FUNCTION WARRANTY THREE TO SIX YEARS

More than design, quality, and performance, we offer peace of mind. All products in the Strands Lighting Division range are covered by a unique function warranty, valid for 3 to 6 years. The warranty is unique on the market and covers faults related to manufacturing, materials, and assembly. Our goal is to improve service, increase customer satisfaction, and emphasize our brand's quality.

TRUCK TOUR

Meeting different drivers and seeing all the passion that goes into creating each unique truck is a huge inspiration and pure joy. Every fair means an opportunity to see the multitude of ways you use Strands' products. If you're curious about some of the trucks and drivers we've met during different fairs over the years, take a look at the Truck Tour playlist. In each episode, we get to listen to a driver guiding us through the look and products of their truck.

STRANDS LIGHT TEST LAB

At Strands HQ, we have an advanced lighting laboratory where we test all our products before releasing them to the market. We measure output, beam pattern, and performance so you can be sure your new light lives up to your expectations. When you see the graphic illustration of the output in our catalogs, it accurately reflects how the light performs in real life.

SIBERIA X

WORK LIGHT 4"

Part No. 2607270978

€ 146,90 excl. VAT / € 177,75 incl. VAT

- ✓ 70W
- ✓ 1 LUX @ 102 METERS
- ✓ HELLO FUNCTION
- ✓ 5600 ACTUAL LUMEN

HELLO FUNCTION

Its modern design features an X-shaped dual-color position light in white and amber, which also glows through the back of the housing, creating a striking effect from any angle. The Hello function, exclusive to the Siberia XP series, allows signaling with the position lights.

DT-4 CONNECTOR

Use the QR code to check out the products.

DURABLE AND VIBRATION-RESISTANT

Siberia X is built for demanding use. All components are tested for durability, from the internal electronics to the aluminum housing. The lamp is resistant to impacts and vibrations. The powder-coated surface protects against dirt, salt, water, and harsh conditions. Rated IP68/IP69K. The package includes bracket, screws, bolts, and rubber pad.

SKYLORD

LED BAR

- ✓ BUILT-IN RELAY
- ✓ PLUG-AND-PLAY
- ✓ 1 LUX @ 1 KM
- ✓ 30 000 LUMEN

5-YEARS WARRANTY

This is the next generation of LED bars, with an output tailored to provide a new kind of lighting experience. The housing is cast in one piece, securing it against water, corrosion, vibrations, and dirt. Since the housing has no screw holes, it offers superior protection against wear and tear. It's waterproof, IP-rated IP69K, and has a new type of coating. It features double breathers and a solid build, making it especially suited to heavier vehicles. It's covered by Strands' unique 5-year warranty.

NO SCREW HOLES

AMBER AND WHITE
POSITION LIGHT

LED BAR

ONE LED BAR, 2X20 REFERENCE NUMBER

By combining clever design and innovative technology, we have integrated a dual light source into a single LED bar. This means that in the E-approved E-mode (R148/149), the 20"-40" Skylords have a reference number of 2x20. The 10" version has reference number 20. In many European countries, a dual light source is a requirement for road-legal lighting. This solution allows the Skylord LED bar to deliver more actual lumens while remaining approved in E-mode.

1 LUX @ 1 KM

The new beam pattern provides maximum visibility to both the front and sides. It reaches further than the average combo beam and is broader and stronger closer to the vehicle than ordinary long-distance beams. All Skylord LED bars can be used with the E-approved E-mode or with Xperience mode. The Xperience mode is a powerful boost mode that reaches over 30,000 actual lumens and 1 lux @ 1 km for the 40" model.

HELLO FUNCTION

All Siberia LED bars over 20" have the eye-catching Hello function for the position lights. Just flash your high beam twice within two seconds, and the position lights activate their dynamic Hello to greet your fellow drivers.

CABLE HARNESS WITH SWITCH

PLUG-N-PLAY

The Skylord LED bar is delivered with an XBB cable harness, enabling a smooth plug-and-play connection between the LED bar and XBB interface. The signal cable is already integrated into Output 1, and the position light into Output 2, ensuring fast and accurate setup. It features a pre-mounted switch for the position lights, located in the engine compartment, allowing you to easily switch them on or off with a simple press.

STRANDS GEAR

A COLLECTION OF PASSION

SHOW YOUR PASSION

Strands gear is a collection made for life around the vehicle, connecting drivers who value function, design, and are driven by passion. Built for daily use, it combines premium fabrics, durable construction, and long-lasting finishes that hold their shape, color, and comfort over time. From caps and t-shirts to hoodies, hi-vis gear, fleece layers, shoes, and sunglasses, each piece is designed with the same attention to detail and reliability as our lighting—ready for the workshop, the road, and everything in between.

NUUK D-LINE

DRIVING LIGHT 9"

Part No. 2607901021

€ 259,00 excl. VAT / € 313,39 incl. VAT

- ✓ LONGER AND BROADER OUTPUT
- ✓ DARK INTEGRATED POSITION LIGHT
- ✓ 1 LUX @ +800 METERS

13 400 ACTUAL
LUMENS

AMBER AND WHITE
POSITION LIGHT

1 LUX @ +800 METERS

The Nuuk D-Line driving light has a new beam pattern. Thanks to the light's unique construction, the output is fuller, longer, and broader than that of the average combo or long-distance beam. With 13,400 actual lumens and 1 lux @ +800 meters in Xperience mode, you can be sure to spot any obstacles from far away. Other lights with this kind of range often have a reduced width and power closer to the vehicle, but the Nuuk D-Line does not, making it easier to spot wildlife and other dangers to the side of the road.

Use the QR code to
check out the product.

strands[®]

NEW DUAL-COLOR POSITION LIGHT

The position light diodes are built into the reflector, dark and invisible when not in use, and emit a deep, vibrant color when on. The reflector produces a mirror-like effect on the position lights, giving a smooth, lively impression.

MADE FOR DURABILITY

From the inner components and material to the finish of the coating, the D-Line driving light is designed to withstand harsh weather and exposure to the elements. It is IP-rated IP69K, giving it supreme protection against dirt and water. The coating is made to withstand the rigors of the road, with salt, ice, dirt, and temperature changes.

ROOF RACK SYSTEM FOR COMMERCIAL VEHICLES

This is more than a rack. It's a high-functioning, model-adapted system that combines load capacity with integrated, high-visibility warning lighting. Designed to use existing factory mounting points, it eliminates the need for drilling or modifications. Each unit is ECE R65 approved (Class 1 & 2), crash-tested, and built with non-corrosive materials to endure daily professional use.

- ✓ FITS 34 LCV MODELS
- ✓ 213 CONFIGURATION OPTIONS
- ✓ INTEGRATED LED WARNING LIGHTS
- ✓ LOAD CAPACITY: 50 KG PER RACK
- ✓ PLUG-AND-PLAY INSTALL USING ORIGINAL FIX POINTS – NO DRILLING
- ✓ ECE R65 CLASS 1 AND 2 APPROVED
- ✓ WEATHER-RESISTANT AND CORROSION-PROOF STRUCTURE
- ✓ CRASH-TESTED, NO CORROSION AND POWERFUL WARNING LIGHT
