# CRAFTING EXCELLENCE WITH CARE & COMMITMENT.

“

At Duralock, we focus on delivering quality over quantity, working on a select number of projects each year to ensure excellence in every detail.

Our core values of sustainability, craftsmanship, and community have guided us for decades. As a family-owned business, we pride ourselves on forming close, lasting relationships with our clients, delivering bespoke solutions tailored to their needs.

Every piece of Duralock fencing is meticulously crafted in our workshop in Chipping Norton, Oxfordshire. Built to last, our products reflect the exceptional quality and care that define the Duralock brand.

# ABOUT DURALOCK.

Duralock is a world-leading manufacturer of high-performance PVCu fencing, specialising in the equestrian sports & racing industry. As a global supplier of the highest quality PVCu fencing, we use our long-term experience to provide you with a tailored service and beautiful products, from the drawing board to installation and beyond.

For more than 30 years equestrian facilities, studfarms, racecourses, private and also public property owners trust in the quality "Made in Britain".

All fencing systems meet high safety standards with smooth, rounded surfaces and concealed fixings to protect horses and riders. The systems are also durable, easy to install and have built-in UV protection with a 15-years-warranty. From equestrian and sporting grounds to commercial venues and largescale events, every fencing solution we create is designed with reliability, opulence, and safety at its core.

Duralock is extremely proud to have been involved with prestigious events across the globe, including the World Modern Pentathlon, Rolex Three Day Event, World Equestrian Games, GCT Events and several Olympic Games.

Duralock is delighted to have a number of world-class facilities on our client list. Due to its safe, durable and attractive design, Duralock Performance Fencing can be found at the vast majority of the World's leading racecourses and equestrian facilities. They are made in accordance with the regulations of BHA, France Galop and FEI. We understand the importance of investing in both excellence and aesthetics.

With Duralock, your fencing experience will always be sustainable, authentic, and created with outstanding quality materials, so you can operate your venues with confidence.

We are proud to supply fencing to 50+ countries worldwide. Our growing client list along with our esteemed partners are testament to the high-quality product and service we provide.

We are able to fulfil lots of special wishes regarding design and dimensions of our different fencing systems to find a perfect and safe solution for our clients.

# WHERE WE ARE.

We've been perfecting our craft and earning your trust for three decades. From a small workshop deep in the English countryside, Duralock has grown into a global industry leader, with clients on all continents.

When the 300-year-old Ascot Racecourse reinvented itself, we were there. When Italy's Inter Milan football club needed new pitch barriers, they partnered with us. 5000 miles away, the Korean Racing Authority has relied on us for over 20 years, prizing the peace of mind that comes with "Made in Britain" quality. From the desert sands of the Al Shahaniya camel racetrack in Doha to the Hollywood razzle-dazzle of California's Santa Anita Park. Or from a royal regatta to a modern shopping mall, our partners pick us for many reasons.

As a family-run business, the three we're most proud of are:

- quality
- customer service
- safety and sustainability.

We led the way as the international horse racing industry moved away from metal or wood barriers towards safer PVCu fencing. Now, we're showing it's possible to build beautiful fences – backed by our 15-year warranty – using recycled materials.

We're exploring new frontiers and spreading our global footprint. But some things will never change. Like our Duralock stamp of quality. And our core commitment to you: whether you buy five or fifty thousand metres of fencing, if you give us your trust, we'll treat you like family.

HICKSTEAD

# OUR PROCESS.

Our CAD and 3D modelling capabilities mean that Duralock can work closely with clients, architects, and contractors from the outset to turn concepts into a reality. We are proud to offer a full turnkey service from drawings and concept designs to installation and after care. Our award-winning in-house technical team work on client projects across all stages of development.

## CONSULT

Duralock have an in-house team of consultants and technicians who are able to advise and support throughout your project.

## DESIGN

With a wide project range available we are able to design a package to suit your individual requirements.

## SUPPLY

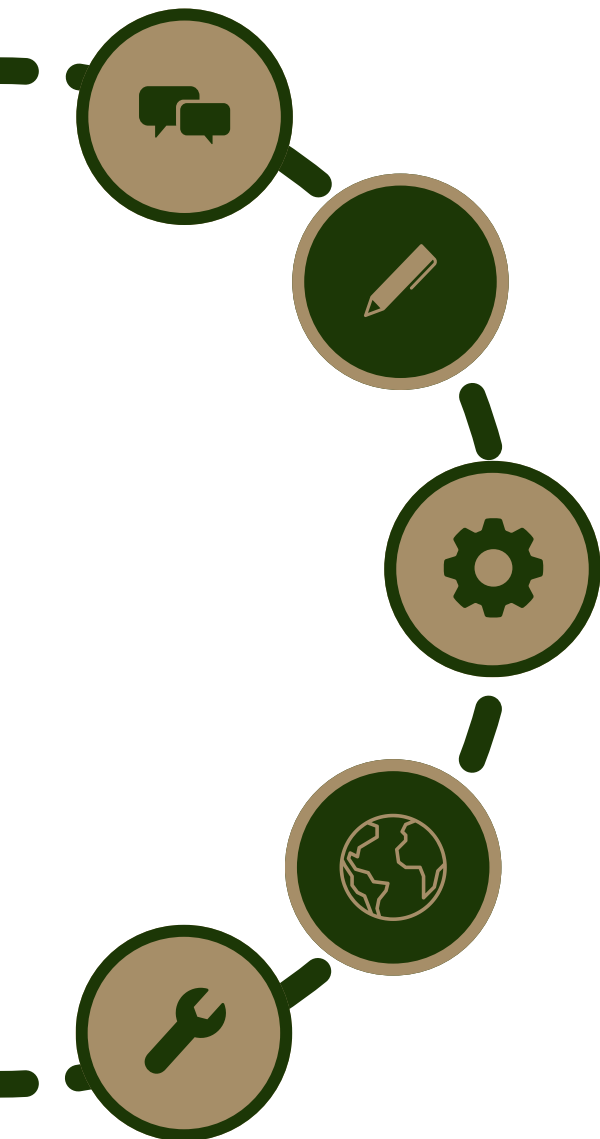

We are proud that all of our products are handmade in Britain.

## SHIP

Our logistics team have the experience of shipping in mainland UK and globally.

## INSTALL

We have both an in-house installation team, as well as a large number of accredited installers worldwide.

# TECHNICAL CAPABILITIES.

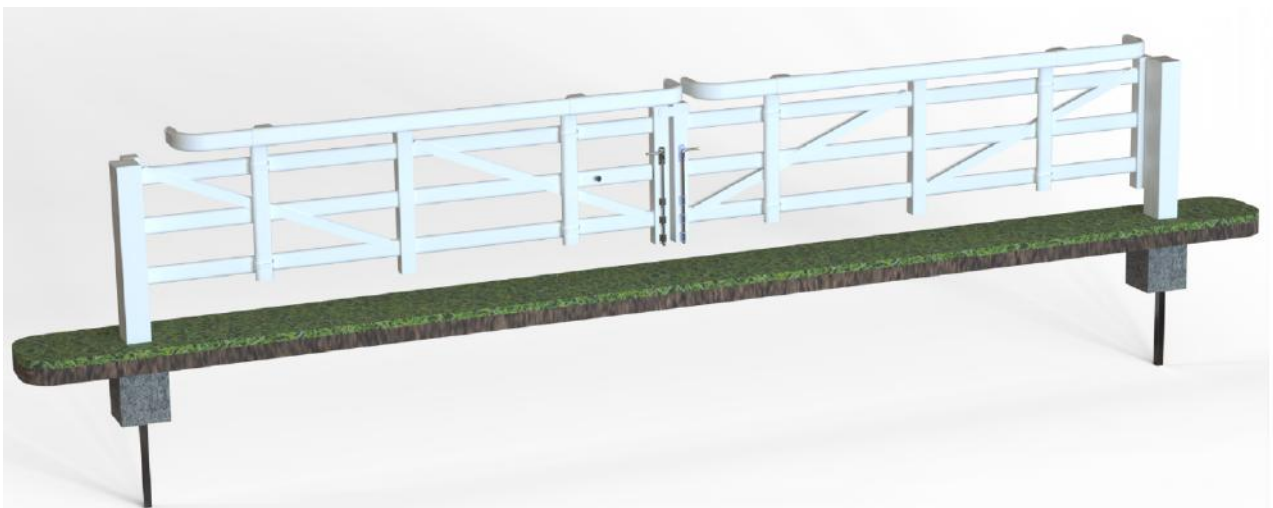

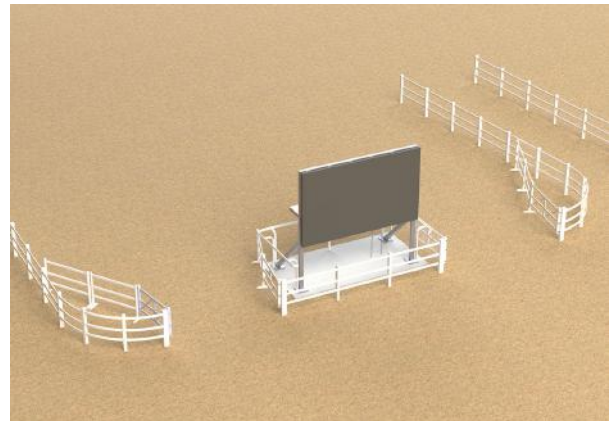

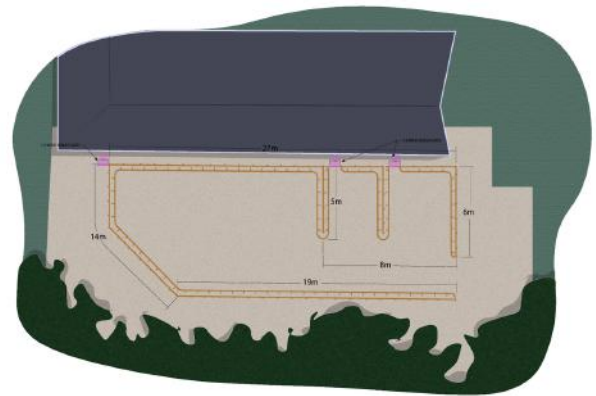

## FROM CONCEPT TO INSTALLATION

At Duralock, we go beyond delivering world-class racing and equestrian solutions; we ensure every project starts with precision and clarity.

Our in-house design team creates detailed specification drawings and stunning 3D renders tailored to your specific requirements. These visuals allow you to see your project come to life long before installation begins, giving you confidence in every detail.

From customised layouts to technical schematics, our expertise ensures seamless integration of our systems with your facilities. Whether you're upgrading facilities or planning an entirely new development, our advanced tools provide a clear roadmap, ensuring your project meets the highest standards of safety, functionality, and aesthetic excellence.

Partner with Duralock and let us transform your vision into a reality – before we even break ground.

# DURALOCK SERVICES.

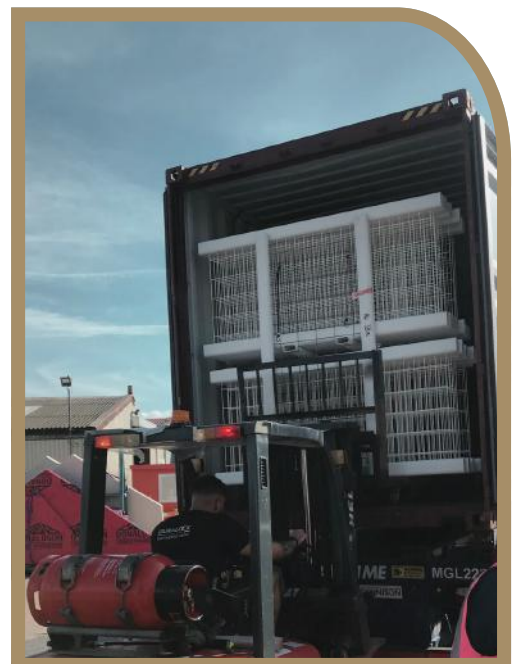

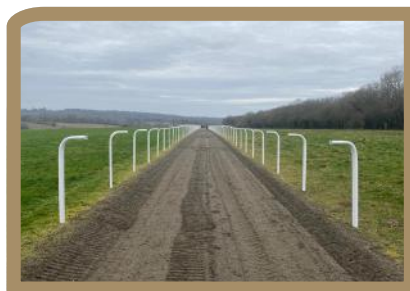

## AFTER SALES SERVICE & INSTALLATION

Duralock takes pride in offering a complete end-to-end service, including our expert in-house installation team. From initial planning to final fitting and beyond, our experienced professionals ensure every project is delivered to the highest standard.

We begin with a thorough site visit to understand your venue's unique needs, allowing us to plan the installation process with precision. Thanks to our innovative fencing systems and efficient installation methods, we minimise disruption to your daily operations—your facilities will not need to close during the process.

Our team works flexibly to accommodate your schedule, ensuring the highest levels of safety and functionality while delivering a flawless finish. Trust Duralock to provide a smooth and stress-free experience, leaving you with infrastructure that's as durable as it is elegant.

Choosing Duralock means benefiting from a 15-year warranty on both our products and installations. Additionally, our dedicated services team provides ongoing support, ensuring long-term satisfaction and peace of mind.

# STREAMLINED SUPPLY AND GLOBAL SHIPPING.

At Duralock, we pride ourselves on efficient, world-class supply and shipping capabilities. With manufacturing sites strategically located in Enstone, UK, and Doha, Qatar, we are well-positioned to meet global demand quickly and reliably. Our dual-site production enables us to deliver products with impressive lead times, ensuring our clients have the equipment they need, when they need it.

With a robust global shipping network, we seamlessly handle deliveries worldwide, prioritising promptness and precision. Whether your project is nearby or across the globe, Duralock ensures swift and efficient service every step of the way.

We are proud to supply fencing to

# 50+

COUNTRIES WORLDWIDE

Duralock's global reach spans a diverse range of regions, from the UK and Europe to the Middle East, North America, Asia, Australia, and beyond.

## GET IN TOUCH.

The first step is to contact us to discuss your project. You can get in touch via our website or by giving us a call. During this stage, we'll provide a preliminary overview of your needs and offer a rough estimate for your project. We're here to find the right solution for you!

## SITE VISIT.

After the initial consultation, we'll arrange a site visit to understand the specifics of your project and requirements. This allows us to assess the site conditions, discuss your options, and gather any details needed for your design. This visit ensures that your fencing system will be a perfect fit for your facility.

## DESIGN REVIEW.

Based on the site visit and your specifications, our designers will create a bespoke solution tailored to your project. We'll review the design with you, making any necessary adjustments before producing a detailed quote. This stage ensures your needs are fully addressed and the design is ready for approval.

## CONFIRMATION & DEPOSIT.

Once you have confirmed your project and the design & quote are approved, a deposit is required to secure your project slot in our production schedule. This deposit allows us to finalise orders for materials and book your installation date.

05

## MANUFACTURING.

Once everything is signed off, your fencing system will be manufactured at our facility. Every piece is crafted with precision to meet your project's requirements, ensuring Duralock's signature quality and durability.

06

## OPTIONAL INSTALLATION & SUPERVISION.

Thanks to our innovative fencing systems and efficient installation methods, we minimise disruption to your daily operations—your facilities will not need to close during the process. Our fencing is easy to install with your own team, with our guided instructions & manuals, and we can be contacted throughout the process for any questions you have. We also have the optional expert installation team who will arrive on-site to set up your fencing system with precision and care. The duration of the installation depends on the scope of your project.

Alternatively to a full installation, we offer to send you one of our supervisors for the first period of installation who will train your team on site to reduce external high installation costs.

07

## COMPLETION AND SIGN OFF & REFERRAL.

After completion, if you have used our expert installations team, we'll conduct a walk-through with you to ensure everything is installed to your satisfaction and meets our high standards. Once the project is complete, we'll ask you to sign off and confirm your satisfaction. We'd also love to hear your feedback through a quick survey a few weeks after. Refer a friend to Duralock and enjoy a treat on us!

- Available in standard industry sizes of 20M by 40m and 20M by 60M, Duralock dressage arenas can also be customized to include gates, slip rails or other adornments
- For permanent installation with special ground fixings or as moveable solution for training and event
- Also available for driving arenas 40x80 or 40x100 m

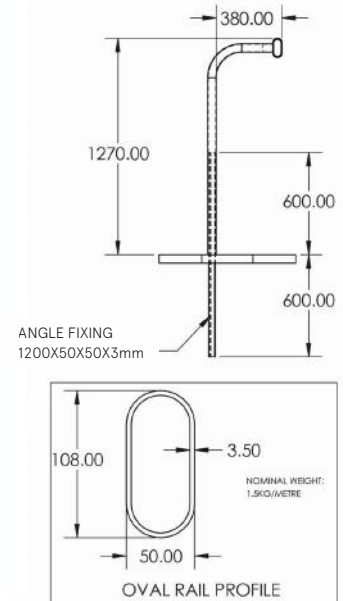

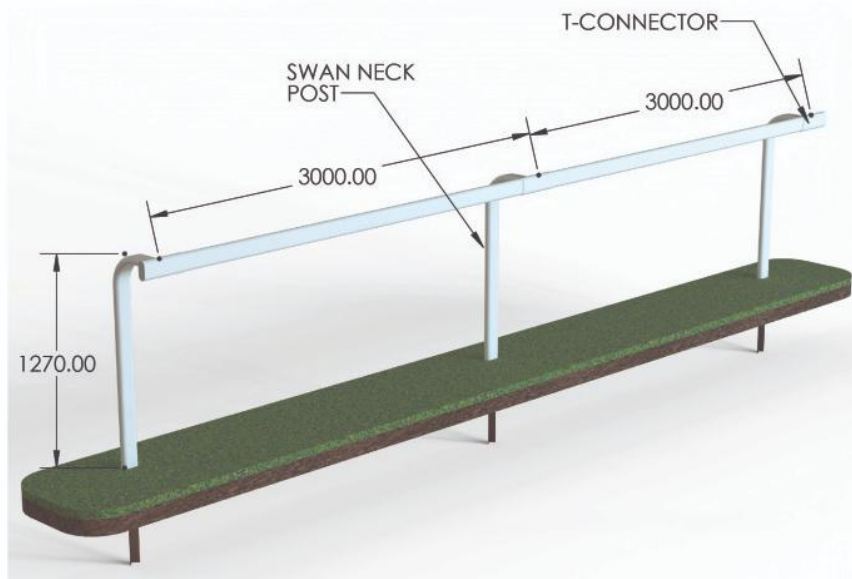

# OVAL RUNNING RAIL.

OR-1270-1

Our race rail system can be found at equine establishments globally. The unique three component design includes a 6-metre safety rail, swan neck post and t-connector. This construction allows the running rail to breakaway in the event of a collision significantly reducing injury for both the horse and rider. The running rail can be installed both permanently or with a bespoke fixing so the fencing can be moved or taken down as required.

# SIGNATURE OVAL RUNNING RAIL

OR-1270-1

All materials meet ISO 9001, ISO 14001, ISO 50001

Approved by The British Horse Racing Authority (BHA) and Governing bodies worldwide. Also available with a putlock fixing for a removable installation.

Components:

SWAN NECK POST

T-CONNECTOR

108MM X 50MM 6M CONNECTOR RAIL

50MM X 50MM X 3MM, 1.2M LONG GROUND FIXING STEEL

# EQUESTRIAN SPORTS SOLUTIONS.

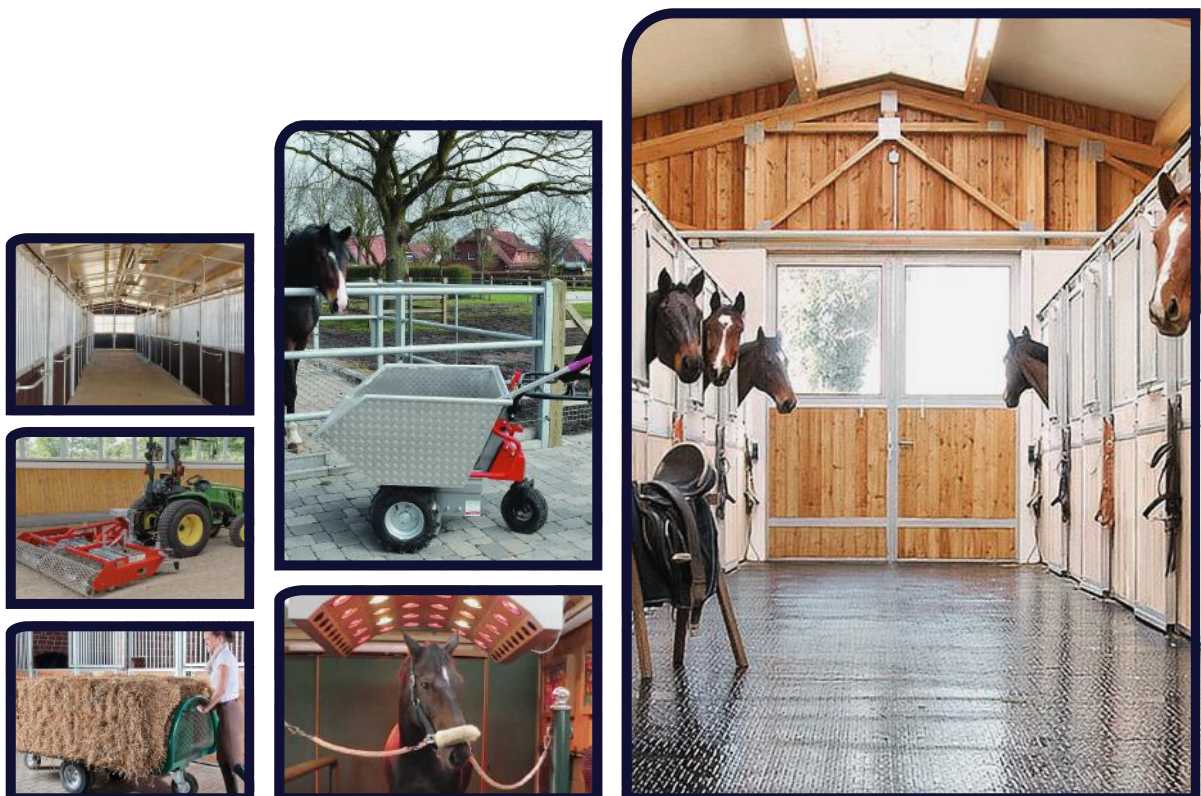

We are proud to introduce Equestrian Sports Solutions (ESS) by Duralock – our dedicated division offering premium-quality products and tailored solutions for racecourses, stable yards, and equestrian facilities worldwide.

ESS provides a comprehensive, one-stop solution for equestrian infrastructure, whether you're building a new facility or upgrading existing spaces. From design and sourcing to installation and training, our services and products are designed to meet the highest standards of safety, sustainability, and innovation.

Our range includes:

- High-quality stable and paddock equipment
- Equine Flooring and matting
- Cutting-edge track and turf solutions
- Specialist design, installation, and training services

With over 30 years of expertise supporting some of the world's leading racing developments and a delivery network spanning 50 countries, ESS by Duralock is your trusted partner in creating exceptional racing and equestrian environments. Let us help you elevate your facilities with solutions designed to last.

# EXPLORE THE WORLD OF DURALOCK.

## Discover the possibilities today

From Sports to Racing & Equestrian, ESS to DSS, Duralock provides industry-leading solutions tailored to your needs. Whether you're securing a sports pitch or enhancing equestrian safety, our expertise spans every sector.

### Your Partner in Equestrian Excellence

We are proud to introduce Equestrian Sports Solutions (ESS) by Duralock—your one-stop shop for premium products and services tailored to racecourses, stable yards, and equestrian facilities worldwide.

ESS offers comprehensive support for new builds and upgrades, covering every step from design to installation. Our solutions include high-quality stable and paddock equipment, advanced track and turf systems, and specialised design, training, and installation services.

Backed by over 30 years of expertise and a global delivery network reaching 50 countries, ESS ensures your facility meets the highest standards of safety, performance, and innovation.

### Safety and Performance Redefined

Duralock Sports combines innovative design with rigorous safety standards to deliver fencing solutions trusted worldwide. Independently tested by Labo Sports, our PVC systems offer a safer alternative to traditional materials, reducing injury risk upon impact.

With smooth, durable surfaces and modular designs free from sharp edges, Duralock fences protect players, spectators, and officials alike. Engineered for strength, stability, and safety, our systems create secure environments where performance thrives.
