# Frequently Asked Questions

**ABOUT THE COMPASS MEMBERSHIP**

## How does the Compass Membership differ from digital products?

Compass has offered digital products for individual sale for several years. The streaming format is a convenient way to access courses on multiple devices. The Compass Membership is a subscription service which gathers all of our digital products into a single recurring charge. Families have the flexibility to use multiple courses—in whole or in part—for each child during the school year.

## Do new products get added to the Compass Membership?

Yes, we regularly release new products to increase the value of your Compass Membership. Some of our recent products include *Strange New World*, *Philosophy: Consequences of Ideas*, *Creation Science*, *The Story of Great Music*, and *Christendom*.

These products were all added without directly increasing the subscription price. Compass Classroom reserves the right to periodically increase the going rate to new customers, but existing subscribers enjoy all the new benefits at the same rate as when they signed up.

## Are all your courses included in the Compass Membership?

All our digital products are included in your Compass Membership. We also sell some courses exclusively for our partners—*Western Culture*, *Introductory & Intermediate Logic*, and *Fitting Words*. These are not available in the Compass Membership.

## Will the price of my Compass Membership change if your advertised price increases?

No. As long as you maintain an active subscription, you will receive the Compass Membership at the price advertised when purchased. If you cancel your subscription and wish to access the content again, you will need to purchase a Compass Membership.

## If I have already purchased one of your courses, do I need to subscribe to the Compass Membership?

No, but you may find value in subscribing to the Course Facilitation and Grading services in the Compass Membership to go along with your existing DVD or digital product.

## How do subscription licenses work?

**BRONZE** subscriptions are licensed **only to a single student**. **SILVER** and **GOLD** Memberships provide our Family Access feature that grants licenses to **an additional 4 members** of your household.

If you are leading a co-op or tutorial and plan to use one of the courses in your Compass Membership, **we ask that all participating families purchase the course**, either through their own Compass Membership, or as a standalone DVD or digital purchase. We make this easy with generous group, co-op and school discounts. Visit our **Group & Co-op discount page** for more information.

## What are the system requirements for using the Compass Membership?

You will need Internet access and a device with a modern Web browser. Ad blocking software can cause problems when viewing the videos. Please add **mycompassclassroom.com** to your whitelist to enjoy playback.

## How can I view the details of my subscription?

Once you've logged in to your account, go to "Subscriptions" on the left-hand menu. Click "Manage" on the desired subscription and you will see information about your subscription on the profile page that loads. You can see the product, start date, billing amount, and next billing date of your subscription. Contact us if you have any questions.

## What if I don't like the product or the service?

We offer a comprehensive satisfaction guarantee as follows:

**We want our customers to be happy with every purchase they make from Compass Classroom. If you are not completely satisfied with your purchase, you may return items within 30 days of the invoice date for an exchange, credit, or refund as determined by our staff.**

**Refund/return requests after 30 days will be honored at our discretion.**

Shop with confidence!

## How do I cancel my Compass Membership?

Once you've logged in to your account, go to "Subscriptions" on the left-hand menu. Click "Manage" on the desired subscription and "Cancel This Subscription" on the subscription profile that loads. Contact us here if you have any difficulty canceling your subscription. You will have access to the content until the end of your current billing period.

## What happens if I cancel my subscription?

You will no longer have access to the content purchased as a subscription at the end of that billing period.

## Can my kids track their progress separately?

Yes, our **SILVER** and **GOLD** Memberships offer four student accounts! These enable your kids to track their progress separately. Just invite them from your *Family Sharing Dashboard* and assign the courses you'd like them to use.

## Why don't you offer a trial on the SILVER or GOLD Memberships?

Our **BRONZE** Membership trial gives everyone access to our popular courses from master teachers. The **SILVER** and **GOLD** Memberships offer additional services that support students and families homeschooling those courses. We think Course Facilitation, Family Access, and Grading will be blessings to your homeschool. If you aren't completely satisfied, however, you may contact us within your first month of a new Membership tier and we will be happy to cancel the subscription and refund your upgrade cost. We are unable to issue refunds beyond that first month because the costs of those services are ongoing.

## How do I access Facilitation?

Facilitation takes place in groups related to each course. **SILVER** and **GOLD** Memberships can join these groups here. Once our team sets up access, you will see them in My Groups, along with schedules, directions for joining discussions, and more resources.

## How do I submit course work for Grading?

Grading is accessible in the same groups for subscribers with **GOLD** Memberships. Written directions for submitting work and viewing posted grades will be provided by the group facilitator.

# CALCULUS

## FOR EVERYONE

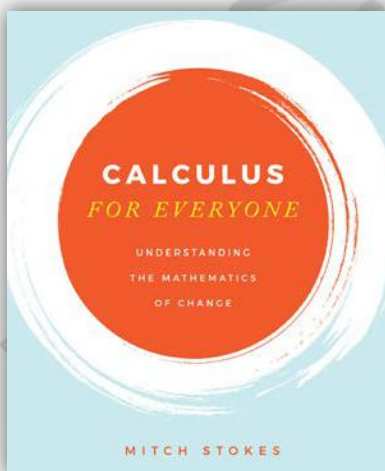

***Calculus for Everyone* teaches calculus.** But it also represents one of the first tangible steps in recent years at reunifying STEM (Science, Technology, Engineering, Math) with the liberal arts. Pulling from over a decade of experience teaching calculus, Dr. Mitch Stokes presents the mathematics of change in an extremely effective way for anyone with a first-year course in algebra in this new video curriculum.

“Show, don’t tell’ is such a helpful rule of thumb—for writers, for teachers, for boastful teenage boys. This book is my own attempt to show what I’ve been telling people for fifteen years: that there’s a better way to teach mathematics. And though the book is specifically about calculus, its point is general.”

Francis Schaeffer—perhaps the most influential Christian thinker in the last 100 years—clearly explains the basics of worldview thinking in this combined book and video series. Filmed at over 100 locations in eight countries, it is a spectacular presentation of the flow of history, ideas, and cultural analysis from a Christian perspective.

The fact that the series is nearly 50 years old makes it even more valuable: many of his predictions have come true with startling accuracy. This lends great credibility to his Biblical and cultural insight.

# PHILOSOPHY: CONSEQUENCES OF IDEAS

WITH DR. R. C. SPROUL

## **Ideas have consequences, and worldviews matter.**

Expose your student to history's most powerful ideas and the men who developed them. We've put this demanding high-school elective course together because of the rise of ideology over truth in the public square, and because we knew the best way for students to get a hold of powerful ideas is to send them to the actual sources with a bit of background.

"The way you combined the video lectures with a text and incorporated a deeper understanding of the video lectures is a wonderful way to teach the material. I can't wait to use this with my kids when they get a bit older, but I am excited about using it for myself before then!" — Lacey

**The course would be an excellent capstone** for upperclassmen who want to “take captive” all the pieces they’ve accumulated across disciplines like science, literature, history, and art (2 Corinthians 10:5).
