële producenten die precies weten welk ontwerp ze willen. Dit is het meest professionele, exclusieve aanbod voor polycarbonaat vormen dat u vandaag de dag op de markt kan vinden.

De mogelijkheden zijn legio. Wij bundelen samen met u onze krachten om die ene perfecte vorm te ontwerpen waarvan u altijd al had gedroomd. Dit is de ideale manier om uw eigen ontwerp te promoten. De minimale afname hiervoor bedraagt 50 stuks. Voor meer informatie over de beschikbare afmetingen, zie p. 8.

2. SEMI-EXCLUSIEF CONCEPT

Wilt u een bestaande vorm met uw logo of merknaam personaliseren, dan is dit de perfecte kosteneffectieve oplossing tegen diezelfde minimale afname van 50 stuks. Kies uit de door ons zorgvuldig geselecteerde vormen waarop we ons kunnen baseren voor de verdere uitwerking. Voor meer informatie over de beschikbare afmetingen, zie p. 22, 23.

3. BEPERKT EXCLUSIEF CONCEPT

Indien u eerder op zoek bent naar een kleiner aantal vormen om met uw productie van start te gaan, raden wij u ons click-and-play kader-systeem aan. Met deze optie kan u 10 gepersonaliseerde polycarbonaat vormen maken, wat de kosten van het project aanzienlijk vermindert. Deze optie beperkt zich tot pralinevormen, caraques, kleine repen en tabletten waarvan de afmeting van de langste zijde niet meer dan 50 mm bedraagt. Bij dit concept beschikt u over 6 caviteiten per kader.

OPTIES

→ ZANDSTRAAL- VERSUS POLIJSTEFFECTEN

Deze verschillende effecten zijn een kwestie van voorkeur. Sommige chocoladeproducten zien er mooi uit met een gladde afwerking, terwijl andere er beter uitzien met een gezandstraalde afwerking. De keuze is volledig aan u. Deze visuele effecten kunnen worden toegepast op elk type vorm.

→ CENTREERSYSTEMEN

Bij Chocolate World bieden wij onze klanten centreerpinnen aan om ervoor te zorgen dat dubbele vormen perfect uitgelijnd zijn.

3 FAÇONS DE PRODUIRE VOS MOULES ENCADRE PROFESSIONNELS EXCLUSIFS EN POLYCARBONATE

1. CONCEPT TOTALEMENT EXCLUSIF

Nous élaborons simplement votre chocolat, votre idée, votre rêve. Toute forme ou taille conique est possible sur demande. C'est la solution parfaite pour les artisans comme pour les industriels qui savent ce qu'ils veulent et comment ils le veulent. C'est aujourd'hui le service de production de moules exclusifs en polycarbonate le plus professionnel qui soit disponible sur le marché.

Les options sont infinies ; nous collaborons avec vous pour créer ce moule parfait que vous avez toujours voulu. Avec une quantité minimum de 50 pièces en commande, c'est le moyen idéal pour promouvoir votre propre design. Pour plus d'informations sur les tailles disponibles, veuillez consulter la p. 8.

2. CONCEPT SEMI-EXCLUSIF

Si vous souhaitez personnaliser un moule existant avec votre logo ou votre marque, c'est la solution parfaite et économique pour la même quantité minimum de 50 pièces en commande. Choisissez parmi la gamme sélectionnée de moules que nous pensons être la mieux adaptée à cette fin et ce sera notre point de départ. Pour plus d'informations sur les tailles disponibles, veuillez consulter la p. 22, 23.

3. CONCEPT D'EXCLUSIVITÉ LIMITÉE

Si, par contre, vous souhaitez un plus petit nombre de moules pour amorcer rapidement votre production, nous vous suggérons notre système de cadre « click-and-play ». Cette option vous permet d'obtenir 10 moules personnalisés en polycarbonate, réduisant ainsi considérablement le coût du projet. Cette solution est limitée aux moules pour pralines, caraques, petites barres et tablettes de maximum 50 mm de côté. Ce concept offre 6 cavités par cadre.

OPTIONS

→ EFFETS SABLÉS OU POLIS

Ces effets variés ne sont qu'une question de préférence. Certains chocolats seront beaux avec une finition polie, d'autres seront mieux adaptés à une finition moins brillante. À vous de choisir celle que vous préférez. Ces effets visuels peuvent être appliqués à n'importe quel type d'outillage.

→ SYSTÈMES DE CENTRAGE

Chez Chocolate World, nous offrons à nos clients l'option de goupilles de centrage afin de garantir que les demi-cavités soient parfaitement alignées.

3 MANERAS DE REALIZAR SUS EXCLUSIVOS MOLDES DE MARCOS PROFESIONALES DE POLICARBONATO

1. CONCEPTO EXCLUSIVO

Nosotros simplemente diseñamos su chocolate, su idea y su sueño. Cualquier figura o tamaño en forma de cono es posible bajo pedido. Esta es la solución perfecta tanto para productores artesanales como industriales, que conocen el diseño que quieren y cómo lo quieren. Este es el servicio exclusivo de moldes de policarbonato más profesional que encontrará en el mercado en la actualidad.

Las opciones son infinitas y trabajamos junto con usted para crear ese molde perfecto que usted siempre ha deseado. Con un pedido mínimo de 50 piezas, esta es la forma ideal de promocionar sus propios diseños. Para obtener más información sobre los tamaños disponibles, consulte la página 8.

2. MODELO SEMIEXCLUSIVO:

Si desea personalizar un molde existente con su logotipo o marca, esta es la solución económica perfecta para la misma cantidad mínima de pedido de 50 piezas. Elija el molde de la gama de productos seleccionados de los que opinamos que son los más apropiados para esta finalidad, y podemos empezar a trabajar a partir de ahí. Para obtener más información sobre los tamaños disponibles, consulte la página 22, 23.

3. MODELO EXCLUSIVO LIMITADO:

Si lo que busca es una pequeña cantidad de moldes para poner en marcha su producción, le recomendamos nuestro sistema clic de marcos para chocolate. Esta opción le permitirá realizar 10 moldes de policarbonato personalizados, lo que reducirá considerablemente los costes del proyecto. Esta opción se limita a los moldes para bombones, el caraque, y a las pequeñas barras y tabletas de chocolate con bordes de no más de 50 mm. Este modelo le ofrece 6 cavidades por marco.

OPTIONS

→ CHORRO DE ARENA O EFECTOS DE PULIDO

Utilizar uno de ambos efectos es solo una cuestión de gustos. Algunos chocolates se verán preciosos con un acabado pulido, mientras que otros tendrán mejor aspecto con un acabado de chorro de arena. Usted elegirá el que prefiera. Estos efectos visuales pueden aplicarse a cualquier tipo de utillaje.

→ SISTEMAS DE CENTRADO

En Chocolate World ofrecemos a nuestros clientes la opción de centrar pernos, para asegurar moldes dobles perfectamente equilibrados.

EXCLUSIVE SPINNING MOULDS

 Hollow figures are mostly seen during the Easter or Christmas periods. For an exact preliminary calculation, and the assurance that every hollow figure has the same weight, a spinning mould is the most suitable solution. For more information on available sizes, please check p. 8. The spinning machines can be purchased through our machinery division.

 Les figures creuses se rencontrent principalement aux périodes de Pâques ou de Noël. Pour un calcul préliminaire exact et l'assurance d'un poids identique pour chaque figure creuse, un moule centrifugeur est la solution la plus appropriée. Pour plus d'informations sur les tailles disponibles, veuillez consulter la p. 8. Les machines centrifuges peuvent s'acquérir auprès de notre division de machines.

 Holle figuren zijn vooral populair met Pasen of tijdens de kerstperiode. Voor een exacte voorberekening en om ervoor te zorgen dat elke holle figuur even zwaar is, is een holgoedvorm de meest geschikte oplossing. Voor meer informatie over de beschikbare afmetingen, zie p. 8. De zwiermolens kunnen worden aangekocht via onze machineafdeling.

 Las figuras huecas suelen verse principalmente en Semana Santa o Navidad. Para realizar un cálculo preliminar exacto y asegurarse de que cada figura hueca tiene el mismo peso, la mejor solución es utilizar un molde giratorio. Para obtener más información sobre los tamaños disponibles, consulte la página 8. Las máquinas giratorias pueden adquirirse a través de nuestra División de Maquinaria.

EXCLUSIVE HM MOULDS

 HM moulds, also known as hollow figure hand moulds, are designed to create chocolate figurines. These kinds of moulds are double, available with or without magnets, and have an open base.

 Les moules HM, également connus sous le nom de moules creux artisanaux, sont conçus pour créer des figurines en chocolat. Ces moules sont doubles, disponibles avec ou sans aimants et leur base est ouverte.

 Holgoedvormen zijn ontworpen voor het vervaardigen van chocola-defiguren. Deze vormen zijn tweedelig, verkrijgbaar met of zonder magneten, en hebben een open onderkant.

 Los moldes HM, también conocidos como moldes manuales de figura hueca, han sido diseñados para crear figuras de chocolate. Este tipo de moldes son dobles, disponibles con o sin imanes, y tienen una base abierta.

EXCLUSIVE MAGNETIC MOULDS

 Printing on chocolate has already proved to be a popular solution to liven up your selection of pralines. Chocolate World has a large selection of standard transfer sheets, but we will gladly assist you in the creation of your own personalised magnetic mould. And of course, we offer you the option to create your own personalised transfer sheets.

 L'impression sur chocolat s'est déjà avérée être une solution prisée pour raviver votre sélection de pralines. Chocolate World dispose d'un grand choix de feuilles de transfert standard, mais nous serons heureux de vous aider pour la création de votre propre moule magnétique personnalisé. Et bien sûr, nous vous offrons la possibilité de créer vos propres feuilles de transfert personnalisées.

 Chocolade bedrukken is een populaire manier geworden om uw pralines op te vrolijken. Chocolate World heeft een uitgebreid scala aan standaardtransferts, maar ook bij het creëren van uw eigen, gepersonaliseerde magnetische vorm helpen wij u graag. Bovendien bieden wij u uiteraard ook de mogelijkheid om uw eigen gepersonaliseerde transferts te maken.

 Las impresiones en chocolate han demostrado ser una solución muy utilizada para darle un toque especial a su surtido de bombones. Chocolate World tiene una gran variedad de hojas de transferencia estándar, pero estaremos encantados de ayudarle a crear su propio molde magnético personalizado. Y, por supuesto, le ofrecemos la opción de crear sus propias hojas de transferencia personalizadas.

ANDREY DUBOVIK

Andrey Dubovik, 35 years of age, born in Minsk, Belarus, started baking at home for fun in 2015. First éclairs and cakes, and while decorating them he learned to work with chocolate, and a whole new world opened for him. It wasn't long before Andrey realised that he wanted to focus on working with this unique and versatile product. He read everything on the subject that he could lay his hands on and taught himself a number of techniques by watching films he found on Internet.

Thanks to his enthusiasm and dedication, he soon began to make his mark in the world of chocolate and in 2016, he bought his first polycarbonate mould. He's hugely passionate about his pralines, has an eye for detail and a natural flair for colour, all of which results in beautifully-produced creations. Although he has only just started on his career as chocolatier, he is already looking forward to the rest of the adventure.

JESSICA PEDEMONT

Jess has been working as a professional chef for more than 20 years.

Besides her family, her passions include patisserie, chocolate and sugar craft.

She travels the world working, studying and teaching with some of the very best in the industry.

She started her career by winning a scholarship in a competition in which she represented Australia, and that winner's mentality took her on to numerous local and international competitions. She has received many distinctions and awards and continues to excel in all her culinary endeavours.

She started Chocolate Artisan in 2008. Its services go far beyond just chocolate and include workshops, masterclasses, demonstrations, consulting, on-line tutorials, bespoke cakes, desserts and decorations. From age old-traditions to cutting-edge trends, Jessica enjoys drawing inspiration from the whole spectrum of culinary history, pushing boundaries to deliver a highly-personal experience for her clients.

Concentrating on ethnically sourced ingredients, Jess has recently learned tree-to-bar chocolate production, working directly with growers. She also writes for various industry magazines, has her own line of accessories and teaches at her Sydney-based cookery school..

PHILIPPE VANCAYSEELE

Philippe Vancayseele has been fascinated by chocolate since childhood and as a result, soon began to explore the origins and the world of flavours this delicacy has to offer. From an early age, he read everything he could find on the history and processing of chocolate.

Having successfully completed his studies in patisserie, he went on to specialise in chocolate and confectionery at the Culinary Institute (COOVI-PIVIT) in Brussels and took this experience with him when he went to work for several of Belgium's greatest chocolatiers.

His passion and enthusiastic way of working made him a popular teacher in the profession and since 1994, he has been global technical advisor for renowned chocolate producer Callebaut. This has given Philippe a platform on which to demonstrate his knowledge and creativity at the highest level.

In the meantime, Philippe travels around the world, visiting trade shows, competitions and special events, sharing his knowledge of, and passion for chocolate with everyone!

ARTHUR TUYTEL

Arthur is a pastry chef with an extensive training. He has taken classes in chocolatier skills and trained in business management. He understands the importance of exclusive creations, and how to make them in a rational and intelligent manner. He used to work as a sous-chef at the renowned 'Huize van Wely' (member of the Académie Culinair de France and Relais Desserts Internationale) and still works freelance for Crème de la Crème. Arthur started his own company on 1 January 2008, specialising in workshops, demonstrations and master classes, but also still filling special orders of pastries and chocolate. Product development is one of the main activities of his company. Arthur secured his place in the Dutch Pastry Team by winning the Dutch Pastry Award in 2001. He has won several other prizes, including the Grand Prix Mandarine Napoleon Nationale in 2001 and in 2003, he was awarded the title of 'Ambassador of Belgian Chocolate' in the Netherlands. In 2005, Arthur and his two team members Jeroen Gooses and Ivo Wolters, succeeded in taking the silver medal in the prestigious 'Coupe du Monde de la Patisserie' competition. Arthur's motivation is mainly driven by his desire for originality and creativity. He likes to explore new aspects of his profession all over the world, improving his own skills as chocolatier and at the same time, acquiring inspiration and learning new techniques. His ambition is to see Dutch pastries take their rightful place in the world.

DAVIDE COMASCHI

Davide was born in Vignate (MI) on 12 February 1980, and by the age of thirteen, he was already passionate about the art of confectionery. He took a course at the Capac where his teacher Musnelli advised him to do an internship in the laboratories of the historic Martesana Patisserie. There, Davide first met Vincenzo Santoro, not only as a teacher in the profession, but also as a mentor in life. This was the beginning of a relationship that intensified over the years. Davide continued to develop his skills by following classes at Casta Alimentari. His unique style reflects his never-ending quest for the balance between tradition and innovation, both in technique and in design. His talent has brought him to the top of the field of confectionery production, the profession he grew up in. He published his first book *A year to win*, the story of the twelve intense months that led up to his victory at the World Chocolate Masters. It is the story of a journey which began in October 2012 with the regional selections and reached its peak on 30 October 2013 with being crowned world champion. And the journey has only just begun.

Procedure

Temper the dark chocolate and cast the mold. Let the mold set at cool room temperature. Combine in a small stock pot the mango puree, passion fruit puree, sugar and lime juice. Bring to a boil to melt the sugar, set aside. Combine the heavy cream, invert sugar and lime zest in a small stock pot and bring to a boil. Add the hot cream to the mango mixture. Strain the mango/cream mixture into the white chocolate, let sit for 1 minute. Use a rubber spatula to mix the ganache from the centre until well combined. Cool. When the ganache has reached 33 degrees, add the butter and incorporate using a stick blender. Chill till piping consistency. Put in a piping bag with a small plain round tip. Fill the chocolate cavity to $\frac{3}{4}$ and let the chocolate ganache set. Cover and seal the chocolate praline with the tempered dark chocolate.

MOKSHA MANGHARAM

Moksha Mangharam is a young Chocolate Architect. She is focused, determined and passionate about food. Born in the Silicon Valley of India, Bangalore. At the beginning of her career, only 17 years old, she belongs to the fourth generation in the family business of cookies and confectionery. So, her interest in the field comes as no surprise. In the future, she plans to open her own Chocolaterie where she will create new treats for the world to sample. To hone her skills and realize this goal, she will be pursuing an education in business as well as taking up multifarious chocolate and pastry courses. When she's not busy cooking, she can be found reading, singing, writing, cycling or dancing.

The mould designed by Moksha is in the shape of a traditional Indian oil lamp, called a Diya. Diyas are generally made from clay, but brass, copper, silver and gold are also used. They symbolise light in darkness and the triumph of good over evil. Millions of these lamps are lit during India's most popular festival, Diwali, the Festival of Lights.

KEVIN KUGEL

When he was seventeen, Kevin Kugel started his career with a chef apprenticeship. Soon he discovered his interest and passion for pastry, expand knowledge and professional skills in pastry and made experiences as Chef Pâtissier.

More and more Kevin Kugel has been passionate by chocolates. After this extensive education he reached the title „German Chocolate Master“ in 2013 and took part in the challenges of the World Chocolate Masters in Paris with the seventh place. This was the time to realize his dream to open an own Shop with an open production – only for chocolate - in 2014 near Stuttgart in Germany.

As well Kevin Kugel performs workshops for professionals to share his knowledge and his passion as lecturer for Chocolate Showpiece and praline courses in Germany. Since last year he presents as well his own chocolate lines. He traveled to the countries of origin to select cocoa beans and to make chocolate by himself. The inspiration of the mould got Kevin Kugel from his name, which means globe. The globe mould determines a large part of his work to build new creations. As well Kevin Kugel loves the idea to combine different types of compositions in one bar. To experience several flavours each part.

WORLD CHOCOLATE MASTERS

This mould collection is the outcome of a unique cooperation between The World Chocolate Masters and Chocolate World.

One of the assignments during the final of the competition is making a moulded praline. Chocolate World is honoured to sponsor this category by converting each finalists design into a polycarbonate mould.

These designs are inspired by the contestants country of origin and the theme of the different editions: 2013 Architecture of Taste and 2015 Inspiration of Nature.

Take a look at these original designs and let them inspire you to bring your chocolate to a higher level.

MAGNETIC MOULDS

The option of having a picture of your partner, your kids, your pet or anything you fancy printed on chocolate opens up a whole new world for many chocolate makers. Chocolate World also owns one of the most user-friendly software programmes in the world with "Chocolate Artist". Magnetic moulds and transfer sheets come in all sizes and can also, of course, be customised. We make sure to measure the cavities, so we come up with the most suitable solution to maximise the production, and that way boost efficiency.

INSTRUCTIONS FOR MAGNETIC MOULDS:

1. Insert the pre-cut transfer sheet on the bottom stainless steel plate with the printed cacao butter side up
2. Close the mould: the magnets will keep both sides firmly fixed together
3. Start filling your moulds as you would fill regular chocolate moulds (solid or shell moulding)
4. After cooling and demoulding, the design remains on top of the praline

CLEANING POLYCARBONATE MOULDS

It is important to clean the moulds before using them for the first time (dust, oil...)

INSTRUCTIONS

Keep the following instructions in mind when cleaning the moulds:

- Is the detergent compatible with polycarbonate, and in what amounts?
- Is the rinse aid compatible with polycarbonate, and in what amounts?
- Quality of the water used (demineralised)
- Maximum temperature while cleaning: 60°C (140°F)
- Maximum temperature while drying: 70-80°C (158-176°F)
⇒ For magnetic moulds: 65°C (149°F)
- Clean your dishwasher regularly
- Remove remnants of chocolate before cleaning the moulds (to avoid overload of the dishwasher)
- Have the machine regularly inspected by the manufacturer.

By carefully cleaning the moulds, you will extend their life-span, resulting in better end products.

No special cleaning techniques are necessary, polycarbonate moulds have smooth and strong surfaces which are made to endure normal cleaning procedures. Deviating from the precautions mentioned above could lead to cracks in the mould, affecting its durability. Other less visible consequences, such as swelling or deteriorated surfaces, might also incur.

→ 1. CLEANING

We advise you to safeguard the maintenance of your washing system, and to contact the supplier in the event of any irregularities. Cleanliness is key in the whole process. Any loose parts might, under high pressure, cause damage to the polycarbonate moulds during the cleaning. When using a household dishwasher, make sure not to use too much detergent. Chocolate only results in greasy stains, never persistent ones.

Avoid corrosive products, which react when in contact with water. You will achieve the best results using warm water and a slightly acid or alkaline-based detergent.

The temperature should remain around 60°C (130°F) at all times during the cleaning process. We recommend keeping an eye on the temperature, fluctuations may cause hydrolytic deterioration, and affect the durability.

→ 2. RINSING

After finishing the cleaning procedure, rinse the moulds to remove any possible remains of detergent. Failing to rinse the moulds may cause chemical reactions while moulding. Please use demineralised water when rinsing, at a temperature of about 60°C (140°F).

Soft water usually has a hardness of 12fH-35fH. Water with higher hardness might leave traces in the polycarbonate after cleaning. This will damage the mould itself and may be visible in the end product. Do not use a machine to remove these traces, as this will cause scratches.

→ 3. DRYING

Use a hot-air blower to dry the moulds at around 70-80°C (158-176°F). Make sure to dry the reverse side of the moulds as well, as humidity might transfer to other moulds and cause unpleasant effects in the end product.

→ 4. MOULDING

We advise you to do a preliminary moulding after the cleaning process, to prepare the moulds again for production. This should restore some of the shine to your product. The full veneer of your product will come back over time with every single moulding.

Usage of the moulds

- Temperature: Minimum 5°C (41°F) – Maximum 80°C (176°F)
- Content of the mould: do not pour filling straight into the mould (e.g. sugar or alcohol-based fillings)
- Minimise torsion of the moulds
- Demould with material softer than polycarbonate
- Avoid 1 hard strike, use several softer strikes
- Avoid using sharp items in the mould
- Avoid high pressure on the upper scrapers
- Avoid stationary moulds in preheating

Storage of the moulds

- Clean the moulds before storing them
- Make sure the moulds are dry
- The moulds need to be rested
- The moulds cannot be stored under pressure
- Avoid direct sunlight on the moulds

Recycling the moulds

Do not throw away unwanted moulds: this is ecologically unsustainable. Chocolate World moulds that have been properly washed will be taken back at no charge, for recycling (excl. transportation costs). Magnetic moulds are not returnable.

REMARKS:

- The moulds need to be checked on a regular basis
- Damaged moulds need to be removed from the production line
- Avoid torsion of the magnetic moulds
- Coloured moulds are not as strong
