SAFETY & WORKWEAR

HI-VIS WORKWEAR SAFETY STANDARDS

The Canadian Standards Association's High Visibility Safety Standard - CSA Z96-15 - covers two garment design elements. The **layout of reflective striping** and **luminance of background fabric** determine three Classes of safety.

BLACK QUILTED FREEZER JACKET

ORANGE TRAFFIC SAFETY VEST

ORANGE WINTER TRAFFIC PARKA PAIRED WITH
ORANGE WINTER TRAFFIC OVERALLS

CLASS 1 - LOW RISK

- Offers the minimal amount of hi-vis materials
- Reflective tape over shoulders, back and encircling waist
- Background material can be any colours
- Suitable for non-complex work environments where workers are separated from vehicle traffic
- Examples: Workers directing vehicle operators to parking, workers retrieving shopping carts, warehouse operations, shipping or receiving

CLASS 2 - MEDIUM RISK

- Offers protection for workers in more complex environments: closer proximity to vehicles or low-light work areas that require greater visibility
- Reflective tape full coverage of the upper torso including front, back, sides, encircling waist and over shoulders
- Background material must be high visibility (i.e. lime or orange)
- Examples: Utility workers, service crews, forestry workers, school crossing guards, airport handlers and ground crew and railway workers

CLASS 3 - HIGH RISK

- Offers the most visibility in more complex backgrounds where low light, fast moving traffic and inclement weather are safety factors
- Reflective tape full coverage of the upper torso including front, back, sides, encircling waist and over shoulders
- A Class 2 garment combined with arm and leg bands added
- Background material must be high visibility (i.e. lime or orange)
- Hi-Vis coveralls meet this standard; safety jackets/parkas and overalls can be combined or arm/leg bands can be added to Class 2 garments
- Examples: Roadway construction workers, utility workers, survey crews, emergency responders, road assistance/courtesy crews, towing operators

SIZE CHART

Size	S	M	L	XL	2XL	3XL	4XL	5XL	6XL	7XL
XX	02	03	04	05	06	07	08	09	10	11

The last two digits of the part number represent the size of the garment.
