THE FUTURE'S BACKBONE IS MADE OF METAL

WHO ARE WE?

The foundation of our company's success lies in our highly skilled engineers, who are outstanding representatives of their profession. Thanks to this, we offer effective solutions for unique challenges in any industrial field, with teams specialized in the specific task.

Our extensive partner network includes renowned design and manufacturing companies with whom we maintain long-term, reliable business relationships. This guarantees that we always provide our services in a tailored, fast, and precise manner.

MPS

OUR CERTIFICATIONS

ISO 9001:2015 – *Quality Management System*

Field: Custom machine and parts design, sheet metal processing

Issuer: InterCert Ltd.

EN ISO 3834-2:2021 – *Welding Quality Assurance*

Field: Industrial welding process quality assurance

Issuer: DVS Zert GmbH

EN 1090-1:2009 + A1:2011 – *Steel Structure Fabrication*

Field: Steel structure fabrication, structural component production

Issuer: DVS Zert GmbH

EN 1090-2:2018 – *Steel Structure Welding Certificate (EXC3)*

Field: High-level steel structure welding

Issuer: DVS Zert GmbH

DVS Zert EN 1090-2 – *Welding Certificate*

Field: MAG welding (135), TIG welding (141), EXC3 structural components

Issuer: DVS Zert GmbH

CONTAINER SOLUTIONS

- Size: from 3 to 30 m³
- Liftable, transportable, optimized for loading
- Customizable design: size, structure, function
- Industrial-grade corrosion-resistant coating – durable, available in custom colors
- Repair and refurbishment available on request
