WHY FURNISYS ?

At Furnisys, we aim to improve the quality of workspaces which in turn exponentially boosts the efficiency and bottom line of the company. Our systems help you enhance your workspaces dynamics through:

Lean Manufacturing

Improve productivity by combining lean initiatives with value stream mapping and 5S with our solution

The System Concept

All products can be freely integrated & combined

Custom Play

For customers with specific needs

Maximum Flexibility

With choice of colours, configuration options & more

Buying Guide

Selection guides, Product Comparisons, Case Studies, Reference Work Gallery

Ergonomics

Product designs helps to minimize injuries & help maximize productivity

Comprehensive Range

Multiple product options for your operational needs

Expert Planning

with 3D modeling visualization software

Wide Range of Service

Such as Installation, After-sales support etc.

Made in INDIA

Committed to manufacturing highest quality of metal based industrial furniture in INDIA

Our Value chain

Engineering Design

Value Addition, R&D

Project Management

Individualized attention, time-sensetive

Manufacturing

40+ years experience, Agile methodology

Sales & Marketing

Empathetic approach, Authenticity

Infrastructure:

Furnisys is supported by multiple self-owned factories located in over 25,000 sq.ft. in Navi Mumbai. Manufacturing all products in-house provides us with the opportunity to control 100% of the product quality and ability to facilitate projects of all sizes while maintaining competitive pricing and outstanding lead times. All of the factories feature the latest machinery and technology available to use.

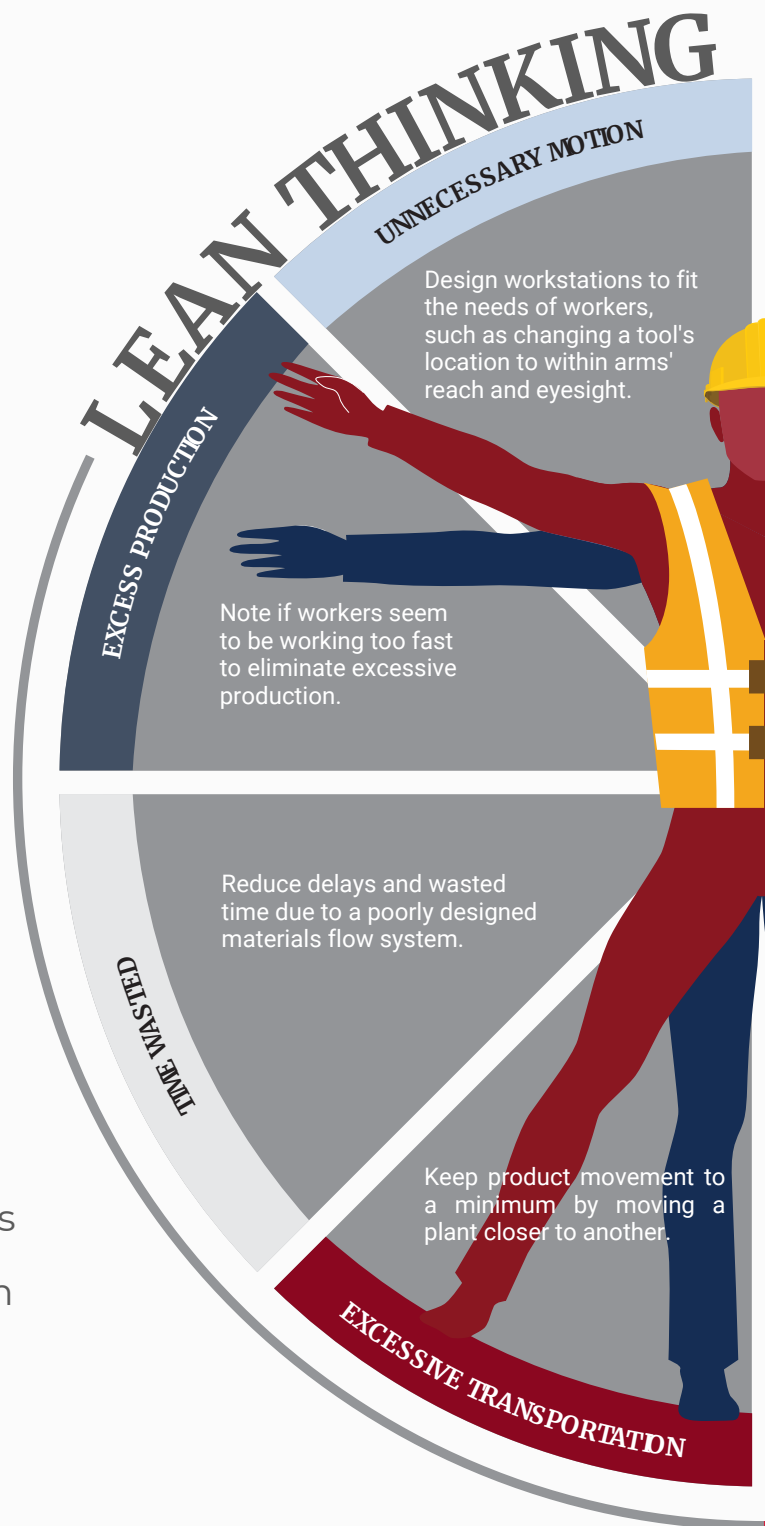

Making Lean More Human

By working together, these two principles can make the workplace more efficient and safe, eliminating waste and reducing risk for your employees.

Lean Thinking

Lean is a way of thinking about creating needed value with fewer resources and less waste. It always starts with the customer. What does the customer value? What problem does the customer need to solve?

Lean-pushing production efficiencies and ergonomics are two seemingly unrelated fields. However, Lean thinking and Ergonomics go hand in hand-each field impacting the other.

Both can combine to make manufacturing more efficient, profitable, and sustainable.

Ergonomics

The word ergonomics comes from the Greek word “ergonomic” which means work and “nomos” which means laws. Good ergonomic design removes incompatibilities between work and worker and creates an optimal work environment.

Application

Furnisys system can develop a custom fit, integrated solution to the industries, spaces and application scenarios of every project.

Assembly Area

Workstation, heavy duty workbenches, pegboards, carts to adapt to multiple function & changes in workflow with high level of ergonomic comfort

File Storage room

Mobile shelving units which helps in efficiently utilizing floor space to store files

QC & QA Area

Workbenches with practical work surface materials & accessories to increase efficiency & facilitate sustainability

Industries

Packing Area

Packaging workstation, Trolleys & flowracks are flexible to accommodate your need for packaging

Maintenance Area

Wide selection of configurable workstations & above worksurface accessories for heavy duty application

Store room

Our wide range of stand, base, mobile & tall cabinet helps to store bulky & small items in one system

Aerospace

Assembly

Gem & Jewellery

Chemical

Packaging

Mining

Agriculture

Utilities

Our Approach

We strive to add value at every step our buyer's business journey. Being fully aware of the versatile stages that our buyer goes through, our team focuses on empowering its buyers at their pace.
