WHAT YOU NEED TO KNOW GOVERNMENT PACKAGING LEGISLATION

Excluding the well documented Alcohol Duty Changes there have been three areas of government legislation change this year affecting cost prices. These are EPR, PRN and SDIL. The government have not communicated these particularly well, so we wanted to explain them in more detail to our customers. Please read below for an explanation of these changes and if they are already included in your pricing or are still to be implemented.

Extended Producer Responsibility (EPR)

From 1st April 2025 brand owners will incur a new liability in relation to EPR legislation aimed at promoting greater responsibility for the entire lifecycle of packaging, including end-of-life disposal.

Because this increase is from 1st April, brand owners have NOT included it so far in 2025 and hence are now putting it through as a further price increase.

You will see these increases added to your pricing from 1st April

Packaging Waste Recovery Notes (PRNs)

From 1st January 2025 the full liability for PRNs transferred to the producer.

The majority of brand owners have included this increase within their 2025 price increases, so you will not receive a separate increase.

Soft Drinks Industry Levy (SDIL)

In the October Budget the Chancellor announced that both the lower and higher SDIL rates will be increased over the next five years, to reflect the 27% CPI inflation between 2018 and 2024. Annual rate increases will take place on 1st April, starting on 1st April 2025,

The majority of brand owners have included this increase within their 2025 price increases, so you will not receive a separate increase.

PRN started in the late 1990's and SDIL was introduced in 2018 but EPR is new, so we have given a more detailed explanation of this.

What is EPR?

Extended Producer Responsibility (EPR) is legislation that aims to make producers responsible for the cost of the collection, management, and recycling of packaging.

It also incentivizes producers to make their products more recyclable by adding modulation fees, which are based on the recyclability of products. This essentially means the government will adjust the price of the fees, encouraging businesses to decrease their impact on the environment — the more recyclable the material, the lower the price.

Ultimately, the key goal of EPR is to reduce unnecessary packaging, improve the quality of materials, and reduce litter across the country. The scheme makes this possible by channelling the money from the fees into the collection, management, recycling, and disposal of household waste and street bins.

Key Points

Dates – EPR becomes an obligation to producers from 1st April 2025.

Material – EPR is levied on glass containers and tetra/ tetra equivalents. It is not levied on aluminium cans and plastic bottles which will come under the Deposit Return Scheme scheduled for October 2027. It is also levied on all other types of household packaging from shoe boxes to white goods packaging and everything in between.

Fees – Fees vary according to the weight of the material and also to its volume. EPR affects glass producers the most, because of the relative weight of the material.

LONDON SPOTLIGHT

The Kings Head

The Kings Head Sutton Valence

How would you describe your venue's culture and personality?

We are a country gastropub situated in the heart of Sutton Valence, our main goal is to provide our clients with fresh seasonal food, with menus changing every 3 months, all of our produce is delivered daily and from local suppliers less than a 20 mile radius from our doorstep.

What makes the Kings Head unique?

Our venue is unique for many reasons, and to understand it, you'll have to find out for yourself but I will let you into one secret, we only hold 3 things that are frozen in our venue, frozen peas, and the homemade ice creams and sorbets! Other than the peas, each ingredient from our menu is fresh and handmade to each and every order.

How do you represent and showcase the local area in your venue?

Our head chef, Joe has a fantastic reputation and works closely with his suppliers. We are lucky enough to have our local farm, David Catt & Sons located 2 miles from our kitchen. We use two local butchers, Crouch, situated in Staplehurst for all of our white meats, and Glovers, situated in Hartley for all of our red meats, finally we use Cranbrook fishmongers for all of our fish produce. Most of our dishes are either grown or reared in farms around our pub, one of our favourite dishes is the venison, which Joe fully butchers himself, our hunter will source the venison only a few fields away and brings it straight to our venue.

What does hospitality mean to you and your business?

Hospitality to us doesn't mean welcoming clients to our home, it's ensuring they feel as-if they are at home. It is our absolute priority that all of our clients leave our venue feeling as-if they have been acknowledged, looked after and hungry for more upon their next visit.

Any special and exclusive drinks/cocktails?

Here at the Kings, we have a staggering list of wines which compliments all flavours of palette, starting at our entry level! We also offer classic cocktails, frozen beverages as well as freshly prepared smoothies & milkshakes. As mentioned before, our menus change within the seasons but in addition to that, each dish has a unique wine pairing made to assist our clients to which wine we suggest with each dish, all supplied from DWUK of course.

How do you want customers to feel when leaving the Kings Head?

Hungry for more and appreciated! We've mentioned before how important it is to us that client satisfaction is our highest priority, we aim for personable service whilst listening to any suggestions guests may have.

What made you choose DWUK as your drink partner?

We chose DWUK as our drink partner because their ethos of quality, innovation, and sustainability aligns perfectly with our own values. Their range offers the kind of unique, high-quality products that resonate with our guests, and they share our passion for creating exceptional experiences.

How do you find DWUK to work with?

I was fortunate enough to learn about DWUK at my previous place of employment, The George Vaults in Rochester. During my time here I met some fantastic people, such as Nick, our rep. Nick, who is a close friend, has supported us through our first 3 years of business. We are incredibly grateful to him and all that work at DW, we think their service is second to none.

Would you recommend DWUK?

We find that DWUK understand the struggles within hospitality and they are there to support 100%. We feel lucky to be part of their client base, and we really appreciate the service they supply. We don't just mean the products and pricing of things, from the marketing department, to the guys in the office to the delivery drivers, they all go above and beyond for us! We all have friends in hospitality, and for everybody reading this will know how great DWUK are, I feel it is our responsibility to share our knowledge of DWUK with all our friends and get them involved!

What are your venue's short and long-term goals?

In the short-term, we have been focused on getting the quality of our service perfect, this coming from the quality of the products we serve, to the staff we employ to the ambience we provide. In the long-term, we aim to increase our portfolio, increasing jobs for local people whilst running an honest, successful business.

How do you ensure your business is as sustainable as it can be?

We aim to be as environmentally friendly as possible, our chefs use the finest of fresh ingredients that are grown within that particular season, meaning that transportation of goods are reduced massively. All of our suppliers utilise recyclable crates. We are also able to limit our waste, by using fresh ingredients over several dishes.

Do you have any plans to become more environmentally friendly in the future?

Whilst maintaining client satisfaction in our venue, we hope to reduce our carbon footprint as much as possible. We intend on installing solar panels as a source of energy supply, not only reducing costs but also sustaining our environment.

2025

PEDALLING WITH PURPOSE IN SPRING 2025

Our co-founder and managing director, Demis Farley, will embark on an exciting adventure with Hospitality Rides as he cycles across Taiwan. It's more than just a ride — it's a journey driven by a deep sense of purpose and a desire to give back.

Demis, along with business partner Mick Curtis, founded **Drink Warehouse UK** in 2010 and since then, they've grown **DWUK** into the industry leading drinks wholesaler it is today. The road has been filled with its fair share of challenges and triumphs, from late nights and tight deadlines to celebrating milestones and building a dedicated team. Throughout this rollercoaster journey, Demis has seen the highs and lows of the industry first hand. With a heart full of gratitude and a commitment to making a difference, he's decided it's time to give back.

Joining Hospitality Rides is his way of doing just that, cycling across Taiwan to support a charitable cause close to his heart and contribute to the industry that has shaped his career. He'll be swapping the Kent landscape and ups and downs of the business world for some tough hill riding, new vistas of mountain ranges, rolling paddy fields and ocean roads with sub-tropical weather conditions all paired with Taiwanese cuisine to re-fuel for each new journey ahead. Everyone at Drink Warehouse UK is wishing him the best of luck for this very personal challenge and sincerely hope he has scheduled in a spinning class for every day until his challenge begins!

ABOUT HOSPITALITY RIDES

Hospitality Rides, formerly known as Pedalling for Pubs, is more than just a bike ride—it's a heartwarming effort designed to support those within the food, drink, and hospitality sectors who face challenges. This charity event was created to shine a light on and provide essential support to disadvantaged individuals across these industries.

Powered by KAM, Hospitality Rides raises crucial funds for two incredible charities: The Licensed Trade Charity and Only A Pavement Away. These organisations are vital to our industry, offering unwavering support and a helping hand to anyone in need, regardless of their job role, level, or background. Whether it's through a friendly voice on the phone or an encouraging email, they're there to help people get back on their feet.

THE CHARITIES

Only A Pavement Away was founded by hospitality industry consultant Greg Mangham and his wife Gill on World Homeless Day, October 10, 2018. Their mission is to assist individuals facing homelessness, prison leavers, and veterans in finding employment within the hospitality sector.

The Licensed Trade Charity, established in 1793, has a long-standing tradition of supporting those in the licensed trade. With a dedicated network of fundraisers across the country, the charity provides practical, emotional, and financial support to individuals in crisis. It's estimated that around 250,000 people working in the licensed trade need assistance at any given time, and the Licensed Trade Charity works tirelessly to reach as many of them as possible.

The hospitality industry is an exciting one, built on people. Through Hospitality Rides, Demis will be making a meaningful difference, one kilometre at a time. So, this coming spring (13th – 20th May 2025), as Demis cycles through the stunning landscapes of Taiwan, he'll be riding not just for the thrill of the adventure but also for the chance to make a meaningful impact. Follow his journey with us every pedal of the way.
