

THE ENERGY TRANSITION CONFERENCE 2023

POST-SHOW REPORT

In light of global shift towards sustainable green energy in addressing the Energy Trilemma, on **28th-29th August at the Kuala Lumpur Convention Centre, The Energy Transition Conference 2023** convened industry leaders, aiming to accelerate a responsible energy transition in the region.

With a spotlight on **Power, Transport, and Cities, with Digitalisation and Data Infrastructure** as the enablers, the event set forth a vision for a net-zero future. Harnessing collaborations and delivering actionable insights, the conference stood as a beacon for transformative energy initiatives.

The Energy Transition Conference 2023:

PIONEERING SUSTAINABLE PRACTICES

SUSTAINABLE VENUE & ACCOMMODATIONS

**Solar-Powered
Convention
Centre:**
Kuala Lumpur
Convention Centre

**ESG-Compliant
Accommodations:**
We partner with official
hotels located within
walking distances

ECO-FRIENDLY FOOD & BEVERAGES EXPERIENCE

**Food waste
management:**
Food Aids

**Sustainable
Dining:**
Serves a variety
of foods with
minimal carbon
footprint

GREENER EXHIBITIONS

Smart Event

**Sustainable
Booths:**
Reuse and
recyclable materials

**No More
Single-Use
Lanyards**

**AI Business
Matching
Platform**

SUSTAINABLE TRAVEL

**Carbon Footprint
Awareness**

**Green
Mobility**

**Be part of The Energy Transition
Conference 2023. We're not just
discussing sustainability - we're
living it!**

OUR CARBON FOOTPRINT

In line with our unwavering commitment to sustainability, we are actively formulating strategies to offset the event's carbon footprint. One of our key initiatives in this endeavor is harnessing the Green Electricity Tariff (GET).

As we journey towards sustainability, we invite you to remain engaged. More updates will unfold, and there's potential for another influential conference on the horizon. Your participation and passion are pivotal in our collective pursuit of a greener tomorrow.

We extend our heartfelt gratitude for your unwavering dedication and insights. Together, let's chart a course for a more sustainable future.
