Introduction

Creators of Fine, Bespoke, Wine Stores

Exceptional installations that
are impactful, emotive and
meaningful.

Having grown steadily since 2012, we are proud of a team that exemplifies professionalism, creativity, and a commitment to delivering exceptional service and quality for our clients.

Our Services _____

Design

Comprehensive design expertise, from creative to technical.

When it comes to your wine cellar design, our consultants will ensure that they fully understand your needs and aspirations, taking a holistic approach to design.

We will discuss your wine collection, storage needs, and lifestyle preferences, then analyse feasibility based on your property and desired cellar location. We can also offer a design only service.

Prepare & Build

Major works - such as structural engineering, planning, excavations, tanking, insulation, are areas our specialist build partners are happy to assist with.

The main advantages of using our team from start to finish is that we coordinate everything, allowing for a smoother on-time & on-budget project delivery. Minor works - such as insulating an existing space, electrical, plumbing and data coordination and installation.

We aim to make your wine cellar project as painless as possible by removing the need for you to coordinate other trades. We are also happy to work alongside architects and main contractors appointed for the broader project.

Craft & Install

We are the leading experts in creating exceptional wine rooms, and wine walls, with bespoke craftsmanship and attention to detail at the forefront, whilst integrating seamlessly with the latest in cellar conditioning technology.

Our workshops have the technology and capacity to deliver any size and scale of project, and our craftsmen are highly skilled and passionate about their profession.

We have hand picked the best and most qualified furniture fitters to install our wine rooms. They are used to working on large scale building sites as well as fully finished homes where care and tidy work habits are essential.

Support

As part of our ongoing care, we think it is important to service and maintain all of the mechanical cooling systems that we install, and even some that we don't.

With our affordable routine maintenance option, your wine cellar will be more reliable and last longer, saving you money and worry.

Wine inventory software by [INVINTORY](#) is an excellent solution, to effectively keep track of your wine stock in a very user-friendly and fun way.

Any Space

Whether you are a private collector, professional specifier, or in the hospitality business, we are here to help you.

This document show cases a small number our Wine Cellar projects.

Visit www.cellarmaison.com to take a look at our latest creations.

Definition (1) Fully climate-controlled space.

Definition (2) Series of climate-controlled wine walls.

Wine Rooms

More closely aligned with the traditional 'cave à vin'. Walking into your wine room, you will feel instantly immersed in your wine collection.

WINE ROOM DEFINITION (1)

A walk-in room that is entirely climate controlled, designed for safe storage & cellaring of wine. This can be above or below ground.

WINE ROOM DEFINITION (2)

A walk-in room with a series of climate-controlled wine walls or cabinets, installed within the room. This allows the wine tasting area to remain at regular room temperature. Installations can be above or below ground.

Wine rooms generally suit larger capacity wine collections from 500 to 10,000 or more bottles. Space will often have a different look and feel to the rest of your home and can be a blissful escape from everyday routine. Our wine room designs provide both storage and elegant display, with many different styles and features available.

Our wine room experts can design, manufacture, and install safe, functional, and beautiful wine storage/display almost anywhere, as cellars don't necessarily have to be below ground.

We're in the business of creating unique areas to store and display your collection, whether for a large or small space.

We understand that your wine collection is incredibly valuable, whether more from a financial or sentimental perspective.

Classic style natural oak
wine room with circa
3000 bottle capacity.

The Essential Fusion of Function and Style

CM CELLAR MAISON

Hear from our clients

'We are delighted with our bespoke wine room and very pleased with the way the team at Cellar Maison made our dream into a reality. We were also impressed with the project management undertaken by Cellar Maison and the way that they implemented from start to finish our design requirements and co-ordination of the various ancillaries (timberwork, glass partitions and airconditioning). We would thoroughly recommend Cellar Maison'.

★★★★★

Philip, Clapham

Hear from our clients

'I am extremely happy with our wine wall both from a finished product perspective and the professional service and advice received from Cellar Maison throughout. We were able to create a very bespoke product that met our specific requirements; encompassing both a dividing wall with our kitchen and separate wine display cabinet along the back wall. It is certainly the feature of the entire room and a stunning piece of architecture. I would not hesitate to recommend Andrew and his team who were able to bring our vision into an impressive reality'

★★★★★

Implement & Manage

We manage implementation and support our clients throughout the entire process to deliver an exceptional customer experience.

Craft & Design

Our forte and specialism is blending cutting edge design with innovative engineering techniques and craftsmanship to create perfectly tailored wine storage and display solutions – each unique to our clients’ discerning tastes.

Explore & Inspire

Our passion at Cellar Maison is inspiring our clients to challenge conventional thinking and push the boundaries to explore and discover a new world of innovative wine storage possibilities.

Curate & Enjoy

Ultimately, we enhance a lifestyle experience with bespoke after-care solutions centred around our clients’ curation and enjoyment of fine wines.
