EXCLUSIVE PARTNERSHIP WITH KUNCAI

Leading the Market in Pearlescent Pigments

Orzeszyna Int. proudly stands as the largest and exclusive distributor of Kuncai pigments in Poland. As a trusted partner of Kuncai, the world leader in pearlescent pigments, we bring to the market an extensive range of high-quality, innovative products. Our collaboration with Kuncai allows us to provide our clients with unparalleled access to cutting-edge pigment technologies, ensuring vibrant colors and superior performance across various applications.

Commitment to Quality

QUALITY YOU CAN TRUST

At Orzeszyna Int., we are committed to maintaining the highest quality standards across all our products. Therefore our quality control processes are rigorous, ensuring that each product meets our clients' exacting standards for safety, performance, and consistency.

Research and Development

INNOVATION AT OUR CORE

Our R&D departments work closely with our production teams to continuously innovate and improve our product offerings. We modify production recipes and develop new formulations to meet the specific needs of our clients, keeping us at the forefront of the industry.

DIVERSE AND SPECIALIZED OFFERINGS

Orzeszyna Int. offers a wide range of products of superior performance and reliability, designed to meet specific industry requirements.

- Solvent-Based Metal Complex Dyes
- Dyes for Cleaning Products
- Cosmetic Dyes
- Fluorescent Dyes
- Solvent-Soluble Dyes for Plastics

Solvent-Based Metal Complex Dyes

ADVANCED COLORING SOLUTIONS

Our solvent-based metal complex dyes are known for their excellent thermal stability, solubility, and long-lasting color.

Properties

- Significant increase in color brightness
- Capable of fluorescing under UV and daylight
- Organic dye group with high visibility

Applications

- Aluminum foil coloring
- Plastic coatings
- Printing inks
- Wood stains
- Leather finishes

Dyes for Cleaning Products

HIGH-PERFORMANCE DYES FOR CLEANING PRODUCTS

Our detergent dyes are specifically formulated for use in versatile conditions

Properties

- Suitable for institutional, industrial, and household cleaning products
- Stable in various detergent formulations
- Consistent color delivery in different cleaning conditions

Applications

- Shower gels
- Floor cleaners
- Shampoos
- Laundry detergents
- Dishwashing liquids
- Toilet cleaners
- Bath soaps
- Toothpaste and cleansing gels

Solvent-Soluble Dyes for Plastics

HIGH-PERFORMANCE DYES FOR PLASTICS

A solvent-soluble dye dissolves
in organic solvents

Properties

- Soluble in organic solvents
- Insoluble in water, ensuring stability in non-polar media
- Non-ionizing, making them suitable for high-temperature applications
- High lightfastness, meaning they maintain color under sunlight or artificial light
- Consistent shade and quality with high resistance to migration

Applications

- Coloring organic solvents
- Coloring hydrocarbon fuels, waxes, and lubricants
- Suitable for use in various plastics and non-polar hydrocarbon-based materials

Fluorescent Dyes

ENHANCED VISIBILITY AND BRIGHTNESS

Our fluorescent dyes significantly enhance the brightness of colored materials, making them more visible and vibrant.

Properties

- Significant increase in color brightness
- Capable of fluorescing under UV and daylight
- Organic dye group with high visibility

Applications

- Textile dyeing with multi-tone effects
- Optical brighteners in laundry detergents
- Advanced cosmetic formulations
- Protective gear and clothing
- Organic light-emitting diodes (OLEDs)
- Artistic applications (posters, fine art)
- Highlighting markers with glowing effects
- Solar panels
- Fluorescent dyes for marine search and rescue operations materials

Cosmetic Dyes

SAFE AND VIBRANT COSMETIC COLORING

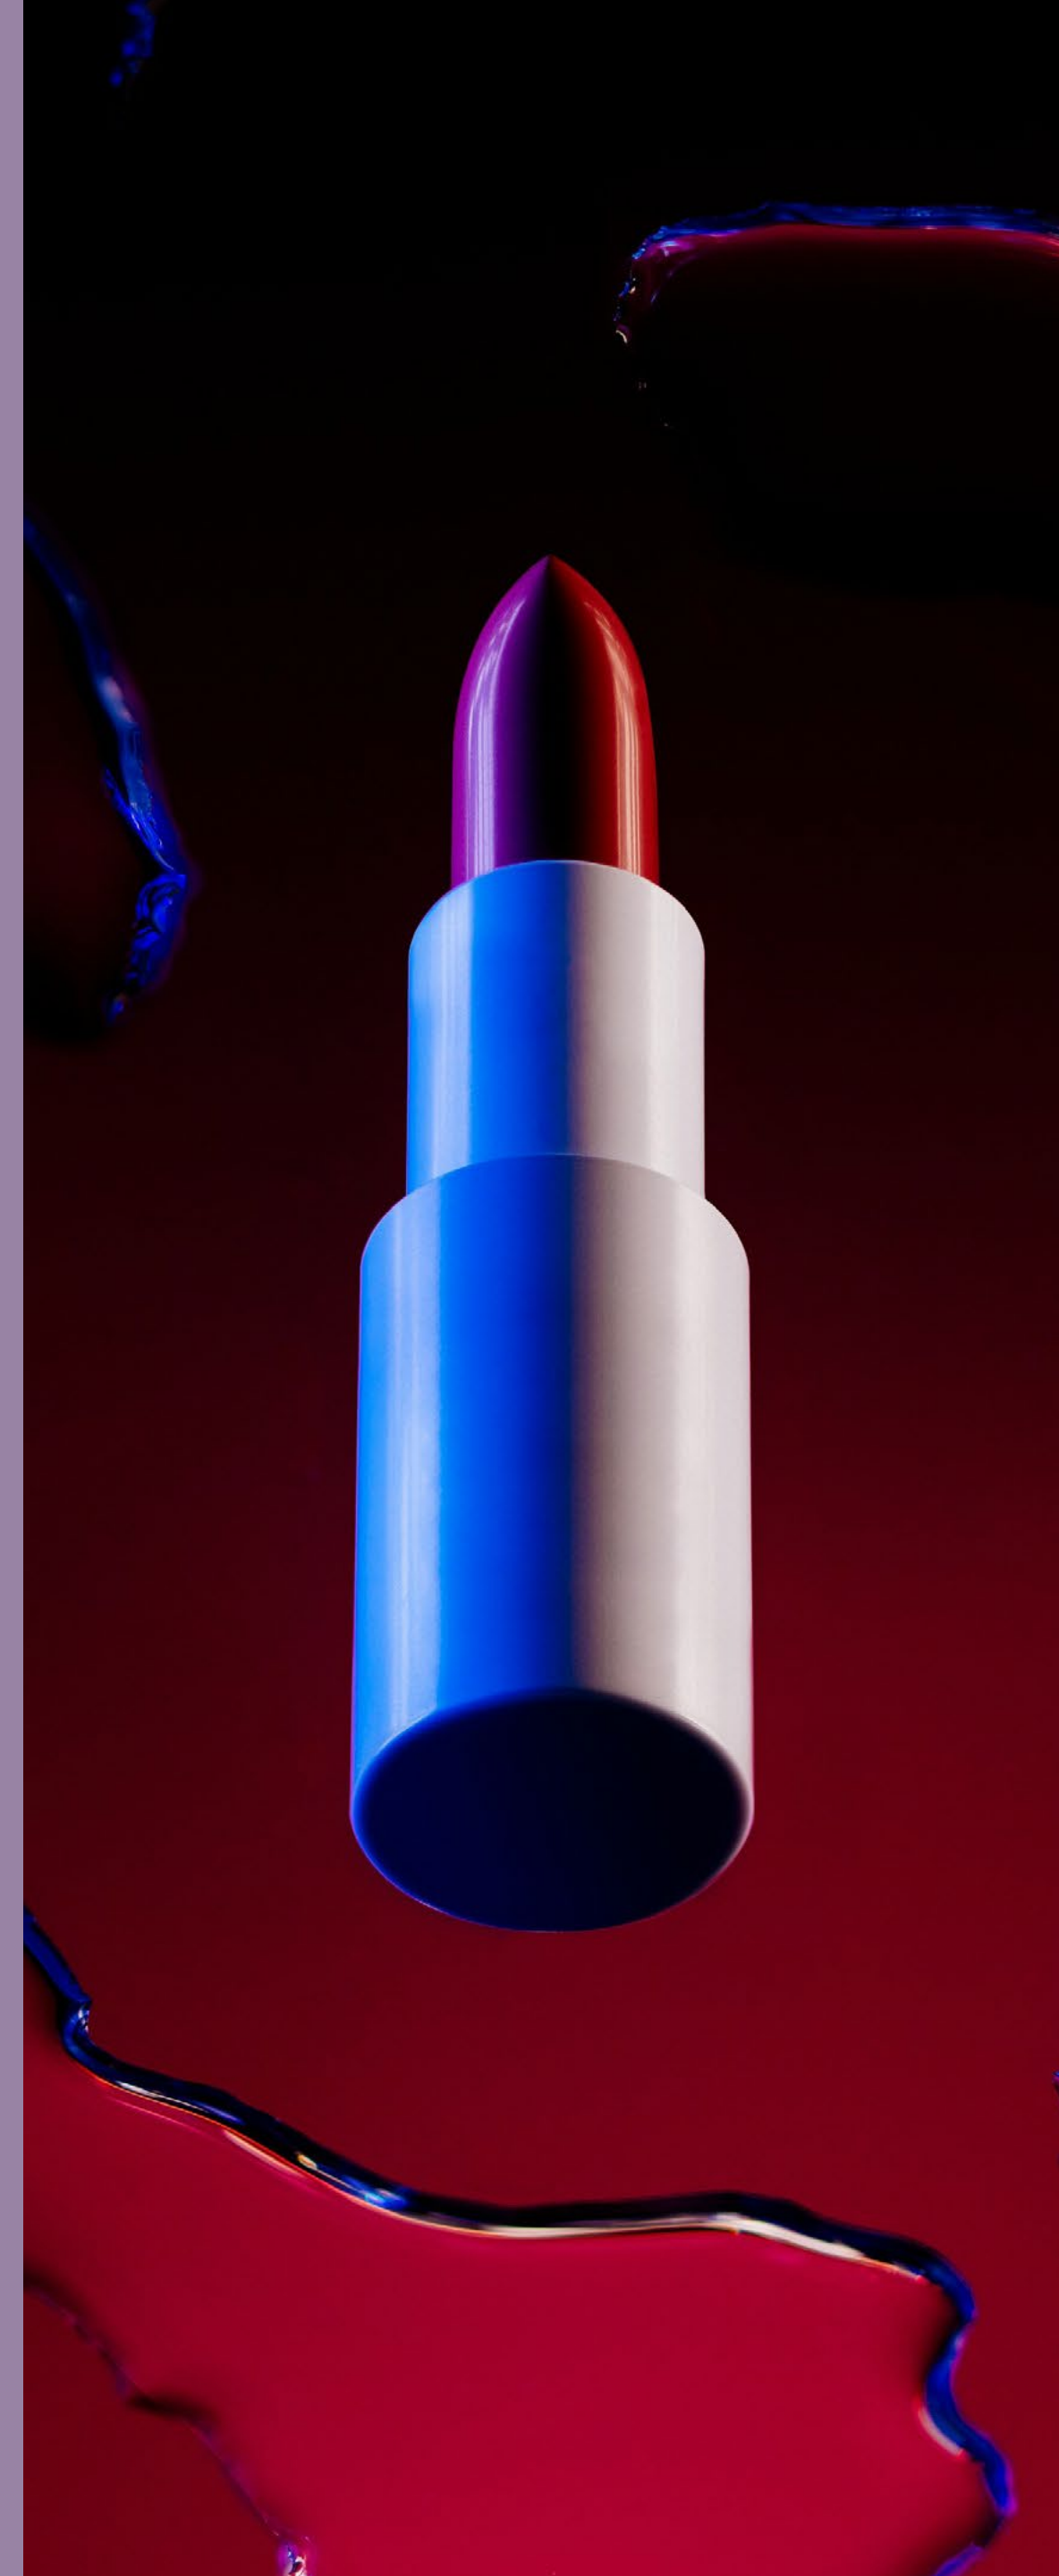

We offer a high-quality range of cosmetic dyes that are safe and compliant with international cosmetic regulations.

Properties

- Compliant with international cosmetic regulations
- High-quality
- Safe for skin application
- Wide range of vibrant colors

Applications

- Lip glosses and balms
- Lipsticks
- Foundations and compacts
- Blush
- Eyeliners
- Eyeshadows
- Mascaras
- Nail polishes
- Eyebrow pencils

Pearlescent Pigments

PIGMENTS OF UNMATCHED COLOR AND EFFECT

Orzeszyna Int. offers a wide range of pearlescent pigments through an exclusive **partnership with Kuncai**. Pearlescent pigments deliver exceptional color intensity making them ideal for use in cosmetics, decorative coatings, and other high-end applications. Compliant with all major international cosmetic regulations.

Our pearlescent pigments are based on three primary substrates:

— **Natural Mica**

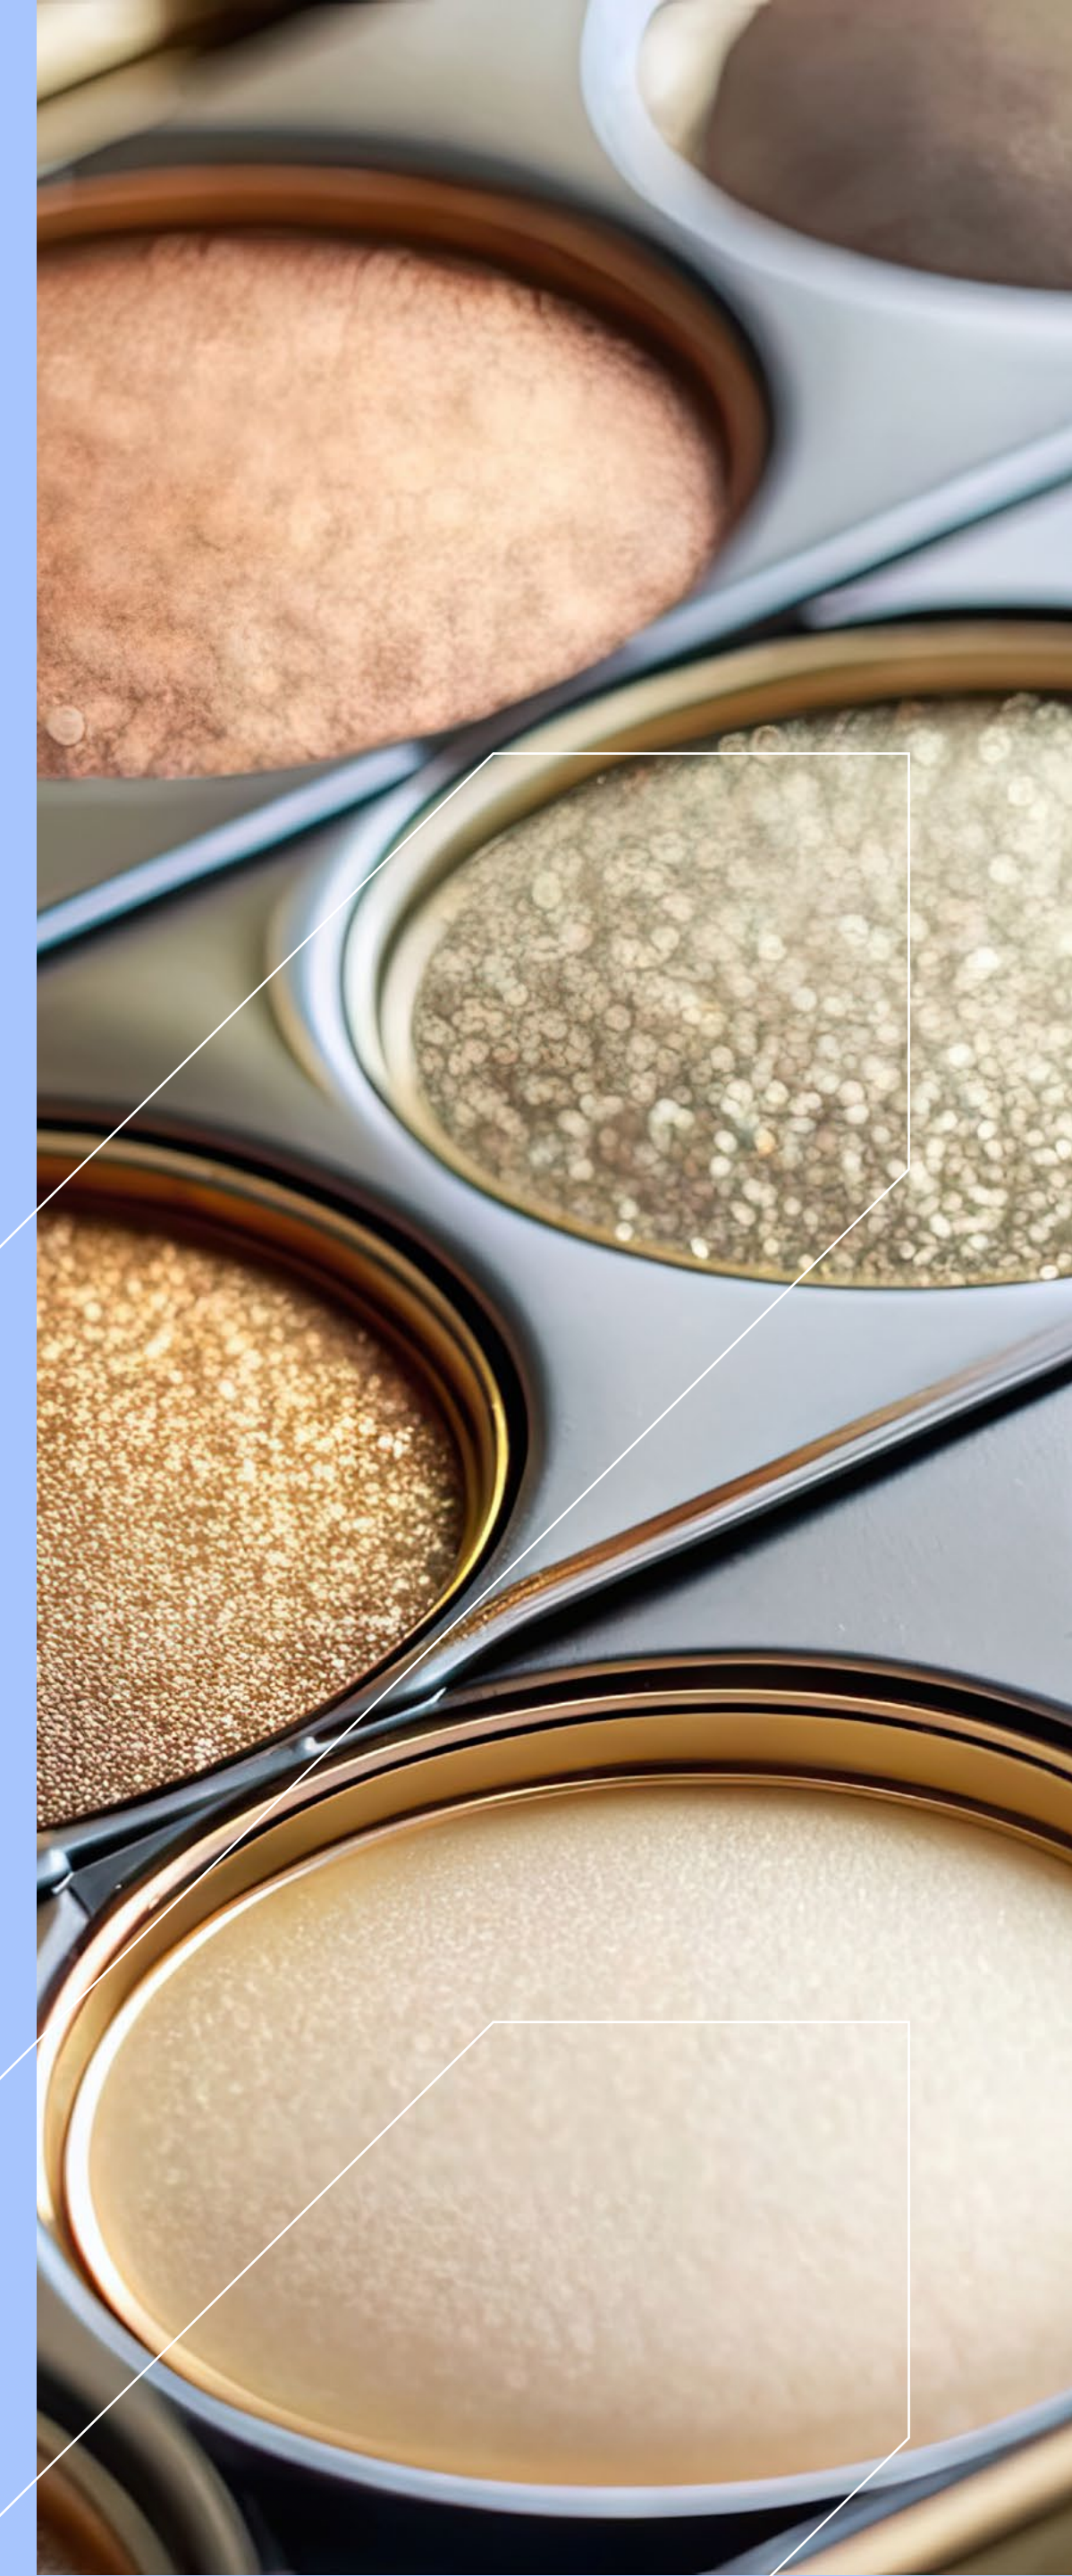

Provides a classic pearlescent effect with high durability

— **Synthetic Mica**

Delivers enhanced brilliance and color consistency

— **Borosilicate**

Offers a glass-like effect with high transparency and sparkle.

Pearlescent Pigments

Properties

High Color Intensity and Strong Chroma

Achieving vibrant, vivid hues with rich, deep colors

Exceptional Reflective Properties

Creating a brilliant, shimmering effect

Wide Range of Color Options

Covering all major color areas, including silver white, interference, gold, metallic, and multi-color

Special Effect Pigments

Designed for demanding applications in cosmetics and body care products

Optimized Particle Size Distribution

Available in various sizes to achieve specific visual effects

Applications

Color cosmetics with glitter, shimmer, or iridescent effects

Decorative coatings

High-end applications in various industries requiring special visual effects
