RETURNS

Please return all items to the following address:

Kitt, Nicholson & Associates Inc.
1607 N. Magnolia Ave.
Ocala, FL 34475

To return products, please call Customer Service at 352-351-1170 and request a Return Merchandise Authorization (RMA).

Include the RMA number on the outside of the package and be sure to obtain a tracking number from your shipping company.

Return items must be shipped prepaid (except in the case of a wrong item shipped). We suggest you ship the products to us in their original packaging and insure the shipment. Please understand that KNA Supply cannot be held responsible for loss or damage during return shipment to our company.

Items must be returned within thirty (30) days (*except Pro-Shop items, please see below*) of receipt of order and must be in as-new condition, complete with all parts, packaging and accessories as sold originally. The only exception is for products that have been opened but are proven to be defective. Items ordered incorrectly may be subject to a re-stocking charge of up to 20%.

All returns will receive credit on account only, no cash refunds will be issued. No deduction from any invoice or statement is allowed for returned Products.

PRO-SHOP RETURNS

Kitt, Nicholson & Associates Inc. (KNA Supply) guarantees the salability of all qualifying Pro-Shop merchandise purchased and shipped from our warehouse. If any qualified item fails to sell within 12 months time, you may return it to us for an exchange or for credit to your account.

All Pro-Shop returns exchanged for other Pro-Shop items will receive a 100% credit off your invoice.

All Pro-Shop returns exchanged for "Non-Pro-Shop" items will receive a 100% credit towards the clients account and 20% off every Non-Pro-Shop invoice. This will continue for every Non-Pro-Shop purchase made until the credit is exhausted. (Fasteners and Wheel Weights excluded.)

Example:

- If you return slow moving Pro-Shop items equaling \$200, KNA will give an even exchange for other Pro-Shop products equaling \$200.00.
- If you return slow moving Pro-Shop items equaling \$200 and want to purchase Non-Pro-Shop items in its place, KNA Supply will give 20% off the total invoice for those items and will continue to do so until the original credit has been exhausted.

All returned products must be in salable condition and in the original packaging. Any returned product that is deemed non-salable or is found to be without the original packaging may not be eligible for credit.

These products will be returned with your next order. The only exception will be for product found to be defective.

All returned products require a Return Merchandise Authorization number. To return products, please call Customer Service at

KNA Supply is an automotive supply company you can trust.

Family owned and operated since 2005:

We pride ourselves on offering a broad range of products, services and systems necessary to supply the largest of automobile dealerships with the personal touch of a family owned business. We strive to be a One Stop Supplier for all of your associated product needs and our friendly and knowledgeable sales staff is among the best in the industry.

We stock many nationally known brands and we also seek out lesser known brands that produce **really great products**. We do all of this with a strict eye on quality and our mind on the best value for your money.

We offer products for the following automotive industries:

- Collision Centers
- Parts Departments
- Mechanical Shops
- Car Wash Centers
- Fleet & Truck Centers
- Quick Lube Centers

KNA Supply also offers something unique to our industry, a retail program where we convert your parts department, waiting area or customer lounge into a retail-shopping destination. We call this our Pro-Shop Program.

In our Pro-Shop Program, we stock over 5000 high impulse, automotive related products and accessories and all of the fixtures needed to display them. We specialize in designing and maintaining retail spaces and we guarantee each of our products to sell. Every product in our Pro-Shop Program comes pre-priced and ready to sell the moment you receive it.

Thank you for choosing KNA Supply.

We hope you find our catalog filled with useful products!

PRECISION-FIBER CLOTH RAGS

The lighter weight fabric of fiber cloth is soft and super-strong when wet and pliable for precision wiping performance on smooth surfaces and in tight corners. Fiber cloth rags are absorbent and durable in water, paint, stain, grease, oil, and solvents. Fiber cloth costs less per piece than old-fashioned rags, are completely safe for hands and skin and easily rinse clean for multiple reuses.

Unlike recycled t-shirt rags, our fiber cloth rags are manufactured to exact size and shape (12" x 13.6") and have no imperfections such as seams, collars, buttons, imprints or stains to contend with. This means there is no scrap or waste with fiber cloth rags.

UNDERBODY/ROCKER COATING

Underbody Coating spray provides durable protection for car parts that are exposed to stone chipping and rust. Thanks to its rubbery consistency, it acts as a highly effective barrier against mechanical impact and corrosion. It also provides a sound-deadening effect, helping to reduce road noise. The product is suitable for restoring OEM-style stone chip protection typically found on door sills, rocker panels, and front aprons. It is also ideal for sealing weld seams and protecting high-stress areas such as wheel arches and underbodies. Paintable.

DISPOSABLE PAINT CUP (DPC) SYSTEM SOLVENT

Bosna disposable paint cup system features an inner disposable cup liner that collapses as you spray. This creates a positive fluid flow to the gun nozzle and allows spraying in any position. No more spitting or sputtering. Plus, you save on cleanup time, reduce solvent usage, reduce mixing cup usage and reduced paint can usage.

Our DPC system includes: 1 reusable outer plastic cup frame with measuring guides & locking ring, 50 disposable cup liners, 50 snap-on cover lids with 125 micron filter and 20 disposable cup cover plugs. System may require optional gun adapter to fit your spray gun.

Benefits of using our DPC Disposable Paint Cup System:

- One DPC Cup for both mixing & spraying
- 70% savings in cleaning solvents
- Closed, filtered system - no outside contamination
- 25% more disposable cups, lids & plugs than comparable products
- Easy-To-Use, and priced lower than comparable products

HAMATON TPMS SERVICE KIT

Hamaton helps you save money by offering TPMS service kits to repair, overhaul, and maintain your sensors. Servicing extends the life of the sensor and avoids the unnecessary costs associated with replacement. This maintains the functionality of the sensor, which ultimately saves money by increasing fuel economy, improving vehicle performance, road handling, and safety, and reducing premature tire wear and your car's CO2 emissions.

Hamaton TPMS service kits are stress tested and certified using industry standard methods to ensure product durability, lifespan, and quality. Each box contains several service kits with a nut, rubber grommet, valve cap, valve core, washers/and or rings and other components needed to service your specific snap-in or clamp-in TPMS sensor type. Select the kit designed for your sensors.

FAST-STACK®

Complete Fastener Bin Systems

FAST-STACK® MODULAR FASTENER BIN SYSTEM

Designed and assembled by KNA Supply, our Fast-Stack® Modular Fastener Bin System is guaranteed to have everything you need and nothing you don't, when it comes to Auto Body Fasteners.

We designed Fast-Stack® as an efficient way to grow your fastener selection as you grow your business. Fast-Stack's modular (stackable) design is easy to expand without taking up any additional floor space, and its 6 slot drawers makes it easy for your technicians to find the exact fastener they need to get the job done.

Choose from one of our preset systems: Bronze, Platinum or Platinum+, according to your monthly sales. As with all of our Fast-Stack® bin systems, you can easily add on more stackable bins as your sales increase. Please see our business sizing chart below to select a system that is right for your business.

THIN SHEET NUTSERT® INSERTS

METRIC - STEEL

Threaded Inserts for Thin Material

The Auveco Thin Sheet Nutsert has been designed to provide a highly efficient method of securing threads from one side of the work, in materials generally too thin to support threads. Its performance has been proven in plastic, aluminum, mild steel and fiberglass. They can also withstand high loads without vibrating or loosening under extreme operating conditions. The Auveco Thin Sheet Nutsert is a tension fastener with high pull out, insuring no rotation or vibration where a cover plate is used. The system's unique blind tooling installs TSNs at consistent rates using unskilled labor.

How it Works

The Thin Sheet Nutsert, held securely by the tool, is placed into a prepared hole. Upon the tool's actuation, the threaded portion is pulled until the fastener's wall collapses radially outward, clinching it tight against the sheet. The tool is withdrawn, leaving the Thin Sheet Nutsert ready to receive a bolt or screw. This complete operation takes only a few seconds and can be performed by anyone.

Strength Tests: Torque Strength: with an attaching part over the Thin Sheet Nutsert, offering a bearing surface, the TSN will remain intact past the point of the screw or bolt breaking (head torqued off). In almost all cases the threads of the TSN will remain undistorted and serviceable; an exception to this statement is when an extremely high tensile bolt is used.

Steel: 1010 Low Carbon Steel, Type 11 Class 3 with Zinc Plate, Clear Chromate

2 OZ SOLDER FLUX

Apply a few drops of Flux Cleaning Fluid to both the Cable Strands and the Terminal. Fluid aids in the cable soldering by preventing dirt and contaminants from interfering with the soldering process. Helps to keep the solder flowing around the cable strands for a solid bond. Highly recommended when soldering.

KNA Supply drill bits are precision-engineered cutting tools designed for reliable performance across a wide range of drilling applications. These drill bits deliver durability, strength, and long service life in both professional and industrial environments.

Designed for accuracy and efficiency, KNA Supply drill bits feature sharp cutting edges and optimized flute geometry to ensure fast chip removal, reduced heat buildup, and smooth, clean holes. They are suitable for use on various materials including metal, wood, plastic, and masonry (depending on the bit type).

Available in multiple sizes, lengths, and point configurations, KNA Supply drill bits are compatible with standard handheld drills, drill presses, and CNC equipment. Whether for construction, fabrication, maintenance, or DIY projects, KNA Supply provides dependable drilling solutions built to perform under demanding conditions.

- Engineered for heavy duty work, Blits Bitz are high performance drills for production as well as tough maintenance applications.
- Made from a premium grade of M-7 molybdenum high-speed steel, which has a special black and gold surface treatment to increase lubricity and reduce friction.
- The strong web construction provides greater strength and rigidity to drill in hard-to-drill materials like stainless steel and titanium alloys.
- Precision ground 135° split point is self-centering and reduces thrust.
- Designed for drilling the widest range of materials like mild steel, stainless steel and non-ferrous materials.
- The special 3-flat shank design provides a positive no-slip grip, ideal for cordless, keyless chuck and conventional power tools.
- Shorter overall length increases rigidity.

29PC BLITZ-STORM MECHANICS LENGTH SET METAL BOX

The Alfa Tools Blitz-Storm Mechanics Length Drill Bit 29 Piece Box Set features bits with step point geometry and radial chip thinning to enlarge holes without damaging the point. They are made of M-2 high speed steel with a black and gold surface treatment to increase lubricity and reduce friction, and a low thrust design self-centering 135° split point. These drill bits are mechanics length with 3 flats on shank sizes 3/16" to 1/2" to prevent slipping in the drill chuck, while the 25/64" to 1/2" bits have reduced shanks with flats. Can be used for hand and machine drilling steels, cast iron, stainless steel, sheet metal and other non-ferrous materials. Includes sizes 1/16" to 1/2" by 64ths in a rectangular container.

High-speed steel step drill bits replaces 28 individual drill bits. That means you don't have to constantly change bits when drilling a range of holes on a single project.

- Cool-running coating lasts longer than uncoated bits
- High-speed steel for longer life
- Automatically deburrs holes while drilling
- 2-flute design for faster, smoother cutting
- Tri-flat shank won't slip when drilling
