Hi! My name is Code Enforcement Officer Cora and today we are going to learn about Code Enforcement.

We work in the City, and people call us when they need help keeping their neighborhoods clean and safe.

When Code Enforcement Officers go out they have to have the right equipment! Can you figure out what is needed before going out?

We visit
neighborhoods and
help solve
problems. We as
officers have to
know many laws.

ZONE

When we go check houses we have to take photos. This helps us remember what we see. Here we checked tall grass.

Sometimes we check for trash
or trash cans being left out.

Sometimes people dump
things on the sidewalk!

Sometimes we have to talk to owners
who keep loud pets like roosters.

Sometimes people store
things in their yard.
Sometimes it's just trash.

One of our jobs is to make sure people working in your home have permits. Permits allow the City to make sure work is done safely.
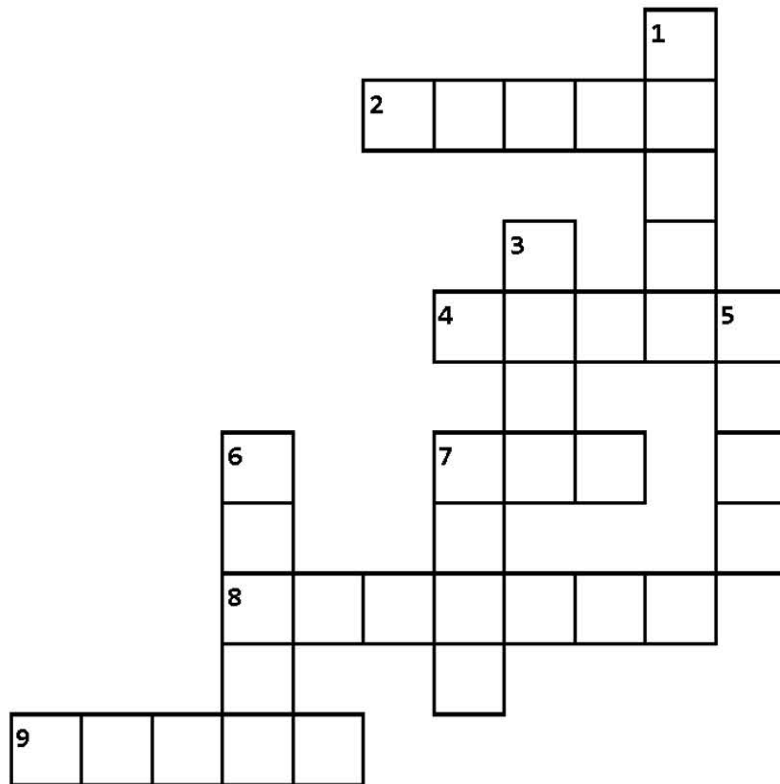

Sometimes a house may have way too many pets.

Sometimes a car never gets fixed and stored in the driveway.

Code Enforcement

Across

2. Something you drink

4. Thing that bulbs create

7. Animal

8. Place you live

9. Loud sounds

Down

1. Items you throw away

3. Thing that burns

5. Grows from a seed

6. Thing that needs to be mowed

7. Place where you go to play

Sometimes we have to visit stores because someone painted graffiti on the wall.
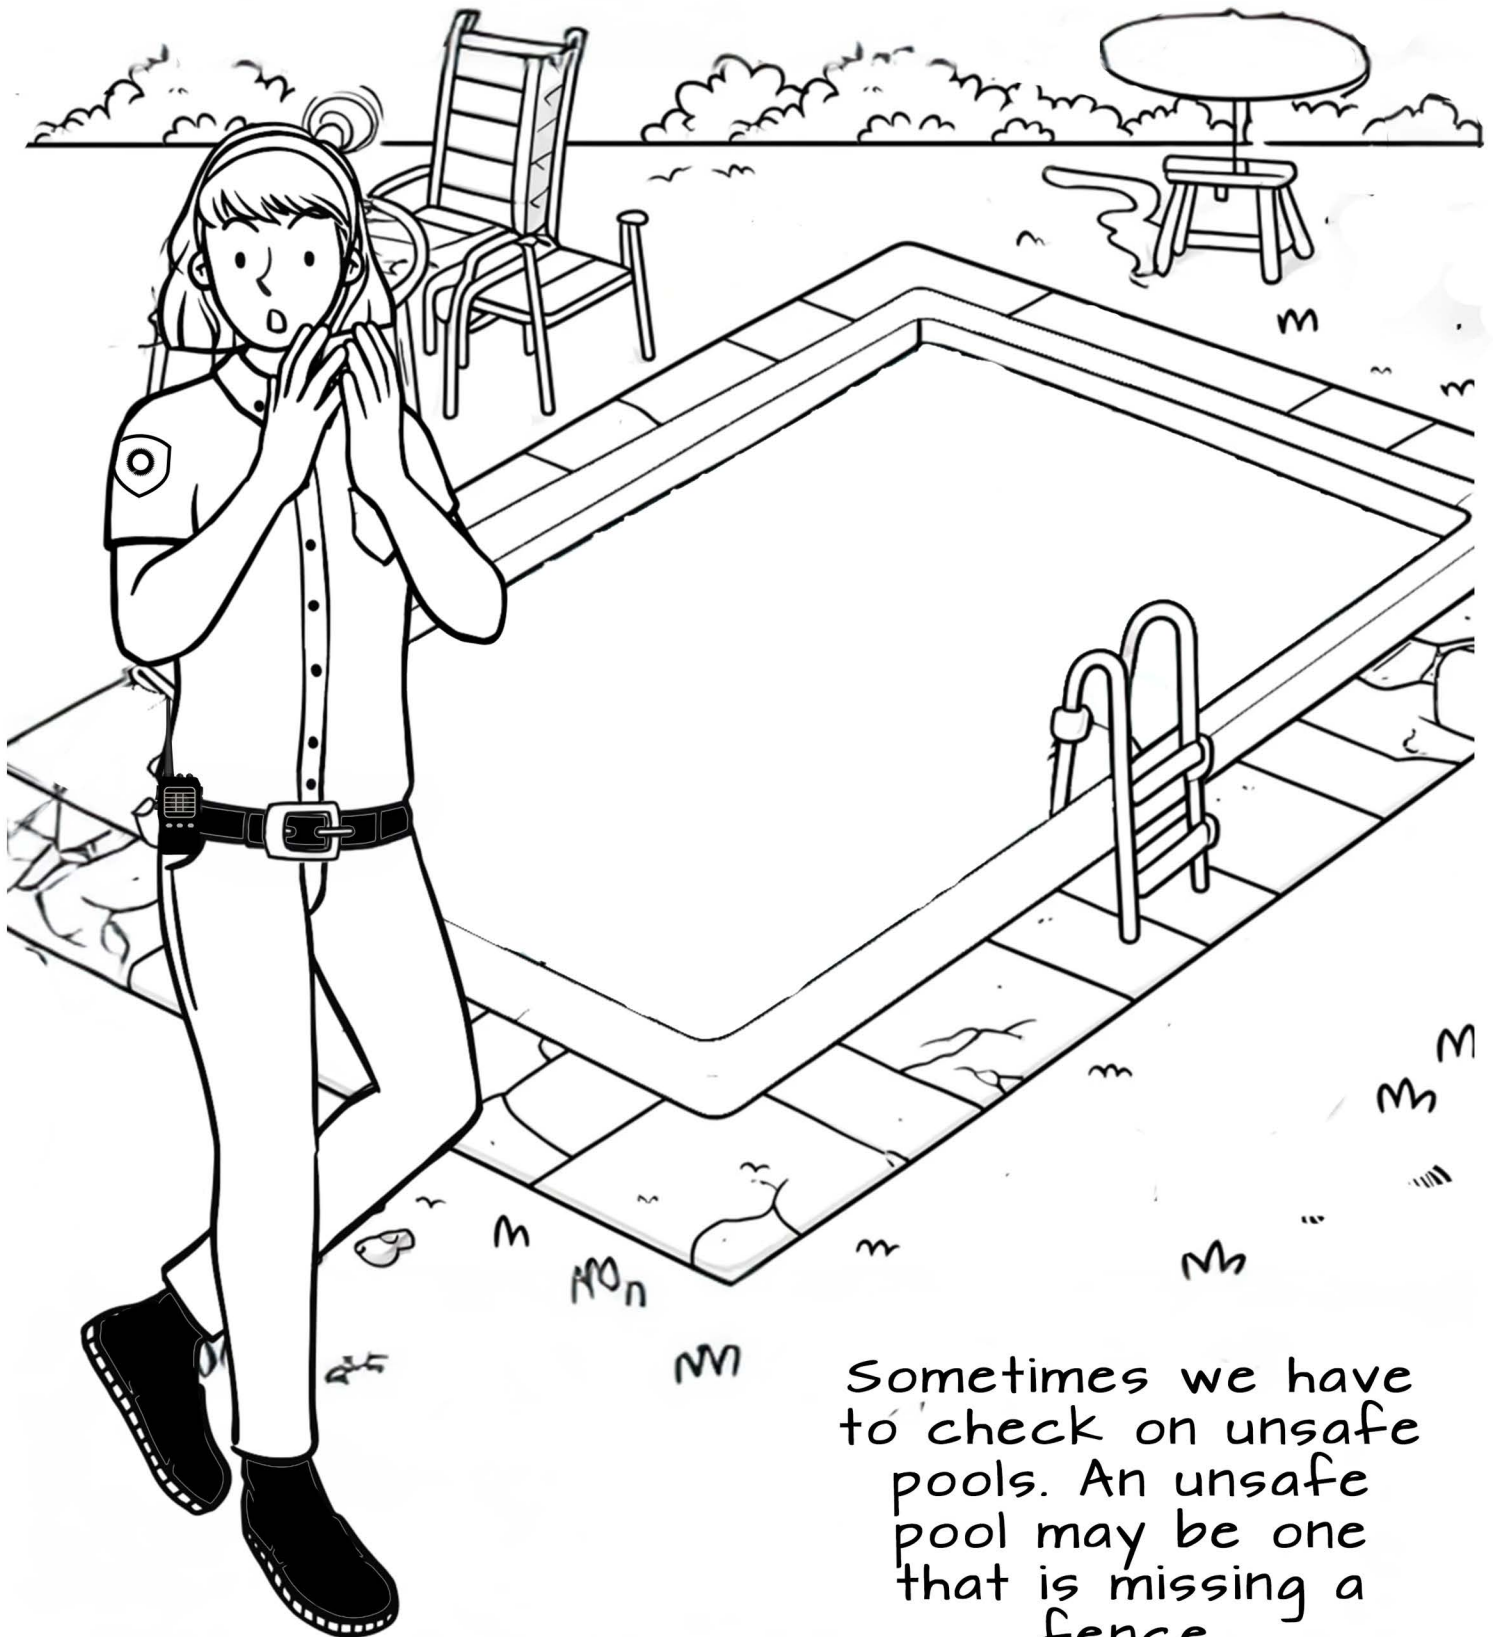

Sometimes we have to check on unsafe pools. An unsafe pool may be one that is missing a fence.

We have so many jobs to do in Code Enforcement and we are always looking for kind people to help solve problems. We hope you will join us one day!

When Code Enforcement Officers go out they have to have the right equipment! Can you figure out what is needed before going out?

To my fellow Code Enforcement Officers who make our communities a better place to live and to all the future Code Enforcement Officers who get to learn about this great career that helps people everyday.

Thank you for letting us be of service to our communities! .

Thank you 4LEAF, Inc. for your contributions in putting this together.
