## THE FILM INDUSTRY I

... AND DEEP IN THE WOODS THERE  
A CULT CREATING A SOLUTION...

For those new in these parts,  
we are building a better way  
of doing things.

Empowering anyone to access  
and sustainably make films  
without sacrificing their  
bodies to the industry overlords

are going to create films that  
could be LOST because only a  
select few filmmakers are given  
the opportunity to succeed.

IS BROKEN!

IS

COME  
BE BOUNDARY PUSHING IN  
OUR HEALTHY ALTERNATIVE  
TO SCREEN CULTURE!!!

Q: Are you a cult?

A: No comment.

Q: No, but seriously  
what is it?

Okay, you got us.

We're a cult.

Industry is  
overrrrated,  
archaic and  
it's time for  
an overhaul.

Q: Why don't you go traditional  
work empowerment routes?

A: They are slow moving and  
painfully bureaucratic. We're  
here to be agile and willing  
to take risks on your behalf.

It's about making an  
alternative system to do it  
our own way (no hate unions, W  
we still love you <3)

all prof

Q: This doesn't sound realistic?

A: This is a reasonable first thought. But we don't go after what's realistic - how boring the world would be! Instead we look to find realistic strategies to achieve our ambitious goals.

Q: How are you funding this?

A: GRAVE-ROBBIN AND THRIFT SHOPPIN!

nah...

We're a non-profit meaning we don't bend to any evil shareholders and its are reinvested in the mission.
