ESSENZE SU RICHIESTA - WOOD FINISHES ON DEMAND

Il legno è un prodotto naturale che come tale varia da tronco a tronco. Le essenze che seguono sono tra le più ricercate e di pregio.

Legni che lavorati in biglia, trasformano la cucina in qualcosa di unico, un'opera d'arte di Madre Natura.

Questa unicità è dovuta anche alla maggiore variabilità nel disegno e nelle misure disponibili in un dato momento. Per questo motivo, vi chiediamo di verificare con il nostro ufficio vendite la disponibilità e la conferma del costo indicativo a listino.

Wood is a natural product and it varies tree by tree.

The wood veneers in this section are the most valued and distinguished finishes.

When processed bookmatching the grain, they transform the kitchen into something unique, a piece of art by Mother Nature.

The uniqueness is also coming from the wide variety of designs and dimensions available at a given time.

For this reason, we kindly ask you to verify with our sales team the availability and confirmation of the indicative price stated in our price book.
