Marble is a truly unique material that has existed for millions of years hidden in the depths of quarries and which is brought to light thanks to the hand of man. The Italian one has always been considered synonymous with luxury, purity and elegance for its exceptional refinement, its colours, its veins and its particular shine.

It is seen as a "status symbol" as it has been strongly loved by famous artists, architects and designers for centuries.

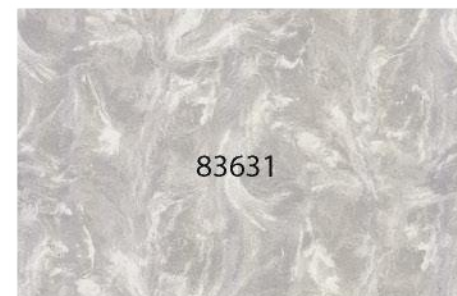

In this Carrara Best collection, we collect the best of the Italian marbles transformed into artistic wallpapers that were presented in previous editions, to cover your homes with extreme taste and beauty. Two new precious and fascinating designs enrich this special collection. Wallpapers which, thanks to their perfectly structured reliefs, create surprising effects full of nuances and full of brilliance. Here are presented in a selected color palette that shows them exactly as we find them in nature, in all their magnificent splendor.

To complete the choice, we created a section of marbles digitally printed on a vinyl base engraved with a marble texture. The final effect is emphasized in an extremely authentic and realistic way, like a huge and spectacular slab of marble.

Carrara Best is the perfect choice for unforgettable environments.

Il marmo è un materiale veramente unico che esiste da milioni di anni nascosto nelle profondità delle cave e che viene portato alla luce grazie alla mano dell'uomo.

Quello italiano è da sempre considerato sinonimo di lusso, purezza ed eleganza per la sua eccezionale raffinatezza, i suoi colori, le sue venature e la sua particolare lucentezza. È visto come uno "status symbol" poiché da secoli è fortemente amato da artisti, architetti e designer famosi.

In questa collezione Carrara Best, abbiamo voluto raccogliere il meglio dei marmi italiani trasformati in carte da parati artistiche che abbiamo presentato nelle precedenti edizioni, per rivestire con estremo gusto e bellezza le vostre case. Due nuovi disegni preziosi e affascinanti arricchiscono questa raccolta speciale.

Sono parati che grazie ai loro rilievi perfettamente strutturati, creano effetti sorprendenti carichi di sfumature e ricchi di brillantezza. Li abbiamo voluti presentare in una selezionata palette di colori che li propone esattamente come li troviamo in natura, in tutto il loro magnifico splendore.

Per completare la scelta abbiamo ideato una sezione di marmi stampati in digitale su una base vinilica incisa con una texture marmorea. L'effetto finale viene enfatizzato in modo estremamente autentico e realistico, come una enorme e scenografica lastra di marmo.

Carrara Best è la scelta perfetta per ambienti indimenticabili.

Мрамор - поистине уникальный материал, миллионы лет пролежавший в глубинах карьеров и появившийся на свет благодаря человеку. Итальянский мрамор всегда считался синонимом роскоши, чистоты и элегантности благодаря своей исключительной утонченности, расцветкам, прожилкам и особому блеску.

Он считается "символом статуса", поскольку на протяжении веков пользуется большой любовью у знаменитых художников, архитекторов и дизайнеров.

В этой коллекции Carrara Best мы собрали лучшие образцы итальянского мрамора, преобразованные в художественные обои, которые мы представляли в предыдущих коллекциях, чтобы украсить ваши дома с исключительным вкусом и красотой. Два новых очаровательных и ценных дизайна дополнили эту специальную коллекцию. Это обои, которые благодаря идеально структурированным рельефам создают удивительные эффекты, полные оттенков и обогащенные блеском. Мы захотели представить их в подобранной цветовой палитре, именно такими, какими видим их в природе, во всем великолепии. Для завершения подборки разработали секцию из мраморных плиток с цифровой печатью на виниловой основе с выгравированной мраморной структурой. В итоге получился чрезвычайно autentичный и реалистичный эффект, как будто это огромная живописная плита мрамора.

Carrara Best - идеальный выбор для создания незабываемых интерьеров.
