

THE DESIGN HOUSE

# PRODUCT CARE

General care principles for are outlined below:

Vacuum with upholstery attachment to gently remove debris while maintaining a pristine condition.

Blot spills immediately; for stubborn stains, use warm water or mild soap gently. Accidents happen, but prompt, proper action can prevent staining.

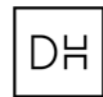

Professional cleaning is recommended annually to keep your sofa in top condition.

Loose seat cushions will wrinkle with use, rotate and fluff cushions regularly to prevent excessive wear.

Avoid direct sunlight to prevent fabric from fading or deteriorating.

A certain amount of feather shedding is to be expected with feather sofas.

Our team will be happy to assist you with specific questions regarding your personal fabric selections.
