OUR STORY
ARTGLASS's story began 23 years ago on a hillside in the Jizera Mountains which, thanks to their rich natural resources, are the undisputed heart of traditional glass making. Lighting fixture manufacture is closely linked with glass making, so this area was the ideal place to locate our headquarters, in Jablonec nad Nisou, a picturesque town in the middle of the mountains.

OUR PRODUCTS
We offer collections of traditional lighting fixtures, which are constantly evolving to include innovations and new additions. Today, we are moving with the times and putting an emphasis on focusing on our customer's individual needs when designing pieces. Our lighting comes with an ARTGLASS guarantee of quality and originality, and customers can count on the quality of our manufacturing and our professional advice. The creativity of our designers is backed by the rigorous professionalism of our craftsmen and our skilled approach to every single project as a matter of course. Our unique knowledge in the field of lighting manufacture and almost unlimited means of production, as well as our sense of aesthetics and cultural setting enable us to create rare and unique custom lighting fixtures of king-size dimensions.
The lighting fixtures on the following pages are a glimpse of our collection, which numbers over 1,000 unique lighting fixtures. They show models that have been a hit with our customers, as well as new, modern design models.

OUR MISSION
One of our biggest motivators is seeing the joy on the faces of our happy customers when one of our light fittings has been installed and the moment arrives to turn on the light. It is a pleasure for us to see how our fixtures cast a warm glow over your homes, but most importantly in your hearts. A lighting fixture is an important element of an interior, as the right one has the ability to create positive emotions. We know you love your home, and we want to help create an atmosphere of peace and harmony with our magical creations.

NUESTRA HISTORIA
La historia de ARTGLASS se empezó a escribir hace 23 años en las laderas de las montañas Jizera situadas en el norte de Chequia. Sus ricos recursos naturales convierten a esta región en el corazón de una tradición vidriera con fuertes raíces históricas. La elaboración de lámparas está estrechamente vinculada con la producción de vidrio, razón que justifica la situación de nuestra sede en el núcleo de la pintoresca ciudad de Jablonec nad Nisou.

NUESTRA OFERTA
Contamos con una colección tradicional de lámparas que se encuentra en permanente innovación y ampliación. Actualmente, sin embargo, tendimos a concentrarnos más en las necesidades individuales de nuestros clientes y en el diseño de lámparas por encargo. Garantizamos un alto nivel, gran calidad y originalidad en la elaboración de lámparas para instalar, incluyendo asesoría. La creatividad de nuestros diseñadores queda amparada por la profesionalidad de un personal con experiencia, la dedicación exclusiva en cada uno de los proyectos es nuestro sello de identidad. Los conocimientos únicos de los que disponemos en este campo y las posibilidades de producción casi ilimitadas nos permiten crear modelos no tradicionales de medidas atípicas y excepcionales sin perder la sensibilidad por lo estético ni por los requerimientos culturales.
Las lámparas de las siguientes páginas son un extracto de una colección que abarca más de 1.000 tipos únicos de lámpara. Comprende los modelos que gozan de mayor popularidad entre nuestros clientes, así como diseños nuevos y modernos.

NUESTRA MISIÓN
Es para nosotros un gran placer y al mismo tiempo una fuente de motivación ver la satisfacción de nuestros apreciados clientes cuando, tras una instalación, llega el momento de encender las luces, iluminando de ese modo no solo sus hogares sino también sus corazones. Las lámparas son un complemento noble del espacio, la luz crea emociones positivas. Deje que esta mágica combinación complete la armónica atmósfera de su hogar.

ИСТОРИЯ
История компании ARTGLASS началась 23 года назад на склонах северных чешских Йизерских гор, которые, благодаря своим богатым природным ресурсам, стали центром традиционного стеклоделия. Изготовление светильников тесно связано с производством стекла, поэтому для расположения нашей компании мы выбрали живописный город Яблонец-над-Нисоу, находящийся в самом сердце этой области.

НАШИ ВОЗМОЖНОСТИ
Мы предлагаем Вашему вниманию нашу традиционную коллекцию светильников, которая постоянно обновляется и расширяется. Исходя из пожеланий наших клиентов, в настоящее время мы уделяем все больше внимания индивидуальным проектам и разработке нового дизайна светильников. Фабрика ARTGLASS гарантирует клиентам высокий уровень исполнения, качество и оригинальность оформления устанавливаемых светильников, включая консультационные услуги. Креативность наших дизайнеров опирается на поддержку высококвалифицированных мастеров, а опыт и профессиональный подход к каждому проекту является неотъемлемой частью нашей деятельности. Наши уникальные знания в данной области и почти неограниченные возможности производства позволяют нам с эстетическим чувством и пониманием культурных особенностей создавать инновационные эксклюзивные модели светильников, в том числе и нестандартных размеров.
Светильники, представленные на следующих страницах – это часть нашей коллекции, которая насчитывает более чем 1000 видов неповторимых и оригинальных моделей. В коллекции собраны популярные среди клиентов модели, дополненные новыми современными разработками.

МИССИЯ
Нам доставляет огромное удовольствие видеть вашу радость, наши уважаемые клиенты, когда после установки светильников приходит время их включения. Ведь они согревают своим светом не только ваш интерьер, но и ваши сердца. Светильник является благородным дополнением интерьера, а свет вызывает положительные эмоции. Пусть это волшебное сочетание дополнит гармоничную атмосферу вашего дома.

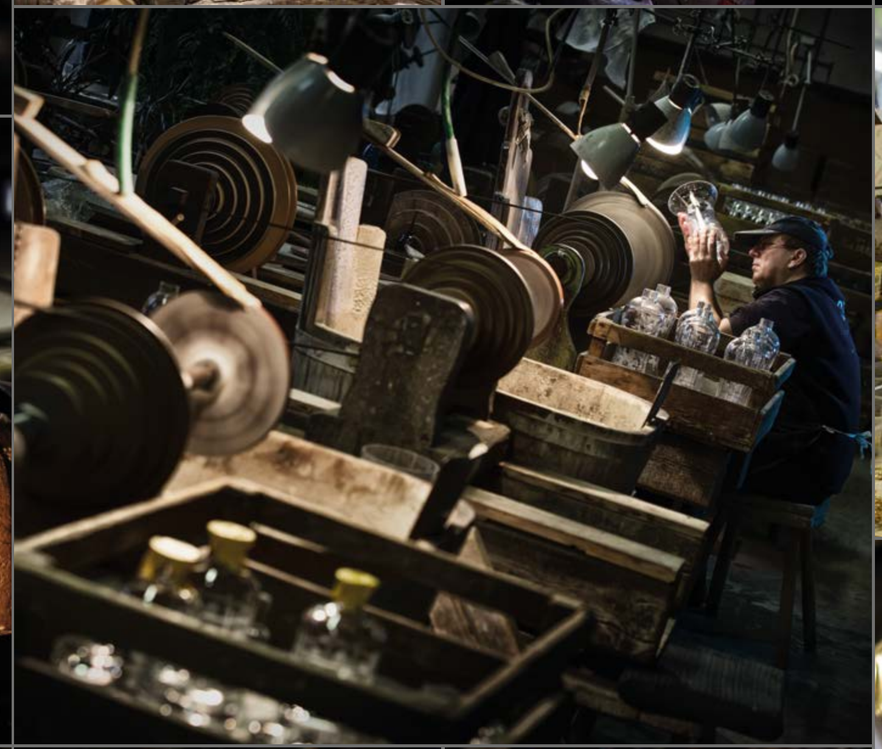

LARGE-SIZED CHANDELIERS

Majestic lighting fixtures richly decorated with chandelier pendants and an arrestingly original design. Choose this magnificent element to become a striking talking-point in your classic or modern interior.

ARAÑAS DE GRANDES DIMENSIONES

Majestuosa lámpara decorada con abundantes abalorios. Su originalidad suele sorprender. Elegirla como dominante significa convertirla en el ornamento más llamativo tanto de interiores clásicos como modernos.

СВЕТИЛЬНИКИ БОЛЬШОГО РАЗМЕРА

Величественные светильники, богато украшенные люстровой пронизью и подвесками, покорят вас своей оригинальностью. Откройте для себя впечатляющую доминанту, которая станет замечательным украшением как классического, так и современного интерьера.

CRYSTAL & METAL ARMS

Collections of classic crystal lighting fixtures with designs that perpetuate the Bohemian tradition. The combination of glass and metal elements together form the perfect lighting fixture that has been sought-after for generations.

BRAZOS DE **CRISTAL & METAL**

Colección de lámparas de cristal clásicas cuyo diseño enlaza con la producción tradicional checa. La combinación de elementos de vidrio y de metal crea una unidad perfecta que se ha ganado el favor de los clientes durante varias generaciones.

СВЕТИЛЬНИКИ **ИЗ СТЕКЛА И МЕТАЛЛИЧЕСКИХ ЭЛЕМЕНТОВ**

Коллекция классических хрустальных люстр, в дизайне которых преобладает традиционный стиль чешского производства. Сочетание стекла и металлических элементов образует совершенное единство, которое уже в течение нескольких поколений привлекает внимание наших клиентов.

24% PbO

The lighting fixtures that feature this mark (24% PbO) contain 24% lead monoxide. Lead is an integral part of traditional Bohemian crystal and it is also what refracts the light in the colourful rainbow of the spectrum. The higher the content, the more pronounced the gleam and shine of the elements, which are in turn intensified when the lighting fixture is decorated by hand-cut diamond detailing. It is the highest quality Bohemian glass, among the best quality glass in the world, produced by Bohemian glass manufacturers using original and traditional techniques.

En las lámparas con la etiqueta [24%PbO] se emplean piezas que contienen un 24% de óxido de plomo. El plomo es un componente integrante del cristal tradicional de Bohemia que explica su refracción y dispersión en los colores del arcoíris. Cuánto más plomo contengan, mayor será el esplendor y brillo de las distintas piezas, efecto que después se multiplica con el tallado manual. Se trata del mayor grado de calidad del vidrio checo, encumbrado a nivel internacional y que se produce con tecnología tradicional y original en los talleres de vidrio checos.

В светильниках, обозначенных «24%PbO», использованы детали, содержащие 24% оксида свинца. ОКСИД Свинца является неотъемлемой частью традиционного богемского хрусталя и обеспечивает преломление света в цветовую радугу. Чем выше его содержание, тем интенсивнее сияние и блеск отдельных элементов, что еще больше усиливает ручная шлифовка изделия. Это самый высокий уровень качества чешского стекла, признанный во всем мире. Производство в чешских стекольных мастерских осуществляется по исконно традиционным технологиям.

CAST FITTINGS

An incongruous combination of solid brass elements in a wide range of metal finishes juxtaposed with crystal makes a beautifully harmonious lighting fixture. The metal is set off perfectly by the fine, pure crystal trimmings to make magnificent lighting fixtures for any interior.

PIEZAS **MOLDEADAS**

La aparentemente heterogénea combinación entre un robusto armazón de latón en una amplia gama de acabados de un lado y el cristal de otro crea una unidad armónica. La pureza de los abalorios de cristal complementan a la perfección y suavizan la frialdad del metal, creando de ese modo una maravillosa lámpara aconsejable para cualquier tipo de interior.

ЛИТЫЕ СВЕТИЛЬНИКИ

Непривычное, на первый взгляд, сочетание массивных латунных каркасов с несколькими вариантами обработки металла и хрусталя вместе создают гармоничное и элегантное целое. Холодный металл прекрасно дополняют и смягчают чистые хрустальные подвески, заполняя изумительным светом любой интерьер.

MARIA TEREZIA

Give in to the soothing calm created by the lighting fixture that so bewitched Empress Maria Theresa with its noble design. Still as popular as ever, this design in the typical lyra shape and in the modern shape is in demand the world over. Let yourself be charmed by its history and amazed by this queen of crystal lighting.

MARÍA TERESA

Déjense abrazar por la plácida atmósfera de esta lámpara que ya desde el siglo XVIII encantó con su majestuosidad a la emperatriz María Teresa. La popularidad de esta lámpara se ha mantenido hasta hoy siendo este modelo, ya en su forma tradicional de lira ya en estilo moderno, un artículo muy solicitado en todo el mundo. Déjense abrazar por un soplo de historia y deléitense con una verdadera joya entre las lámparas de cristal.

СВЕТИЛЬНИКИ СЕРИИ **МАРИЯ ТЕРЕЗИЯ**

Позвольте себе погрузиться в спокойную атмосферу светильника, который еще в 18 веке покорил своим очарованием императрицу Марию Терезию, и до сих пор является неизменным примером изысканности и элегантности. Эта модель как в традиционном виде лиры, так и в более современных формах, пользуется интересом во всем мире. Поддайтесь очарованию истории и насладитесь истинным шедевром хрустального освещения.

BASKET & AND CEILING FITTINGS

These lighting fixtures bring to mind the morning sun glittering and sparkling on water. Carefully cut stones are arranged into rich crystal chains to form stately baskets or hanging freely from the fine metal bodies of the fixtures come together to form this unique element, giving your interior that unique look you want.

PIEZAS **DE TECHO & TIPO CESTA**

El aspecto de estas lámparas recuerda la superficie ondulada del agua reluciendo bajo un sol matutino. Las cuentas talladas con precisión y unidas en abundantes collares, bien en forma de etéreas cestas bien colgando libremente de delicados brazos metálicos, crean un conjunto único que aportará a su hogar el brillo justo y un toque de distinción.

СВЕТИЛЬНИКИ **В ФОРМЕ КОРЗИН И ПОТОЛОЧНЫЕ СВЕТИЛЬНИКИ**

Светильники этой серии напоминают взволнованную водную гладь, сияющую и переливающуюся в лучах утреннего солнца. Восхитительные цепочки филигранно отшлифованных камней, образующие воздушные корзины или свисающие с изящных металлических корпусов, создают уникальное целое, которое внесет в Ваш интерьер настоящий лоск и искру исключительности.

MODERN Line

Breath-taking sets of modern lighting fixtures with crystal drops carefully joined together bring you the illusion of a rainbow waterfall falling from the heights. As light passes through each individual crystal, it is magically refracted, producing the characteristic effect of the rainbow.

Línea **MODERNA**

Conjunto de impresionantes lámparas modernas que recuerdan la imagen de gotas de cristal armadas para crear la ilusión de catarata irisada que se desprende de las alturas. La luz que traviesa cada una de las piezas se refracta en el característico efecto arcoíris.

СОВРЕМЕННЫЕ СВЕТИЛЬНИКИ

Захватывающие дух современные осветительные конструкции и волшебный отблеск хрустальных элементов создадут у Вас впечатление струящегося с высоты радужного водопада. Свет, проникающий сквозь каждый хрусталик, преломляется с характерным многоцветным эффектом, превращая светильник в чудесный элемент Вашего современного интерьера.
