Devcon 5-Minute Epoxy

High-strength, two part epoxy that sets in five minutes! Full bond strength in one hour. Works on metal, wood, glass, stones, crystal and ceramic. Clear non-shrink formula.
1 oz. syringe
T-638 ... \$4.51

New-Glue

Super New Glue® has a different formula than other "super glues" giving it superior holding quality, even under the toughest conditions. Super strength, sets and cures rapidly. Bonds rubber, glass, metal and plastic.
3 gram bottle
T-606 ... \$1.49

Epoxy 330

This standard among most jewelers is ideal for bonding stones to metal findings. Will harden at room temperature in one hour and dries water clear. Two half oz. tubes
T-580...\$5.67

Attack Dissolvent

Quickly dissolves dried epoxies from metal, stone, glass, wood and similar materials.
8 fl oz.
T-681 ... \$14.49

Beading

VIGOR® JEWELERS EPOXY

Strong cyanoacrylate adhesive bonds any combination of metal, plastic, rubber, ceramic or glass. Sets and cures rapidly at room temperature. High resistance to chemicals and low temperatures. Requires no surface treatment beyond cleaning. Bond is colorless and transparent with almost no shrinkage. Low viscosity ensures smooth spreading over entire bonding area using a minimum amount of glue. For making and repairing jewelry. Will not shrink and is unaffected by water, oil or gasoline. Clear, permanent bond sets in 5 minutes. Withstands temperatures up to 175°
Two 1/2 oz tubes
T-GR120451 ... \$6.25

SUC Rocket Crystal Cement

Provides a strong, durable bond between plastic or glass watch crystals and the bezel. Will not flake or crack plastic. The needle point tube does not permit the cement to solidify in the nozzle. Ideal for beading.
1/3 Fluid Oz Tube
T-591 ... \$10.09

VIGOR® SUPER GLUES

- Adhesive bonds any combination of metal, plastic, rubber, ceramic or glass
 - Sets and cures rapidly at room temperature
 - High resistance to chemicals and low temperatures
 - Requires no surface treatment beyond cleaning
 - Bond is colorless and transparent with almost no shrinkage
 - Low viscosity ensures smooth spreading over entire bonding area using a minimum amount of glue
 - No-drip, precision applicator allows for glue to be dispensed one drop at a time.
 - 2 Gram Tube
- T-GR12215** Sets in 45-60 seconds **\$2.93**
T-GR12219 Sets in 10-20 seconds **\$2.93**

Hypo-Tube Cement

Precision applicator allows maximum control with this jewelers' cement. Traditionally used for plastic or glass watch crystals but also excellent for bead stringing. Just a small amount on knots will ensure they never come loose. Non-brittle, dries clear.
1/3 oz
T-777 ... \$4.29

Swivel Head Pin Vise

Has large free wheeling head, which makes it suitable for drilling, tapping, for use as a screwdriver and much more. Comes with two double ended collets which can be stored in the handle.

This tool is made to cut with a minimum of discomfort and effort. The blade is hardened alloy and completely enclosed on the cutting side. 4 1/2" Length Made in France

Pliers T-697 ... \$46.04

Extra Blade T-698 ... \$15.79

7" Straight Shear

1 1/2" Blade Length

Cuts up to 20GA Sheet Stock

Made in Germany

T-728 ... \$14.14

Swivel Head Pin Vise

Has a large free wheeling head, which makes it suitable for drilling, tapping or using as a screwdriver. Comes with two double ended collets which can be stored in the handle.

3 1/2" Length

T-979 ... \$3.58

7" Straight Scissor Shear

1 1/2" Blade

Made in Germany

T-729 ... \$14.25

Cut Lube

Hi-tech lubrication for most cutting applications. Use with burs when sawing, drilling or drawing wire to insure cooler, cleaner cuts. Cut Lube adheres to the tool surface and is less affected by heat than oil. It makes cutting easier and more precise and adds life to all of your cutting tools.

2 ounce push up plastic sleeve.

Made in the USA.

T-692 ... \$6.25

Micro Beading Shear

Perfect for cutting bead cord or thread snipping. Well-tempered with very sharp edges. Reflex action makes light work fast and easy.

Length: 3-1/2"

T-691 ... \$1.85

Beeswax

7/16" x 4"

Used as a lubricant for saw blades, drawing wire or for making designs when rubbed on a surface.

T-557 ... \$4.48

Bent Steel Quality Stamps

These hand cut steel stamps are used to make sunken impressions on metal surfaces.

This bent style is great for marking the inside of rings.

.75mm high lettering.

Made in Germany.

Busch Burs

Known for durability and dependability, Busch burs have been the first choice of jewelers around the world since the early part of the 20th century. Busch burs are better than any other burs because they are manufactured within extremely close tolerances, always concentric and true to size. All burs are 44.5mm (1 3/4") long with 2.35mm (3/32") shanks.

4x ZeroShrink Silicone Mold Rubber

Get metal mold results from silicone rubber. It is the only heat curable mold rubber of any kind that does not shrink. Provides sufficient weight and firmness to resist internal deflection better than any other mold rubber made today. Cured at 250°F, a 3/4" mold is ready in 15 minutes. Cured at 160°F, mold is ready in 1.5 hours. It is soft and pliable enough to make molds for all styles of jewelry whether simple, complex or very delicate. Capable of making molds from original carved waxes, as well as metal and RP resin models. Provides exceptional detail and very high resistance to internal deflection at higher injection pressures. **T-CAS006 ... 5 lb box ... \$67.47**

ZERO SHRINK Properties:

Hardness Shore A Scale	45
Tear Strength ASTM die B (ppli)	140

4x Gold Silicone Mold Rubber

This product is well suited to all applications and mold styles. It produces an extremely high finish on waxes. It is the premium grade of the 4x group, exhibiting the best wax release and highest tear strength and elongation properties. It is the least dense of the group, so the mold yield per pound is approximately 20%-25% more than most competitive products, which tend to be in specific gravity range of 1.2-1.5gm/cm³.

T-CAS008 ... 5 lb box ... \$93.43

4x Gold Properties:

T-883 ... \$123.00

Fabulustre® Ultrasonic Cleaners

Ultrasonic cleaning occurs when ultra-high frequency sound waves are passed through a cleaning solution creating cavitation, microscopic bubbles collapsing into themselves. This creates a high energy, vacuum effect which safely pulls debris, foreign particles and other contaminants from the surfaces being cleaned. With ultrasonic cleaning, both the exterior and the interior surfaces, including crevices, are thoroughly cleaned. All Fabulustre® ultrasonics feature stainless steel tanks, heaters and timers which allow you to pre-set the temperature and time for maximum cleaning results. Cleaning frequency on all units is 40khz.

Manufacturers Warranty: 10 years on transducers and 2 years on tank, body and electronics. Available upon request.

Binocular Magnifier Visor-Includes 4 Glass Lenses

Binocular headband magnifier provides hands-free magnification and viewing for a variety of applications such as jewelry-making, watch-making, needlework, artwork, electronic inspection, book-reading, print inspection and stamp-collecting. Includes 4 lenses in multiple dioptic strengths that provide a specific magnification power (X), depending on the distance from the object. Optical glass lenses are ground and polished into prismatic lenses for quality and clarity; easier to clean than acrylic lenses. A dioptic number and a magnification number are not the same thing. Diopter strength represents a specific magnification power (X). For example, a 5-diopter provides 2.25X magnification (at a distance of 8"). Can be worn over prescription or safety eyeglasses. Includes #2(1.5x), 3(1.75x), 5(2.25x), 7(2.75x) diopter lenses.

T-1314 ... \$29.56

Optivisor Light Attachment

The L.E.D.s in the Quasar LS™ have been specifically chosen to give you the best possible L.E.D. lighting solution available. Through extensive research, these LED's are chosen based on intensity, radiant pattern, color temperature & battery life. With the sheer intensity of the LED's it is difficult to express in words or photographs how bright the Quasar LS™ actually is and how well it works.

Light Only (Optivisor NOT Included)

Grobet® Liver of Sulphur Gel

- Liver of Sulphur XL Gel is formulated for extended shelf life, versatility & convenience
- XL Gel is used to patina metals such as silver, copper, bronze.
- XL Gel is non-flammable
- Newly designed squeeze bottle for easy dispensing
- XL Gel's shelf life is many times that of dry liver of sulphur
- Shake XL Gel before use for consistent results
- May be microwaved for no longer than 15 seconds. (WARNING CONTENTS WILL BE HOT!)

T-1283 2 oz. \$12.55

T-1284 4 oz. \$19.19

Griffith Liver of Sulphur

Liver of sulfur is traditionally one of the best oxidizers for silver and other metals. It produces a durable black finish. Simply dissolve in hot water. 4 oz jar comes in lump form.

#1 Conner Setting Plier

This plier will replace the common beading tool on a great many jobs, making them considerably easier. No longer will you need to hold items in the ring clamp and on the bench pin or fill a fragile item with shellac. Can be used to hold stones (culet to table) while being heat set into wax models. This tool will give you the support from the underside you need to do common, everyday tightening and setting in stone, plus many other applications. 4 1/2" length (115mm)

T-1128 ... \$12.04

#2 Conner Setting Plier

This plier is especially helpful to set or tighten side stones in a basket setting as well as on other type mountings. One side of the plier has a slot for the wire under the stone and the other side has a beading tool cup on it. Also great for setting earrings - with or without underbezel wires. Simply slip the post through the slotted side and bring the beading tool down on the prong; it makes this type of work much quicker and easier. Perfect for setting and tightening accent diamonds surrounding color center stones.

4 1/2" length (115mm)

T-1129 ... \$12.04

Pliers-Stone Setting

For setting or tightening the prongs on stone set rings. Jaws have been shaped so that they fit over the prongs on a setting. Overall length is 5".

T-GR46346 ... \$16.03

Euro Jump Ring Pliers

Why use bulky awkward pliers for placing and closing jump rings when you can use these pliers. Because the jaws come to a point and are nicely grooved, you can close jump rings without scratching the ring itself. They also allow the user to get into tight places and hold the jump ring for soldering.

4 1/2" (115mm)

T-1097 ... \$9.71

German Premium Series Bending Pliers

Precision quality, box-joint pliers for all bending applications. Comfortable grips with precise alignment in four shape configurations. 5 1/2" (140mm)

PLIERS - CUTTERS

PRICES SUBJECT TO CHANGE WITHOUT NOTICE • VISIT SEFINDDINGS.COM FOR UP TO DATE PRICING

Prong-Opening Pliers

German-made pliers feature a thinner claw to get in behind prongs. The angle and length of the bottom jaw provides precise leverage to minimize damage to stones. The lower jaw is grooved so it doesn't slip sideways on the prong. The claw is made to be filed to a fresh point as it wears.

Box-joint with PVC grips. 5 1/4" (135mm)

T-1130 ... \$41.34

Ring Cutting Pliers

This tool is made to cut with a minimum of discomfort and effort. The blade is hardened alloy and completely enclosed on the cutting side. Made in France

Polishing Gizmo 7 3/8"

Cradles jewelry while rotating against buff wheel. Great for use on rings, bracelets, chains & watches.

T-547 ... \$9.30

Finger Pro Tape

This tape provides ultimate protection from cuts, burns and abrasions. It sticks only to itself, not your skin and is easily removed.

Measures 3/4" wide and 90 feet per roll.

Single Roll T-630 ... \$3.16

Pack of 16 T-629 ... \$27.96

Dialux Polishing Compounds

Premium polishing compounds. Made from select abrasive grades, uniformly blended and manufactured under the strictest quality control. Adheres exceptionally well to buffs, brushes and felts. Very little is needed, which helps reduce cleanup and saves time. Each bar measures 3-5/8"Lx1-1/8"Wx1"H and weighs approximately 4 ounces. Comes in color-coded box.

Rouge/Red

The brightest shine for yellow gold. Also produces a brilliant shine on silver.

T-GR47390 ... \$6.91

Blanc/White

Bright polishing of silver.

T-GR47392 ... \$6.91

Vert/Green

Recommended for bright polishing of hard alloys such as platinum, white gold, chrome cobalt and stainless steel.

T-GR47391 ... \$6.91

Gris/Gray

Fine polishing of stainless steel.

T-GR47395 ... \$6.91

Green Rouge

4 oz. bar

Produces very high luster on precious white metal such as silver, white gold, and platinum.

T-538 ... \$4.60

Brown Tripoli

20 oz. bar

For fast cutting on all non-ferrous metals and plastics.

T-575 ... \$3.22

White Rouge

4 oz. bar

Superior dry compound for cut and color on gold, silver, copper, and plastics.

T-570 ... \$3.89

Bobbing Compound

20 oz. bar

Used primarily for fast, heavy cutting and pre polishing.

T-604 ... \$3.52

Yellow Compound

16 oz. bar

Gives brilliant finish on gold, stainless steel, platinum, and other hard metals.

T-571 ... \$4.53

Gray Steel Compound

20 oz. bar

Produces a good cut with no wild scratching and a good color on all metals.

T-537 ... \$4.35

Platinum Polish

4 oz. bar

A relatively dry compound that gives platinum a much brighter shine than existing compounds.

T-568 ... \$5.86

Picasso Blue Platinum Polish

4 oz. bar

Excellent for light cutting and high polish of platinum

T-881 ... \$26.57

Black Rouge

2.4 oz. bar

Traditional dark rouge. Used for a final finish on antiqued silver items.

T-1345 ... \$4.36

Blue Platinum Polish

6 oz. bar

Removes light scratches and prepares for final polishing of platinum.

T-1081 ... \$16.28

ZAM Polishing Compound

Formulated especially for silver and turquoise jewelry. Leaves a high luster without residue. Fast clean-up, does not cling to or penetrate surface of stones. Versatile, many goldsmiths prefer ZAM to rouge as a final finish.

T-GR47502 4 oz. \$5.13
T-GR47503 16 oz. \$9.77

“Simichrome“

1.76 oz. tube

Perfect for virtually any metal. Buff to a high polish with a soft clean cloth. Leaves a protective film.

T-603 ... \$11.65

Fabulustre Polishing Compound

Provides a high-luster finish on all types of precious and decorative metals. Special formulation removes light scratches and produces a fast, mirror-bright, final finish without discoloration. Greaseless, dry but not dusty, which means fast and easy cleanup with little or no residue.

T-GR47312 4 oz. \$5.25
T-GR47313 16 oz. \$10.99

Gentec® Small Torches

Gentec has been selling torches and supplies for over 60 years. The "Small Torch" regulators & supplies are high quality, manufactured to world standards and offer great value. Braze and solder material from the tiniest up to 1/8" thick steel. Easy manipulation in tight spaces. Provides stable and precise concentrated feather flame up to 6000° F. Durable and flexible hoses ("B" connections) with "A" fittings adapter included. All components carry a limited 2 year factory warranty.

Torch Holder & Tip Organizer

This very affordable torch holder holds your torch at the perfect angle, making it handy and safe to use. Also keeps tips conveniently organized. Made with a sturdy cast base and heavy duty (4mm) rod, making it virtually indestructible. - Torch NOT Included

T-1114 ... \$8.82

Gentec Small Prop Torch Kit

Contains: the small torch handle
five tips #3,4,5,6 & 7
12' oxygen & fuel hoses with "B" fittings
(9/16") and "A" fittings (3/8") adapter.

T-995 ... \$156.77

Third Hand W/Cross Lock Tweezers

Aids in freeing both hands
for solder work. 6 1/4"

T-535 ... \$8.89

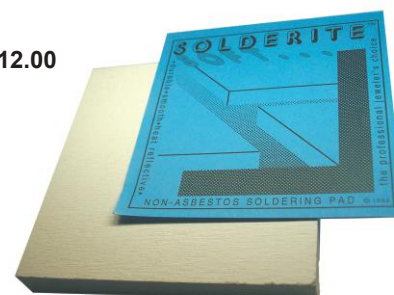

Solderite Soldering Board

These soldering boards are asbestos free and meets OSHA standards as an asbestos substitute. Solderite is formed from calcium silicate with inert fillers and reinforcing agents for strength.

Tested in jewelry stores for over 15 years.

Soft

T-713 6" x 6" x 3/4" \$12.00

Nonsticking Soldering Pick w/Titanium Tip

6 3/8"

T-536 ... \$4.26

Tungsten Soldering Pick

This pick will withstand high temperatures. A good aid for fine metal soldering. Ideal for use on platinum, but can also be used on gold and silver.

T-792 ... \$6.07

Economy Head & Shank Tweezers

5 1/2"

T-590 ... \$4.18

Wooden Ring Clamp

Thick leather jaw holds rings securely without marring the ring. 6" with 15m opening.

T-581 ... \$5.99

Flux Bottle with Stainless Steel Spout

This handy two ounce capacity bottle can be used for depositing flux or any other liquid exactly where you want it with just an easy squeeze.

T-701 ... \$4.37

Squeeze Bottle Dispenser

For dispensing flux, adhesives or epoxy. 2 oz plastic bottle comes with adapter cap and 4 needle tips: (18,20,22 & 26 Gauge)

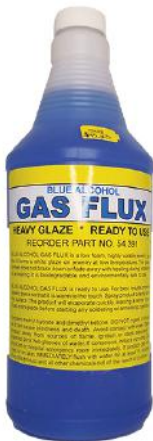

T-983 ... \$1.83

Stay Brite Solder Kit

High strength silver-bearing solder melts and flows at 430°F (221°C). Provides strength without distortion caused by high temperature brazing. Kit contains 1/2 oz. of solder and 1/2 oz. of flux.

T-EWSSBSK ... \$17.70

Blue Alcohol Gas Flux

Low foam, highly volatile jewelry gas flux. It forms a white glaze on jewelry at low temperatures. The glaze formed does not breakdown or fade away with heating during soldering or annealing. Biodegradable and environmentally safe to use.

T-54391 ... \$17.65

Self Pickling Flux

For hard soldering. Contains boric acid and chloride. Temp. range 1100°-1700°F.

16 oz. T-531 ... \$10.66

8 oz. T-532 ... \$6.48

3 oz. T-533 ... \$5.08

Griffith Soft Solder Flux, 8 oz

For use with lead-tin and lead-tin bismuth solders which melt under 450°F (232°C).

T-GR54424 ... \$13.98

Handy Flux

This is a very durable and powerful general purpose flux that protects your parts up to 1600°F (870°C). It is an active fluoride-type flux which is appropriate for all non-ferrous metals and begins to melt and dissolve oxides at 600°F (320°C). Paste formula can be cleaned up with hot water.

T-790 ... 7 oz. jar with brush ... \$9.58

Griffith Boric Acid Powder

Used as an anti-oxidizer when soldering or in making flux.

16 oz.

T-1329 ... \$10.09

Magic Boric Acid Powder

This is a high grade super fine powder. Mix with denatured alcohol for an excellent deoxidizing agent and dip. 16 oz. jar.

T-843 ... \$12.87

Sparex® Pickling Compound

Non-flammable, granular dry acid compound, for use in Picklers. Cleans and removes surface oxidation and fire scale discoloration on gold, silver and non-ferrous alloys. Works efficiently at a constant temperature of 140°F/60°C.

T-819 2.5 lbs. \$12.22

T-820 10 oz. \$5.74

16oz. Heat Shield

Protect stones while soldering. Water soluble, odorless and non-toxic.

T-572 ... \$23.64

Black Magic Pickle

This is a non-acid pickle, which means no toxic fumes. You can use steel tweezers without contamination and it will not hurt spring rings. 16 oz. bottle with powder makes 1 gallon when water is added.

T-627 ... \$11.50

Copper Pickling Tongs

Used for pickling and acid solutions. Will not contaminate solutions or corrode. 8 1/2"

T-894 ... \$5.38

Compressed Charcoal Block

Chemically prepared for soldering. Under flame, the charcoal glows and reflects heat back to your work, making the flame more effective. Easily punctured to hold work.

3"x2.5"x1"

T-978 ... \$7.52

21 oz Pickle Pot

An economical pickle pot with a capacity of 21 fluid ounces. A unique feature of this pickler is the removable stoneware bowl with its plastic cover. Automatically maintains the correct temperature for pickling, and will not boil. 110 volts.

21 oz. capacity

Inside pot dimensions: 4"H x 4 1/8" dia.

T-953-2 ... \$18.40

Ring-Holding Soldering Tweezer

Saves time and makes soldering ring shanks together easy, fast and simple. Rings are accurately positioned for clean, quick jobs. A valuable aid for jewelers.

4 1/2" length.

T-1135 ... \$3.38

Test Acids

Our test acids are available in 10K, 14K, 18K and 22K as well as silver and platinum. Sturdy plastic bottles maximize safety and allow the user to squeeze out one drop at a time.

Each bottle comes with 12 grams of liquid. Ships UPS Ground.
