

UPHOLSTERED PANELS SOFORM

September 2021

DESIGNERS

Dorota Balewicz - until she started designing patterns a few years ago, she had underestimated the role that thoughtful pattern played on furniture board, fabric, wall coverings or the floor. Now she notices that her designs are becoming more mature and her eyesight is more sensitive to their influence on the interior. Due to the ability to build a cozy mood, beige, blacks and broken grays are especially close to its aesthetics.

Natalia Polakowska - on a daily basis, she combines design with the production process. She emphasizes that she is constantly looking for inspiration and that she loves what she does. She is motivated by the fact that her work improves people's immediate surroundings. She adheres to the principle according to which the designer must listen to the needs of customers and the interiors in which they live. She likes to look for good effects by differentiating structures, shades in one color space and light refractions.

UPHOLSTERED PANELS SOFORM

- Soform upholstered panels are a decorative wall finish with many practical advantages - they provide a soft and comfortable support, facilitate the organization of space and improve the acoustics of the room.
- The panels are available in many shapes and colors, which makes it easy to adapt them to a specific interior. Thanks to their softness, they will be perfect in the bedroom - as a comfortable headrest or backrest. They are also perfect as a decorative element in the living room. Thanks to the available accessories, they will help you organize your notes, display souvenirs or hang jackets.

ADVANTAGES

- A large selection of colors and shapes
- Fabrics with increased parameters
- Improving the acoustics of the interior
- Additional thermal insulation of the wall
- Practical accessories
- The possibility of combining elements
- Individual, intuitive assembly

ASSEMBLY WITH GLUE

Clean the wall

Lay the scheme on the floor

Draw a horizontal line and a vertical line

Apply the glue

Glue the panel

Continue according to the scheme and press the panels

You have limited time to correct the pose of the panels

VELCRO ASSEMBLING

Clean the wall

Lay the scheme on the floor

Draw a horizontal line and a vertical line

Stick the Velcro tape to the panel

Remove the foil

Glue the panel.

Continue according to the scheme and press the panels

PACKAGING

- Unit packaging: Each panel is packed in heat-shrinkable foil. There is a cardboard insert with product information under the foil on the back of the panel. The size of the insert is adjusted to the shape of the panel. An instruction in A5 format is added to each panel. Panels can be ordered per piece.
- Collective packaging: panels are packed in gray cardboard boxes, the size of which depends on the order quantity.
- The sets of panels are 20 separate indexes. Each set is packed in a gray cardboard box. Each package comes with a short instruction on how to assemble a given set.
