Introduction

Our results speak
for themselves.

We are creators of fine, bespoke wine cellars, rooms and wine walls. Delivering exceptional installations that are impactful, emotive and meaningful.

We take a holistic approach to design, taking into consideration your wine collection, lifestyle preferences, style, budget, practical requirements, and property layout.

Our Services

Design

Comprehensive design expertise, from creative to technical.

When it comes to your wine cellar design, our consultants will ensure that they fully understand your needs and aspirations, taking a holistic approach to design.

We will discuss your wine collection, storage needs, and lifestyle preferences, then analyse feasibility based on your property and desired cellar location. We can also offer a design only service.

Make

We are the leading experts in creating Bespoke Wine preservation systems.

Our workshops have the technology and capacity to deliver any size and scale of project, and our craftsmen are highly skilled and passionate about their profession.

We have hand picked the best and most qualified furniture fitters to install our wine rooms. They are used to working on large scale building sites as well as fully finished homes where care and tidy work habits are essential.

Support

As part of our ongoing care, we think it is important to service and maintain all of the mechanical cooling systems that we install, and even some that we don't.

With our affordable routine maintenance option, your wine cellar will be more reliable and last longer, saving you money and worry.

Wine inventory software by INVINTORY is an excellent solution, to effectively keep track of your wine stock in a very user-friendly and fun way.

Wine Rooms

More closely aligned with the traditional 'cave à vin'. Walking into your wine room, you will feel instantly immersed in your wine collection.

WINE ROOM DEFINITION (1)

A walk-in room that is entirely climate controlled, designed for safe storage & cellaring of wine. This can be above or below ground.

WINE ROOM DEFINITION (2)

A walk-in room with a series of climate-controlled wine walls or cabinets, installed within the room. This allows the wine tasting area to remain at regular room temperature. Installations can be above or below ground.

Wine rooms generally suit larger capacity wine collections from 500 to 10,000 or more bottles. Space will often have a different look and feel to the rest of your home and can be a blissful escape from everyday routine. Our wine room designs provide both storage and elegant display, with many different styles and features available.

Our wine room experts can design, manufacture, and install safe, functional, and beautiful wine storage/display almost anywhere, as cellars don't necessarily have to be below ground. We're in the business of creating unique areas to store and display your collection, whether for a large or small space.

Definition (1) Fully climate-controlled space

Definition (2) Series of climate-controlled wine walls

Explore & Inspire

Our passion at Cellar Maison is inspiring our clients to challenge conventional thinking and push the boundaries to explore and discover a new world of innovative wine storage possibilities.

Craft & Design

Our forte and specialism is blending cutting edge design with innovative engineering techniques and craftsmanship to create perfectly tailored wine storage and display solutions – each unique to our clients' discerning tastes.

Implement & Manage

We manage implementation and support our clients throughout the entire process to deliver an exceptional customer experience.

Curate & Enjoy

Ultimately, we enhance a lifestyle experience with bespoke after-care solutions centred around our clients' curation and enjoyment of fine wines.
