

Tahoe  
Expedition  
Academy

# EVERY STORY HAS A BEGINNING

The story of Tahoe Expedition Academy began with a visionary idea—that education should transcend the confines of indoor classrooms and traditional textbooks. At TEA, we believe in nurturing character development and fostering an unyielding spirit of adventure through experiential learning and exposure to real-world experts.

Since 2011, TEA has empowered students to pursue their passions and make a meaningful impact on the world. Our students have achieved extraordinary feats—scaling mountains, founding companies, delivering inspiring Ted Talks, and launching impactful non-profits—each while forging their unique path of influence and inspiration.

But this is just the beginning of our story. TEA continues to evolve, poised to guide more students towards their dreams of transforming the world. Join us as we embark on this journey of growth, innovation, and endless possibilities. Together, let's shape a future where education is not just about knowledge, but about making a difference in the world.

Tahoe Expedition Academy

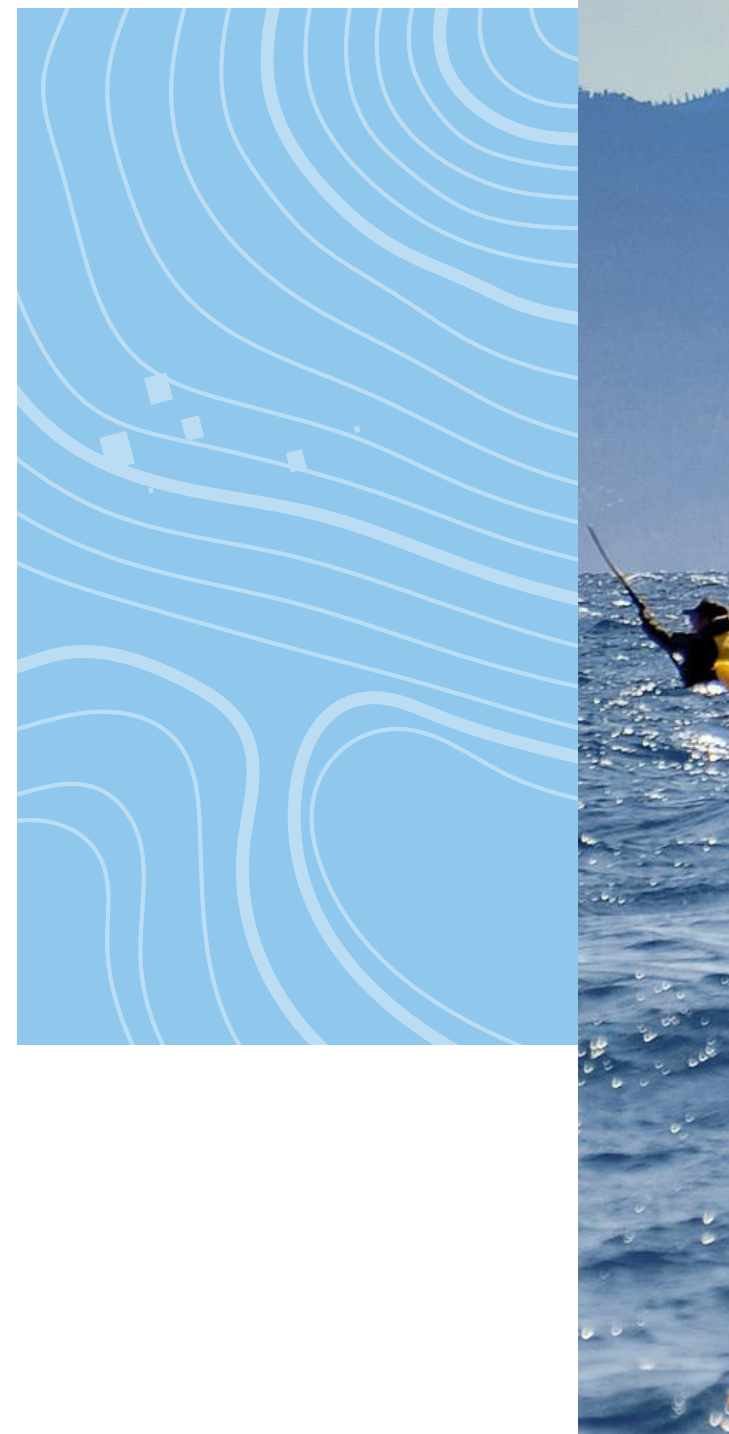

# OUR INSPIRING BACKDROP

## The Majesty of Lake Tahoe

Children are significantly influenced by their surroundings. Our students thrive on a 42 acre campus in the Lake Tahoe Basin. Mountain valleys, fresh waterways, towering peaks, glistening lakes and thriving forests are our classrooms. The campus is a magical place for innovation, reflection and growth and we hope that it can become a place of inspiration for the local community and the wider world of education.

# CHANGE THE WAY WE EDUCATE STUDENTS SO THEY CAN GO AND CHANGE THE WORLD

## **Our Unparalleled Vision**

At TEA, we believe that everything begins with our students. Children, with their boundless creativity, unbridled enthusiasm, and insatiable curiosity, embody the greatest source of potential on our planet. We are committed to nurturing and harnessing these qualities through education, ensuring they flourish rather than fade in the face of stagnation.

Our hands-on, empowering pedagogy encourages students to seize the present moment, make a difference in the world, and explore their passions while expanding their horizons. We believe in equipping students with the tools and confidence to shape their futures and contribute positively to society. Join us at TEA as we inspire and empower the next generation of leaders and change-makers. Together, let's cultivate a future where every child's potential is realized and celebrated.

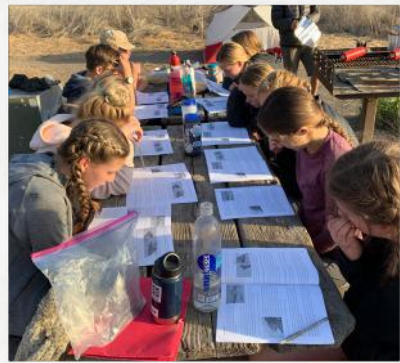

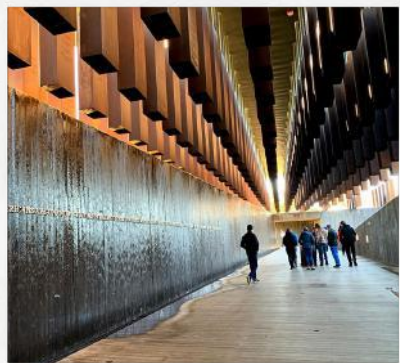

TO EMPOWER  
A NEW GENERATION  
OF CREATIVE  
PROBLEM SOLVERS

**The TEA Mission**

At TEA, we teach through the lens of today to find better solutions for tomorrow. The world is our textbook and industry experts are our teachers. Our crew leaders navigate our students through a diverse array of pressing issues, from refugee crises and social injustice to environmental impacts and economic development. Our curriculum is dynamic, engaging and relevant, ensuring that from pre-kindergarten to graduation, our students are learning how the world works. Through these experiences, they embody and cultivate TEA character traits such as advocacy, stewardship, collaboration, gratitude, empathy, responsibility, craftsmanship and perseverance. This is the TEA way.

# THE STAGE IS SET, OUR TIME IS NOW

At Tahoe Expedition Academy we spend our days cultivating a mindset that embraces critical thinking in a world that never stops evolving. We dedicate ourselves to nurturing the qualities that will shape tomorrow's leaders. We teach our students to dream of new discoveries, new ways to see, new solutions to old problems. We challenge them to be out of their comfort zone, and to embrace discomfort as a catalyst for growth. We ask them to show up every day with unbridled enthusiasm and open minds. At TEA, we practice what we preach.

Walk with us as we share with you the transformative power of our education philosophy. At TEA, the opportunities are boundless.

T H E V I S I O N

TEA believes that creative concepts and integrating real-life experiences in education empowers our students. This vision invests in critical thinking, problem-solving skills, and innovation. This campus inspires curiosity, engagement, and a deeper understanding of our local environment and complex subjects, making learning more meaningful and memorable. By encouraging creativity, education becomes a dynamic process that equips students with the adaptability and originality necessary for success in this rapidly changing world.

# TOGETHER WE CAN CLIMB MOUNTAINS AND CROSS OCEANS

Every single person who experiences the TEA philosophy and campus says, "I wish I could be a kid again and go to this school". Let's invest today and have this be the standard for the future of education.

We are changing education. This is the defining moment. Make this be part of your legacy for generations to come.

OUR NEXT CHAPTER STARTS NOW.  
JOIN US.
