Dura-Block
The Perfect Finishing Tool

The full range of Dura-Blocks are now available, with the option of Hook and Loop or PSA

NEW

DGR is a Eco-friendly, biodegradable water-based cleaner. Can be used to remove dirt, dust, swarf and to degrease all kinds of surfaces such as old paint layers, primers, metal (steel, aluminium and galvanized pieces) and plastic. It does not affect rubber or plastic and is also anti-static leaving the surface with no residue. Additionally, it serves as an excellent substitute not just for other water-based degreasers, but also for solvent-based silicone removers.

Finixa's new flexible and lightweight Spray Sample Cards make colour matching easier and more accurate while simultaneously protecting your surface from scratches.

Made out of plasticised paper and available in 4 colours, equipped with a Ø 15 mm hole and central line in different colours to determine the coverage.
Packs of 250 pcs.

Characteristics:

- Can be applied without a mask.
- Slow evaporation, allows removal of dirt in the proper way
- Does not leave any traces.
- To be used in preparation of panel spraying with water and/or solvent based paint.
- Never affects an underlying paint.
- Always use in combination with cleaning rags suitable for water-based products.

Sprayable Seam Sealer

Finixa sprayable seam sealer is a professional quality, durable elastic sprayable and brushable coating, used to close joints and openings and can be used inside door skins and body panels, or any area where a sound deadening and/or structured coating is needed.

Benefits

- Seamless and fast sealing for interior and exterior auto body seams and joints.
- Fast and clean application.
- No primer needed, good adhesion, lasting flexibility.
- Paintable after 30 minutes.

Available in 4 colours

- White, Grey, Black & Beige

Sharp Foam Pad

The Finixa Sharp Foam Pads are coated with an extra ceramic-coated aluminium oxide grit, which makes them stronger and more durable. An additional advantage is that the ceramic coating also counteracts clogging, which also leads to a more uniform sanding result.
