

Leander[®]

ALL THE CARE IN THE WORLD

simple as a child's play -
a light expression

LEANDER LUNA™

Simple as a child's play - that's the idea behind the new Leander Luna™ line, uniting our Nordic design heritage with our love for the playful nature of children. The floating nature of the furniture design, combined with solid quality and unique and smart details, will make everyday life feel even more fun.

flexible design that can be adjusted
to the changing needs of your child

LEANDER LINEA™

Leander Linea™ is a contemporary, innovative and sophisticated furniture line with an edgy look. It is tailored to fit an urban lifestyle with limited space but high demands on design. We honor the beauty of solid craftsmanship in many unique features that make parenting a little easier.

unique design in good
craftmanship with a
strong aesthetic expression

A baby hammock with a white fabric basket and a sheer white canopy is suspended from a white A-frame wooden stand. The hammock is positioned in a nursery room with a grey upper wall and a lower wall featuring dark blue floral wallpaper. To the right, a white dresser is partially visible, topped with a gold-colored circular mirror and a small woven basket. A light-colored shaggy rug lies on the wooden floor in front of the hammock.

the calm movement
stimulates the child's
development and motor
coordination

LEANDER CLASSIC™

The Leander Classic™ line is known for its Organic and classic shapes. The rounded corners and elegant curves create an almost sculptural expression, that embraces and stimulates the child in sheer comfort.

the Leander Classic™
bed can grow with
your child

LEANDER MATTY™

Leander Matty™ is a revolutionary and innovative changing mat. It provides total safety and ease when changing your child. It is made from the softest PUR foam - a material that is extremely close to the feeling of bare skin. The surface is waterproof, treated with an alcohol resilient varnish, and free of endocrine disruptors.

The Leander Matty™ is warm
and soft as the baby's skin

Wally™ - Space-saving
design - easy to clean
and easy to use

LEANDER WALLY™

The Leander Wally™ wall mounted changing table is inspired by a droplet. Light and levitating. While holding the baby in your arms, you unfold Leander Wally™ and place your child on the mat. The changing mat is made from soft PUR foam which imitates the natural feeling of skin. After use, you just push the mat with one arm and it doesn't take more space than a slim sculpture on the wall.

WE WISH TO EASE THE LIFE OF PARENTS

At birth, a long and wild journey begins.

My vision is to design furniture for children which makes the journey easier and more fun. I am always curious for new materials, forms and functions, and I love to challenge and explore the possibilities and properties of materials and techniques. I'm always thinking in opportunities rather than limitations.

My design approach is anchored in our rich Nordic design heritage with its clear, simple expression and focus on natural materials.
