B A R L O W

A first-person perspective from the front of a red kayak on a calm pond. The water is dark blue with numerous green lily pads scattered across the surface. In the background, a dense forest of green trees lines the shore under a clear blue sky with a few wispy clouds. The kayak's deck is visible in the foreground, featuring a black oval logo with the text "ERUNO" and "www.ERUNOKAYAKS.COM" below it. Black bungee cords are strung across the deck.

Grants, Funds & Information

When someone doesn't have shoes, it's not just their feet that suffer.

bioped | footcare & orthotics

BRACEBRIDGE

Donating your gently used shoes can make a world of difference.

We collect gently used shoes, from your closet, to BioPed Clinics, to those who really need them, all year round.

BioPed Clinics have collected more than 600,000 pairs of gently used shoes by holding community shoe drives, collecting shoes in our Clinics across Canada, or distributing shoes to people in our neighbourhoods who are in need.

In addition to helping those in our own communities, we are so passionate about helping put shoes on the feet of people in need, that our teams have travelled to developing countries such as Haiti, Honduras and the Dominican Republic to work with those on the ground doing shoe distributions for the kids who need them the most.

If you have gently used shoes that you no longer need, please consider donating them.
