

# 3D Visualization

Showcasing the elegance and  
essence of interior design in  
3D

EV

EIDER VILLARDON

# From concept to reality

Welcome to my work! Experience the heart behind every design.

Every space is unique. Each project is carefully imagined to reflect its purpose, personality, and the story it wants to tell. From light and materials to atmosphere and detail, I craft each interior and architectural design to convey its essence and create an experience that resonates.

# This is my history

From the very beginning, this project has been driven by a passion for interior design. Today, it brings ideas to life as real spaces through high-quality 3D visualizations.

Its approach combines elegance, attention to detail, and functionality, creating environments that reflect style and personality, designed for those seeking carefully crafted, exclusive, and contemporary design.

# Our Vision

To accompany each client on the journey of bringing their vision to life, creating interiors that reflect their style and personality through high-quality 3D visualizations.

## What I Do

- **Custom 3D Renders:** High-end visualizations of interiors and architecture.
- **Virtual Staging:** Quick and efficient solutions for real estate presentations.

# Our Mission

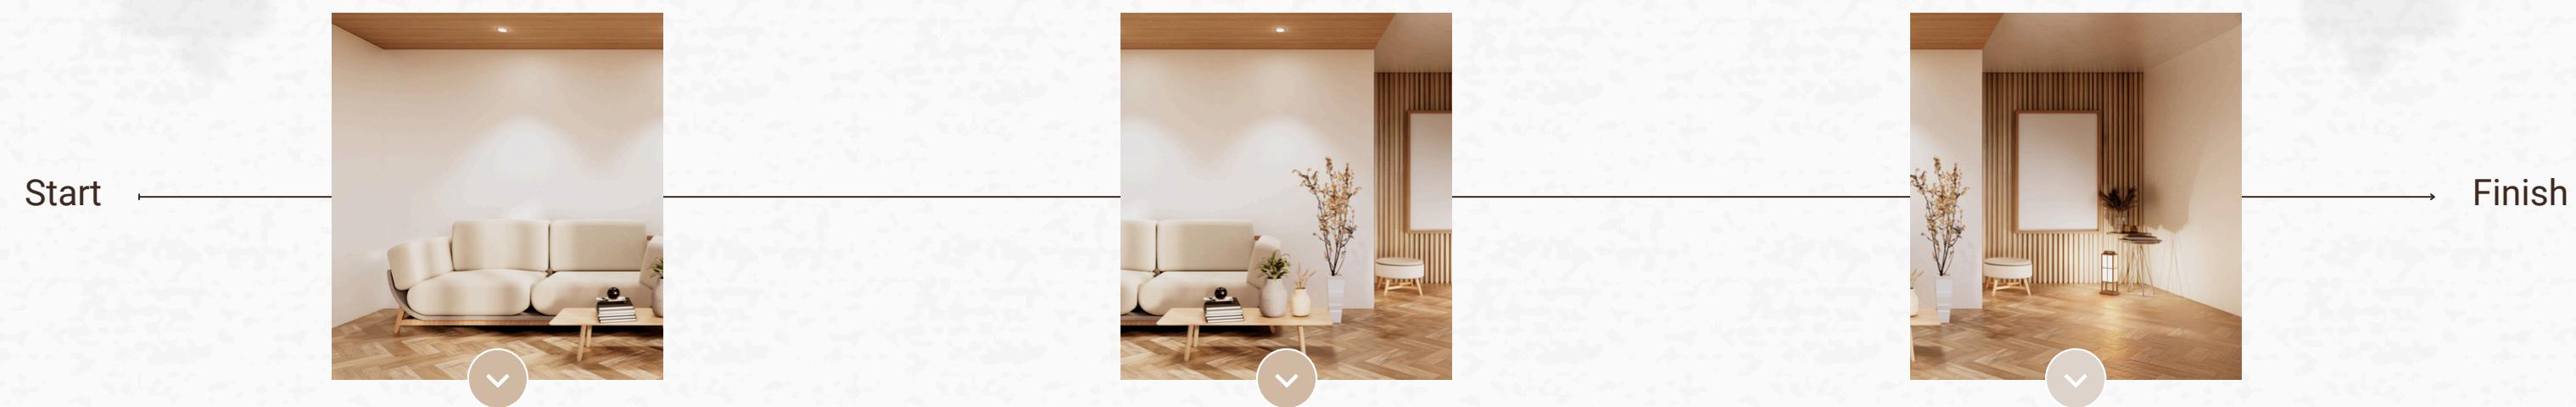

To create ultra-realistic 3D renders that communicate our clients' vision, helping them showcase, sell, and promote their spaces efficiently.

## What I Do

- Talk with clients to understand their vision and goals.
- Model spaces in 3D with accurate layouts.
- Apply textures, materials, and lighting for realism.
- Render high-quality photorealistic images.
- Refine visuals based on feedback to ensure satisfaction.

# Our Timeline

## Phase 01: Briefing

We start by understanding your goals, style, and vision. Through discussion and references, we define the story each space should communicate and the desired outcomes.

## Phase 02: Modeling & Rendering

We transform ideas into fully realized 3D models, applying accurate layouts, textures, materials, and lighting. The result is high-quality renders that convey realism and atmosphere.

## Phase 03: Refinement

We review the renders together, incorporating your feedback to adjust details, lighting, and materials. The final images are polished, aligned with your vision, and ready for presentation.

# Hello, I'm Eider

3D artist

I'm passionate about interior design and the art of telling stories through spaces. For over three years, I've been designing and rendering interiors that capture personality, mood, and atmosphere, turning ideas into immersive experiences that inspire and engage.

- 3D modeling.
- Shading & texturing.
- Lighting and rendering.

# My last works

Here's a selection of some of my latest works. A curated showcase of 3D visualizations and interior design renders that highlight my approach, attention to detail, and dedication to creating immersive spaces.

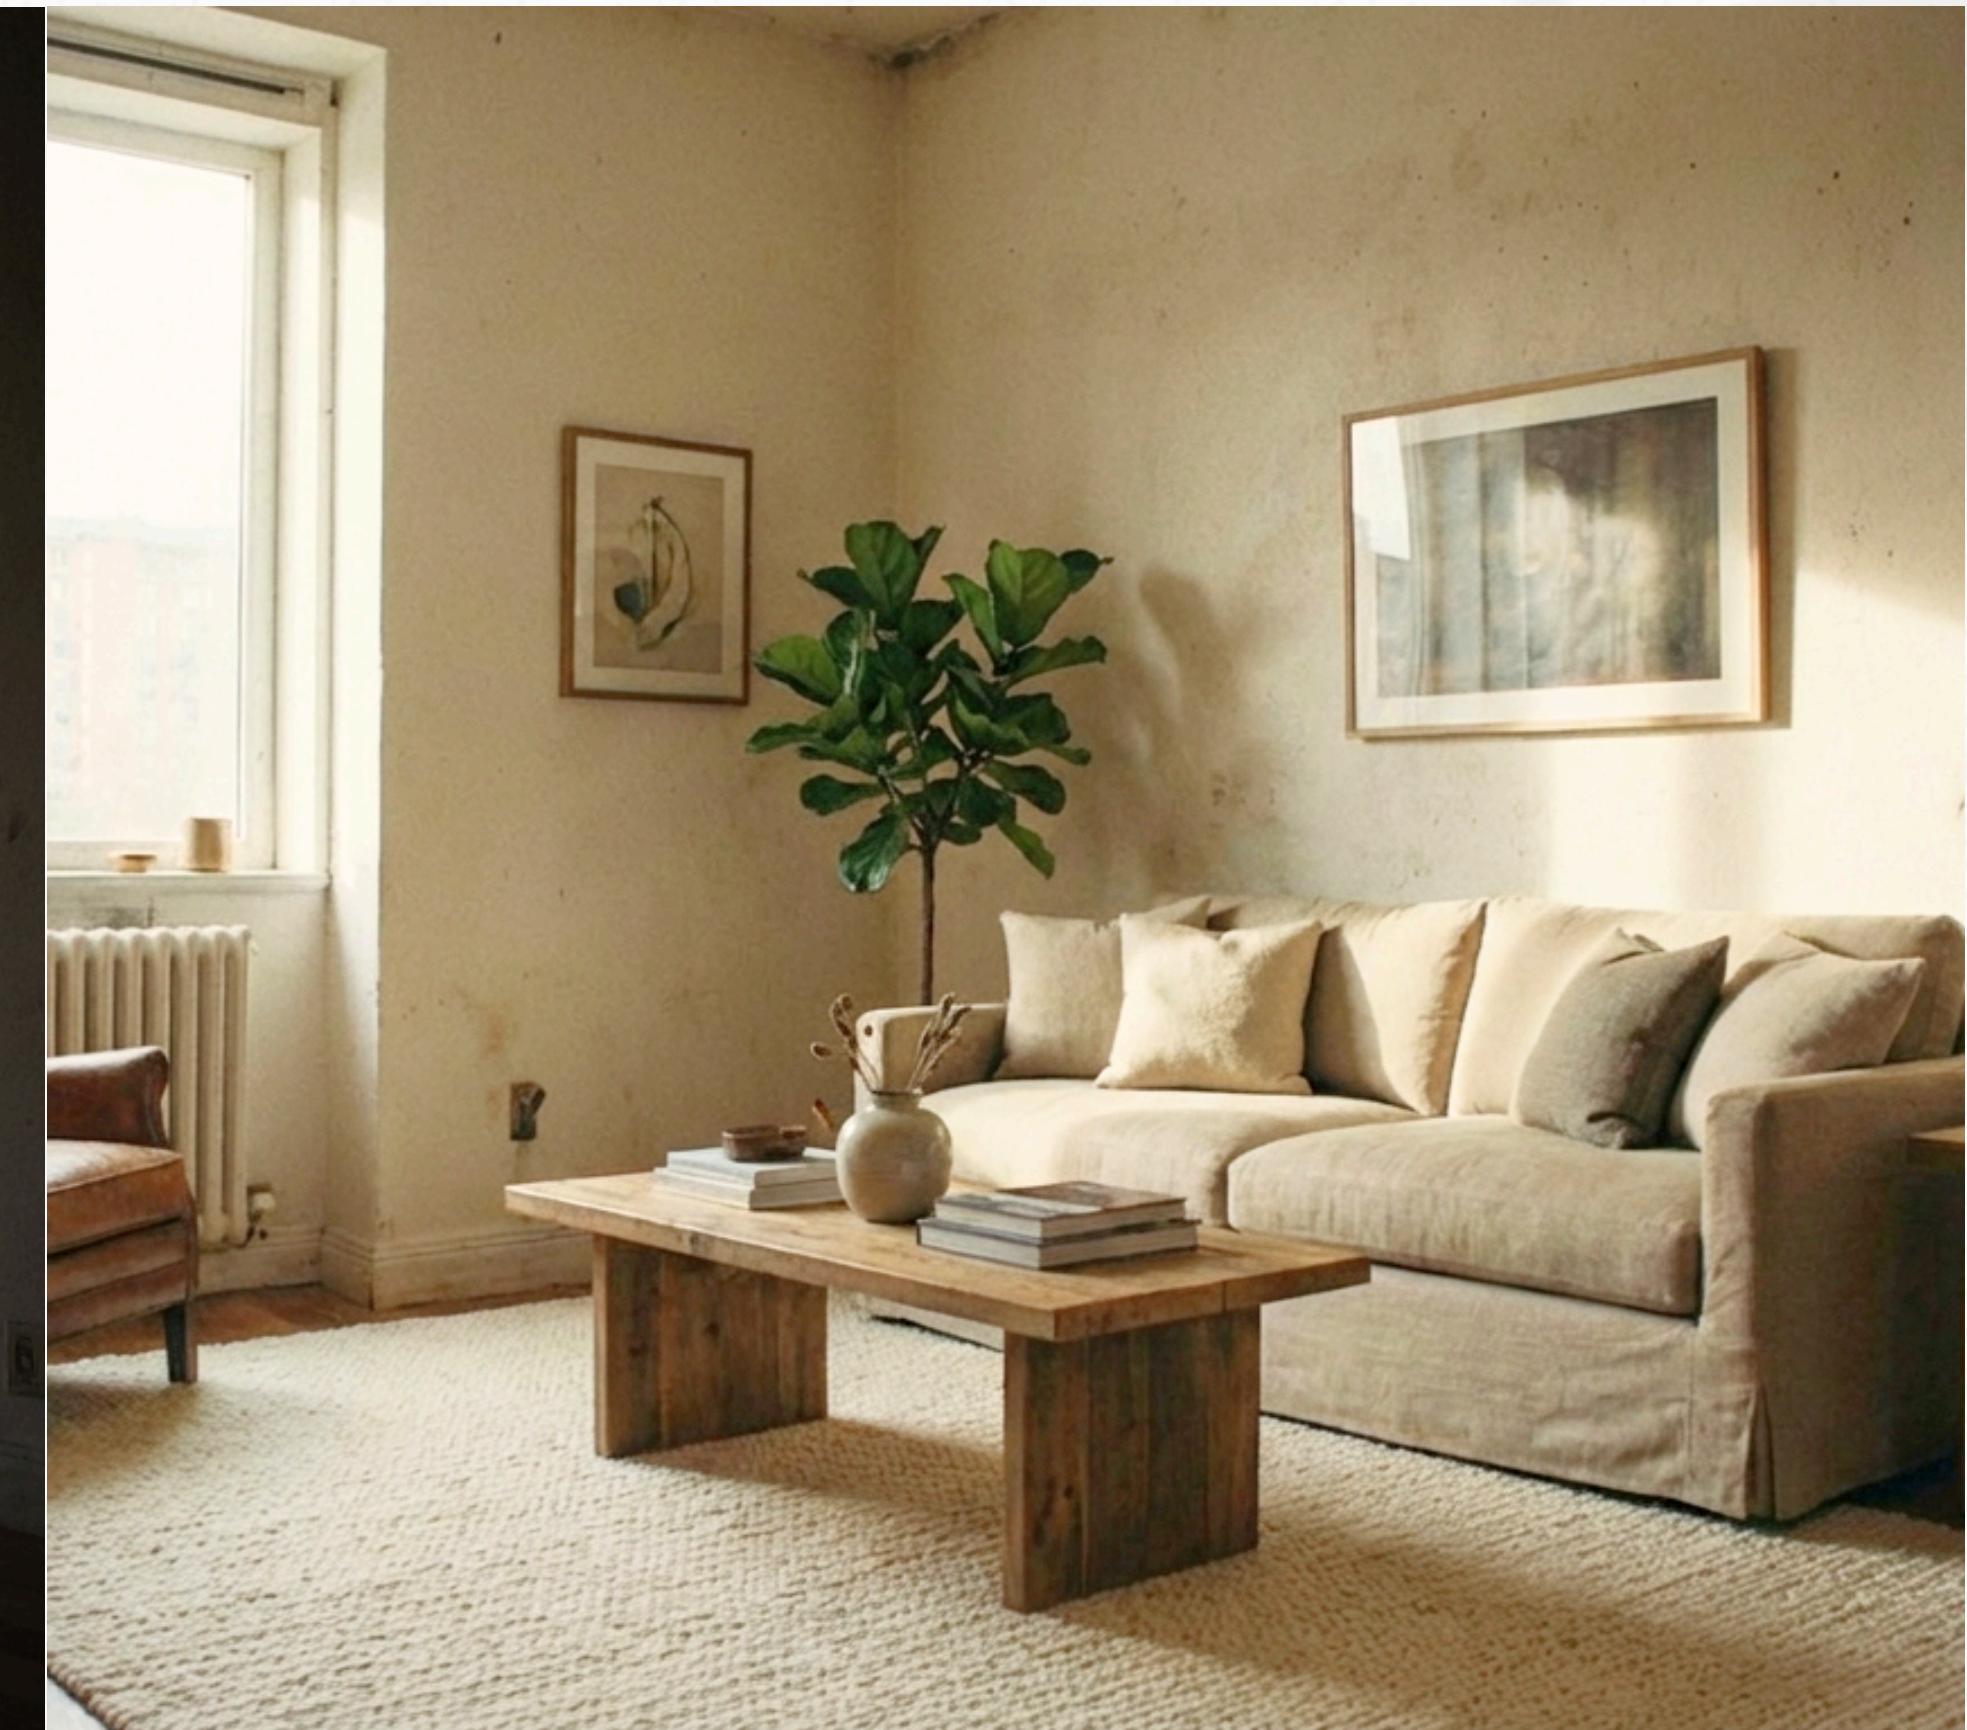

# Virtual staging works

Show properties at their best, without the cost or time of physical staging. Virtual Staging delivers realistic 3D interiors that engage buyers and enhance marketing efforts
