The Basics and Beyond

Whether it's a proven old friend or the latest in chiropractic technology, you can count on Chiro One Source to deliver thousands of products you need, right inside the catalog.

Our better service and values

We make it easier to shop for everything you need for your practice. We know that more convenient shopping means you can spend more time where it really matters - with your patients.

Everyday Value Pricing

You'll find affordable prices every day at Chiro One Source because we buy in volume and are able to pass those savings on to you. If you find a current advertised price that's better than ours, let us know.

100% Satisfaction Guarantee & Returns

We want you to have as much faith in our products as we do, so we stand behind everything we sell. If, for any reason, you are not 100% satisfied, simply return your unopened item within 30 days in its original packaging and we'll refund your money (shipping charges are not included).

Warranties

Chiro One Source honors all manufacturer warranties. If you have any questions, please give us a call at 866-318-3251.

Payment Information

Chiro One Source offers credit card payments with Visa, Mastercard, American Express and Discover.

Shipping

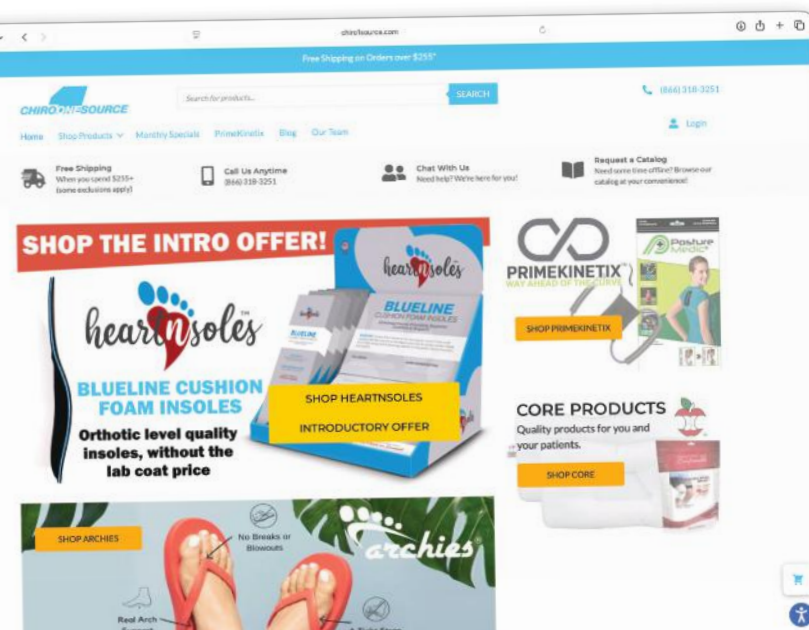

In most cases orders will ship same day. Delivery times depends upon location are 1-5 days. Expedited shipping services are available at an additional charge. Residential surcharges may apply.

About Us

Josh Walker - President

Josh leads the Chiro1Source team with a passion for serving the chiropractic community. His goal: help clinics turn supply ordering from a burden into an opportunity to grow, give back, and enhance patient care.

Marah Walker - Chief Financial Officer (CFO)

Marah is the steady hand behind the numbers and the heart behind the brand. She ensures every decision aligns with our mission and family values — all while balancing life as wife, mom, and behind-the-scenes powerhouse.

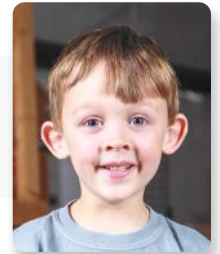

Karen Sparrow - Head of Customer Service

With over 30 years of experience managing nursing homes and leading teams through challenges, Karen brings incredible patience, understanding, and leadership. She ensures every clinic feels heard, valued and cared for — just like family.

Bennett Walker - Chief Fun Officer

Our youngest team member and constant source of energy. Bennett reminds us to keep business fun, stay curious, and remember why we started in the first place.

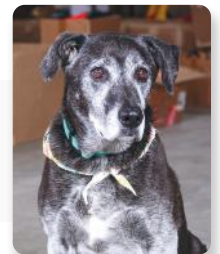

Rock - Chief Security Officer

Warehouse guardian and snacktime supervisor. Rock takes his post seriously (especially when delivery drivers drop by) and brings loyalty, vigilance and a wagging tail to our team.

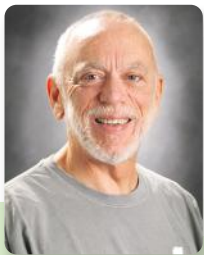

Hershey - Senior Treat Inspector & Advisor

Our oldest and most seasoned team member, Hershey is in charge of all things treat related and keeps morale high with his goofy charm and steady presence. He reminds us that even in business, there's room for a little play.

Cecil Walker - Founder

Cecil Walker founded Chiro1Source in 2001 after practicing chiropractic for over 16 years. He saw firsthand how busy clinics are and wanted to make ordering supplies easier, more affordable, and backed by great service. Though he's no longer involved in daily operations, the values he built the company on—care, efficiency, and supporting chiropractors so they can focus on their patients—continue to guide Chiro1Source today.

CHIRO ONE SOURCE - At Chiro1Source, we're more than a chiropractic supply company — we're a family. Founded in 2001 by Dr. Cecil Walker, a practicing chiropractor who built the business on the motto "Treat people like people, not numbers," we've carried forward a legacy of service, connection, and integrity. Today, his son, Josh Walker, and his wife, Marah Walker, serve as President and CFO respectively, continuing the mission of making supply ordering simple, personal, and rewarding for clinics everywhere. Our small but mighty team reflects the heart of what we stand for — **care, loyalty, innovation, and a little fun too.**

Archies Arch Support Flip Flops Simplicity Redesigned

By combining key designing features we have re-imagined what flip flops are.

Real Arch Support - Almost 1 inch of orthotic support encourages optimal foot posture aiding whole body alignment.

Footbed Molds to Your Foot - Our specialized closed cell foam material is formulated to mold to your foot.

No Blow-Outs - Our ultra-strong one-piece design makes the flip flops virtually indestructible.

No Toe Clawing - A tight strap means your toes don't have to grip to keep your flip flops on, allowing you to walk all day without overusing muscles and tendons in the feet.

Charlotte's Web™ CBD Gummies

Made with The World's Most Trusted CBD Extract™, our gummies are thoughtfully crafted to support calm, restful sleep, and post-exercise recovery. Each blend combines our full-spectrum hemp extract with purpose-driven botanicals and natural flavors from real fruits and vegetables. Designed for everyday balance, these gummies help you feel grounded, restored, and at your best—day and night.

TheraTouch SW1 Portable Shockwave

The TheraTouch SW1 is Richmar's first radial pressure wave device. This device uses radial pressure waves to deliver a high energy mechanical force to the body's tissue to treat various musculoskeletal conditions. The radial pressure waves are transmitted through an ergonomic handpiece and applicator that can effectively penetrate 35mm into the tissue. Shockwave treatment can help tissue activation, bone healing, reduce muscle aches and pains, increase blood circulation and more.

Magnesium Calming Cream

CryoDerm® Magnesium Calming Cream contains minerals that are harvested from the Dead Sea where the mineral content is at its highest containing 21 minerals. These minerals naturally occur in our bodies and are lost throughout the day, so they must be replenished. They help to treat, detoxify and cleanse our bodies. Magnesium calms nerves and muscles, aids in the reduction of cramping and hypertonicity, and combats stress and fluid retention. Calcium is also effective at increasing circulation, and strengthening bones and nails.

FROM DOUBLE-WIDE TO NATIONWIDE

How My Family Founded and Grew Chiro1Source

Previous Newsletter Edition

Watch out for Next Month's Edition in your mailbox!

If you aren't getting our monthly newsletter please give us a call or email sales@chiro1source.com

The idea for Chiro1Source originated with a single, serendipitous event. When I was growing up, my parents were both chiropractors. And one day, a woman on their staff went on maternity leave, requiring my dad, Dr. Cecil Walker, to take over the supply-buying process. When he checked the company records, he realized that she'd been purchasing supplies from 18 different companies and paying separate shipping charges to all of them. This was long before the days of one-company-fits-all shopping websites like Amazon, and the ridiculous stack of shipping bills gave my dad an idea: Why not start a business that offers every product a chiropractor could possibly need, all with a single phone call (before the days of online shopping)?

Soon, our whole double-wide was overtaken by inventory. My dad slept under his desk, and I slept in the bathroom to ensure we had enough product in-stock to fill our clients' inventory. I still chuckle thinking about the fit our local fire marshal would have thrown if he'd ever paid us a visit.

Dad wanted to offer exactly what chiropractors needed, so he started his research process by going door to door at clinics around town, asking about their dream inventory. We originally bought from just 10 manufacturers, but our inventory grew along with the company. Now we've moved from a double-wide trailer full of pillows to a 5,000-square-foot warehouse and offer more than 3,000 product variations to chiropractors across the country.

"Our whole double-wide was overtaken by inventory. My dad slept under his desk, and I slept in the bathroom to ensure we had enough product in-stock to fill our clients' inventory."

As a middle school kid working after school and summers, I helped pack boxes. And when I didn't sound like a 12-year-old anymore, my dad started letting me answer the phone. Even then, I knew I wanted to carry the business on someday. In 2011, I graduated from the University of North Carolina with degrees in economics and international studies and headed back to Farmville to work for Chiro1Source full time. One thing led to another, and three years ago, my wife Marah and I purchased the business. We couldn't be happier with the work we've done, and we often talk about how great it feels to build relationships with our customers and help hardworking people each day.

We still pride ourselves on our top-notch customer service. From day one, my dad hated phone trees and vowed that Chiro1Source would never subject its customers to prerecorded messages or long lists of dial prompts. No one is sleeping under their desks anymore, but you'll still get a real person every time you call in an order. Not only that, but our staff members have all spent years in the chiropractic industry and worked in our warehouse. They know the products so well that our average order time is just 57 seconds, making it easy for busy professionals like you to fulfill your needs in record time.

Though we've already made huge gains in the last 18 years, I'm happy to say that Chiro1Source is still growing. Our inventory is always evolving with the industry, and we're constantly adding new products to our arsenal of pillows, hot and cold packs, electrotherapy essentials, topicals, orthopedics, and more. With clients like you there's nowhere for us to go but up.

-Josh Walker

My dad left private practice to try his hand at a new line of work and started the company that would become Chiro1Source. His goal in 2001 was to create a chiropractor-centric business with excellent customer service, and he was prepared to do whatever it took to make that happen.

In the early days of Chiro1Source, the company was a two-man team (well, one boy and one man). I was in middle school at the time, but I did what I could to support my dad's dream. He started the business in a double-wide and stored the inventory in some outside buildings until they filled up quickly. Eventually I lost my bedroom to D-Core pillows.

CBD CLINIC™ Analgesic Ointments and Creams

CBD CLINIC™ CLINICAL STRENGTH Pain Relief Series was created in order to set the gold standard for pain relief based on 15 years of experience researching, developing, and testing naturally derived remedies.

Our unique 5 LEVEL pain management system will help you treat incremental levels of pain directly at the source of discomfort with increasing levels of active ingredients. The primary formulas release the cooling action of menthol and camphor terpenes alongside additional plant extracts to enhance the cooling effect. In addition, we've loaded these exclusive CBD products with natural emollients to lock in the active ingredients while also nourishing the skin.

To uphold the highest industry standards, our ointments, creams, massage oils, and pain relief sticks are manufactured in a federally-audited facility. You can trust that each batch is tested by 3rd party labs in order to ensure safety, accuracy, and consistency from batch to batch.

Aulief (Formerly China-Gel)

Aulief is a natural unique herbal formula of time proven ingredients developed and clinically tested in a leading acupuncture - pain control clinic. Aulief is a greaseless therapeutic gel that incorporates modern technology with the ancient pain relieving concepts of Chinese medicine.

When applied as directed, Aulief stimulates the body's endorphin response to pain and reduces the pain - producing "P factor" in muscle tissue, thereby lessening pain and discomfort, and enhancing healing. The deep penetrating effect offers long lasting cool-to-warm soothing relief

Magnesium Calming Cream

CryoDerm® Magnesium Calming Cream contains minerals that are harvested from the Dead Sea where the mineral content is at its highest containing 21 minerals. These minerals naturally occur in our bodies and are lost throughout the day, so they must be replenished. They help to treat, detoxify and cleanse our bodies. Magnesium calms nerves and muscles, aids in the reduction of cramping and hypertonicity, and combats stress and fluid retention. Calcium is also effective at increasing circulation, and strengthening bones and nails.

Pure White™ Patch

Pure White patches are a powerful blend of evidence-based herbal extracts and certified organic essential oils combined into a convenient patch. The patch can be placed almost anywhere providing comfort with the distinct aroma of essential oils.

We have an exclusive process of combining our proprietary blend of organic ingredients into a natural skin adhesive™. The process is done without damaging the essential oils and maintains their natural aroma. This powerful layer provides the benefits of our plant extracts and creates a natural “sticky” adhesive without the use of chemicals.

MicroBeads® Moist Heat Therapy Packs

Soothe aching muscles and ease pain with MicroBeads® Moist Heat Therapy Packs. Most experts recommend moist heat over dry heat to help relieve pain. When comparing these two methods, moist heat penetrates deeper into the affected area and helps increase tissue elasticity. It is also less likely to cause skin dehydration, making it ideal for patients with dry and/or aging skin.

Thermal Core® Moist Heat Packs

Thermal Core® Moist Heat Packs deliver deep, penetrating moist heat therapy to help relax sore muscles prior to professional treatment. The packs are available in various sizes for use on backs, necks, and extremities to help relieve muscle soreness, sprains, or arthritis pain.

Each pack contains all natural bentonite fill that absorbs moisture and retains heat more effectively than conventional heat packs. Made with a strong, durable canvas material, these packs deliver up to 30 minutes of deep, soothing relief and can be reheated as needed. Thermal Core® Moist Heat Packs have been engineered to prevent the growth of mildew and can be reused many times, making these packs a cost effective treatment method.

Axelgaard Electrodes

Axelgaard ValuTrobe® are reusable electrodes featuring either foam or cloth backed construction and are self-adhering. MultiStick patented 2-layer adhesive gel eliminates performance problems associated with single layer gels. Electrode conformity starts with a material that is pliable enough to conform to irregular surfaces, but contains superior conductive capabilities and optimum current distribution. The rounded corners help prevent edge curl and allow for even distribution of stimulation current. After treatment is complete, return to the protective backing and store for later use.

Electrodes come in packs of 4 unless otherwise specified.

Sold in Bags of 10 Packs of 4 - Other sizes available!

Richmar®

MicroBlock Antimicrobial Electrodes

MicroBlock antimicrobial electrodes are the first and only electrodes on the market that help kill and inhibit the growth of common bacteria on and around the zone of inhibition of the electrode surface. These electrodes can play an important part in infection prevention for hospitals and healthcare facilities, making MicroBlock the logical choice to decrease the risk of healthcare associated infections while treating your patients.

MicroBlock's antimicrobial electrode surface reduces the risk of contamination and helps prevent infection by killing disease-causing microbes and common antibiotic-resistant threats that contact the surface of the electrode.

InTENSity 5000 Hybrid

The InTENSity 5000 Hybrid device combines both digital and analog technology to create an innovative pain management device that is easy-to-use. The user will receive the right therapy at the right time by using traditional analog dials to manage intensity levels through LED technology. The InTENSity 5000 Hybrid comes complete with five modes, a timer, electrodes, lead wires, carrying case, user manual and 9-volt battery.

Product #	Description
CSIN-5000	Hybrid TENS

InTENSity 10 Digital

The InTENSity 10 Digital TENS device allows patients to select from ten pre-set body icons for targeted therapy, making it the easiest and most effective TENS device available on the market today. With the press of two buttons the easy-to-use device is ready to operate effectively based on the area of the body that is being treated. Comes complete with AC adapter for effective therapy on the go.

Product #	Description
CSIN-10	Digital TENS

InTENSity Select Combo

The InTENSity Select Combo is a powerful, easy-to-use portable device. Complete with four waveforms, the unit gives you and your patients the flexibility to treat a variety of musculoskeletal issues. With a strong current of 105 mA, this innovative device combines TENS, EMS, Interferential and Microcurrent and comes complete with an AC adaptor ensuring you always have power to the device when traveling.

Product #	Description
CSIN-SC	TENS, EMS, IF & Microcurrent

InTENSity IF Combo II

The InTENSity IF Combo II combines TENS and Interferential waveforms in one portable tens unit. Equipped with preset body-part-specific settings, the InTENSity IF Combo II intuitively guides the patient step-by-step to ensure the ideal therapeutic treatment throughout the healing cycle.

Product #	Description
CSIN-IFII	TENS & IF

InTENSity 12 Digital

The InTENSity 12 is the newest standard in portable electrotherapy offering patients the latest in treatment options and stimulation programs in a user-friendly, ergonomic design.

Equipped with pre-set body part specific settings as well as a customizable option, the InTENSity 12 intuitively guides the patient step-by-step to ensure the ideal therapeutic treatment.

Product #	Description
CSIN-12	Digital TENS

InTENSity Twin Stim IV

The InTENSity Twin Stim IV is the newest standard in portable, multifunction electrotherapy offering patients two modalities in one user-friendly, ergonomic design - Transcutaneous Electrical Nerve Stimulation (TENS) and Neuromuscular Electrical Stimulation (NMES).

Equipped with pre-set body part specific settings as well as a customizable option, the InTENSity Twin Stim IV intuitively guides the patient step-by-step to ensure the ideal therapeutic treatment throughout the healing cycle. In addition, patients can modify treatment time, pulse rate and duration (width), cycling time, and contraction/relaxation/ramp times.

Product #	Description
CSIN-TSIV	TENS & EMS

InTENSity Select Combo II

The InTENSity Select Combo II is the newest standard in portable, multifunction electrotherapy offering patients four (4) modalities in one user-friendly, ergonomic design - Transcutaneous Electrical Nerve Stimulation (TENS), Neuromuscular Electrical Stimulation (NMES), Interferential Stimulation (IF), and RUSSIAN (RUSS).

The wide-ranging capability of the InTENSity Select Combo II provides the most up-to-date treatment technology and waveforms. Equipped with pre-set body part specific settings as well as a customizable option, it intuitively guides the patient step-by-step to ensure the ideal therapeutic treatment throughout the healing cycle.

UltraTENS™ II Portable Ultrasound/TENS Combo

The UltraTENS II combines the two most proven modalities, ultrasound and TENS technology for pain relief into one compact sleek device. Deep heat from the therapeutic ultrasound and TENS therapy can be used simultaneously to help patients treat chronic and acute muscular pain. Our new innovative design features an increased duty cycle of 50% with three easy-to-use mode presets, plus 30 mA of TENS therapy. This versatile portable unit comes with carry case, AC adapter and ultrasound gel for office or mobile use.

Product #	Description
CSUSP-UTII	Hybrid TENS

US 1000™ Portable Ultrasound Unit

The US 1000 offers effective ultrasound therapy by generating deep ultrasonic waves within body tissues to treat pain, muscle spasms and joint stiffness. The portable unit comes as a complete kit with carrying case, AC adapter, ultrasound gel and manual.

Product #	Description
CSUSP-1000	Portable Ultrasound

US Pro 2000™ Portable Ultrasound Unit

The US Pro 2000 2nd Edition is a clinical grade therapeutic ultrasound device that generates deep heat through ultrasound energy. The pulsed sound waves travel deep into the tissue and induce vasodilation, which helps increase blood flow to the treated area and is found to help relieve pain and reduce muscle spasms. Equipped with a head warming feature on an ergonomically designed sound head for increased patient comfort. With three output intensities and three treatment time selections, the US Pro 2000 2nd Edition can provide a wide range of therapy treatments. Sound head is watertight for use in underwater therapy (for 30 mins at depth of 1 meter). Complete with hard carrying case, ultrasound gel, AC/DC adapter, instruction manual and a quick start guide.

Product #	Description
CSUSP-2000	Ultrasound Device

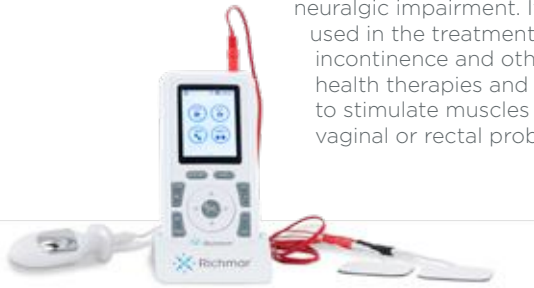

Richmar® Clinical Modalities

Richmar's line of clinical modalities are designed to treat a diverse range of needs. From electrostimulation to therapeutic ultrasound and everything in between, Richmar's clinical line of modalities allow the patient to receive effective treatment for injury and recovery.

- Based on Clinical Studies & Educational Resources
- Premium models have clinical protocols & body specific settings
- Equipped with easy-to-use technology
- Cost effective

Richmar's **EMG Pro** is a single channel, portable electrotherapy device with EMG Biofeedback, EMG Triggered Stim, TENS and NMES. The EMG Pro is a valuable rehabilitation tool that can be used across patient populations, from orthopedic and sports rehab, to treating patients with neuralgic impairment. It can also be used in the treatment of urinary incontinence and other pelvic floor health therapies and is designed to stimulate muscles through a vaginal or rectal probe.

EMG Pro DQEMG

Portable Electrotherapy Device

Scan here to view:

The **TheraTouch SW1** is Richmar's first portable radial pressure wave device. This device uses radial pressure waves to deliver a high energy mechanical force to the body's tissue to treat various musculoskeletal conditions.

TheraTouch®
SW1 SW1000

Portable Shockwave Device

Scan here to view:

The TheraTouch line of clinical modalities offer a wide range of treatment options in one user-friendly, ergonomic design. Equipped with a bilingual menu-driven touchscreen interface, the **TheraTouch EX4, CX4, CX2, UX2, LX2, and DX2** modalities guide clinicians step-by-step through treatment protocols to ensure the ideal therapeutic treatment - including electrode placement for better treatment outcomes. All units come equipped with a 3 Year Warranty.

EX4, CX2, CX4 all include:

- **Waveforms Available:**
 - Interferential
 - Premodulated
 - Biphasic
 - Symmetrical
 - Asymmetrical
 - NMS
 - Russian
 - High Volt
 - Microcurrent
- **RAAS**

Rapid Agonist Antagonist Sequencing (RAAS) is a unique stimulation waveform that replicates the typical firing pattern of normal muscle contractions, used to effectively re-educate weak and inhibited muscles following surgery, injury, or trauma

This ultrasound device operates in 1 and 3 MHz frequencies and offers pulsed and continuous modes. The amplitude can also be toggled between W and W/cm².

B The **TheraTouch® LX2** is a Class IIIb “cold laser” therapy device, capable of delivering up to 35 joules/cm² per treatment. The TheraTouch LX2 is the perfect product addition to offer tissue healing, in addition to reducing inflammation and pain. Selectable clinical protocols simplify setup of laser therapy treatments, making the LX2 a great entry into laser therapy; while the ability to adjust treatment parameters provides customizations for the laser therapy specialist.

C **TheraTouch DX2** introduces several new advancements in safety, convenience, and efficiency compared to other shortwave diathermy devices.

SCIENTIFIC DOSAGE CONTROL

Scientific Dosage Control (SDC) allows for two additional dosimetry settings within Dose III to provide more options for therapeutic heating within patient comfort tolerances.

- | | |
|---------------------|---------------------------------------|
| DOSE I - Subthermal | DOSE III SDC M - Moderate Heat |
| DOSE II - Mild Heat | DOSE III SDC H - High Heat |
| DOSE III - Low Heat | DOSE IV - Vigorous Heat |

D **THERADOT Deep Oscillation Therapy** is a unique therapeutic treatment for rehab that is FDA-Cleared for muscle relaxation, increasing circulation, and pain relief, which are important factors in restoring function and maintaining muscle mobility. Deep oscillation therapy is felt as a gentle vibration within the tissues, which relaxes the underlying muscles, making soft tissues more pliable for manipulations aimed at increasing range of motion.

Legacy-500 Intersegmental Traction Table

The Legacy-500 is specially designed to release muscle tension and deliver a soothing massage, with three large rotating rollers that travel the back to release tension and relax tired muscles. This table's rollers are two inches wider than most, and they provide an extra two inches of travel. A thick, soft, padded top ensures patient comfort.

Standard Features:

- 30-minute timer
- Reversible massage direction
- Adjustable massage pressure
- Vibration with On-Off feature
- Automatic massage pressure lowering
- Treat specific area or full spine
- Cervical gel roll and knee bolster

Specifications:

- Electrical: 120V, 60Hz, 10 Amp.
- Weight Capacity: 400 lbs.
- One year limited warranty

Options:

- Reverse side controls
- Therapy top
- 27" over sized top

D-Core® Cervical Support Pillow

Get the proper cervical support at an economical price. The patented D-shaped center gently supports the head while lobe supports the neck, helping restore the natural curvature of the neck and upper spine. Helps relieve tension headaches, neck spasms, arthritis and snoring. Filled with 100% polyester fiber. Fits a standard pillowcase.

Product #	Description
CO-240	Standard
CO-241	Midsized
CO-821	Blue Pillowcase

Tri-Core® Cervical Support Pillow

Our most requested fiber support pillow provides better support and lasts longer than traditional pillows. The trapezoid-shaped center delivers great orthopedic benefits for back sleeping by cradling the head and allowing the built-in neck roll to firmly support the neck. The comfortable, but firm, side lobes support the head in a natural position when side sleeping.

Therapeutica®
by Core Products
INTERNATIONAL, INC.

Therapeutica® Orthopedic Sleeping Pillow  

This pillow doesn't look like what you might expect that's because it was designed by an Ergonomic Designer in consultation with a Doctor of Chiropractic.

One of the key goals to sound sleep is Spinal Alignment which can help you to be more comfortable. Because people sleep on their backs, sides, or both, this pillow was created to work for each sleeping position. The ergonomic design offers comfortable support and stability in all sleeping postures. This results in a sounder sleep and less tendency to wake with pain, stiffness and many of the symptoms resulting from lack of support.

Apex Cervical Orthosis™

Many activities in modern daily living place the head in a detrimental forward head posture. The Apex Cervical Orthosis™ is an inexpensive and convenient tool to assist the healthcare professional in restoring a patient's proper cervical posture. The Apex Cervical Orthosis counters the negative forces caused by forward posture, and works to gently reverse kyphotic attitude when used daily under the supervision of a spinal professional.

Serola Belt

The New Serola Sacroiliac Belt is designed to compress and support the sacroiliac joints, thereby relieving stress and instability at these weight bearing structures. Just as importantly, it is not so tight that is restrictive. Excess or insufficient motion can adversely affect the entire musculoskeletal system.

Core Product Belts

A Triple Action Elastic Back Support

The Triple Action Elastic Back Support features independent overlapping pulls for maximum compression, supporting weakened abdominal walls and helping to relieve lower back pain. The low profile design and durable elastic construction allow the support to move with you, making it ideal for active lifestyles.

Product #	Description	Size
CO-6064	Triple Action Support	S-XL
CO-6064	Triple Action Support	2XL
CO-6064	Triple Action Support	3XL

B Sacroiliac Spinal Support

The Sacroiliac Spinal Support eases pain by providing compression and support to the pelvic region, comfortably stabilizing the hips and SI joint. Ideal for use when SI joint dysfunction is a result of ligament injury due to repetitive activities causing muscle fatigue in the lower back.

Product #	Description	Size
CO-6143	Sacroiliac Support	S/M-L/XL
CO-6143	Sacroiliac Support	2XL

C Rib Belt Support

The male & female Rib Belt supports and stabilizes the rib cage to help lessen the pain of everyday movements and promote healing after sternum or rib injury; ideal for broken, fractured, bruised, or dislocated ribs. The latex free elastic material is soft and comfortable against the skin and female Rib Belt material contours below breasts for comfort..

Product #	Description	Size
CO-6106	Male Rib Belt Support	S/M-L/XL
CO-6107	Female Rib Belt Support	S/M-L/XL

CorFit System® LS Back Support

The CorFit System® LS Back Support provides compression to help stabilize the spine and ease lower back pain by creating intra-abdominal pressure. It also helps improve posture and serves as a reminder to use proper lifting techniques by limiting the motion of muscles and ligaments.

Our patented, proportional sizing system provides a proper fit in height and length to accommodate various body sizes. Flexible internal stays provide support and stability as well as help prevent the sides from rolling.

Product #	Description	Size
CO-7000	CorFit Back Support	XS-XL
CO-7000	CorFit Back Support	2XL
CO-7000	CorFit Back Support	3XL

3XL	52" to 64"
4XL	58" to 70"

CorFit System® Industrial LS Back Support

Ideal for lifting and industrial activities, the CorFit System® Industrial LS Back Support provides compression to help stabilize the spine and ease lower back pain by creating intra-abdominal pressure. An internal suspender holds this support in position and does not present a hazard around machinery or equipment like over the shoulder suspenders.

Product #	Description	Size
CO-7500	Industrial LS Back Support	S-XL
CO-7500	Industrial LS Back Support	2XL
CO-7500	Industrial LS Back Support	3XL

Corbak Industrial Back Support

Designed with breathable mesh fabric, the CorBak™ Industrial Back Support helps stabilize the spine to ease lower back pain by creating intra-abdominal pressure. The tear away suspenders provide safety and hold the support in place, making it convenient to close when needed. It also helps improve posture and serves as a reminder to use proper lifting techniques by limiting the motion of muscles and ligaments.

Product #	Description	Size
CO-6701	Industrial Back Support	S-XL
CO-6701	Industrial Back Support	2XL

CorFit System® Sacroiliac Support

The CorFit System® Sacroiliac Support is designed specifically to help relieve painful stress and instability of the pelvis and sacroiliac joints. Wrapping around hips and pelvic girdle, this support compresses the sacroiliac and symphysis pubis joints, creating stabilization. Ideal for ligament injury, core weakness, or abnormal SI joint alignment.

Product #	Description	Size
CO-6000	Sacroiliac Support	S-XL
CO-6000	Sacroiliac Support	2XL

Baby Hugger® Belly Lifter

The Baby Hugger® Belly Lifter Maternity Support hugs the belly to ease lower back pain and discomfort. Provides comfortable support for stretched or strained muscles and ligaments while pregnant or postpartum.

Swede-O® Adjustable Wrist Brace

Adjustable Wrist Brace provides comfortable support and compression to help relieve pain and discomfort for weak, aching, or injured wrists. By design, the palmar spoon is malleable, allowing for a custom fit based on positioning need.

Product #	Description	Size
CO-6880	Adjustable Wrist Brace	S-XL

Swede-O® Universal PowerWrap Wrist Brace

The Swede-O® PowerWrap® Wrist Brace provides comfortable support and adjustable compression to help relieve pain and discomfort for weak, aching, or injured wrists. This support reduces wrist motions which may contribute to carpal tunnel syndrome.

Product #	Description
CO-6894	Left PowerWrap Brace
CO-6895	Right PowerWrap Brace

Swede-O® Universal Wrist Wrap with Thumb Loop

The Swede-O® Universal Wrist Wrap with Thumb Loop is ideal for mild injuries and aching wrists when light support is beneficial. The adjustable wrist wrap allows for variations due to swelling and provides gentle compression to help reduce inflammation.

Product #	Description
CO-6861	Wrist Wrap

Swede-O® Reflex Wrist Support

The Swede-O® Reflex Wrist Support helps relieve pain and discomfort by providing adjustable compression for weak, aching, or injured wrists. Designed with no metal components, this product adds an element of safety by eliminating potential shock hazards while outperforming other braces with metal stays. This support helps protect the wrist and reduces motions which may contribute to carpal tunnel syndrome or other repetitive motion disorders.

Product #	Description
CO-6800-L	Wrist Support - Left - Sm-XL
CO-6800-R	Wrist Support - Right - Sm-XL

Swede-O® Strap Lok® Ankle Brace 

The Swede-O® Strap Lok® ankle brace has external figure eight straps which allow you to easily control and customize the amount of support as well as simulate professional taping. The exclusive dual eyelet lacing system is offset to create a “pulley effect”, keeping the brace tighter longer.

Product #	Description	Size
CO-6334	Strap Lok Ankle Brace	XS-2XL

Swede-O® Ankle Lok® Ankle Brace 

The original Swede-O® ankle brace is the #1 choice for ankle protection! Exclusive lacing system keeps the brace tighter longer than any other brace for long-lasting support. The lacing system features two sets of eyelets in the midsection of the brace. The offset dual eyelets create a pulley effect to give you greater leverage so you can lace the brace tighter for a more effective Ankle Lok.

Product #	Description	Size
CO-6331	Lok Ankle Brace	XS-2XL

Swede-O® Inner Lok 8® Ankle Brace 

The Swede-O® Inner Lok 8 features a patented internal figure eight strapping system that is easy to use and ensures proper strap placement. The figure eight straps provide extra support and simulates the effect of a professional taping procedure to help lock in the ankle in a protected position.

PrimeKinetix DC Tape

PrimeKinetix's DC Tape is the ultimate kinesiology tape designed specifically with chiropractors in mind. Crafted to meet the high standards of professional care, DC Tape offers dynamic support and flexibility, making it an essential tool for patient rehabilitation and performance enhancement.

Available in Bulk & Small Rolls

Product #	Description	Size
DCTAPE5MBK	Black Small Roll	2"x16.4"
DCTAPE5MBE	Beige Small Roll	2"x16.4"
DCTAPE35MBK	Black Bulk Roll	2"x114.8'
DCTAPE36MBE	Beige Bulk Roll	2"x114.8'

Dynamic Tape

Dynamic Tape is available in two strengths recognisable by their colours: beige with beige tattoo and beige with black tattoo. Common to both of these tapes is high stretch, good resistance and strong recoil. It stretches much further and does not have a rigid end point like kinesiology tapes. This design and the unique, visco-elastic properties allow it to work like a bungee cord by acting on the levers of the body aiming to provide a deceleration force, absorb load and reduce the work on injured, overloaded or fatigued tissues. It is particularly well suited to applications targeting the musculotendinous unit, functional assistance where weakness or nerve injury is present or for long multijoint applications.

TheraBand Kinesiology Tape

TheraBand XactStretch Kinesiology Tape is the secret used by Olympians, elite athletes, dedicated high school players and sports medicine professionals. Research proves kinesiology tape can help all people work better and play harder by reducing pain and providing support to sore muscles and joints. While other sports tape limits your range of motion and doesn't stretch properly with your body, TheraBand Kinesiology Tape is different. We solved one of the biggest mysteries regarding stretch on application by creating our XactStretch Technology and placing the indicators right on the tape, allowing experts and beginners to apply with the prescribed amount of stretch right for them.

RockTape Kinesiology Tape

RockTape® is the world's best kinesiology tape. It can be used to treat sports and non-sports injuries, including shin splints, plantar fasciitis, runner's knee and back pain. Rock Tape microscopically lifts the skin away from the muscle and fascia below, which decompresses the area and promotes blood flow. RockTape® is preferred by medical professionals throughout the world.

Kinesio Tex Tape

Kinesio Taping has emerged as the rehabilitative taping method within the U.S. and international communities. KT is extremely versatile in its ability to re-educate the neuromuscular system, promote lymphatic flow, reduce pain, enhance performance, prevent injury, and promote injury resolution.

SpiderTech Tape

Available in Small rolls and bulk rolls.

SpiderTech Kinesiology Tape is available for order in rolls of 2" x 16.4' per roll. Available in 4 colors – Blue, Black, Pink & Beige.

CaviWipes™

CaviWipes is a cleaner and disinfectant in one. CaviWipes are durable, nonwoven, nonabrasive towelettes that offer quick, easy-to-use, time-saving convenience. They're recommended for use on non-porous surfaces and fixtures.

CaviWipes is ideal for operating rooms, surgical centers, neonatal units, medical and dental operatories and other critical-care areas.

Product #	Description
OSHA-100	Caviwipes Tub
OSHA-150	Caviwipes Tub Case of 12

Protex Disinfectant Cleaner

A one-step cleaner/disinfectant, effective against a broad spectrum of pathogens, including MRSA, HIV, Staph and many others. Used for disinfecting ultrasound transducers, probes, mammography-compressor plates. Also for use on vinyl exam tables and athletic mats, counter tops, exercise equipment and other hard nonporous, non-critical surfaces.

Product #	Description	Net Wt.
PROTEX4212	Protex Spray	12oz
PROTEX4232	Protex Trigger Spray	32oz
PROTEX4228	Protex Refill Bottle	1gal
PROTEX4870	Protex Wipes 75ct.

The Chiropractor's Choice

BakBalls

BakBalls® are an affordable self-treatment device for back pain and stiffness. If you prefer a mild to moderate pressure in a massage or have a particularly tight back, are a bit more sensitive, or are in your older years, the Red REGULAR BakBall is the first device you should use. Designed by a sport physiotherapist to relieve pain and tightness in tense back, shoulders, ITBs and plantar fascia. Ideal to use at home or in the office.

Product #	Description	Color
BAKBALLSREG	BakBall - Standard	Red
BAKBALLSFIRM	BakBall - Firm	Black

Foam Rollers

Round rollers can be used as a progressive exercise system, ranging from easier to more difficult. Half-size roller is ideal for ankle stretching and knee rehabilitation, and can be used as a balance board. Can be used in conjunction with other exercise products, such as fitness balls, weights, tubing and bands.

Product #	Description	Size	Color
PED100636	Foam Roller	6"x36"	Black

THER-26102	25lbs - Blue

ProStretch Sports Therapy

Formulated to exercise either one leg at a time or both legs simultaneously the ProStretch has proven to stretch the leg muscles easier than far more effectively than conventional methods.

Product #	Description
EX-PRO100	ProStretch Single
EX-PRO200	ProStretch Double

Vestibular Disc

Use on the floor as standing disc. Mimics both the movement and shape of the inflatable ball when used on any seat.

Product #	Description
EX-500	Vestibular Disc

Thera-Band CLX - Consecutive Loops

Based on 7 years of clinical research and innovation, the TheraBand® CLX™ Resistance Band combines versatility, evidence, speed, and inspiration into one pocket-sized product. This patented exercise tool links a continuous and connected series of resistive loops, creating an ultra-portable, intuitive tool that can quickly be adjusted to perform a seemingly endless array of exercises. The resistance supercharges existing exercises and introduces new possibilities, many of which work the upper and lower body in concert for maximum impact and the design interfaces more comfortably with the human body.

Wartenberg Pinwheel

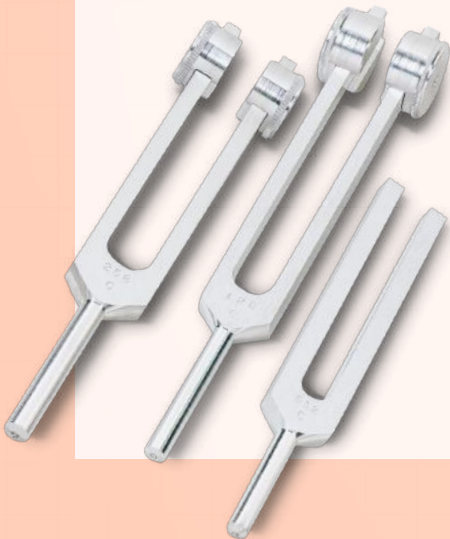

The Wartenberg Test Pinwheel is a neurological testing device used to gauge nerve reactions when rolled against the skin. Constructed out of a 7" stainless steel handle with a wheel of evenly spaced sharp pins called the spur, this device is used to test the extent of neurological damage, and to ensure nervous system communication after surgery.

Disposable Clean Wheels

The patented CLEANWHEEL is fully assembled, sterile and latex free to protect against cross-infection. Developed in compliance with OSHA™ Bloodborn Pathogen Standard. The disposable CLEANWHEEL has its place right next to the tongue blades in every exam room.

Product #	Description
CS-DPIN-100	Wartenberg Pinwheel
CS-DWN-200	Disposable Pinwheel - 36/pk

Tuning Forks

Medical diagnostic equipment package for the measurement of hearing and vibratory sensation.
