**WE'RE
ON IT**

THE FIRST FIX SPECIALIST

**BISON IS A RECOGNISED
NATIONWIDE SUPPLIER OF
FIXINGS, SUPPORT SYSTEMS AND
BRACKETRY TO THE BUILDING
ENGINEERING SERVICES INDUSTRY**

With first tier, top quality relationships in place with many of the UK's largest contractors, we can confidently and expertly supply direct to site and have an outstanding track record in the very best customer service you'll find anywhere!

We've expanded with the demands of our customers and used market led innovations to transform us into the thoroughbred company we are today. Our family orientated beginnings enhance and cement the values we still hold close: 100% honesty, total integrity and reliable through and through, but we aren't content to leave it there!

Our passion for phenomenal customer service continues to spur us on and we're intent on driving BISON forward with our industry-challenging, can-do approach to everything we do.

WE WELCOME YOU ON OUR JOURNEY.

NATIONWIDE DELIVERY

Welcome to BISON Territory

AM Site Delivery

BISON vans leave our depot early each morning to ensure you get an AM delivery to site when you need it

BISON [TRACKING]

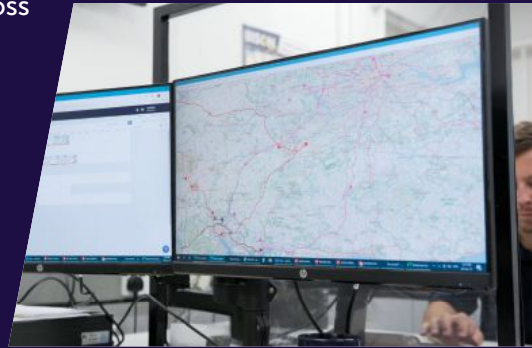

DELIVERING PHENOMENAL SERVICE

With a 7am text alert to let you know when to expect your delivery, and a further text when the driver has left the previous drop to yours, TRACKING gives you real-time visibility on where your delivery is, with the facility to follow the van on it's way to your site. And once delivery is made, we also send an email notification to your office letting you know all is delivered safe and sound.

You could call it a paracetamol for delivery headaches. With the BISON own-van service proving increasingly popular for sites across the UK, TRACKING makes life a whole lot smoother and easier for buyers, site contacts and project managers alike.

/// what3words

And what's more, BISON TRACKING works in sync with what3words to ensure you get pinpoint accuracy in your delivery built-in - can't get more precise than that!

BISON CORE VALUES

HONESTY

INTEGRITY

RESPECT

AT THE HEART OF EVERYTHING WE DO

WHY BISON?

QUICK
EASY
RELIABLE
TRUSTED

QUICK

WE RESPOND TO ALL QUOTE REQUESTS WITHIN 30 MINUTES

EASY

WE DON'T MESS YOU ABOUT

We talk straight and honest, and keep the business transaction simple and easy. If it's not in stock then we'll tell you upfront so you're not left hanging on site. And we'll even text your site guys on the morning of the delivery to tell you when to expect us!

RELIABLE

YOU WANT RELIABILITY BUILT-IN

A supplier you can depend on to deliver what you want, when you want. That's us.

TRUSTED

WE STRIVE FOR YOUR TRUST MORE THAN ANYTHING

We want to work long-term with you, and for that we know we need your trust.

fixings pull test

HEAVY DUTY MODULAR STEEL FRAME SYSTEM

TekSpan®

TekSpan enables contractors and installers to build a frame on site that provides similar strength qualities to welded steel frames, but can be easily transported to site and erected quickly in situ. Based on a hot dipped galvanised box frame and using a unique T-bolt fastening system, TekSpan has been installed on many projects throughout Europe and is now available to the UK market.

TekSpan gives you the loading properties of welded steel frames without the associated site-welding issues, and is ideal for installing in challenging environments, such as basement boiler rooms and risers where a crane-lift would present a logistics issue. Proven throughout the world even in demanding NZ seismic conditions, TekSpan's versatility makes it the modular system of choice.

At the heart of the TekSpan system is the patented T-lock bolt. This unique M12 bolt is made from 10.9 high grade steel giving up to 10kN shear strength, and can be simply installed using a torque wrench.

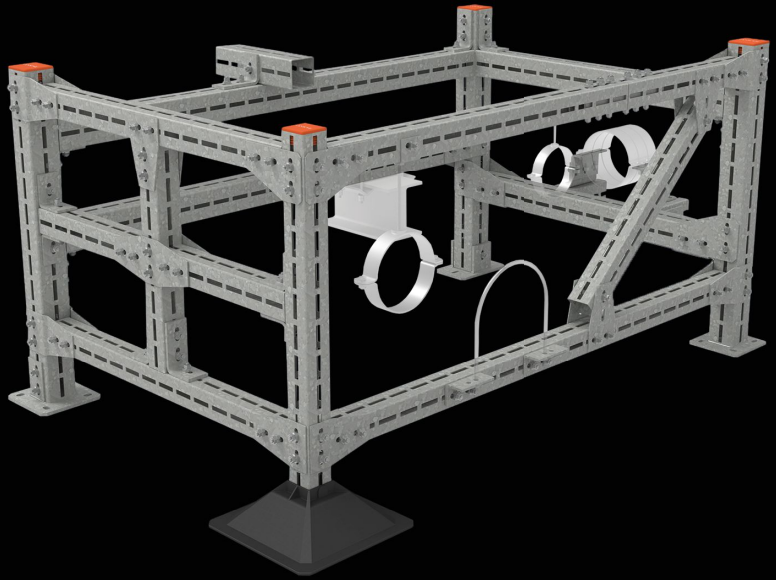

One of the unique features of the TekSpan System is the stepless slot design, which the T-lock bolt facilitates. In practice this means that leveling up frames and structures is done simply and quickly, in contrast to screw systems that require precise alignment of holes.

Talk to us to discover ways in which TekSpan can make installs easier, quicker and more cost-effective.

TekSpan[®]

KEY FEATURES

- Avoid bulky and awkward logistics on frame installs
- Build support frames faster and more efficiently
- Erect a complete frame using just a torque wrench
- Avoid hot-works permit requirements on site
- Fast and easy to level up
- Superior strength properties to channel and other frame brands
- Full design capability
- Available in 80mm or 100mm variants
- Patented T-bolt fastening system

Conlok Conduit System

CONLOK
Traditional. Upgraded.

Conlok is an innovative line of quick-fit conduit boxes and couplers that speeds up installation time and cuts down on labour costs. Conlok boxes, couplings, and adaptors work alongside standard conduit tubes to make installation a breeze. Conlok allen keys and 12.9 grade z/p socket grub screws make it fast and simple to mechanically lock the Conlok accessories into place.

Modular Steel Support Frames for Data Centres

- Support electrical containment, data cabling, busbar and pipework
- Direct connection to unistrut type channel and bracketry
- Full design-to-delivery service

TekSpan[®]

The perfect solution for data centres and technical white spaces

In the sensitive world of data centres TekSpan really shines. For adding in secondary steels to create high loadbearing solutions for busbar runs, cable ladder, cooling pipework or HV cable lines, TekSpan is a proven performer.

We can work with your project layout and design fully compliant supports for every application, even when access is limited and tight spaces need to be worked round.

Design packages detailing bracket composition and loadbearing calculations are all available from the TekSpan design team.

Visit www.tekspan.com for more information
or email datacentres@tekspan.com

A black and white photograph of an industrial facility, likely a power plant or refinery. The image shows a complex network of large, horizontal pipes and structural steel beams. In the foreground, a vertical steel beam with a series of rectangular cutouts runs down the frame. To the left, another vertical beam is visible. In the background, more pipes and structural elements are visible, along with a large, cylindrical tank or vessel. The overall scene is industrial and technical.

A black and white photograph of an industrial facility, likely a refinery or chemical plant. The image shows a complex network of large, dark pipes running horizontally and vertically, supported by a dense grid of metal scaffolding or structural beams. The perspective is looking upwards, creating a sense of height and scale. The lighting is dramatic, with strong highlights and deep shadows. A solid blue rectangular box is overlaid in the center of the image, containing the text 'PIPEWORK PRODUCTS' in white, bold, sans-serif capital letters.

Water Industry

Proven on many water industry projects throughout the UK, TekSpan is the modular steel frame system that enables quick and easy installation of pipework and MEICA supports.

A high grade hot dip galvanised profile and bracketry bolted quickly and securely using zinc nickel bolts means that frames are erected at speed. Backed up by our in-house technical design and loading calculations service, TekSpan is fast becoming the requested frame system for water sector contractors.

With TekSpan, contractors get projects completed fast

Installing or replacing traditional supports requires site visits to measure up, 3rd party fabrication and galvanising, and repeated visits to install and adjust.

With TekSpan you can build a support frame on site in one visit, with component availability next day.

From flange brackets to pipe gantries, TekSpan gives you the support your water project needs. Fast.

And what's more, TekSpan bracketry is hot dip galvanised in excess of 85µm, meaning it complies with WIMES requirements for steel frames.

NEW! Limited smoke development
thanks to Euroclass B_L-s2, d0

Kaiflex® ST s2

Versatile application.
Optimised safety in case of fire.

- Universal insulation material for busy public and commercial buildings
- Dependable safety: Euroclass B_L-s2, d0 / British Standard Class O
- Meets the demanding international requirements for elastomeric insulation materials
- Reliably prevents condensation and reduces the risk of corrosion under the insulation
- Additional protection against micro-organisms and mould

**CHECK STOCK, VIEW PRODUCTS, BUILD A QUOTE LIST
OR PLACE AN ORDER - 24 HOURS A DAY!**

5 GREAT REASONS TO REGISTER ON THE BISON WEBSITE

- 1 Check product info
- 2 Check stock availability
- 3 Build a basket for a quote
- 4 Keep up to date with latest news and offers from Bison
- 5 Order any time of day or night

ORDER WITH EASE

SUBMIT A QUOTE REQUEST ON THE WEBSITE

Receive rapid quotes for your projects by building a quote basket on our website

Add to Quote

- 1 Search for your product online
- 2 Select 'Add to Quote'
- 3 Create a new Quote Basket or add to an Existing Quote
- 4 Fill quote basket with the products you need
- 5 Request an estimate or checkout instantly via our online ordering system
