Duplex just got better. This is the latest and greatest in a product that I've enjoyed for a while. Small and powerful, fits perfect in my pocket and is great when a little discretion is needed.

Amazing device! I love the size and look of the Brink. It has a half gram bowl I pack full every time. It hits smooth, and gets the job done. Easy to clear.

“

As a vaporizer reviewer, I have every vape you can think of. Some of my heavy rotators are - Mighty and Crafty+, Pax Plus, Tinymight 2, which I have a review coming soon, and the DaVinci IQ2 Carbon Fiber version. Some of these vapes cost triple the price of the Ooze. So the fact that this vape made it into my "frequently used vapes" means a lot.

Awesome dabs The booster is by far my favorite way to dab. Super clean hits and the battery lasts forever! Definitely gotta have some of these replacements on hand just incase!

KING PALM<sup>®</sup>

THERE IS ONLY

ONE KING  
OF PALM

**King Palm is always our first recommendation for rolling supplies and tobacco-free options.**

King Palm was the very first brand to produce natural palm leaf tubes, and they remain the best in the game; any other palm leaf tube is a knockoff of King Palm. This rolling brand sells over 1.5 million pouches each and every month! Buy with confidence that these products will turn and won't just take up space on the shelf.

**These are hot sellers, and King Palm is constantly releasing new products to keep customers returning.** Customers love the huge variety of squeeze and pop flavors because the flavor bead sits in the filter, and isn't burned with the leaf. King Palm offers a huge variety of products, from leaf tubes, to hemp cones, to all types of different smoking accessories. Use this trusted brand to fill in any gaps!

# FLAVORS THAT

Pre-rolled cones have become one of the hottest selling categories over the past year, and Pop Cones are our favorite flavored option! They offer personal cone packs as well as bulk options, so everyone can add a POP of flavor to their smoke.

Pop Cones feature slick, eye-catching packaging that stands out on the shelf. The quality of these cones is consistent and reliable. Customers love that they can activate the flavor by squeezing and popping the filter, which means there are no weird additives burning with the paper.
