# EndoNova-X

Advanced Brushless Endomotor with Built-in Apex Locator

Endo Motor

Ledge Removal

Endo Activate

Tooth Polish

**Brushless  
motor**

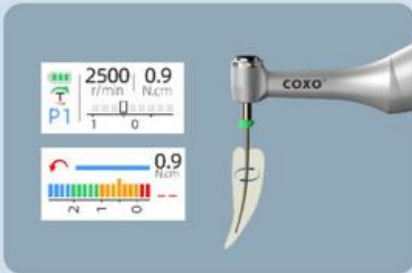

**2500** rpm  
Max speed

**5** N·cm  
Max Torque

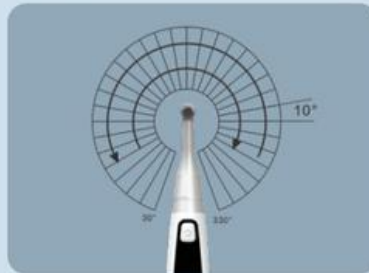

**Technical:**

Adaptor working voltage	AC100-240V 50/60HZ;
Adjustable torque, range	0.6-5.0 N.cm
Rotation speed range:	100-2500rpm
Volume(mm)	78X74X225

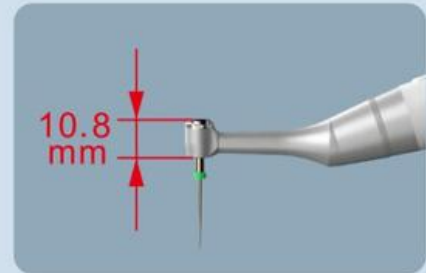

**Multifunctional**

Apex locator and Endo motor in one. Forward angle after reaching the set torque.

**Adjustable angle**

Reciprocating rotation angle adjustable every 10°.

**Mini head**

The head height is only 10.8mm. The head can rotate 360°.

**4 modes**

**Endo Motor**

Thorough Cleaning, Comprehensive Protection.

**Ledge Removal**

Smooth Transition, Seamless Restoration.

**Tooth Polish**

Polishing and cleaning of tooth surface.

**Endo Activate**
