NG Kütahya Seramik:

Innovation and Technology in Design

NG | KÜTAHYA

Founded in 1989, NG Kütahya Seramik is among the global players of the porcelain ceramic industry, with 37 years of expertise, more than 400,000 m² of enclosed production area, and an annual production capacity of 85 million m² within a single integrated manufacturing complex. With its innovation, design and sustainability-driven approach, the company continues to evolve and further strengthens its solid position in international markets.

Expanding through a wide range of sizes, surfaces, and design alternatives, the product portfolio delivers modern and flexible solutions for architectural projects. Supported by a network of over 300 business partners across Türkiye and an export reach spanning more than 80 countries, the brand continues to enhance its global footprint.

Our environmentally friendly products, certified with EPD and GREENGUARD, are complemented by NSF-certified solutions developed in line with our commitment to hygiene and human health.

Today, NG Kütahya Seramik is preferred in projects across both Türkiye and international markets, positioning the brand as one of the strong global representatives of the porcelain ceramic industry.

*"Break the boundaries of design with NG Kütahya Seramik
and take architecture to new dimensions!"*
