Amazon Echo Dot (3rd Gen) - New and Improved Smart Speaker with Alexa, Black

Meet Alexa, the brain behind Echo

Alexa, the brain behind Echo Dot, is built in the cloud, so it is always getting smarter. The more you use Dot, the more Alexa adapts to your speech patterns and vocabulary. Using Alexa is as simple as asking a question – just ask and Alexa will respond instantly.

Make everyday easier

Sleek and compact design makes Echo Dot a convenient addition to any room in the house. You can place Dot in the bedroom and use it to play music, set alarms and turn off your lights. Or put it in the living room to check news, sports scores, calendar, and movie show times. Or use it in the kitchen to set timers, add items to lists and shop for millions of products on Amazon just using your voice.

Voice control your home

Use Echo Dot to switch on the geyser before getting out of bed or dim the lights from the couch to watch a movie – all without lifting a finger or even raising your voice. Echo Dot works with compatible smart home devices - either Wi-Fi based or those that ship with their own hub.

With “Routines”, control multiple devices at scheduled times or with a single voice command, like switch on the AC and turn off the lights every night.

Alexa Communication

Use Echo Dot to call or message anyone who has an Echo device or the Alexa app. Just ask Alexa to place a call to Mom or send a quick voice message to a friend.

You can broadcast anything to all your Echo devices. Just say “Alexa, announce that I am heading home” from your Alexa app and your family will know. Instantly connect with other Echo devices in your home, or your closest family and friends. To get started, download the Alexa app on iOS and Android.

Even better with Prime

Amazon Prime members get access to Amazon Prime Music, an ad-free music streaming service. Prime members can also order millions of products using only voice, enjoy free fast delivery on eligible Prime orders, and can even track delivery through Alexa.

Alexa has skills

Alexa has more than 15,000 skills and counting. Skills add capabilities to your Echo device. Skills can help you stay updated with the latest news, request a ride from Ola, listen to All India Radio and more.
