## Bringing nature into your business

Plants do more than beautify a space - they improve wellbeing, support focus, and refresh the air we breathe. That's why we select plants that are not only easy to care for but also bring lasting benefits to every space.

## Designing your space with plants

We thoughtfully design plant arrangements that complement each business' style and purpose. By following biophilic design principles, we create green spaces that inspire, energise, and foster a deeper connection to nature.

# Professional Plant Care Services

We offer professional plant care services to keep plants thriving year-round. Our expert maintenance plans include regular visits, watering, pruning, and health checks. Each plan is customised to fit your space, style, and plant selection - ensuring every business enjoys beautiful, healthy greenery without the hassle of daily upkeep.

DESIGN

# Custom Projects

We specialise in creating custom plant products tailored to your unique needs and style. From bespoke planters to personalised planting arrangements, we design solutions that perfectly fit your space and enhance its aesthetic with minimal maintenance.

# Living Walls

We create, install, and maintain innovative living wall systems for commercial projects, offering flexible, sustainable solutions that enhance any environment while providing a diverse selection of beautiful, easy-to-care-for plants.

# Investing in Sustainability

Urban greening in the commercial sector is an investment in wellness, sustainability, and aesthetics, that provides lasting value for organisations. Businesses can meet corporate social responsibility (CSR) objectives, contribute to local biodiversity, enhance their brand image and improve job satisfaction for employees.

Implementing urban greening increases the visual appeal and value of commercial properties while creating more memorable experiences for customers.

# Benefits of Commercial Planting

## Boosted mood & wellbeing

Plants reduce stress, improve mood, and enhance focus, leading to happier employees and customers.

## Enhanced brand image

Green spaces enhance beauty, reflecting positively on the business identity, and impress customers.

## Creating healthier environments

Certain plants help filter toxins, reduce pollutants, and increase oxygen levels for a healthier environment.

## Noise reduction

Plants absorb sound, helping to create a quieter, more relaxing space, especially in busy areas.

## Economic benefits

Greenery attracts customers, increases property value, and reduces long-term building maintenance costs.

## Improved sustainability

Plants divide and define spaces naturally, adding structure, privacy, and visual interest.

# Case Studies

**MERISTEM**  
DESIGN

# Arcade Food Hall

## Scope

Hardwood planters, terracotta pots, and olive trees improve aesthetics, while folding benches offer flexible seating. Ongoing maintenance ensures lasting vibrancy.

## Impact

We enhanced Arcade Food Hall with bespoke planters and greenery, creating a visually appealing and functional outdoor space.

# Davines Living Wall

## Scope

A living wall, tropical planters, and reclaimed scaffolding boards added warmth, while custom lighting and a biophilic walkway improved ambiance.

## Impact

Meristem Design and Melody Wier transformed Davines' UK training facility, blending industrial style with biophilic elements, reclaimed materials, and lush greenery.

# Wesley Hotel

## Scope

A central round wooden planter serves as a striking focal point, while greenery in surrounding wooden planters create a relaxing atmosphere.

## Impact

We transformed Wesley Hotel's garden patio into a serene retreat with custom wooden planters and lush shade-loving greenery.

**MERISTEM**  
DESIGN

# Bridgeside Lodge

## Scope

The revitalised space features raised timber planters, green screens, wildflower turf, and archways with climbing plants, enhancing biodiversity and tranquility.

## Impact

Bridgeside Lodge Care Centre transformed its outdoor space along Regent's Canal into a peaceful garden with Meristem Design's expertise and funding support.

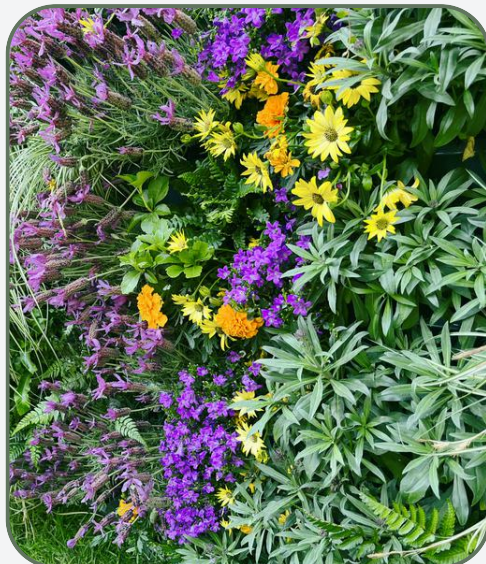

**MERISTEM**  
DESIGN

# RHS Flower Show

## Scope

Since 2018, Meristem Design has designed and installed lush living walls at RHS Chelsea and Hampton Court Flower Shows, including the main stage.

## Impact

Each year's design features carefully selected plants, promoting biophilic design, sustainability, and biodiversity while inspiring visitors with vibrant greenery and flowers.
