What our Party Parents say...

"My son celebrated his birthday at The Makers' House & I cannot recommend it enough!

He had a build a buddy party that was excellent value. The kids had so much fun from start to finish and all came away with a lovely bear of their choice & a huge smile on their face.

The party felt so personal and the service very professional.
We will 100% be back!"

"My daughter had her birthday party at The Makers' House. She loved doing fairy themed craft with her friends. It was so well organised & the party bags were great too. Highly recommended for a stress free and enjoyable birthday party"

What would you say to a stress free party?

We take the mess & stress out of Children's Parties

Our flexible packages give children and parents the best party experience! We handle the planning, the setup, the crafty fun & the clear up leaving you free to relax, enjoy the moment & make memories with your guests!

Too old for party bags
and magic tricks... but
not quite ready for
grown-up nights out?

We get it. The 11+ age group sits in that brilliant middle space where they're craving more independence, more choice, and something that feels theirs. A relaxed pottery or craft session can give them just that - choosing their own pieces, colours and styles, while still enjoying a safe, friendly space to hang out with their friends. It's creative, social, and just the right mix of freedom and support for that in-between stage. Whether it's a birthday, a friendship group hangout, or "just because", our pottery painting and craft sessions are just the thing. Get in touch to see how we can help!
