About Us

We are a UK-based manufacturer specialising in the design, production, and installation of sensory rooms and sensory products under the well-known Snoezelen® brand. With over 35 years of experience, we serve clients worldwide, but all core manufacturing operations remain proudly within Britain.

Manufacturing Process

Snoezelen® products are designed and developed in-house, and we manufacture and assemble them across multiple partner UK sites. Our primary facility houses key production areas including woodworking, painting, soft play construction, and final assembly.

We also collaborate with trusted UK supplier facilities who manufacture or assemble specialist components to our exact specifications.

Some new product development and prototyping projects are carried out in partnership with UK-based specialists, ensuring innovation remains firmly rooted in British engineering and compliance.

All transformation, quality control, and installation is completed within the UK, and the final product is wholly assembled before leaving our shores.

Committed to British Industry

We are committed to supporting British jobs, local SMEs, and ethical production. We use British suppliers where possible, invest in skilled local labour, and meet high standards of quality, accessibility, and safety.

Snoezelen® sensory rooms are designed for long-term use in schools, healthcare, and specialist care environments. They are often funded by councils, trusts, and other public sector bodies who value traceable British supply chains.

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help reduce agitation and anxiety. However they can also engage and delight the user, stimulate reactions and encourage communication. The Snoezelen® Multi-Sensory Environment has many benefits and can be used in a variety of ways...

Stimulation

Snoezelen® Multi-Sensory Environments and products can be used to stimulate users by providing exciting visuals, high tempo music and sounds, invigorating smells and textures to explore.

Relaxation

Snoezelen® Multi-Sensory products and environments can be used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smell and touch.

Therapy

We have been providing Occupational Therapists and health professionals with a Snoezelen® Multi-Sensory tool-kit to provide therapy for over 35 years. From portable resources to bespoke multi-sensory environments, we have solutions that can help.

Development

Snoezelen® can be used as a learning and developmental tool. It can be used for colour matching, understanding of cause and effect, and creating themed environments for teaching.

Who can they help?

People of all ages and abilities can get benefits from Snoezelen® Multi-Sensory Environments and products.

Where would I find Snoezelen®?

Due to their versatility you will find Snoezelen® environments in a wide range of settings; some will be surprising.

Multi-Sensory Environments

All Ages and Abilities

Snoezelen® Multi-Sensory Environments offer a relaxed atmosphere with pleasant surroundings, soothing sounds, captivating aromas, tactile experiences, massage and vibration, vibrosonic sensations, and gentle movement. Interesting light effects and comfortable seating allow your client to self-regulate by choosing sensations.

Challenging Behaviour

When people experience life changes, negative thoughts can build, and emotion can be expressed in ways that society finds hard to understand. Snoezelen® creates the perfect environment for regulation, being safe, relaxing and engaging.

Occupational Therapy

Occupational Therapy is a profession that concentrates on enabling people to carry out the things that they want to do, or need to do, in their lives. Snoezelen® is the perfect environment for assessing cognitive ability and physical functioning level, as well as identifying methods of engagement pertinent to the individual.

Learning Disabilities

Learning disability support can be extremely complex. Clients may have a diverse range of needs and different diagnoses that impact how they experience life. Snoezelen® is designed to accommodate a wide range of learning and engagement styles.

Our Snoezelen® Trademark and what it means...

During the late 1970s, two Dutch therapists; Jan Hulsegge and Ad Verheul experimented with a sensory tent at the DeHartenburg Institute. The goal was to increase enjoyment and sensory experience for those with intellectual disabilities.

The result of a one-weekend fair was overwhelmingly positive for both verbal and non-verbal patients. Its modern interpretation has evolved to signify 'to seek and explore' and 'to relax.'

Through years of experience, Rompa® has developed a range of products and created bespoke environments based on the principles of Snoezelen®, becoming the leading UK provider before developing key partners around the world. Rompa® also owns the trademark for the name Snoezelen® when applied to products. You know you are buying quality when you buy a Rompa® Snoezelen® product.

As Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world.

Transforming SEND Education

The Role of Snoezelen® in Mainstream Education

Integrating Snoezelen® sensory rooms and equipment into mainstream schools provides numerous benefits:

Self-Regulation: Sensory rooms offer a safe space for children to manage their emotions and sensory input, allowing them to return to the classroom more focused and ready to learn.

Stress Reduction: Sensory equipment such as bubble tubes, tactile panels, and interactive lights, with their calming effects, help alleviate anxiety and create a more positive learning environment.

Increased Engagement: By addressing sensory needs, these spaces enable children to engage more fully with their peers and the curriculum, fostering inclusion and community.

How Schools Can Maximise SEND Funding

The additional SEND funding can be used in various ways. You can create a Snoezelen® sensory room tailored to your school's specific needs. You can equip classrooms with portable sensory aids for on-the-go regulation. You can even train staff to use sensory tools effectively to support children with SEND.

Multi-sensory Learning

Multi-sensory learning is an approach that engages more than one sense at a time to enhance understanding, engagement, and retention. By integrating visual, auditory, kinesthetic, and tactile elements, multi-sensory learning caters to various needs and preferences, making it highly effective for people of all ages and abilities.

Enhanced Engagement

- Engages multiple senses, making activities more interesting and interactive.
- Increases participation and enthusiasm, which is particularly beneficial for individuals who may have varied sensory preferences.

Improved Retention and Understanding

- Information is processed through various sensory channels, leading to better retention and recall.
- Reinforces memory through repetition in different forms, aiding in understanding and remembering concepts.

Supports Diverse Needs

- Adapts to the sensory processing patterns often seen in individuals with autism.
- Provides multiple ways to interact with and internalize information, crucial for personalized experiences.

Reduces Anxiety and Overwhelm

- Structured multi-sensory activities can help create a predictable and manageable environment.
- Helps reduce sensory overload by providing balanced sensory input.

Choice and Independence

Total Control, Total Immersion

Create fully interactive sensory experiences at the touch of a button. Instantly change lighting, sound, projection, and effects to suit any mood or goal.

Sensory Magic®

snoezelen®

Fingertip control of your Snoezelen® Multi-Sensory Environment

Mirror

The Multifinity Explorer™ is packed with sound effects and music which makes for a truly exciting multi-sensory experience. With a huge range of effects to choose from, it allows you to match the activity to the need. It even acts as a mirror when not in use.

Music

Control the panel using the illuminated push buttons and watch as sound effects and music co-ordinate with the on-screen patterns.

Interactive

Control the colour, shape, speed and pattern of the panel using the illuminated push buttons.

Passive

Sit back and relax whilst watching these mesmerising light shows as patterns change every minute with or without music. An effective way to calm or distract people from anxious situations.

Learn to play together

The large screen area and number of buttons make the Colour Command Centre™ a great collaborative activity for learning, development, interaction and play.

Learn about colour in an interactive way

With large accessible buttons and an environment that changes with your input - the Colour Command Centre™ is a great opportunity to work or play with other people.

Different effects to help you relax

Includes colour fading in and out gently and lights looping around the display area.

Control colour & brightness

Use the large buttons to select a base colour and add or subtract hues of red, green or blue to create new colours. Plug in a microphone for a sound to light effect to encourage vocalisation.

EXCITING SPECTRUM OF COLOUR, PATTERNS, LIGHT AND SOUNDS!

Snoezelen® Colour Command Centre™ by Rompa®

Rompa®'s largest interactive wireless controller. Rewarding and responsive; empowering and engaging. Navigate through a spectrum of colours, patterns and levels of brightness on the large Colour Command Centre. Be amazed as the room transforms as other Rompa® wireless products change colour to match. Change the colour and the brightness of the large display as well as that of other Rompa® products in your room. Unique, in that this is both a Rompa® wireless controller and a wireless controllable product. Features include:

- 2 modes of operation - passive and interactive
- Different effects such as solid colours, colour fading in and out, lights looping around the display
- Multiple illuminated push buttons at the base and within the display
- Use the panel buttons to select a base colour; then press the onscreen buttons to adjust the hues and brightness of that colour
- Sockets for your own switches
- Can be used with a microphone for a sound to light effect to encourage vocalisation

Please specify your colour when ordering.

Visuals that relate to sound

A key addition to the Fireworks Extravaganza™ is how sound effects and visual effects are closely linked for easier understanding and more fun! LEDs light up and move like rockets to the centre of the panel with a whistling sound and explode with a bang.

The Fireworks Extravaganza™ has evolved from a very simple panel to a real fun and engaging entertainment centre giving you the flexibility to tailor the activity to different needs and preferences.

VISUAL, VIBRANT & FUN

Snoezelen® Fireworks Extravaganza™ by Rompa®

A cracker of a wall feature for all year round! Create visually, vivid and vibrant displays by selecting from a number of patterns, colours and speeds each paired to sound effects. Rompa® appreciates that Fireworks could be associated with being 'too loud and/or, over stimulating' for some users. This panel offers a number of different sound effect themes for a more relaxing or varied sensory experience, for example, water or carnival sounds.

- With 825 unique and easy to use pattern combinations
- Offers 11 colours, 5 sound effects and 3 speed options
- 5 Fireworks effects: Catherine Wheel, Falling Stars, Radiating, Comet and Strobe
- Use passively or interactively
- Accessible and illuminated push buttons
- Facilitates choice and control
- Sockets for your own switches
- Can be used with a microphone for sound to light effect, to encourage vocalisation
- Sound effects and visual effects are closely linked for easier understanding

Please specify your colour panel when ordering

Two Microphones

For turn-taking or follow my lead activities. Learning to make noise is often about mimicking, using both microphone ports provided the Sound to Sight Showtime™ becomes a valuable tool to develop the understanding of sound and vocals.

Encourage learning and exploration of sound

The Sound to Sight Showtime™ panel responds to both changes in pitch and volume to create an ever changing, fun sensory experience. Watch music or sound effects come to life as you play them through the panel or try different noises either through shouting, clapping or playing an instrument.

Enjoy fun competition

With its competitive fill the screen mode, children and adults will enjoy making as much noise as possible to fill the panel with light in this light-hearted contest.

Bringing people together...

Two independent bubble chambers perfect for co-operative play, turn taking and follow my lead activities.

DOUBLE THE BUBBLE DOUBLE THE FUN!

Snoezelen® Double Bubble Bonanza™

by Rompa®

Combines two Snoezelen® favourites – bubble tubes and wall panels. Bubbles and colour can be individually controlled in each of the two chambers. Be amazed as the bubbles dissipate in one chamber only to burst into life in the other. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. The stunning effects stimulate, empower and engage. Perfect for co-operative play, turn-taking and follow-my-lead activities.

- With 42 unique effects
- With two bubble chambers – the bubbles and colour of each can be controlled independently
- Great for pair work and co-operative activity
- Can be used by one person to promote bilateral movement
- Encourages choice and control
- 3 modes of operation – interactive, creative and music
- With gentle vibration for tactile input
- Accessible and illuminated push buttons to control bubbles and colour
- Can be used with a microphone for a sound to light effect to encourage vocalisation

Two people will be required to wall-mount this panel. Not compatible with Porter 22879.

Wireless controllers

Rompa® wireless connectivity means many elements of your sensory room can change in harmony with each other.

“Respect for the person’s own choice and his own pace are a matter of course.”

Snoezelen Another World book

Switches open a world of interaction to individuals who experience restricted movement, help to improve motor skills and help relay information about cause and effect. These devices can be very empowering, allowing the user to control many aspects of their environment at the flick of a switch.

Sensory Room Switches come in a variety of shapes, sizes and types, some even look like soft toys. Whether you need a Sensory Room Switch that reacts to sound, movement or touch, you'll find a switching solution that meets your needs.

Bespoke Solutions

We can incorporate our Wireless Controllers (such as the 8 Colour Controller) into our Rompa® cushioning. Contact us for more information.

Super Switch - Deluxe 8 Colour Wirefree Controller

The king of switches! Wireless and wonderful! Controls 8 colours!

- With pre-recorded multi-lingual words and sounds (colours, numbers, fun sounds and a musical scale so you can play tunes)

Break Free Of Wires!

Huge Choice of Wirefree Remote Controllers and Controllable Products
Empowering and Enabling
No Hidden Extras Required
Wireless Capabilities Built Into Key Multi-Sensory Ranges as Standard

“Clever piece of technology... We liked the fact it is wireless... We also like the fact it turns off bubbles too and you can use it like a mini piano. All in all a really clever little piece of kit!”

Dawne, Verified Buyer, Bridport

“Amazing product ... love it ... would recommend it to anyone who's looking to buy one.”

Perianne W., Verified Buyer, Southport

“Even better than expected. This controller is fab! I really like the fact it's 'oversized' ... my daughter absolutely loves being able to change the colours herself, but loves more the setting for funny noises ... it's great ... Very pleased with this item and definitely recommend it.”

Lisa R., Verified Buyer, Bicester

Rompa® Wirefree Colour Control Bumpas™ – Set of 8

Two of our most popular products combined – Bumpast™ and our 8 Colour Wirefree Controller. Choose the colour of the lights in your room by pressing the corresponding coloured circle of the Bumpa. The high contrast of the black and white adds visual interest. Great for encouraging interaction, understanding of cause and effect, movement, turn-taking and provides a feeling of choice, control and empowerment. Made with tough PVC fabric.

“Amazing product. Would highly recommend it. Works really well ... you can record your own voice over each side.”
Perianne W., Verified Buyer, Southport.

Talking Cube by Rompa®

These wireless talking soft play cubes are multi-purpose and have endless educational applications. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, with your voice! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound “blue!” Throw a green and hear the word “green!” and so on. Ideal for developing the understanding of cause and effect, colour recognition, picture recognition, reminiscence, developing listening and motor skills, put dots in the pockets for use as a die ... the possibilities are endless! Includes cube, speaker and 9V battery.

- A highly popular product in our Wireless range
- Can change Bubble Tube, Panel, Wireless LED Spotlight, Wireless Colour Wall Controller, and Fibre Optic colours
- No PC or programming required
- Audible and visual!
- Easily personalised with your own recordings and images

These items are delivered in crates, and will require dismantling. Please be aware more than one person is required to unload the item.

The majority of our items are delivered by courier. The driver will only be able to deliver to your door. Under most circumstances the driver will not be able to enter the premises.

If you are unable to arrange for someone to assist you, we can offer an enhanced delivery service. This service means additional delivery personnel will be dispatched to help bring your items into your premises. There is a charge associated with this service and you should call 01246 211 777 or email sales@rompa.com for a quote.

Mobile units bringing you Choice and Independence

360° of Sensory Activity Wheel into place, plug and play!

With activities on all sides, the Snoezelen® SenStation™ provides stimulation for individuals or groups.

Make it your own
Use the storage provided to personalise the experience by introducing smaller sensory products, favourite items or assessments.

Versatile
Easy to manoeuvre. Sets up in minutes and plugs into one power outlet!

Snoezelen® SenStation™

An all-in-one sensory solution. A mobile unit featuring Snoezelen® favourites. Mounted on high quality castor wheels, these popular multi-sensory resources can go to the users, rather than users having to move to them!

Perfect for places without a dedicated sensory room. Stimulating, multi-functional, interactive and practical. With sensory elements on all sides to make maximum use of available space.

Birch ply with a lacquered finish as standard to help protect the ply whilst it is wiped clean. 150Lx70Wx135cmH. 130kg

Includes

- Two Wall Panels of your choice, in the panel colour of your choice*
- Waterless Rainbow Tube 125cmH (22978)
- Fibre Optic Spray (17905) + Light Source (19210)
- Milky Way Carpet Mat (14726-BLK) + Light Source
- Interactive Aroma Panel (20943)
- LED 100 Projector (22612) and accessories
- Deluxe 8 Colour Wirefree Controller (19847)
- Storage cupboard, trays and shelves

*Excludes Double Bubble Bonanza™ + Hip Hop Activity Box.

Snoezelen® Sensory Trolley

Multi-purpose and mobile. On high quality castors with brakes to allow the unit to be moved from room to room. With an integrated tactile panel on one large side and several colourful storage trays on the other. Trays have a built-in stop mechanism and so can't be accidentally removed.

The tactile panel houses speakers which are safe to touch and can be used to provide auditory input. One short side has a shelf for your music system (not included) whilst the other has cut-outs for fibre optics. The flat top could be used for further sensory resources such as a projector. With a 6-gang extension lead inside. Requires just one mains socket. Supplied without additional sensory products so that you can select the components most suitable for your clients' needs. Not compatible with our 21986 Hi-Fi Audio System.

Stimulating, multi-functional, interactive and practical. With sensory elements on all sides to make maximum use of available space. Birch ply with a lacquered finish as standard to help protect the ply whilst it is wiped clean.

Size approx 116.5Lx58Wx103cmH. Weight approx. 130kg

Bubble Tubes

There are many reasons to love bubble tubes...

They draw attention, encourage focus or to distract - colour, lights and bubbles are visually engaging.

They lift mood by simply providing enjoyment.

They encourage relaxation, calm people down, and reduce anxiety. This has physical and psychological well-being benefits.

They offer visual tracking opportunities e.g. with fish, balls, cubes (which has implications for many activities of daily living such as reading and writing).

They provide tactile input (hold/cuddle the cool bubble tube to feel the vibration through the whole body).

They provide auditory input (soothing humming of the pump).

They offer meaningful communication and learning (the right level of activity), with switches and controllers, such as colour recognition, social skills (turn-taking) and understanding cause and effect, and for supervisors to learn more about users' sensory preferences and needs.

They allow choice and control and so empower users (fundamental aims of Snoezelen®) through a variety of controllers, including a microphone.

To practice motor skills - pressing buttons on switches, throwing cubes, reaching up and around the tube.

They maximise space - bubble tubes can be tall and have compact bases. Combined with slim acrylic mirrors, a bubble tube corner provide a striking and vibrant focal point in sensory rooms, bedrooms and more.

Key Features

Bubble tubes are an essential component of a Snoezelen® Multi-Sensory Environment. These bubble tubes are a complimentary focal tool for sensory regulatory activities, and can be used interactively.

Multi-sensory - auditory, tactile, and visual input.

Suitable for individuals of all ages (use under close supervision).

Attracts attention, concentration and engagement.

Encourages visual tracking, physical movement and hand-eye co-ordination.

8 colours provide a calming, relaxing ambience, also promoting colour recognition and visual perception.

Smooth surface provides tactile contract and feedback.

Reliable and Safe! Designed with reliability and safety as a priority, these bubble tubes give years of service, continuing to bring relaxation and stimulation to any multi-sensory environment.

R615192	20cm dia	VAT Relief	£48.95

This was made to measure to fit alongside our musical water bed, it is screwed to the wall and offers a visual stimulation for children lying on the bed. The mirror surface is clear and reflects well with little distortion.

Caroline Jones, Grant Co-ordinator, Gloucestershire

Acrylic Mirror Panels

Reflections add another dimension to the Snoezelen® environment. Enhance the visual effect of your Bubble Tube with mirror panels, creating the illusion of more Bubble Tubes! Much safer than glass, these acrylic mirror panels fix to the wall and tuck behind a padded base to give a seamless finish. Each panel has a similar sized wooden board which is fixed to the wall first to ensure the mirror does not crack. The acrylic mirror is to be glued to the board. Fittings not supplied.

**Rompa Snoezelen® SurfPro™
Interactive Floor Projector**

R623805

With editable software

£7550.00

Snoezelen® SurfPro™ is a super portable, interactive floor projection system that brings everyday surfaces to life. It fosters an inclusive play environment for people of all ages and abilities.

The interactive projection system displays motion-responsive games and activities on to floors, offering a wide variety of stimulating content that is suitable for multi-sensory exploration, play, learning, therapy and relaxation. Complete with a natural user interface that removes many of the barriers people face when interacting in mixed-ability groups by offering a universally accessible interaction platform and enables everyone to participate on equal terms and helps to create an inclusive play environment.

What are the software features?

- Game effects including Quiz, Scatter, Splat, Water, Wipe, Zones and Trails + 4 optional game effects. Ball games, Catch, Double splat and Quiz Pro.
- Create new and edit existing activities. Library of media to choose from to edit activities and to use when creating new activities.
- Ability to import custom media to then use when editing or creating an activity.
- Categories of apps that are organised into folders.
- Playlists / Schedules Auto play- Run and launch apps without the need for an operator.

Immersive Projection Environments

Create meaningful and engaging experiences for people of all abilities

An immersive room makes it possible for educators, health professionals, parents and caregivers to deliver accessible experiences designed for individual sensory, communication and access needs. It is designed to support individual interaction and communication needs and helps caregivers to access the world of the user.

Gesture-based, individuals use movement to create dynamic effects on the surfaces around them. Using highly responsive hardware, the latest motion-tracking technology and inviting, easy-to-use software with pre-loaded and editable themes, these systems offer endless opportunities for education, leisure and therapy.

These environments bring learning to life and help to engage and include individuals of all abilities, as well as facilitating virtual experiences that may otherwise be inaccessible.

With edge blend technology your immersive room can feature content that can seamlessly wrap around corners, use curved projection or produce large panoramic landscapes. Projectors can also operate individually for multiple and independent activities in one area.

What's more, customers can customise the imagery and sounds to suit personal need, adding their own photos, videos or music to tailor the environment to their requirements.

As each room is different and hardware is available in a range of specifications, please contact us for a quotation.

1. Augmented reality

See yourself reflected in a mirror video image with live camera mode displaying your real-time image and environment. Virtual objects and interactive content will appear around you augmenting the experience, interact to bring your surroundings to life.

2. Inset

Inset mode is the same concept as green screen, only here there is no need for a green screen. Inset mode removes the background environment and places users into virtual play environments. This is great for removing clutter and helping users focus on the content and activity.

3. Shadow

For those that do not like to see themselves in the video's image, shadow mode helps to reduce anxiety

by rendering the user image into the scene as a dark filled shadow. Shadow mode also removes the background environment and places users into a virtual play environment.

4. Avatar

Take control of on-screen avatars and watch the characters come to life with the movements you make. Open up a new world of kinaesthetic fun in 3D space and explore spatial awareness, proprioception and enhance your ability to sense the position, location, orientation and movement of the body and its parts.

5. Facilitator mode

When working with a single user it is possible to set it to only track one user. This means caregivers can appear in the scene to support a user without interacting with the content. All interaction will be attributable to the user.

Everyone Plays

Provides an inclusive play experience for people of all ages and abilities and supports a wide range of inputs and controls.

Versatile

The breadth of content makes it suitable for education, therapy and play. Great for schools, hospitals, care settings, day services, play centres and more.

Multi-Sensory

Interact with variable stimuli, visuals and sounds that respond when you move. The system also responds to objects, so you can use tactile objects to enhance the experience.

Accessible Format

Turns any surface into an engaging interactive experience. Project on to floors, tables, beds, wheelchair trays and more.

Creativity

Unleash your creativity. Input your own images, artwork, music and photos to create highly personalised activities for education, therapy and play.

Hygienic and Safe

In hospitals and environments where minimising infection risks is essential, it is the perfect inclusive play solution that helps to keep communal play spaces safe and clean.

**Compact Mobile Interactive Floor Projection**

Our smallest system that was designed to make interactive projection accessible, affordable and easy at home, so families can replicate the benefits of the larger interactive systems their children access at school within the comfort of the home. Extremely portable and lightweight with no set up required. Includes themes, imagery, videos and sound effects for plug and play use, as well as click-together foam flooring and a full training manual. Roughly the size of a shoe box and weighing just 1.7kg, this allows parents to transform a bedroom or lounge floor into a fun and interactive environment. LED-based and low-voltage (one plug). 1000 lumens so the projected image is considerably less sharp than that of the other two mobile options. Wall-mountable. Optional trolley available for projecting onto a table top or wheelchair tray - contact us for more information. Image size: 1.2mW x 0.9mH.

R623386 12W x 15D x 19cmH

£2695.00

R623417 Wheeled Frame

£300.00

Home Projector Set

Compact but high quality. Projects a sharp image in a darkened environment. Suitable for small spaces and can be used a few metres from your wall. With a light output of over 500 lumens. Includes 16GB micro SD card with both still and moving images such as soothing flower fields, under water scenes, aquarium vistas, forest scapes and waterfalls. The SD card can be expanded or over-written with your own images if you prefer more person-centred content. An alternative to the revolving and repetitive imagery provided by the traditional Snoezelen® LED Projectors which project part of an image at any one time. Includes compact speakers and a table stand. Can be linked to a PC and HDMI cables (neither included). Model may vary subject to availability.

BENEFITS:

- Multi-sensory – visual and audible
- Takes up minimal space
- Excellent clarity of imagery and sound
- Includes remote control for easy operation
- Customisable content for person-centred care
- Economical as speakers, tripod, remote, storage bag and sound card all included

£103.95

R619743 Saver Pack - Space Projector + 4 Space Liquid Wheels.

£185.95

R617461 Set of four Space Liquid Wheels only

£89.95

Aura Projector

The perfect projector for the home, with a Liquid Effect Wheel as standard and built in Wheel Rotator so all necessary parts are included. High quality, and an appropriate brightness for bedrooms (our other LED Projectors are brighter for larger multi-sensory Snoezelen® environments). Features include: Timer, Dimming control, LED so no bulb changes and no heat.

Compatible with our extensive range of effect wheels.

Not compatible with the Panoramic Rotator, Distortion Wheel, Clip-on Prism, Multi-Facet Mirror or the Rompa® Wireless range. Contents may vary.

- The perfect projector for the home with timer & dimmer
- A key component of a Snoezelen® Multi-Sensory environment
- LED so no bulb changes and no heat
- Includes a Liquid Wheel (cannot be specified)

Compatible with our wireless controllers!

1. Wireless LED Spotlight

Compact, cool-running and maintenance-free spotlight. Choose one colour light all the time (6 options and white), from several colour changing programs or use interactively with a Rompa® Wireless controller and Sensory Magic®. Visual effect is easily adjusted using DIP switches underneath, as is speed of colour change. No need for a colour wheel or lamp changes. With integral, angle-adjustable bracket. For indoor use only. Weight: 0.8kg.

R620878 18 x 12 x 10.5cm

£204.95

2. Portable Mini Spotlight

Perfect for highlighting smaller areas with colour. With a removable bracket for suspension from a ceiling. Considerably cooler-running than traditional spotlights. Compact and safe. Pre-programmed, including sound-responsive effect. Not especially suited to use with mirror balls. Rechargeable, or use the included 12V adapter as a power supply. With a remote control.

R622969 12cm diameter x 9cmH

£40.95

LED Rope Light

Bright, multi-action lighting for indoors and out. With LED lights for maintenance-free, cool-running, low-energy and long-lasting use. Safe to handle, although we recommend that these are used for decorative purposes only. Colours may vary. 240V.

R618960 10m L

£48.95

Mirror Ball

When a spotlight is shone onto the Mirror Ball, multiple reflections of moving lights cascade around the room creating a truly mesmerising experience. The mirror ball works at its best attached to a motor which rotates the ball. This is not included but can be purchased separately (product code 18524 or 18525). The drive unit needs to be fixed to the ceiling or overhead support and connected to a 240v mains supply. Ideally used with an LED Spotlight e.g. Wireless LED Spotlight (product code 20878). Typically with glass facets. Locate out of reach (not intended to be handled).

R624282	Ball - 30cm diameter	£39.95

R618525	Motor 1/2 RPM	£94.95
R620547	Ball - 20cm diameter	£16.95

JINX Luminous Jellyfish® Lamp

A premium quality mood lamp for any home or workplace. It features amazing large silicone jellyfish that glow and reflect the light as they dance elegantly through the water. Illuminated from below by coloured LED lights, the light-up tank creates an amazing effect in any room.

R623830

£46.95

LED Ceiling Panel

Transform an uninspiring or dark space into an inviting, cosy environment. The ultra-thin LED panels replace the desired number of existing ceiling tiles. The high quality image helps create an atmosphere and provide an illusion of daylight, as if it were a real window. Consists of LED panels, graphic photo, adapter and white aluminum lifter. Must be used in conjunction with a suspended ceiling. Several different sets and designs are available, including Clouds Air Balloon; Blue Sky; Forest Birds; Forest; Night Forest; Painted Ceiling & Underwater. Please contact us for further information or if you are interested in a bespoke image. Weight per panel: 4kg.

R624099-AB	Air Balloon	60 x 60 x 60 cm * 4	£427.95
R624099-BS	Blue Sky	60 x 60 x 60 cm * 4	£427.95
R624099-FB	Forest Birds	60 x 60 x 60 cm * 4	£427.95
R624099-NF	Night Forest	60 x 60 x 60 cm * 4	£427.95
R624099-PC	Painted Ceiling	60 x 60 x 60 cm * 4	£427.95
R624099-UW	Underwater	60 x 60 x 60 cm * 4	£427.95

Benefits

- Large and bright visual display visible from a distance, for visually impaired users, multiple users.
- A set so looks more realistic than a single panel.
- Simple to install standard ceiling panel sizes.
- Suitable for all ages and abilities.
- Can be enjoyed regardless of ability, and does not require any intellectual reasoning or prediction.
- Realistic artwork.
- Static so won't cause dizziness motionless unlike projectors and effect wheels.
- Colourful and clever optical illusion implies access to the outside in rooms that have no natural light.
- Great for individuals who are bed-bound, who spend hours looking at a ceiling and who are otherwise unable to access outside spaces.
- Cheerful and bright could help lift mood. Soothing, universally-liked motifs.
- Distracting in medical treatment areas and dentists.

**Wireless LED Cube**

For indoors or out, including water environments. Control the colour of this contemporary cube seat using any of our Wireless controllers.

£20.95

PODS Play Fundamentals

A blank canvas POD that comes with LED remote control lighting.

Where it all begins. The internally lit core of PODS, the heart and soul of the magic. It's the coolest sensory play tent, stripped back. Showcasing all the colours of the rainbow with the internal LED sensory lighting. Colour therapy just moved into another dimension.

Popping up in just 40 seconds out of the bag, it really is as easy as plug in, pop up and play! Perfect for those living with visual impairment or a portable space to relax in that's not quite as busy as the themed PODS.

Size: 1.8m Diameter (approx 6ft), 1.8m High (approx 6ft) (Exterior Dimensions) 8.5kg Packed Weight, Including Fan. The package includes a removable foam floor pad and a portable Bluetooth speaker. Designed and hand-finished in UK. PODS comes with a 1-year manufacturer's warranty. A suitable size to fit 1 - 3 children.

R623787-PF

£1315.00

PODS Removable Themes

Simply zip on and zip off these removable themes. The PODS jackets are designed to resemble a vessel, building or landmark from the outside. From the inner the graphical representation depicts a view out onto a landscape or vista. Within minutes, it's super easy to change their world, leading to hours of themed, imaginative role-play and relaxation.

A. R623788-GSA	Galactic Space Adventure	£309.95
B. R623788-MPP	Magical Princess Palace	£309.95
C. R623788-PIIP	Polar Ice Igloo	£309.95
D. R623788-RIJ	Rumble in the Jungle	£309.95
E. R623788-SAQ	Sub Aqua Quest	£309.95
F. R623788-SSS	Sunset Savanna Safari	£309.95
G. R623788-WWD	Walking with Dinosaurs	£309.95

Features...

- 7 exciting removable theme options to choose from.
- Remote control sensory lighting.
- Matching audiobooks, ebooks & sound effects through the inclusive PODSplay app.
- Bluetooth speaker to elevate the audio experience from the app.
- Memory foam mat for added comfort for both children & adults.
- Packing bag.
- 24v power supply including 24v fan to inflate and power PODS

Benefits...

- PODS is ideal for all rooms in the house (probably not the bathroom though). Perfect for classrooms or alternatives to costly sensory rooms.
- An affordable multisensory space.
- Incredibly portable, creating a familiar experience wherever your little adventurer travels.
- Quick, easy setup and pack away times. From 30 seconds.
- Lightweight yet incredibly strong.
- Easy to store - simply pack into the bag or store away.
- Suitable for indoor and outdoor use (weather permitting).
- Switch up the experience with interchangeable themes.
- Energy reduction - PODS requires minimal input power for the fan and lights. These are low voltage 24v and running costs are £0.03 per hour. (Based on current energy rates).

Uses...

- Imagination station for immersive role play
- Relaxation, decompression and self reflection space
- Sensory play space
- A child's/adult's very own safe space
- Reading space
- Portable sensory room

Users...

- For 1-3 children or 1 child & 1 adult.
- 3 years +.
- For all children who love imaginary play.
- Particularly beneficial with users with sensory & additional needs such as autism, anxiety, ADHD, hearing and visual impairments and physical disabilities.
- Used by families, schools, nurseries and childcare, creches and waiting rooms, healthcare and respite care organisations, charities, soft play and children's activity centres and anywhere that children feature.
- Partial sight - light tracking cortical impairments with visual stimulation
- Physical disabilities, designed with wheelchairs and floor-bound users in mind
- Autism and ADHD - soothing, relaxation for times of meltdown
- Children's anxiety - a calming space for children to be by themselves or with parents/care providers
- Multiple sensory benefits for all those with additional needs
- Ideal for care providers and healthcare professionals offering respite in the home
- A familiar safe space that can be taken anywhere
- A decompression zone when overwhelmed

Therapy PODS Features

- Interchangeable interior themes available to be purchased at your convenience.
- Access to the PODS Play app to your theme(s) of choice to play the themed sound effects for next level immersive relaxation
- Portable & lightweight therapy space wherever you go
- Remote control sensory lighting
- Pops up out of the bag in under 1 minute with minimum effort
- Suitable for all ages and inclusive for all by design

Therapy PODS Contents

- 1 Therapy POD main structure
- 1 x removable, zip in door with mesh window
- 1 x 24v integrated fan
- 1 x 24v power supply
- 24v remote control, sensory lighting
- Bluetooth Speaker
- 1 x PODS packing bag

Therapy PODS Fundamentals

Therapy PODS are 360° immersive environments designed for relaxation and sensory stimulation. These versatile, portable PODS cater to all ages and needs, from personal time-outs to specialized care for the elderly and individuals with Autism or dementia.

Ideal for homes, schools, and care facilities, Therapy PODS offer a spacious, accessible sanctuary that supports relaxation, reflection, and even light exercise. Easy to set up and move, they provide a flexible, portable alternative to traditional sensory rooms.

Each POD includes Bluetooth sound effects to enhance the serene experience. Simply unfold, plug in, and relax. For ceiling track users, we have designed an access point in the roof to allow a stress free experience and truly inclusive for all.

Addressing the challenges faced when traditional sensory rooms are occupied or difficult to access, the Therapy POD offers a solution. Its portability allows it to be easily transported from room to room on all floors of a building, ensuring accessibility and convenience for users.

R623789-TPF

Snoezelen® is ready to go!

Posture is an important aspect of daily life for able-bodied and disabled people alike. Posture habits formed during the years of growth and development.

Our posture has an impact on, and is impacted by, the way we walk, sit and perform physical movements.

Our range of equipment and furniture will allow good postural positions to be adopted whilst providing a comfortable, safe and dignified seating or positioning option.

Furniture, seating and positioning

The Chatsworth Range

The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas.

Team a 3 seat settee that has a single arm with a corner unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the corner unit to fill 2 adjacent right-angled walls. With so many colours, sizes and sensory options to choose from, it's up to you. To make the furniture even more comfortable, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation. All Chatsworth furniture is non-returnable.

Rompa® can design and install calming spaces for demanding environments such as schools with students with behavioural, emotional and social difficulties (EBD), offenders' institutes and prisons. These installed facilities provide a robust and safe environment where individuals with challenging behaviours and aggressive tendencies have an opportunity to calm down and be encouraged to manage their own behaviours.

Intended to reduce risk and potential injury, these low stimulation rooms are designed to foster the safety of the individual, peers and supervisors alike. These spaces should only be used as part of a wider structured plan following good practice guidelines and appropriate legislation. Use of these environments should always be for a carefully monitored and minimal time, with the best interest of the individual at its heart.

Chunkies by Rompa®

Chunkies are versatile wedge cushions filled with polystyrene beans which mould to the body, creating a firm yet movable support. Useful for positioning, therapy and play. The Chunky could be used for lying on the floor with the user's back on the slope; a taller person could lean against it with their tummy on it; for providing relief from being in a wheelchair; for prone extension (strengthens the back and neck muscles and encourages the head to be held up); neck extension; help with sitting balance as you are building trunk support and for behind the knees (for those who don't like lying flat). To try to improve trunk control, start with support from a firm Wedge and then reduce support with a different sized Wedge or Chunkies. Covered in PVC. Moisture proof and easy to clean. 56W x 84D x 54cmH. Please state colour required.

R614036

Emotion Sequin Cushions - Set of 6

These cushions are made with "Flip Sequins", brush them one way with hands and fingers to reveal the image, brush the other way to hide it again. Glittering colours and soft textures invite interaction and promote conversation about mood and emotion in the classroom or clinic. Gross and Fine Movements: sequins can be flipped with either broad brushes, by the back of a hand or by fine fingertip strokes. Zipped outer cover removes. Sealed inner cover filled with FR fibre fill.

R624318 40cm x 40cm

£149.95

Waterproof Bean Bag

Made from waterproof, antimicrobial and urine-resistant fabric with taped seams to help prevent the ingress of fluids for infection control requirements. Durable, comfortable and easy to wipe clean using alkaline-/solvent-free wipes or mild soap. Navy as standard – can be made to order in other colours by special order (an extra charge may apply). Flame retardant - the fabric only is certified to Crib 5 and the filling is tested to Schedule 2 Part 1 for contract and domestic settings. Available in Black, Navy, Red, Yellow and Light Green - subject to availability.

R623540 Large- 52cmH X 49.5cm DIA **£159.95**

Musical Water Bed by Rompa®

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. These are picked up through the skin as tactile stimulations. The bed adapts to the body shape giving warmth, comfort and muffled noise, possibly similar to foetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. The bed can also be used for interactive stimulation by means of the included microphone to create your own sounds. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. PVC - please specify colour choice when ordering.

R620191	Single	100 x 200 x 45cm	VAT Relief	£1840.00
R620192	Double	140 x 200 x 45cm	VAT Relief	£2470.00
R620193	Queen	160 x 200 x 45cm	VAT Relief	£2700.00

"The bed was easy to set up with good instructions on its set up and use. The bed is a valuable asset in our sensory room serving to support, relax and stimulate children at different times. The musical aspect of the bed is especially useful for autistic children and those with PMLD who appreciate the sensory feelings coming through the mattress from the speakers below. The bed base and mattress are very well made and the speaker fitted into the bed base and amplifier and microphone supplied are of good quality and work well."

Caroline Jones, Grant Co-ordinator, Gloucestershire

Water Mattress by Rompa®

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The gentle support by water allows even the slightest movement to be felt. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled - the double bed weight is half a ton. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. The cover is made from strong, reinforced durable vinyl which can be wiped clean and is available in a range of colours. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. PVC - please specify colour when ordering. This product contains wood.

Vibrating Floor by Rompa®

This cushioned wooden floor vibrates automatically or in response to music or vocal stimuli. It is particularly suitable for those with mild or total sight/hearing loss as it provides valuable tactile stimulation. Also used for those with autism.

- Provides three methods of vibratory stimulation:
- Built in oscillator to vary frequency and extent of vibrations.
- Musical stimulation.
- Amplifier and leads supplied for ease of connection to any music centre or radio.

Used with the microphone provided it can help to stimulate vocalisation. PVC- please specify colour required when ordering.

£1995.00

With a commitment to quality and safety, our products are thoughtfully designed to meet the needs of diverse users across a range of ages and abilities. Built for longevity and tailored to person centered care, each item is crafted to enhance sensory engagement and create meaningful multi-purpose spaces.

Our extensive selection includes British-made products in a generous array of colours and fabrics. Free room design services, including 3D plans for larger projects, ensure each space is customised to fit specific needs and maximise usability. Fire-retardant, phthalate-free, and latex-free PVC materials provide an added layer of safety, while many items feature sensory elements like lights, mirrors, textures, and sounds to create immersive environments.

Durable and adaptable, these products are built to endure years of use. Options such as cabins, steps, and wedges are designed with sturdy wooden frames for added stability, while foam densities can be customized to suit individual needs. Multi-level options encourage varied movements, and our products integrate seamlessly with Sensory Integration and Snoezelen® MSE resources, making them suitable for multi-functional spaces. With over 35 years of experience in design, manufacturing, and installation, we offer easy maintenance options and service contracts, providing continued support and ensuring your space remains engaging and well-maintained.

PVC

The fabric ready for anything!

The most durable, and most popular, of all our fabrics. Extremely hard-wearing, easy to clean, water-resistant and treated with fungicide. Latex- and Phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a subtle texture, and is available in a large spectrum of colours and tones.

Sensory Integration

Vestibular and proprioceptive senses are often overlooked beyond the “traditional 5 senses”, although they form an essential part of our day to day lives.

Proprioceptive senses process information from our muscles, joints and other body parts to provide us with an unconscious awareness of the position of our body parts in relation to each other, other people and objects.

The vestibular sense puts balance into our lives. It provides information about movement, gravity and changing head positions. It tells us whether we're moving or we're still, as well as the direction and speed of our movement. We can even tell if we are vertical or horizontal - even with our eyes closed.

Combining the development of both proprioceptive and vestibular senses, the practice of sensory integration can assist in developing the ability to process this information.

Sleep Tight™ Weighted Blanket

Helps clients to become calm and comfortable to encourage restful sleep. Suitable for clients weighing over 9kg (20 lbs) who have difficulty calming down to get to sleep. With a curved neck cut-out to help prevent the blanket from bunching around the face. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. As a general guideline, blanket weight should be from 15-25% of client body weight, although we recommend that you seek professional advice as to the suitability of these products for your particular client. Colours may vary. Machine washable.

Weighted Blanket

Made with soft tactile grey velour fabric, this weighted blanket provides proprioceptive pressure on the whole body and stimulation called Deep Touch Pressure, the feeling of being hugged. This calming therapeutic effect helps to relieve physical and emotional stress and is ideal for sensory integration. Suitable for use at home, in education, rehabilitation and medical. Available in 3kg, 4kg, 5kg, 7kg & 9kg weights.

Weighted Sensory Cushion

Curious and calming. The tactile and visual objects enclosed invite exploration whilst the weight of the cushion may offer a sense of security. Large enough to place across the lap or on a table for a shared activity. Large size and objects to suit the visually impaired and those with limited fine motor skills. Objects selected are appropriate for all ages. With double-stitched seams and thick PVC fabric for extra safety. The cushion is quite rigid and so is not especially suitable for users who need neck support. 65cm x 40cm.

Weighted Vest

Made from soft, breathable, non-flammable material, these vests slip over the head with ease and close at the shoulders and sides with Velcro® for easy adjustment and a snug fit. Weight packs are inserted into the eight concealed pockets of the vest. Each pocket has Velcro® to keep the weight packs in place. The length of the vest can be adjusted by folding up the lower part and securing using the Velcro® strip on the inside. Machine washable (remove the weights beforehand). Length is measured from the top to the bottom of the vest and width is measured by waist circumference.

R621573	Extra Large Grey Includes 3.6kg of weights 56-68.5cmL x 112cmW	VAT Relief	£110.95

Great product. We were recommended to get a pressure vest by our OT but I found it extremely difficult to find one small enough for my daughter. This one fits perfectly and was a good price. We've already seen a lot of benefit from it in increasing stability and use it every day. It is easy to clean and washes/dries quickly.

N G., Verified Buyer

Deep Pressure Vest

Made of breathable, latex-free, perforated neoprene, that's designed to provide deep pressure to the body and to help the user maintain a comfortable body temperature. Features 2 side and 2 shoulder closures. Available in six sizes, each at an affordable price so you can choose the next size up as your child grows. Length is from the top of shoulder to bottom of vest; width is the circumference, measurement around the waist.

Weighted Pencil Set

This innovative writing tool is recommended for individuals with sensory integration issues or difficulties with fine motor skills. The weight of the pencil provides increased proprioceptive feedback to the hand while writing, which helps enhance focus, hand strength, muscle development, and dexterity. It also helps normalize writing speed and reduce the grip force needed to hold a pen or pencil. Using the Weighted Pencil Set can promote greater awareness of the hands and fingers, resulting in improved control and tolerance. This tool may also be beneficial for individuals with hand tremors. Includes x1 pencil and x1 threaded sleeve for x3 included weighted rings. Weight: approx 60g (2 oz) - Colours may vary. x1 pencil.

Haley's Joy

A clever system originally just for Haley and now available exclusively at Rompa®

Haley was a little girl who experienced challenges centring herself and focusing. Her family searched for ways to help her development and found floortime therapy. The first hurdle her parents encountered was gaining a swing, which proved to be exactly what she needed, and it became her most beneficial tool.

Haley's grandfather, an engineer by trade, designed and built her a portable vestibular swing, one which could be moved to any room, and used to engage Haley in therapy and developmental activities. For her family, the swing provided a practical solution. For Haley, the swing provided pure joy.

Suspension System

Total versatility!

The answer for therapists who cannot install a suitable ceiling support eye bolt or need multiple swing options on the go.

- Made from thick structural steel tubing 12.7cm x 7.6cm
- Solid, stable and free-standing
- Will support almost any piece of suspended equipment
- Stays in place even with rigorous activity
- Will not slip or slide
- Spacious standard system includes 3 forged eye bolts spaced 90cm apart on the top beam
- Uprights and bases are heavily padded for added protection
- Easy to assemble and take apart for transportation
- Perfect for rooms where the ceiling is not strong enough to support SI equipment
- Working load approximately 600kg (1,340lbs)
- Weighs approximately 317.5kg (700lbs)
- Size: 3 metres (10ft) high, 3.6 metres (12ft) long and 2.4 metres (8ft) deep at the base.
- Mats and swings to be purchased separately. Specify colour of mats when ordering.

Please note: this product requires assembly by at least two people and appropriate lifting equipment.

Billingow Cushion by Rompa®

A foam base with air cushion creates an exciting Billowing Cushion. Lying or sitting on the cushion provides vestibular stimulation which can be controlled by the user or another person. Also provides proprioceptive and deep touch pressure input. Rolling on and off the cushion is posturally-demanding, strengthening the core and trunk, whilst working on antigravity flexion and righting reactions. Moving around the cushion facilitates gross motor patterns and joint compression. Useful in Snoezelen® and Sensory Integration environments, it is a safe depth and is great for crashing on. Please state colour choice when ordering. Vinyl.

R612626 145 x 145cm VAT Relief £682.95

Octaband™

Participants pull on the resistance band 'arms' and receive proprioceptive feedback. Offers the opportunity for interaction, co-operative play and social skills activities. Suitable for most ages and abilities. Machine washable.

Visual Perception

The visual sense provides us with details about what we see and helps us define boundaries as our brains process colour, contrast, shape, size and movement.

The following products have been designed and selected for the benefits they provide in enabling users to develop their visual experience in regards to visual tracking or peripheral vision.

These carefully chosen resources are tailored to support the enhancement of visual engagement, from stimulating curiosity through vibrant colours to encouraging interaction with varied shapes and patterns. By fostering exploration of contrast, movement, and depth, these tools can help individuals build essential visual processing skills, ultimately contributing to their confidence and spatial awareness in everyday activities.

Tactile

The sense of touch connects us to the world around us, helping us explore, communicate, and learn in essential ways. Our tactile abilities are not only vital for development but also for everyday discovery and interaction.

Abstract Tactile Panel by Rompa®

Aesthetically charming as well as highly tactile. A large variety of fluid shapes, raised and recessed areas as well as contrasting textures make this contemporary looking panel as pleasing to the touch as to the eye. Textures have been carefully chosen to offer a range of temperatures, softness/hardness, smoothness/coarseness and include fabric, tile, carpet, synthetic turf and safety mirror. To be wall mounted. Wooden frame. Colours and features may vary. Available in a standard or midi size to suit room specifications.

Tactile Squares

Lovely wooden and textured resources that can be used on your lap, table top or slotted into one of three wall-mounted frames. All the same size, these can be quickly interchanged in the frames to instantly change and update a sensory wall. Many also feature sound, colour and movement. They encourage reach, exploration and use of different grips, fine motor skills and hand-eye co-ordination whilst providing opportunity for repetitive, soothing motions and texture discrimination. Practical - most can be used any way up. An extensive range from the very simple to multi-coloured, moving designs. To be used with care, under supervision. Colours and styles may vary subject to availability. Size: 29.6 x 29.6cm

**Wooden Frame**

Cloud-shaped rectangle frame to hold three of the Tactile Squares on a wall. The Tactile Squares are interchangeable and give the option to be used on a table, lap, or wall-mounted. Our Tactile Squares are wonderful for sensory exploration as well as for encouraging interaction and motor skills. These squares are equally tactile and visual, as well as offering shared and individual activities with a memory and nostalgia focus.

Designed by an Occupational Therapist, they are meaningful, with each one having its own age-appropriate theme. They provide an opportunity for discussion, reminiscence and for carers to learn more about their residents/family members. Tactile Squares are to be purchased separately.

Hide Inside Putty

Search through this Hide Inside Putty to find all six unique pieces hidden away as you stretch, mold, bounce and tear the putty, if you look close enough you'll always find what you're looking for. Helps build hand and finger strength through tactile play and provides relaxing, yet stimulating interaction for anyone with sensory integration issues. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers.

R624413 **£10.95**

Trendsetters Putty

Let imagination run wild with this Trendsetters Thinking Putty! Explore Egyptian scarab beetles through messy play - this putty can be used for tactile, creative play. This blend of slime and playdough can be shaped, torn and even bounced. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers.

R624419 **£10.95**

Clever Putty

Putty anyone? This one is silver coloured and can be moulded, twisted, torn, crumpled into a ball that, in its turn, can be bounced off the floor or the wall. This is for those moments when you want to wreak havoc on your surroundings or when your fingers are itching for some action. Take it out on a harmless mass of putty, it's safer and less antagonistic.

R624027 **£5.95**

PipSquigz - Set of 3

A set of three fun, colourful and tactile suckers made from soft, BPA-free silicone. Simply push the PipSquigz down onto any smooth surface and watch the baby interact with this high-quality silicone suction toy which rattles and the pops to thrill the ears. With super-suction, each shape can be tugged, pushed, shaken, and pulled. Or, push and stick the shapes together for new experiences with movement, sound and texture.

R624553	£99.95
---------	--------

Winner of 2015 PPS Gold Award for Toys & Games. Testers said: "We loved these. The children used the circles to create snail shell designs, simply and quickly. They were very easy to wash off with warm soapy water at the end of the creative activity and dried overnight, ready to use the following morning with our light box. The bag provided for the smaller circles was a nice touch."

Sensory Circles – Set of 10

5 textured pairs (1 large and 1 small circle per pair) of soft silicone discs. Match them by sight (colour) or touch (using hands or feet - each has its own texture). Excellent for sensory circuits and games, developing language and comparative skills, balance, movement and imaginative play. Dishwasher-safe and non-slip. Includes drawstring bag for the smaller circles.

SWNX®

SWNX® Foot Swing is specially designed for school children (6+) and children's furniture. SWNX® allows motorically restless children to alleviate their urge to move – in an appropriate fashion. When seated on a chair at this age, a child's feet do not reach the floor. This being so, the child may be restless and find it difficult to focus and learn. SWNX® provides children with a reliable contact surface that improves grounding.

R623793

£42.95

Wiggle Wobble Chair Feet

Patented Wiggle Wobble Chair Feet transform a standard school chair into a Wobble Chair enabling kids to have an outlet for excess energy while working, alleviating anxiety, hyperactivity and boredom.

Senseez® Vibrating Cushions

Can help calm hyperactivity, helps focus and concentration, soothes anxiety, reduces stress and relieve aches and pains. Especially valuable for individuals with Autism, ADHD or sensory processing problems. Some of the covers are textured for added tactile input. Visually appealing designs to appeal to children and adults. Compact and portable for stressful situations like car/plane journeys, hairdressers, restaurants, dentist etc. Requires 2 AA batteries. Spot clean only.

R623301 £15.95

Auditory

One of the main senses we have is hearing. Sounds are an essential part of the Snoezelen® concept.

Sounds can create context to an environment and the range of products we provide to our customers focus on: pitch, tone, rhythm, volume and sequencing.

This creates a combination for an appropriate auditory experience and environment for our users. In this section, we have used our years experience to provide a wide range of products that will bring pleasure to our users.

R620525 29W x 34D x 23H cm

£179.95

Vibes Earplugs

Vibes are reusable earplugs designed for sound quality. Traditional foam earplugs are only decreasing the volume of high frequency (treble) sounds, but not low frequency (bass) sounds, which is what causes the sound that you hear to be distorted when you wear them. On the other hand, Vibes lower the volume of all sounds equally, from bass to treble, which allows you to hear sound clearly, just at a quieter volume.

R624174

£20.95

Ear Defenders

Help avoid sensory overload and audible distractions and so encourage focus and concentration. Colour may vary. SNR: 25. One size (best suited to older children and adults). Size: the bar across the top of the head typically extends from 30-47cm (subject to model)

R619663

£4.95

Ear Muffs (Children/Teens)

Minimises noise and distraction, facilitates concentration and may help to reduce hearing damage. Adapts to virtually any head shape – from children with smaller heads to teenagers. The lateral height can be adjusted quickly and easily. Foldable for compact storage and portability. Plastic headband with faux leather ear cushions. Size: ear cushions 8W x 10.5cmH (padding height 1.3cm)

R623020 Blue £13.95

R623021 Green £13.95

R623022 Pink £13.95

Pluggies

Earplugs can be useful for children with ADHD, ADD and ASD as some individuals can find it difficult to concentrate on school work. With special filters, Pluggies muffle sound whilst allowing the child to retain some hearing, reducing any sense of isolation. Made of a soft material that fits comfortably in the ear. For children approximately 4 to 12 years.

R621873

£13.95

Pluggies for Adults

Developed for music lovers, these reusable noise plugs retain the music quality, only the volume is lower. Helps prevent hearing loss and ringing in the ears. Conversations remain audible, so there is no feeling of isolation. Silicone-free so non-irritant.

R623009

£17.95

Musical Push Along Roller

Encourage movement and sensory play with this charming wooden musical roller. As little ones push it along, the bell swings to create a gentle sound, supporting mobility, dexterity, and auditory development. Made from FSC® Certified wood. Stimulates sight, sound, and movement.

Aroma

The olfactory system is a very powerful and emotive sense. Aromas can trigger memories, encourage feelings and even change mood. It enables us to identify objects and/or foods which affects our perception of tastes. When used as part of a Snoezelen® Multi-Sensory environment, aroma can add an extra level of sensory relaxation or stimulation. Rompa® provides a range of aroma sensory equipment and accessories, such as essential oils and room sprays.

Aromatherapy Kit by Rompa®

An easy to use compact kit with its own attractive, wooden case that allows the user to store the 12 oils upright. Suitable for a wide range of uses - with the Interactive Aroma Panel, an aroma diffuser, in massage blends or in the bath. Note: it is recommended that this kit be used by someone who has attended an aromatherapy course (such as ISPA or IFA) and has sufficient knowledge for its safe application. Oils: Bergamot, Eucalyptus, Geranium, Grapefruit, Ho Wood, Lavender, May Chang, Peppermint, Rosemary, Sweet Orange, Tea Tree, and Ylang Ylang.

We are reliant on good health and sound well-being, as well as on the many life skills we have learnt, and often take for granted, that help us everyday.

When our health declines or an injury compromises our daily activities, the effects are far-reaching.

This section includes a range of tools to maintain functionality, to aid recovery and to help individuals to return to their normal health and their familiar lifestyle.

Rompa® offers products for enabling, assessment and intervention such as timers, equipment for writing and activities to use different grips, develop fine motor skills and build muscle strength.

Life Skills & Rehabilitation

**Joyk - Tom**

A lovable baby boy to care for and cuddle. With his own character and cheerful expression, he is comforting and can provide a sense of purpose and commitment to an older person with Dementia or to an adult with learning difficulties. For children, Tom can be stimulating and encourage imaginative play. Because of his realistic size, weight and appearance he can awaken emotions and memories. Tom can be dressed and used with the Heart or with an aroma placed in cotton wool in the pocket in his side for added sensory input. Washable.

R621863

45cmH

£59.95**Joyk - Johan**

Life-like character to care for and cuddle. With a captivating facial expression and large endearing eyes. Reassuring and comforting, Johan can provide a sense of purpose and commitment to an older person with Dementia or to an adult with learning difficulties. For children, Johan can be stimulating and encourage imaginative play. Because of his realistic size, weight and appearance he can awaken emotions and memories. Johan can be dressed and used with the Heart or with an aroma placed in cotton wool in the pocket in his back for added sensory input.

R621862

65cmH

£68.95**Joyk - Emelie**

Doll Therapy can be valuable amongst people with Dementia as having something to care for can imbue a rewarding sense of purpose and usefulness, as well as helping to reduce anxiety. Emelie is dressable, cuddleable and comforting. When held like a real infant in your left arm, it is as though she is lovingly looking up at you. An appropriate weight (1.4kg) which can in itself be calming. With a pouch on her side, the Heart and aromas can be added. Her hair is lovely to stroke. She may stimulate memories of parenthood and happy family moments.

Soft, adorable and a delight to cuddle. Realistic size and 'feel'. Even their little heads need supporting like a newborn. With beautiful attention to detail and a Velcro-sealable pouch in the back for the Heart (20327). Includes babygrow and hat, but will fit into standard newborn sized baby clothes. Hand-washable. Weight: 0.8kg.

R620330 Lilly, Girl | 46L x 42cmW

£57.95

R620331 Elias, Boy | 46L x 42cmW

£57.95

“We initially purchased one of the dolls for a Lady living with Dementia in the home who was always talking about 'the babies'. Her reaction to the doll was overwhelming, her communication skills improved as she would sit and converse with the doll and also sing Nursery rhymes. Something that she may not have done or that we would have thought she was able to do. Subsequently we purchased a further 3 and they have had a really positive impact for our Ladies and Gentlemen living in the home, giving them the opportunity to still be able to nurture and create a sense of comfort and well-being. We also purchased a beautiful Silver Cross pram for the dolls and this encouraged people to go outside for walks in the fresh air. They are really soft and durable but also they are the weight of an average baby. Clothes are interchangeable and this helps people keep occupied with looking after them.”

Ruth Abbs, Registered Home Manager

Precious Pet Kitten

Lifelike, 'breathing' kitten which softly moves as though breathing in a comfortable nap. Pet companionship without hassle or continual expense. Suitable for stroking and enjoying the experience of having a comforting weight on the lap, rather than for cuddling or hugging. Requires 1 D battery.

R619744

£30.95

Precious Pet Puppy

Lifelike, 'breathing' little bundle of joy. This virtual pet offers the best of owning an animal without the hassle or continual expense. His back subtly rises and falls as if softly napping. Adorable! Suitable for stroking and enjoying the experience of having a comforting weight on the lap, rather than for cuddling or hugging. Breeds may vary subject to availability. Requires 1 D battery.
Size: approx. 24L x18W x 10H cm

Lop Eared Rabbit

Purble Companion

The Purble companion is a cuddly, interactive tool that helps you find calm in moments of stress, overwhelm, and other big emotions. Your companion's heart races to show emotion. Hold and pet your companion to slow their heartbeat into a gentle purr. You'll be surprised to find you've helped calm yourself in the process. The companion also features sensors that respond to touch and fidgeting for added comfort. Comes with 2xAA batteries installed and ready to play.

R624292

£64.95

Cuddle Ball

By simply squeezing and cuddling the ball, children will experience a deep and calming pressure, that will help them deal with all of the anxiety and stress they are going through. There are gaps in the ball to allow hands and arms to be placed inside providing extra comfort and warmth. The cuddle ball is often seen by slightly older children, to be an acceptable alternative to more traditional soft toys, such as a teddy bear. Internal bells tinkle to the slightest movement, providing auditory stimulation. Colours may vary. Suitable for 3 to 14 years.

£83.95

Singing Elephant

Activate your first switch to make this gorgeous elephant play peek-a-boo and use a second switch to hear the song 'Do Your Ears Hang Low' in a cute child's voice. Latched operation (activate your switch once to start the effect and a second time to stop it). Functions with only one switch connected, but most meaningful if two are used as this encourages listening skills, choice, co-operative play and turn-taking. Audible, visual and tactile, with ears that flap. Requires 3 AA batteries and up to two switches (to be purchased separately). Can also be activated by pressing the feet.

£7.95**Mini Clock**

Big Time Mini Clock is a geared clock for teaching about telling the time and lapsed time. The clock is colour-coded, is easy to read, and helps students understand telling time to the minute and hour. The hands are geared and keep the correct relationship between hour and minute as children turn the hands on the clock face.

R623560

£3.95

Leisure & Outdoors

Leisure and outdoor activities offer a chance to have a break from a routine or to provide freedom from actions which we are compelled to perform.

Especially in early years, children and people with various mental health or physical disabilities find the choice to do what they want is often very limited, therefore making leisure time essential part of their lives.

Spending time outdoors in fresh air not only supports physical health but also fosters mental well-being, creativity, and a sense of connection with nature. For children and individuals with disabilities, this freedom to explore, play, or simply relax in an open environment can be profoundly empowering, offering a much-needed escape from constraints and routines while promoting personal growth and happiness.

Feelings & Emotional Puzzle Cards

Help build social emotional learning (SEL) skills with these colourful Feelings & Emotions Puzzle Cards. Each 2-piece puzzle shows a full colour photo of a real child making a facial expression on a piece, with a colourful corresponding emoji on the other piece. The puzzles are keyed differently, which means there's only one correct solution. This allows the person to self-correct and learn independently. Includes 24 puzzles in a reusable storage box with carry handle.

Outdoor Wooden Water Investigation Station

Rompa's Wooden Water Investigation Station has been designed to encourage children to explore water flow through movable channels, bends, and chutes. Water play is a lot of fun and integral to learning. It enables children to experiment independently. Each side has been developed to offer different functions with child development in mind. One side features fixed chutes and funnels that enable children to understand and play with the flow of water as they pour it through different elements. The second side has been designed for children to adjust the water flow, allowing them to easily move the chutes and use stoppers to plug the flow and change the direction of the water. All parts pictured are included. The water trays are removable.

Winslow Resources® offers a wide range of therapeutic and educational materials for social and health care professionals, care-givers, parents and families.

The range includes a variety of activities such as books, games, software and photo cards, as well as specialists therapeutic interventions, full programmes and assessment tools for adults and children.

Winslow Resources®

It Takes Two To Talk®

This updated 5th edition guidebook is valuable for parents, SLT's and others who work with, or care for, young children with language delays. It shows via beautiful colour illustrations how to help children communicate and learn language throughout the day, at meal, bath and play times. Interventions are suitable for children still at the very earliest stages of communication as well as those who have begun to talk in short sentences. This product does not incur VAT.

R656445

£41.95

TalkAbility™

A hugely valuable resource for parents and professionals supporting verbal children on the Autism spectrum. This book contains a wealth of practical strategies that can be built into daily conversations and activities. By applying these strategies, parents and professionals help children learn to take appropriate turns in a conversation, wait for others to take theirs, tune into what people say without words in a conversation, understand how others feel, respond appropriately, learn how to play with other children and make friends. This product does not incur VAT.

R653495

£48.95

Put Pretending into your Child's Play

Book 3 focuses on expanding pretend play skills during fun, everyday activities. Children with additional needs often find it difficult to pretend, a stage of development that lays the foundation for key social and learning skills. This resource provides a context of how pretend play fosters language, social and emotional skills using research-based strategies. This product does not incur VAT.

More than Words®

Children with Autism can find it difficult to interact meaningfully with others and the world around them. This programme is for parents of children under five who are on the spectrum. It helps them reach their potential by empowering their key supportive adults with knowledge and strategies to improve social communication, play and imitation skills. Everyday activities are opportunities to learn, communicate and develop skills! Evidence-based and incorporates current best practice. Requires dedication from parents, but is easy to understand and implement. This product does not incur VAT.

R651748

£41.95

Take Out the Toys - Book

Book 2 focuses on "functional play" ability (early play involving conventional or expected actions using toys). These skills provide a foundation for the formulation of later skills so it is important to optimise these as early as possible. Play for children who have Autism or other developmental challenges may not be as advanced as other children their age, but if these specific research-based techniques are used during everyday play activity, much can be done to build skill levels. This product does not incur VAT.

R655712

£14.95

Plan for People Play - Book

Book 1 focuses on learning how to create the best possible play situations, encourage participation, communication and develop social interaction skills in a purposeful supportive way - all based on current research on what helps children learn best. "People Games" rely on engagement with others instead of focusing on toys and whilst playing, children learn the key social skills that create the foundations for building successful relationships with others. This product does not incur VAT.

£103.95

Communication Assessment Profile (CASP) - 3rd Edition

This is the only UK standardised tool to assess the communication abilities of adults with severe to mild learning disabilities. It can also be used with children and young people with ASD and those with neurological disabilities as an outcome measure, to ascertain if communication skills have improved over time or as a research tool. It is comprehensive, using photos of functional and adult-orientated objects and was designed as a three part multi-disciplinary assessment:

- The environment questionnaire ascertains the opportunities available for daily communication (complete with carer/keyworker)
- A photographic manual has subsections on hearing/auditory skills, understanding and using communication (complete with SLT)
- A record of strengths, percentile rank chart, communication environment rating scale all outline priorities for change (agreed by individual, SLT & carer/keyworker)

The National Institute for Adult Continuing Education (UK) recommends CASP as an appropriate assessment for adults with LD. Although not designed for people with Dementia, numerous SLTs report sections 3 and 7 are very useful for assessing vocabulary and communicative function and a small number of individuals participating in clinical trials had age-associated cognitive impairment. Revised 2017.

R651230	CASP	£261.95
R656350	30 CASP Record Forms	£83.95
R652119	30 CASP Record forms (Part 2 only)	£95.95

Language Steps - Book

This resource helps develop comprehension and expression in spoken language from a one- to a four-word level. It can be used as a complete programme or to complement current input, aiming to increase the number of information-carrying words in an utterance. 7 sections, each with therapy and homework activities for individual or group use. Score sheets provide an accurate record of progress. Photocopiable. For educational or therapeutic professionals and parents. Based on Derbyshire Language Scheme. This product does not incur VAT.

R651622

£51.95

Think it - Say it - Book

An excellent photocopiable resource aimed at children with cognitive and/or communication impairments to improve verbal reasoning and language organisation skills. 75 pictured situations have an accompanying page of questions. Section 1 presents a problem and solution, 2 shows a problem but no solution, 3 shows no problem so it can be explained orally. For those with language delays; neurological, hearing or cognitive impairments; LD, ADD or Autism. This product does not incur VAT.

Dyslexia Kit in a Bag

Dyslexia affects 20% of the population and due to it being often mistaken as a condition affecting a person's academic ability, is sometimes left undiagnosed resulting in difficulties. Those individuals, both diagnosed and undiagnosed, find it hard to keep up with others, struggle with self-esteem and confidence and may find it hard to talk about their difficulties. This kit in a bag supports children and young people who have dyslexia diagnosed or undiagnosed in the classroom. Within this set there are resources to:

- help young people talk about their difficulties and what helps
- to support self organisation
- to help raise self esteem and confidence
- to help a child let you know if they are worried or upset
- help give the child a voice and tell you what they may need

R657321

£73.95

Frenchay Eye-Com™ Boards

These low-tech, practical and effective tools aid those with communication difficulties but who have enough cognitive ability, controlled eye movements and basic spelling skills to indicate meaning, answers and intent. A conversation partner sits opposite and understands what is to be conveyed by following eye movements. Widely used on stroke wards, brain injury units etc and aids assessment of cognitive functioning. Both resources have a window so the sender and receiver can maintain direct eye contact and provides a "home" position for the sender to look to indicate he/she is either ready to begin or end a sentence which is very important during the communication process. Eye-Com™ Board is a clear acrylic board with a sturdy wooden base. Personalise by attaching images, illustrations, drawings, photos or letters/numbers etc directly onto the board. The non-speaking person indicates what they wish to say by looking towards specific pictures, photographs, words or letters mounted on the board.

R651437

£93.95

Semantic Workbooks - Set of 6

Based on the cognitive neuropsychological model of language processing and designed for therapists working with Aphasic clients. The 6 workbooks cover specific aspects of semantics: Odd One Out; Semantic Circles; Semantic Verb Circles; Verbs; Spoken Word to Picture Matching; Word Association. These are high quality resources for daily use, filled with clear, captivating illustrations and interesting exercises graded in order of difficulty and presented in different formats, e.g. pictures only, written word only and pictures with words. This product does not incur VAT.

Creating Sensory Play

Creating Sensory Play contains hundreds of ideas using everyday items to create sensory play at home, at school or in play settings. This book considers how activities can be adapted to reflect individual needs. Perhaps a person who does not like touching messy play would do so by wearing latex gloves or a person who has a visual impairment can feel and smell bubbles if the bubble solution contains a little perfume or essential oil.

R657314

£18.95

School Sensory Spaces Saver Pack

A collection of carefully selected products to use in a classroom, gym or corridor. Especially effective when purchased in multiples to accommodate a group of learners. The components can be used in a variety of ways e.g. Multi-Purpose Ball can be sat on in the Ball Stand or rolled over prone students to provide deep pressure input; The Tactile Multi-Purpose Cushions can be sat on or used as part of trail for balance, core strength, spatial awareness and co-ordination. As many of the products have multiple uses, these can energise and stimulate users or be used to calm and relax learners. More economical than purchasing parts separately. Contents may vary.

Our Team

Rompa® has a team of over 60 people including Researchers, Product Developers, Purchasers, Craftspeople, Sales Advisors, Designers, and Installers. These skilled professionals ensure we produce the best quality products and sensory environments.

Rompa's® Sales Advisory Team

The experienced team of Sales Advisors are available to meet with you and discuss your requirements. They are there to listen to your needs and make suggestions to help you to achieve your goal, rather than to simply sell you products.

Design Team

The design team are the most creative when it comes to creating bespoke environments for small-scale to large-scale projects. The team work with your ideas and feedback provided by our advisor and will create an environment that is just right for your needs. Lots of companies will attach a charge to their design service, but Rompa® doesn't. We want you to choose our design, not because you have paid for it, but because it's the best.

Production Team

Rompa® is home to many skilled people at our production site. The team consists of expert machinists, woodworkers, and electrical specialists who work very closely together to produce the highest-quality products made at our site in Derbyshire, UK. All this means that whenever you buy a bespoke product, a Snoezelen® sensory room and equipment from Rompa®, you can expect only the best.

Installations Project Management Team

The Installations Project Management Team will support you in managing your project from plan to reality. They are the team behind the scenes that will answer your every question and help you complete your project.

Installation Team

Rompa® has a team of qualified installation engineers. The expertise held by our engineers and management team means that we don't have to rely on third-party resources. This allows us to always be confident that we are giving our customers a high-quality result.

Qualifications include ECS/CSCS, 18th Edition Qualified Electricians, PAT Testing, Working at Height, Manual Handling, First Aid.

Rompa® is also SSIP and ISO:9001:2015 accredited, which means that we work to all relevant health and safety guidelines to the highest quality standards, both during installations, in the work that we do and the procedures that we follow in our manufacturing facility.

Specialist Advisors

Rompa® works closely with specialists who provide valuable insight into ensuring any Snoezelen® equipment we provide will meet the highest standards required for the needs of the users. Our specialists work independently from Rompa® but have a fantastic amount of knowledge in the field of Snoezelen® equipment and its use. Our panel of experts is ever expanding, this way we can better produce and provide the best and most appropriate products for our users.

Trevor Cotterill

Trevor Cotterill is a Senior Lecturer in Education Studies and SEND (Special Education Needs and Disabilities), a Lecturer in Further Education Collaborations and Stage 3 Progression Leader for BA (Hons) Education Studies. Trevor has over 40 years of teaching experience in secondary schools, further education, and higher education.

Trevor's research includes SEND, including autism and ADHD (attention deficit hyperactivity disorder), professional development for practitioners working with learners with SEND, the role of neurobiology and cognition in autism, and the influence of neuroscience and learning.

Lesley Collier

Professor Lesley Collier is an HCPC registered Occupational Therapist with extensive experience in creating, leading and teaching occupational therapy and other allied health subjects.

Lesley has a clinical and research interest in sensory integration and cognitive impairment in individuals across the life span. She has led and participated in national and international research programmes related to sensory processing and sensory stimulation for people with cognitive impairment.

Lesley's expertise and leadership have significantly contributed to advancements in this field.

Pricing

Prices are in GBP and are subject to change without prior notice.

Prices exclude VAT, handling and delivery charge. VAT will be added to all invoices where applicable unless a VAT relief form is received with the order. Please see our website for the latest prices.

Products which are Zero rated are indicated with 'Does not incur VAT'.

Products eligible for VAT Relief have "VAT Relief" by the price

Delivery

Rompa® aims to despatch most orders within 48 hours of receipt. However, certain products are made to order and may take up to 28 days.

There is a delivery charge applicable to all orders, please see our website for details.

 Where you see this icon, there is an additional £35 per item delivery charge for large and/or heavy items.

All deliveries are to the kerb side only. However an enhanced delivery is available on certain products, contact us for further information.

Damaged products must be reported within 48 hours of receipt.

Missing items must be reported within 7 days from the date on your invoice.

Returns

As a consumer, as defined by the Consumer Rights Act 2015, you have the right to cancel and return items within 30 days of you receiving your order.

Please note that some products are non-returnable and are marked in the catalogue.

Please contact us for a return authorisation reference. Do not return a product without a return authorisation reference.

If you are not a consumer, Rompa® reserves the right to apply a 15% re-stocking fee.

 Where you see this icon, the item isn't eligible for return because it is bespoke or otherwise made to order.

VAT Relief

Relief from VAT is only available on certain products and is granted subject to the following conditions:

The goods are being purchased by an eligible body, or charity for donation to an eligible body.

The goods are supplied or made available to persons with a disability.

We are bound by the laws of HM Revenue and Customs and have a legal obligation to charge VAT on certain products.

A VAT Relief form is available on our website, along with more information regarding VAT Relief.

Consultation Design Installation

1. Contact Us

Call or email us with your ideas! We will arrange a time for a consultation with one of our expert sales advisors.

2. Consultation

The sales advisor will visit, measure up, and work with you to understand your requirements and write a brief.

3. Design

Our design team will study the brief and create a bespoke design around your specific requirements. They create visuals.

4. Feedback

Based on the high quality 3D visuals, you can suggest changes or alterations so we get everything just right.

5. Quote

When you are happy with your design and quotation, we agree on the project, and you place your order with us.

6. Site Survey

Our trained installation team may visit and take more detailed measurements for bespoke items.

7. Manufacture

Our manufacturing team produce the bespoke parts for your project. Lead time is typically 6 weeks, but can be quicker.

8. Install

We agree a time and date convenient for you. Our skilled installation team will visit and install your brand new environment.

9. Training

Where possible we will train you immediately after installation, so you know how to use every feature as soon as you have it.

10. Maintenance

Maintenance packages are available, for those who want it. We will discuss these options with you during the process.

Snoezelen® for Airports

Noisy environments, such as security beeping, crowd noise and intense aeroplane sounds, can be difficult for some individuals to handle. A Snoezelen sensory room in an airport provides a bespoke safe place away from the sensory overload.

Airports

Snoezelen® for Public Spaces

Snoezelen® sensory rooms can be beneficial in a wide range of public spaces to accommodate individuals with sensory sensitivities and disabilities. There are no limitations to where a sensory room can be utilised.

Public Spaces

Snoezelen® for Work and School

Many individuals have sensory sensitivities that make it challenging to work or learn in typical environments. Having a sensory space to allow an individual who may have behavioural or neurological challenges to regulate emotions and reduce stress.

Snoezelen® for Stadiums

Large events tend to be noisy and crowded, which can be overwhelming for some individuals. Having a sensory space can reduce the over-stimulation produced by mass noise and distractions and be able to watch in a calming environment.

Fabrics

PVC Hard wearing • Easy to clean • Water resistant

Our most durable and popular fabric. Extremely hard-wearing, very easy to clean, and water resistant. Latex-free and phthalate-free, this strong fabric has a polymer coating on both sides, helping it maintain shape. Our PVC has a subtle texture and fungicidal finish, and is available in a huge spectrum of colours and tones.

Colour Accuracy

The printed swatches here are for representation only. Colours of actual fabrics may vary slightly. Samples are available on request.

Water Resistance

While Rompa® fabrics are water resistant, finished items have stitched seams, zips and other features that allow water ingress. Rompa® products are not designed for outdoor use. Water submersion, or prolonged exposure to water, will cause damage.

Polyester **Very flexible • Moulds to the user • Water resistant**

Slightly warmer to the touch than PVC and more flexible. This makes polyester the perfect choice for softer, squashy products that allow people to sink into them, such as bean bags and floppy cushions.

Red

NHS Supply Chain

www.my.supplychain.nhs.uk/catalogue

Rompa® is on the NHS Supply Chain Network.
Reference: 2024/S 000-025534.

The Framework agreement incorporates all latest required standards and procedures including British Standards (BS), European Standards (EN), International Standards (ISO), and Furniture Industry Research Association (FIRA). Rompa® upholstered products can be manufactured to Crib 5 standards. Crib 7 can also be considered. This ensures all products supplied under this contract adhere to the very latest standards as well as specific national legislation and NHS-specific procedures and policies.

HC-ONE

www.hc-one.co.uk

We are a preferred supplier for HC-ONE. With 280 care homes, HC-ONE offers professional and personalised residential, nursing and specialist dementia care for more than fourteen thousand residents nationally.

Rompa® is the home of Snoezelen® and the market leader in the provision of sensory products and environments. Combined with an extensive range of indoor and outdoor games, puzzles, activities and reminiscence products well-suited to care homes. Rompa® products not only benefit residents every day, but can be life-changing. We are proud to play a part in providing relaxation, stimulation and happiness to HC-ONE care home residents.

Wonkey Donkey

www.wonkey-donkey.co.uk

We are honoured to be in partnership with the Wonkey Donkey Visitors Centre. Based in Knottingley, West Yorkshire, they provide sanctuary for donkeys, and recognise the therapeutic role these beautiful animals can play, aiding rehabilitation and supporting people with disabilities and illnesses.

Support Dogs

www.supportdogs.org.uk

We are proud sponsors of Support Dogs, the national charity training dogs to ensure the safety, independence and wellbeing of people living with epilepsy, autism or disabilities. With our support, a puppy will be readied for life-saving and independence-inspiring skills. It will then be matched with a human owner, to provide a lifetime of assistance.
