エロと混沌のための最強ビジュアルノベルRPG

OTACHAN! RPG

The girls of otakuversus are back! Join Otachan, Kon, Cam, and the totally not suspicious GM "NPChan" as they stumble, bicker, and thirst their way through a tabletop RPG filled with riddle-spouting skeletons, slime girls, busty lamias, and the dreaded (and nearly nude) Necromancer.

It's the first official visual novel from Studio Otakuversus (thank god for Ren'Py, ey), complete with uncensored booba event CGs, branching endings, and just enough plot to justify playing with one hand ■

THE MAIN EVENT (CG)!

This special edition includes 20+ full-color, high-resolution lewd event CGs, lovingly drawn by the extremely overworked (and slightly concerned) Otakuversus art team.

We're talking boobs, bondage, bad decisions, and the kind of "camera angles" that would get us kicked off Steam—all presented with zero censorship and maximum effort ■

エロと混沌のた... アルノベルRPGマガジン

UNCENSORED & UNHINGED!

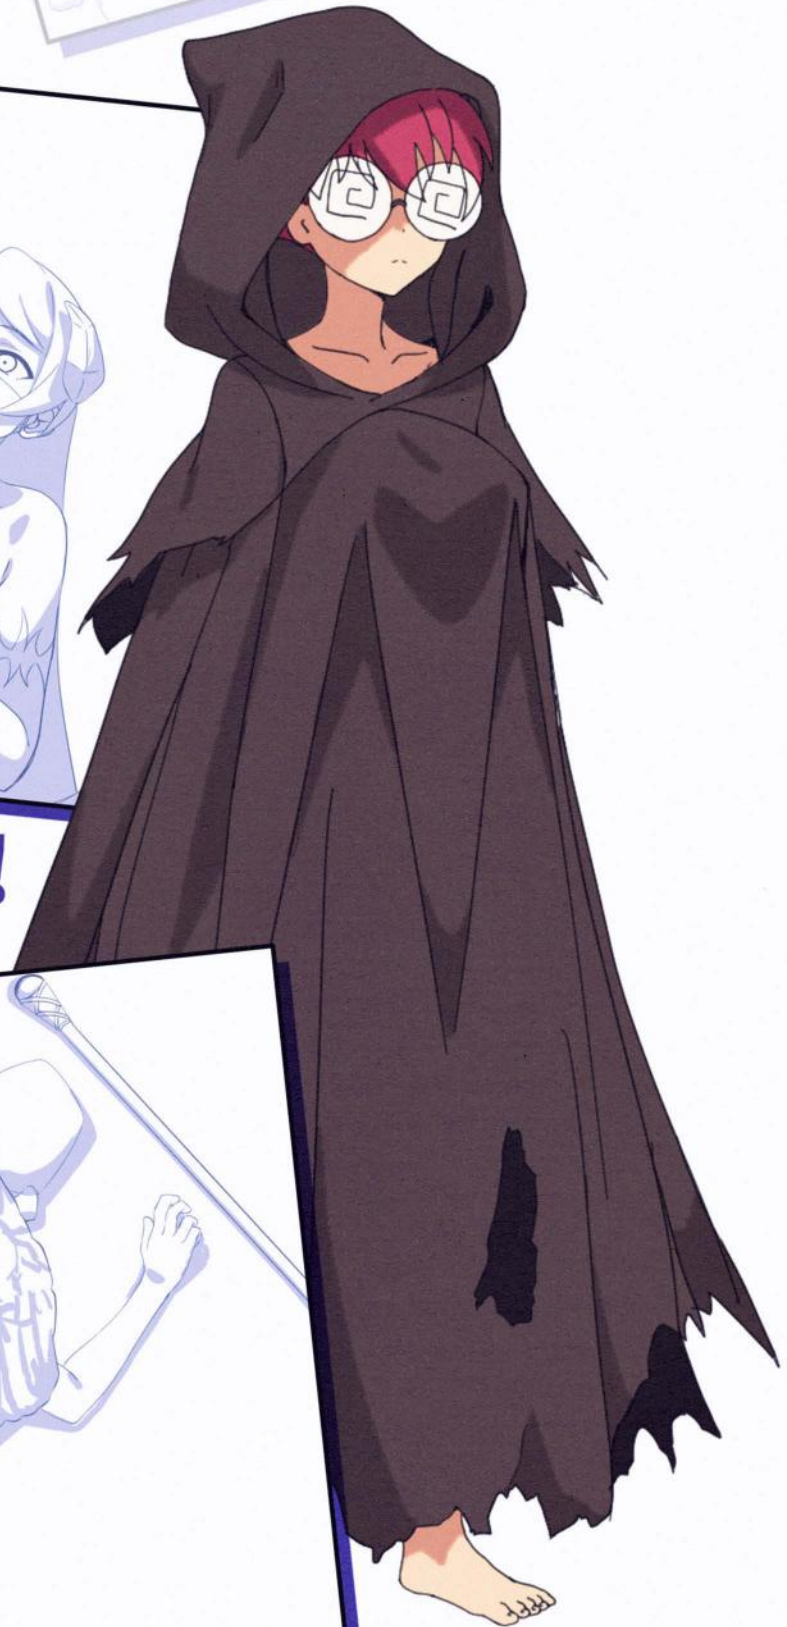

That's right! For all you Luck H-tier degenerates out there, you're getting the uncensored, unhinged, and unapologetically unnecessary version of Otachan! RPG!

It's smut. It's story. It's stupid. And somehow, it's kind of beautiful. Thanks for supporting our descent into madness. More soon (probably) ■

おたくでR18

FULL COLOR, FULL CHAOS

Unlock different endings, ridiculous scenarios, and “emotionally compromising” situations with the entire cast as you spiral deeper into dungeon depravity. All tied together with an actually kinda compelling story that we re now legally obligated to call “Chapter One” of our new lewd alternate timeline. More chapters coming soon ■
