PRE-FAIR PREPARATION

PREPARE

There will be a large number of representatives of different careers and education/training organisations at the fair. You should have time to speak to all of them.

PRE-FAIR RESEARCH

Write down one fact found online for each of their "Top 5" exhibitors before you arrive.

EXAMPLE QUESTIONS FOR...

USEFUL QUESTIONS:

You may want to use some of these questions to help you when talking to people at the stands. Make a note of the answers given to questions at the fair so that you can follow up any suggestions/emails.

FURTHER EDUCATION AND UNIVERSITIES:

About Life at Uni/College

- **What is the biggest change?** "How is being at university different from being in a classroom at school?"
- **What does a normal day look like?** "How much of my day is spent in lessons, and how much is 'homework' or independent work?"
- **What is the best part?** "What is the one thing students love most about your campus or city?"

About the Courses

- **What do I need to get in?** "What subjects or grades do I need to be studying now to take this course later?"
- **Is it all exams?** "How do I get my marks? Is it mostly big tests, or do I get marks for projects and practical work?"
- **What if I get stuck?** "If I find the work really hard, who can I talk to for help?"

About the Future

- **What jobs can I do?** "What kind of jobs do people usually get after they finish this course?"
- **Is it expensive?** "I know uni costs money, but are there any extra grants or 'free money' (scholarships) I can apply for?"
- **How do I choose?** "If I like two different subjects, how do I know which one is the right one for me?"

Expert "Insider" Questions

- **The 'Top Tip' question:** "If you were me, what is one thing I should start doing now to make my application look amazing in a few years?"
- **The 'Surprise' question:** "What is something about this course that most people don't know?"

EXAMPLE QUESTIONS FOR...

CAREERS AND WORK-RELATED LEARNING:

What is the job actually like?

- **What would I do all day?** "If I worked for you, what are some of the tasks I would do on a normal Tuesday?"
- **Is it fun?** "What is the best part of working at your company?"
- **The 'Vibe':** "Is your workplace quite formal and quiet, or is it busy and social?"

How do I get there

- **What do I need now?** "What subjects should I focus on in school if I want to work for a company like yours?"
- **Skills vs. Grades:** "Besides good grades, what 'people skills' (like teamwork or talking to customers) do you look for?"
- **When can I start?** "How old do I have to be to start a training course or an apprenticeship with you?"

Training and Learning

- **How do I learn?** "If I joined you, would I be learning while doing the job, or would I go to a college for part of the week?"
- **How long does it take?** "How many years does it usually take to become fully trained?"
- **Money and Tools:** "Do I have to buy my own uniform or tools, or does the company help pay for them?"

The Application Process

- **How do I apply?** "Is there an interview, or do I have to do a practical test to show what I can do?"
- **Are there many spots?** "Do you hire lots of new people every year, or just a few?"

Future Growth

- **Can I move up?** "If I start at the bottom, can I work my way up to a manager or a boss one day?"
- **Big Degrees:** "Do I have to go to university to get a high-level job at your company, or can I work my way up without a degree?"

Remember a career is more than just a job; it is a lifestyle. You may not know exactly what you want to do and the fair may help you ask more questions rather than identify answers.

Attend with an open mind, be **respectful and **reflective** and most of all **enjoy it**.**

YOUR FUTURE SELF WILL THANK YOU!
