MESSAGE from the MANAGING DIRECTOR

Two years ago, Virtutix IT was born with a simple yet powerful vision – to become a trusted technology and talent partner for businesses navigating a fast-evolving digital world. What started as an idea driven by passion, determination, and belief has today grown into a company defined by purpose, people, and performance.

At Virtutix IT, we believe that technology alone does not create success – people do. This belief has shaped our approach to both our service offerings and our work culture. Whether it is delivering data-driven solutions, enabling digital growth, or connecting the right talent with the right opportunity, our goal has always been to create long-term value for our clients and partners.

As we celebrate this two-year milestone, we are not just reflecting on the past – we are preparing for the future. The road ahead is filled with opportunities to expand our services, strengthen our staffing capabilities, and contribute meaningfully to the technology ecosystem. With a clear vision, strong values, and a growing team, we remain committed to building solutions that are innovative, ethical, and impactful.

I extend my heartfelt gratitude to everyone who has been part of the Virtutix IT journey. Your trust and belief inspire us to aim higher and perform better every day.

Here's to continued growth, collaboration, and shared success.

Warm regards,
Madhuri Bangaru, MD
Virtutix IT Services Pvt. Ltd.

Madhuri Bangaru

MANAGING DIRECTOR

WHO WE ARE

Virtutix IT Services Pvt. Ltd. is a growing IT Consulting, Services and IT Staffing organization built with a clear purpose—to help businesses and professionals succeed in an increasingly data-driven and technology-led world. Established in 2024, Virtutix IT began its journey with a strong belief that the right combination of technology, talent, and execution can create measurable business impact.

Over the past two years, we have evolved from a startup vision into a structured and reliable technology partner, supporting organizations across multiple industries with practical, scalable, and future-ready solutions.

OUR APPROACH

We believe that successful technology solutions go beyond tools and code. Our approach is business-first, people-centric, and execution-focused. We invest time in understanding client objectives, challenges, and growth plans before proposing solutions. This ensures that every engagement is aligned with real-world needs and measurable outcomes.

OUR FOCUS

At Virtutix IT, our focus is on delivering value-driven IT services that help businesses make smarter decisions. We specialize in data, analytics, AI, and digital solutions that enable sustainable growth. Through our IT staffing services, we connect organizations with skilled and reliable technology talent.

We emphasize quality, transparency, and timely execution in every engagement.

OUR JOURNEY SO FAR

From our establishment in 2024, Virtutix IT has grown from a startup vision into a trusted IT services and staffing partner. Over two years, we have expanded our capabilities, team, and client relationships across multiple domains.

Each milestone reflects our commitment to quality, innovation, and sustainable growth.

Our Vision

providing innovative services that improve the quality of Businesses

Our Mission

Develop high quality IT service & Solutions through customer expectations.

As Virtutix IT, completes two successful years, I reflect with gratitude on a journey built on vision, resilience, and trust. What began as an idea has grown into a reliable IT services and staffing partner, driven by innovation and people-first values.

I sincerely thank our clients, partners, team members, and well-wishers for their continued support and confidence in us. Your trust inspires us to consistently deliver quality and create meaningful impact. As we look ahead, we remain committed to innovation, talent development, and sustainable growth, building a future where technology and opportunities go hand in hand.

VENKATESH KADALI

Premier Analytics and Tech partner

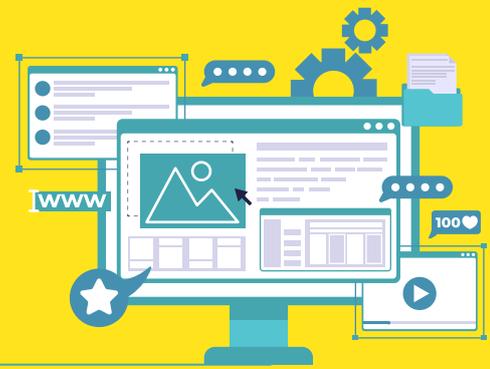

Founder - **X Analytic Xperts™**
Grow. With Data

- MBA in Data Science & Analytics from Jain University.
- Certified DS & Analytics Professional from IIT-Madras & GUVI.

WHY VIRTUTIX IT?

Your trusted partner for Data, AI, Analytics, and IT Talent turning insights into impact and technology into business growth.

YOUR TRUSTED TECHNOLOGY & TALENT PARTNER

In a rapidly evolving digital landscape, organizations need more than just service providers — they need reliable partners who understand technology, people, and business outcomes. Virtutix IT stands out by combining deep technical expertise, strategic thinking, and a people-first approach.

1

2

BUSINESS-FOCUSED TECHNOLOGY

We don't just deliver technology, we deliver business outcomes. Data-driven decision support, Scalable and future-ready solutions

ROI-oriented implementations
Every engagement begins with understanding client challenges and goals.

3

STRONG TALENT ECOSYSTEM

Our recruitment and HR expertise allow us to Source industry-ready talent, Reduce hiring turnaround time and Match the right skills with the right roles. We build long-term talent partnerships, not short-term placements.

STARTUP-FRIENDLY & ENTERPRISE-READY

Whether you are:

- A startup building from scratch, or
- An established organization scaling operations

Virtutix IT adapts quickly to your business stage and requirements.

5

4

WHAT MAKES VIRTUTIX IT DIFFERENT

Dual Strength Model. We uniquely operate at the intersection of: IT Services – Data Analytics, AI/ML, BI, Consulting & Development, IT Staffing – Domestic hiring, contract & permanent staffing. This enables us to support clients end-to-end, from technology implementation to talent acquisition.

CII PARTNERSHIP SUMMIT 2025

held at Andhra University Grounds, Visakhapatnam, Andhra Pradesh, India

-----14-15 Nov 2025-----

30th CII Partnership Summit Visakhapatnam

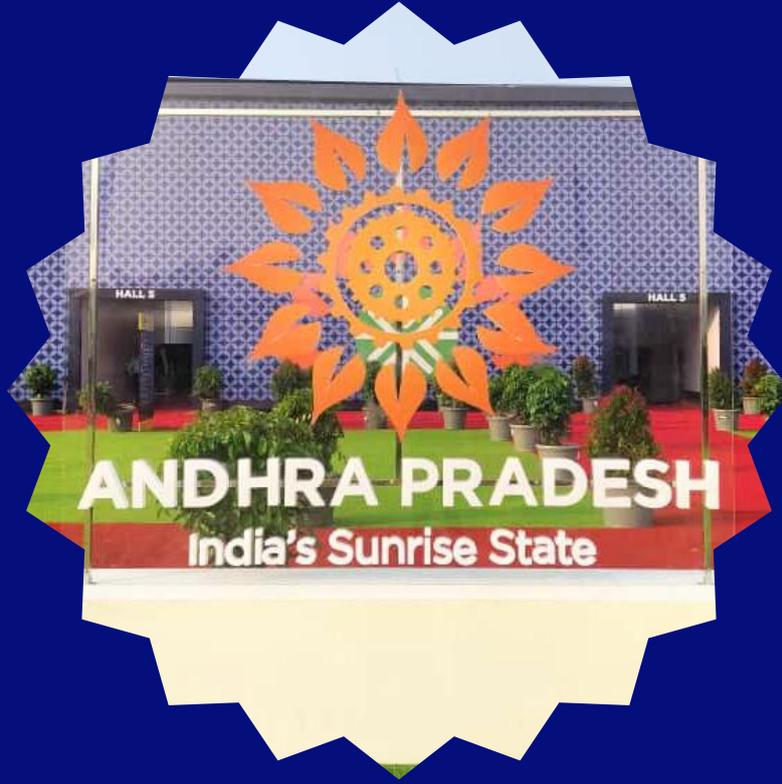

X VIRTUTIX®
Premier Analytics and Tech partner

Virtutix IT at the CII Partnership Summit 2025

At the prestigious CII Partnership Summit 2025 organized by the Confederation of Indian Industry at Andhra University, Visakhapatnam, Virtutix IT marked its presence through the participation of our Director & CEO, Ms.Venkatesh Kadali, who attended as a Special Invitee – Domestic Delegate on 15–16 November 2025. This distinguished invitation reflected the growing recognition of Virtutix IT in the domains of Data, AI, Analytics, and Digital Transformation. By being part of high-level policy discussions, global business interactions, and strategic networking forums, Virtutix IT represented not only its technological expertise but also the innovation potential of Visakhapatnam and Andhra Pradesh on a national and international platform. The participation underscored the company's commitment to contributing to India's digital growth story while exploring meaningful collaborations with industry leaders, investors, and policymakers shaping the future of the technology ecosystem.

Celebrating growth from the Sunrise State Andhra Pradesh, India

Technology and Digital Transformation Focus: Participated in discussions around technology trends, digital transformation, and economic growth shaping future tech ecosystems.

Representation of Visakhapatnam & Andhra Pradesh: Proudly represented Visakhapatnam and Andhra Pradesh on a global stage, showcasing the region's innovation ecosystem.

Networking & Industry Partnerships: Strengthened networking with industry and government leaders to foster strategic partnerships aligned with Virtutix's IT, AI, data, and analytics services.

Showcasing Expertise: Highlighted Virtutix IT's role as a premier partner in data, AI, analytics, and IT services, contributing to digital progress and nation-wide tech leadership ambitions.

PEOPLE + PROCESS + DATA + TECHNOLOGY.

At Wission Axes 2.0 a guest speaker Mr. Venkatesh Kadali from Virtutix IT – Premier Analytics and Tech Partner delivered an insightful and practical session for students, aspiring entrepreneurs, and early-stage startups.

The talk focused on how Data Science, Data Analytics, AI, and Business Intelligence are transforming modern businesses and how young innovators can leverage these technologies to build impactful careers and scalable ventures.

The session covered real-world applications of data in decision-making, career paths in analytics, startup use cases, industry tools, and the importance of data-driven thinking from day one. Participants engaged actively as their doubts were addressed around skills, opportunities, project building, internships, and startup execution strategies.

GUIDING STUDENT ENTREPRENEURS ON DATA SCIENCE, ANALYTICS & STARTUP READINESS

An inspiring session that showcased Virtutix IT commitment to mentoring future tech leaders and empowering the startup ecosystem with practical, real-time industry insights.

Speaker - Mr. Venkatesh Kadali

How to Start a Career in Data Science & Analytics?

Data Science and Analytics offer one of the most promising career paths for students and aspiring professionals who enjoy working with data, solving problems, and generating insights for decision-making. Starting a career in this field begins with building strong foundations in Excel, basic statistics, and SQL to understand how data is structured and analyzed. The next step is learning Python along with libraries like Pandas and Matplotlib for data handling and visualization. Gaining hands-on experience with tools such as Power BI or Tableau helps in creating dashboards and understanding business metrics. As you progress, learning the basics of machine learning using scikit-learn enables you to work on predictive models. Building real-world projects, publishing them on GitHub, and sharing insights on LinkedIn strengthens your portfolio and visibility. With consistent daily practice and practical exposure, you can become job-ready for roles like Data Analyst, BI Analyst, or Data Science Trainee within a few months.

International Yoga Day

21 June, 2025

1st Year Anniversary

02-02-2025

WILL AI CHANGE THE WAY WE DO JOB?

KEY HIRING TRENDS

- Skill-based hiring over qualification-based hiring
- Remote global talent acquisition
- Contract, project-based, and staff augmentation models
- Demand for multi-skilled tech professionals

MOST IN-DEMAND ROLES

- AI / ML Engineers
- Data Analysts & Data Scientists
- Cloud & DevOps Engineers
- Cybersecurity Analysts
- Power BI / Tableau Developers
- Full Stack Developers

AT VIRTUTIX IT, WE ALIGN OUR STAFFING STRATEGY WITH THESE TRENDS TO ENSURE CLIENTS HIRE FUTURE-READY TALENT, NOT JUST CANDIDATES.

THE TECHNOLOGY LANDSCAPE IN 2026 IS DRIVEN BY RAPID INNOVATION, INTELLIGENT AUTOMATION, AND AI-POWERED SYSTEMS. THIS SHIFT IS TRANSFORMING NOT ONLY HOW COMPANIES OPERATE — BUT HOW THEY HIRE.

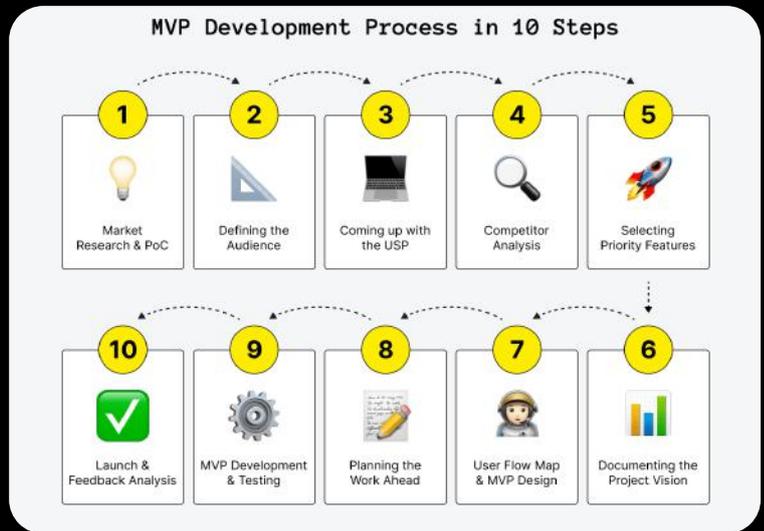

ENTERPRISES FOCUS ON

- Digital transformation
- Data governance & security
- Process automation
- Cloud migration

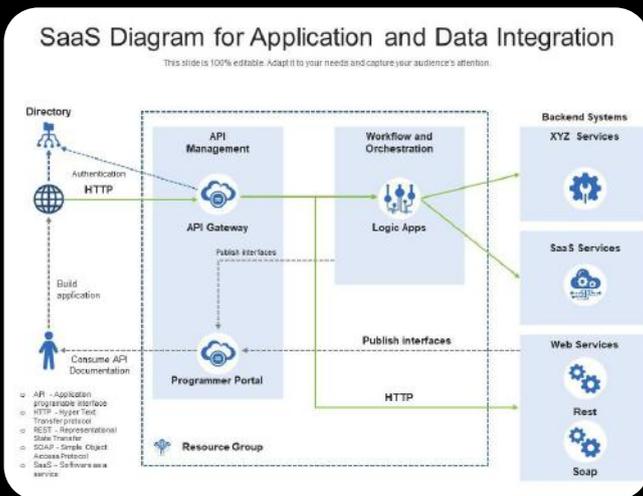

STARTUPS FOCUS ON

- MVP development
- Rapid deployment
- Cost optimization
- Agile product engineering

WE SUPPORT BOTH TECHNOLOGY & DATA PARTNER, ENABLING

- End-to-end data management
- Scalable cloud architecture
- MVP to enterprise product growth
- Real-time BI dashboards
- AI/ML-driven automation
- Secure data governance
- Seamless API integrations
- IT staff augmentation

DIGITAL TRANSFORMATION & INNOVATION ROADMAP

A focused view on how organizations modernize legacy systems, adopt emerging technologies, and create a phased roadmap for sustainable digital growth through cloud, data, automation, and agile practices.

- Modernize legacy systems
- Move to scalable cloud
- Use data for decisions
- Automate with AI/RPA

Enterprises and startups differ in scale, but both demand speed, scalability, and data-driven decisions.

BUILDING HIGH- PERFORMANCE TECH TEAMS

TEAMS ARE NOT BUILT BY HIRING FAST — THEY ARE BUILT BY HIRING RIGHT, TRAINING CONTINUOUSLY, AND MEASURING PERFORMANCE.

OUR APPROACH

1. Talent pipeline creation through internships & traineeships
2. Skill assessment before deployment
3. Continuous learning culture
4. KPI and productivity tracking
5. Cultural and communication fitment

We don't just provide resources.

We build impact-driven tech teams for our clients.

They combine technical expertise, collaboration, and accountability to deliver consistent results.

At Virtutix IT, we shape teams that don't just execute projects they drive impact and innovation.

Our technology and staffing solutions empower multiple industries to become data-driven and digitally strong.

INDUSTRIES WE ACTIVELY SERVE

- Healthcare & MedTech
- FinTech & Banking
- Retail & eCommerce
- EdTech & Education
- Manufacturing & Logistics
- Startups & SaaS companies

“Technology evolves every year. Talent evolves every day. Strategy must evolve every month”

– Team Virtutix IT

By combining data expertise + technology execution + right talent, Virtutix IT delivers measurable impact across domains.

TOP INDUSTRIES WE EMPOWER

MBA in Data Science & Analytics

Honored and Humbled

*Achievement by
Venkatesh Kadali Sir
to Our Director & CEO*

29th March 2025

Venkatesh Kadali is the Director & CEO of Virtutix IT, a leader in data, analytics, AI, and business intelligence solutions. He holds an MBA in Data Science and Analytics from Jain University, Bengaluru,

His decision to pursue this MBA stemmed from the belief that the future of business is powered by data intelligence, and that leaders must not only understand analytics but also know how to apply insights to drive organisational strategy.

The MBA programme at Jain equipped him with a unique combination of managerial acumen and analytical expertise – from core business functions such as finance and strategy to technical areas including Python, SQL, business analytics, and predictive modelling.

This blend of business leadership and data science enables Venkatesh to guide Virtutix IT in delivering solutions that are both technically strong and strategically aligned with business goals. It also reflects his commitment to bridging the traditional gap between data teams and business decision-makers – empowering organisations to truly leverage data for growth and innovation.

Today, his academic grounding in data analytics and management continues to inform Virtutix IT's approach to solving complex client challenges and building high-impact, analytics-driven outcomes by predicting future with data.

For Employees

Thank You, Team Virtutix IT

Your dedication, skills, and continuous learning mindset empower us to adopt new technologies and deliver excellence every day. Because of your commitment and support, we confidently step forward into the future of innovation.

We grow because you grow.

For Clients

Thank You for Trusting Virtutix IT

Your trust in our services inspires us to constantly evolve with new technologies and deliver data-driven, future-ready solutions. We remain committed to supporting your business with reliability, innovation, and excellence.

Your trust drives our technology forward.

For Partners

Thank You, Valuable Partners

Your collaboration and confidence in Virtutix IT strengthen our journey toward adopting advanced technologies and creating impactful solutions. Together, we build smarter, scalable, and future-ready ecosystems.

Together, we innovate and grow.

For Well-Wishers

Gratitude to Our Well-Wishers

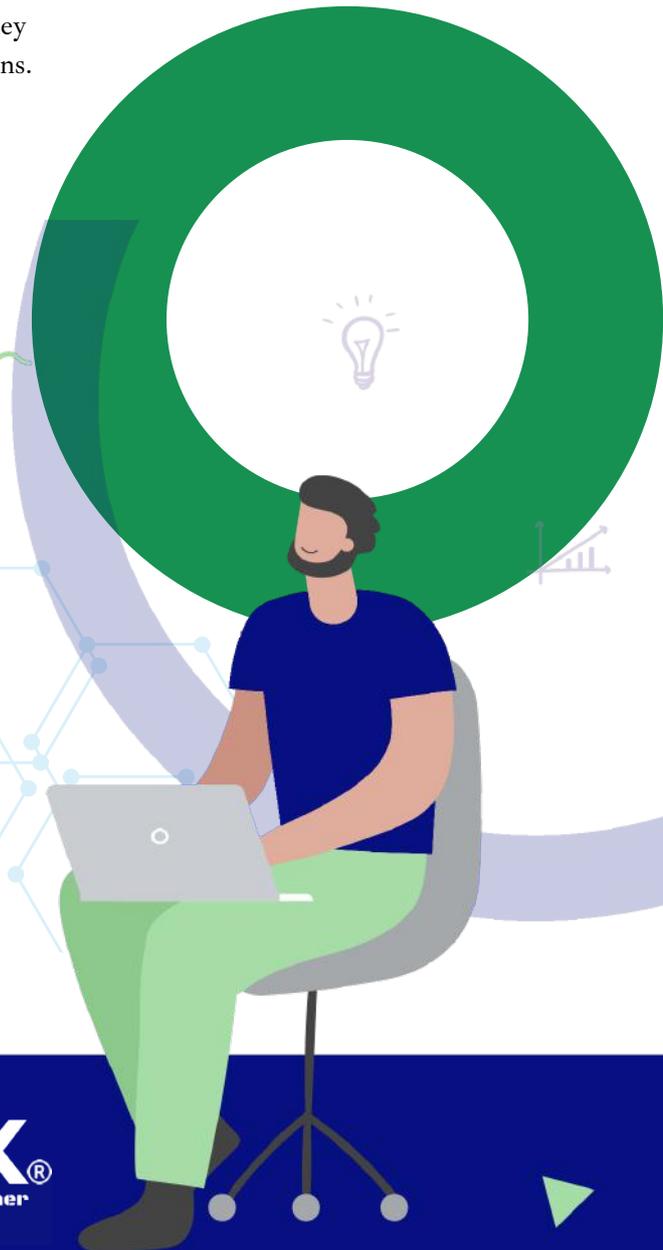

Your encouragement and belief in Virtutix IT motivate us to keep progressing, embracing new technologies, and delivering meaningful impact. Your support fuels our passion to serve better every day.

Your support inspires our progress.

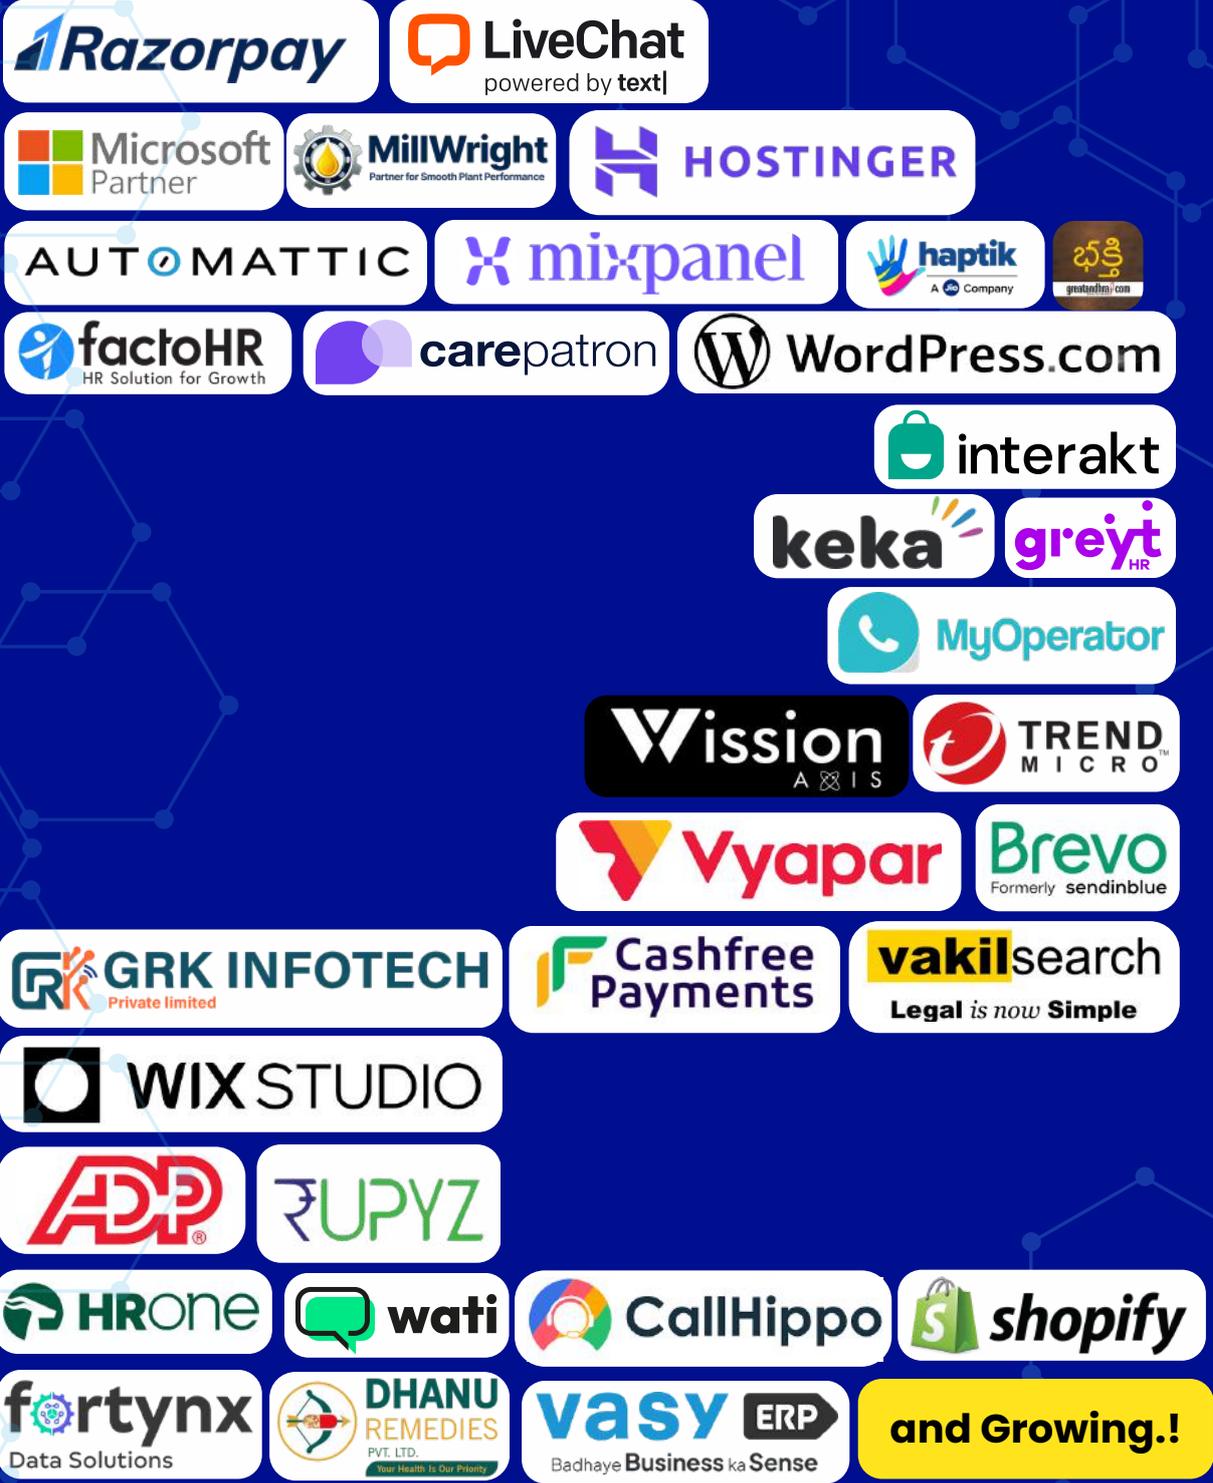

THANK YOU FOR

We are grateful for your trust in our services and look forward to exceeding your expectations every step of the way.

Thank you!

VIRTUTIX[®]
Premier Analytics and Tech partner

Our Clients and Partners

AnalyticXperts is the intelligent analytics and data solutions platform powered by Virtutix IT, built to transform raw data into meaningful insights, smart decisions, and measurable business growth.

We help organizations unlock the true power of their data through advanced analytics, visualization, business intelligence, and AI-driven solutions – enabling them to predict trends, optimize performance, and stay ahead in a data-driven world.

With AnalyticXperts, data is not just numbers.

Analytic Xperts
Grow, With **Data**

AnalyticXperts

The Data Intelligence Wing of Virtutix IT

AnalyticXperts is the specialized Data Analytics, Business Intelligence, and AI practice from Virtutix IT that helps organizations transform scattered, unstructured data into meaningful dashboards, actionable insights, and predictive intelligence for smarter decision-making and measurable business growth. In today's fast-moving digital environment, every company generates large volumes of data through software, CRMs, Excel sheets, websites, accounting tools, HR systems, and operational platforms, but most businesses struggle to convert this data into something useful for strategy, planning, and performance tracking. AnalyticXperts bridges this critical gap by designing complete data ecosystems—collecting data from multiple sources, cleaning and structuring it, building automated data pipelines, and presenting it through interactive dashboards and intelligent reports that give management real-time visibility into sales, marketing, finance, HR, and operations.

Through advanced tools such as Power BI, Tableau, Looker, Python, SQL, ETL frameworks, and AI/ML models, AnalyticXperts enables organizations to stop relying on assumptions and start making decisions backed by data evidence. Businesses can track KPIs live, reduce reporting time by up to 60%, identify profitable products and customers, detect inefficiencies and losses early, forecast sales and demand accurately, and create a single source of truth across the organization. Whether it is a retail brand looking to optimize inventory, a startup wanting to improve lead conversions, a manufacturing unit aiming to control operational costs, an educational institution tracking performance metrics, or an HR staffing firm seeking automated reporting, AnalyticXperts delivers tailored analytics solutions that are practical, affordable, and results-driven.

The core mission of AnalyticXperts is to make data understandable, actionable, and profitable for businesses of all sizes not just large enterprises by turning raw information into a strategic asset that works 24/7. With end-to-end implementation, industry-specific dashboard design, automation, consulting, and continuous support, AnalyticXperts ensures that data becomes the strongest decision-making partner for any organization ready to grow with clarity, confidence, and intelligence.

Data-Driven Decision Making!
