Strong Support

"Zamst's A2-DX has helped my game since the day I stepped on court." -Trae Young

Zamst A2-DX			
The ankle brace is made with i-Fit and a-Fit technology for an anatomically (right & left) correct fit. The Exo-Grid (Xternal) is a dual exterior molded support structure with Grip Tech (anti-migration), that prevents the ankle from rolling inwar(Inversion) and outward (Eversion). The Exo-Grid (Xternal), along with the anchor strap, assists in preventing high ankle sprains by reducing the separation of the two lower leg bones where the ankle meets. The X- Strap Stabilizers with Grip Tech located underneath prevents the foot from shifting forward. Stephen Curry, Pro Basketball, All Star Point Guard, wears the A2-DX in practice and games.

ANTIMICROBIAL PROTECTION

Based on silver ion technology and completely safe for use in the mouth, Bioraster's antimicrobial additive is proven to inhibit the growth of bacteria by up to 99.99%.

The antimicrobial upgrade embeds Bioraster in the gum shield, as well as in the antimicrobial case.

You can add on the antimicrobial upgrade during the ordering process for £7.50.

Click [here](#) to find out more about antimicrobial protection.

Gold			
OPRO Platinum Junior			
Opro Gold series is an elite level mouthguard in the OPRO Self-Fit range. It harnesses an inter-jaw absorption layer thanks to its two layer construction. This provides additional shock absorption between the upper and lower jaw. The OPRO Platinum comes with an anti-microbial case, which means you can store your mouthguard safe in the knowledge that it's protected against up to 99.99% of bacteria growth.

Bronze

OPRO Bronze Junior

Opro Bronze series is a standard level mouthguard in the OPRO Self-Fit range. It harnesses an inter-jaw absorption thanks to its single layer construction. Your Bronze Mouthguard has 11 anatomical fins made from gel that have been placed in positions to mould to your teeth snugly. When the mouth guard is dropped into hot water the fins soften so that when you compress them against your teeth and gums it creates a mouth guard unique to you.

HEADGEAR

SIZE GUIDE

SIZE	JUNIOR	YOUTH	SMALL	MEDIUM	LARGE	XLARGE
HEAD CIRCUMFERENCE	52cm	54cm	55cm	57cm	58cm	60cm

To be used as a guide only. We recommend trying the headgear on to ensure a good fit.

FITTING INSTRUCTION

Lace up headgear and then put on head. Adjust strap to ensure a snug fit to your head.
Have a second person draw the laces firmly together and then tie to secure. Trim off any excess lace if necessary.
Your headgear performs best when the gap between the laces is at a minimum.
Tie off laces tightly without impacting on player comfort.

SNORKELS

www.statewidesports.com.au

Swimmers Snorkel			
FINIS created and patented the first ever center-mount snorkel designed specifically for swimmers. The Original Swimmer's Snorkel allows swimmers to focus on stroke technique without the interruption of turning your head to breathe. By eliminating the need to breathe, swimmers can relax in the water, maintain body alignment and improve stroke efficiency. The one-way purge valve allows water to flow out of the snorkel without entering the mouthpiece.

SWIMMING - FINIS

Swimmer's Snorkel Cardio Cap

Designed specifically for the Adult and Jr Swimmer's Snorkel, the Snorkel Cardio Cap can be used for hypoxic training, which increases the ability of muscles to work better when oxygen levels are low. The Snorkel Cardio Cap replicates higher altitude workouts. The Snorkel Cardio Cap improves breathing by teaching a deeper technique for high anxiety and race day environment. Using the Snorkel Cardio Cap is also a great way to strengthen intercostal muscles through forced inhalation and exhalation.

PADDLES

www.statewidesports.com.au

SWIMMING - FINIS

Agility Paddle Floating

The Agility Paddles are designed to provide swimmers with instant stroke feedback – even after just 1 lap! And the now FLOAT. The strapless design fits the natural contour of the hand and teaches you to apply positive pressure throughout your stroke. If you do not maintain a proper stroke, the paddle will let you know by shifting or falling off. This simple paddle will keep you conscious of your technique, build strength and heighten your feel for the water.

ISO Hand Paddles

Iso paddles are strapless paddles designed to isolate specific muscle groups, develop proper hand position and heighten stroke awareness. Iso paddles are uniquely designed to create an imbalance in the catch phase of a stroke, which forces swimmers to apply more pressure on either side of the paddle in order to maintain a proper stroke. The variance encourages swimmers to pay increased attention to hand position in the water, keeping it level and consistent throughout the catch and pull of each stroke.

Freestyler Hand Paddles

Specifically designed for freestyle training, the Freestyler Hand Paddles plane the hand forward through the water, improving reach and distance-per-stroke. With a long fin shape and unique skeg design, the Freestyler Hand Paddles promote a strong pull through, better hip-rotation and increased efficiency. An adjustable finger strap offers a perfect fit and the narrow surface area helps prevent shoulder strain.

Forearm Fulcrum

The Forearm Fulcrums develop an early vertical forearm (EVF) position and increase stroke efficiency. An EVF position utilizes the entire forearm during the pull, from fingertips to elbow. The Forearm Fulcrums promote stroke refinement through muscle memory of proper hand, wrist and forearm position. The Forearm Fulcrums improve efficiency and maintain a strong, uninterrupted pull from the beginning of the stroke to the end. The Forearm Fulcrums are a versatile tool for all four swim strokes.

EVO Monofin

The foot pockets' flexible connector enables swimmers to keep a natural kick – allowing the feet to angle in on the down-kick and out on the up-kick.

- Creates extra resistance on the up-kick to build muscle and generate a powerful kick cycle

Foil Monofin

The Foil Monofin teaches the Full Body Motion developed and made popular by Coach Bob Gillett. The Full Body Motion utilizes the entire body to create a powerful and undulating dolphin kick through the water. The Foil Monofin promotes an equal use of up and down kicks for propulsion throughout the entire dolphin kick movement, increasing core and leg strength. Natural rubber provides a secure and comfortable fit.

Rapid Monofin

- The Rapid monofin is a recreational monofin designed for teenagers and adults. The large single-blade teaches swimmers a proper undulation in the water, while obtaining a great core and leg workout.
- The Rapid's flexible blade makes swimming more enjoyable as users can swim at greater speeds and depths.
- The Rapid is a versatile monofin that can be used in a pool, lake or ocean and comes with adjustable heel straps that can be fitted to various sizes. The Rapid also comes with quick-release foot strap that provide added safety in the water.

Shooter Monofin

With a short and stiff fiberglass blade, the Shooter monofin builds a quick and powerful butterfly kick, while improving flexibility in feet and ankles. Allows for race pace kick speed while working abdominal muscles, lower back, quadriceps and gluteus. The Shooter is a useful tool for underwater drills, breaststroke technique and butterfly conditioning.

Trainer Monofin

- With a long, flexible fiberglass blade, the Trainer 1 is designed for advanced swimmers.
- The Trainer 1 monofin improves body balance and kick tempo. Promotes a smooth, regulated dolphin kick motion to build strength and improve technique.
- The Trainer 1 is a useful tool for instructing a hip-generated dolphin kick and proper butterfly timing.

KICKBOARDS & BOUYS

Alignment Kickboard

The Alignment Kickboard uses a hydrodynamic design to improve body position. The stabilizing hand strap allows complete control of the board without gripping, creating a perfect alignment from the fingertips to the toes. When used properly, the Alignment Kickboard sits just below the waterline so swimmers can lengthen their body without kicking at an incline. Shorter in design, the Alignment Kickboard puts less pressure on shoulders as compared to standard kickboards. A great training tool, the board can be used to do one arm and side kicking drills in addition to normal kicking. When paired with a snorkel, the Alignment Kickboard encourages proper head alignment and improves overall technique.

Foam Kickboard

- The Foam Kickboard immobilizes arms to help build leg strength. Made of an EVA foam material that will not chafe or irritate the skin
- Available in Sr. and Jr. sizes; the Jr. size is designed to decrease stress on the shoulders and is ideal for youth and smaller swimmers.
- **WARNING: WILL NOT PROTECT AGAINST DROWNING USE ONLY UNDER CONSTANT SUPERVISION**

Axis Pool Buoy

The dual-function design of the Axis buoy improves body position while building upper body strength and engaging the core muscles. With ergonomic keyholes and a contoured design, the Axis buoy can function as both an ankle float and a leg buoy. The lightweight EVA foam is lightly textured for a more secure grip and allows swimmers to easily transfer the buoy between ankles and legs.

Foam Pull Buoy

The Foam Pull Buoy immobilizes legs and provides lift to help build upper body strength and increase focus on proper hip rotation. The Foam Pull Buoy aligns the body from head to toe and improves symmetry. Made of EVA foam material that will not chafe or irritate the skin. Available in Adult and Jr. sizes; the Jr. size is ideal for swimmers with smaller legs or under the age of 12.

HIP ROTATION

www.statewidesports.com.au

Hydro Hip

True swimming power comes from the hips, which makes the Hydro Hip such an important training tool. With two blades that sit on the hips, the Hydro Hip helps properly identify timing of the hips, arms and body. The Hydro Hip also improves core strength with resistance by working the muscles that aid rotation. Best used during drills or short distances.

Tech Toc

- Engaging hips and core muscles is a key element to swimming faster and more efficiently
- Ball bearing within the capsule creates an audible sound when tipped from side to side
- Great for beginner swimmers; delaying the ball bearing forces exaggerated movements

Posture Trainer			
The Posture Trainer promotes correct head and spine alignment, which is key to an efficient swim stroke. When secured to the back center of the head, the device should be undetectable until the swimmer exceeds the recommended posture range. Keeping the head in the proper position throughout the entire swimming motion corrects spinal alignment, which elevates the hips, leading to a decrease in drag and an increase in kick propulsion. The Posture Trainer's versatility allows for use in all four swim strokes and fits comfortably with or without goggles.

CUSTOM SWIMMING CAPS

Minimum quantity for latex cap printing is 50pcs per cap colour / per weight / per logo colour / per design.

Colours in quantities of 50pcs per colour per weight can be mixed to reach quantity break pricing.

Note: No screen charges for orders of 200pcs & over on 1 colour logo or 1st screen on multi colour prints.

Some cap/logo colour combinations will require an additional underbase of white to achieve best colour result. If a white is not part of the original logo an additional screen charge will apply.

If caps are to be used for competition events under FINA rules then this must be advised on order as restrictions are placed upon the size of the manufacturer's mark.

All logo printed caps will come with an Eyeline logo printed on cap as a manufacturer's mark.

Any logo which must face the same direction on both sides of cap when worn will require separate screens for each side of cap.

NOTE: Clocks to be installed outdoors should consider having a face cover to 100% prevent possible water damage to the motor.

Under NO circumstances should the clock face be cleaned using a high water pressure cleaner as water may enter the motor down the spindle.

A small amount of WD40 or similar should be sprayed on the spindle where it enters the Brass Bushing to prevent any contamination build-up on the spindle.
This should be done at least every 90 days.
