LEISEGANG OptiK® Model 2

Optimized Digital Imagery Paired with Exceptional Optics

LEISEGANG celebrates more than 60 years as a world leader in colposcope design and production, recognized for German precision, clarity and durability. The Colposcopes of OptiK Model 2 series are Leisegang's popular Digital/Photo colposcopes with precision fine adjustments in horizontal and vertical direction, high performance optics and LED lighting. Specially selected, hand-polished and hand-set glass optics are used in all LEISEGANG OptiK colposcopes. The optical brilliance achieved through our precision manufacturing process is unparalleled.

FEATURES

- OptiK scope head with convergent optical beams
- Par-focal, 3-step magnification (3.75x, 7.5x, 15x)
- Bright, white, energy-efficient Light-Emitting Diode (LED) light, stable color spectrum (similar to daylight) provides highly improved contrast and better clarity
- LED life > 20,000 hours or 20 years¹ for lasting performance
- Independently adjustable oculars and diopters
- Measurement reticules for quick lesion size assessment
- Gross/fine focus and height adjustment
- EMR compatibility - captures jpgs to add to EMR system

LEEP PRECISION™ Integrated System

Office Diagnostics and Procedures

The preferred choice for functionality, performance & precision for Loop Electrosurgical Excision Procedures.

The LEEP PRECISION™ Integrated System has been designed to meet the unique requirements of the clinic and practice-based facility. Fully integrated and mobile, the LEEP PRECISION Integrated System combines three components – LEEP PRECISION Cart, LEEP PRECISION Generator, and the LEEP PRECISION Smoke Evacuator – for maximum efficiency.

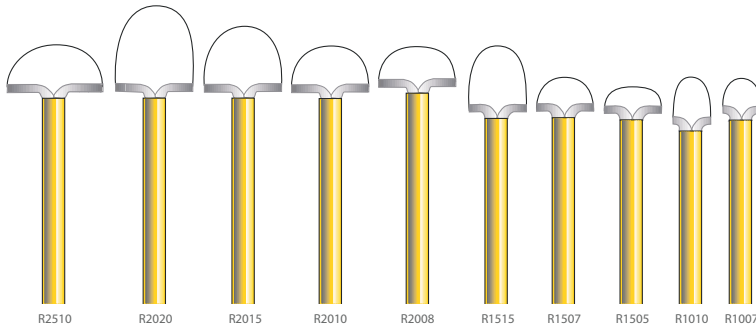

FEATURES

- Hand or foot activation for operating precision
- Smoke evacuator eliminates odor at 99.999 percent efficiency level
- Fully integrated LEEP station with storage
- Safe and easy to operate
- Heavy-duty casters facilitate mobility
- Elegantly designed for the modern procedure room

LEEP Electrodes

Tungsten wire electrodes provide exceptional quality & performance. Includes various sizes of loops, square, balls & needle tips specifically designed for loop electrosurgical excision procedures.

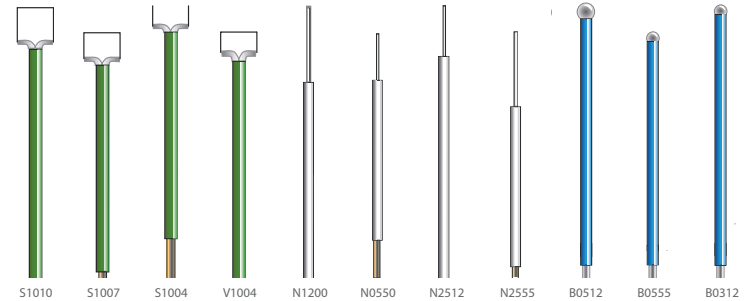

Large-Radius Loop Electrodes ≥ 2 cm Wide

NUMBER	DESCRIPTION
R2510	2.5 cm W x 1.0 cm D • 12 cm shaft
R2020	2.0 cm W x 2.0 cm D • 12 cm shaft
R2015	2.0 cm W x 1.5 cm D • 12 cm shaft
R2010	2.0 cm W x 1.0 cm D • 12 cm shaft
R2008	2.0 cm W x 0.8 cm D • 12 cm shaft

Medium-Radius Loop Electrodes <2 cm Wide

NUMBER	DESCRIPTION
R1515	1.5 cm W x 1.5 cm D • 12 cm shaft
R1507	1.5 cm W x 0.7 cm D • 12 cm shaft
R1505	1.5 cm W x 0.5 cm D • 12 cm shaft
R1010	1.0 cm W x 1.0 cm D • 12 cm shaft
R1007	1.0 cm W x 0.7 cm D • 12 cm shaft

Square Electrodes

NUMBER	DESCRIPTION
S1010	1.0 cm W x 1.0 cm D 12 cm shaft
S1007	1.0 cm W x 0.7 cm D 5.5 cm shaft 15° bend
S1004	1.0 cm W x 0.4 cm D 5.5 cm shaft 15° bend
V1004	1.0 cm W x 0.4 cm D 8 cm shaft

Needle Electrodes

NUMBER	DESCRIPTION
N1200	0.8 mm D x 16 mm 12 cm shaft
N0550	0.8 mm D x 16 mm 5.5 cm shaft
N2512	0.25 mm D x 8 mm 12 cm shaft
N2555	0.25 mm D x 5 mm 5.5 cm shaft

Ball Electrodes

NUMBER	DESCRIPTION
B0512	5 mm D 12 cm shaft
B0555	5 mm D 5.5 cm shaft
B0312	3 mm D 12 cm shaft

LEEP System Accessories & Instruments

Includes all consumables needed for safe & effective electrosurgical conductance as well as for efficient smoke evacuation.

Handpiece, Single-Patient Use

- The sterile, single-patient use handpiece works with any of our disposable electrodes. The wand is operated with a footswitch.

Return Pad, Single-Patient Use

- Non-sterile patient return pads.

Tubing Set, Single-Patient Use

- Each set includes 6 feet of sterile disposable tubing and a DSE (Disposable Smoke Evacuator) tube. This set completes the connection between the reducer and the specula.

Euro-Med® LEEP Instruments

A range of nonconductive, fully autoclavable specula offered in a variety of styles to facilitate cervical tissue excision & removal.

Graves LEEP Specula

The Graves LEEP Specula is designed for electrosurgical applications. Also features integrated smoke tube. Available in three sizes.

Small	W16 mm L84 mm
Medium	W22 mm L114 mm
Large	W26 mm L121 mm

Pederson LEEP Specula

Designed specifically for electrosurgical applications, the narrow blades of the Pederson are more comfortable for smaller patients or those with a narrow vaginal canal.

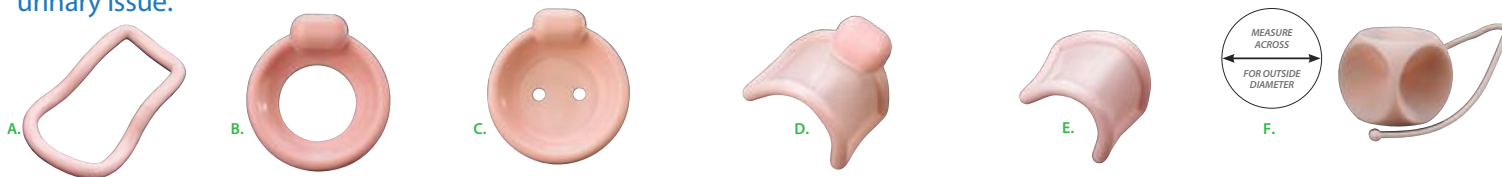

Small	W13 mm L81 mm
Medium	W22 mm L114 mm
Large	W25 mm L120 mm

Milex® Pessaries for Prolapse & Incontinence

Provides a nonsurgical, noninvasive solution for assessing or resolving pelvic organ prolapse & stress incontinence. These silicone devices are available in a wide variety of configurations to provide an optimal fit to meet the specific gynecological & urinary issue.

A. Hodge

For stress urinary incontinence for a woman who has a very small vaginal introitus.

B. Incontinence Dish

For stress urinary incontinence with mild prolapse.

C. Incontinence Dish w/Support

For stress urinary incontinence with mild prolapse and a mild cystocele.

D. Gehrung with Knob/Folding

For cystocele with or without mild rectocele complicated by stress urinary incontinence.

E. Gehrung/Folding Support for cystocele and rectocele.

It is also more adaptable in cases of procidentia where the uterus tends to herniate when other pessaries are used.

F. Cube

Support for 3rd degree prolapse/procidentia. Should be removed nightly.

Endocell® Disposable Endometrial Cell Sampler

The Endometrial Cell Sampler is a single-use, sterile, disposable plastic device designed to extract sample tissue from the uterine mucosal lining, or to extract a sample of uterine menstrual content, for histological examination.
