STANFIELD'S®

Legendary Comfort Since 1856

**Stanfield's® is a part
of the very fabric of Canada.**

Since 1856, we've remained committed
to comfort through quality,
quality through craftsmanship, and
craftsmanship through small town values.

We are Canadian.

Worn coast to coast - on frozen tundra,
atop snowcapped mountains, aboard ships,
and in the homes of everyday people.

**Keeping Canadians comfortable
from the very start.**

PREMIUM

WARM / CHAUD

PREMIUM

1X1 Rib

- 190 gsm
- 100% Combed Cotton
- Cotton is a natural, breathable, and absorbent fibre
- Combed cotton has been processed to remove short fibres and impurities to produce a higher quality, more durable fibre
- Rib knit construction provides extra stretch to ensure a comfortable fit

WAFFLE / GAUFRÉ

WARMER / PLUS CHAUD

WAFFLE

Thermal Waffle Knit

- 190 gsm
- 50% Cotton / 50% Polyester
- Ring spun yarn is used to create a smoother, stronger, and finer yarn
- The cotton with polyester combines the comfort of cotton with the strength of polyester
- The pockets in waffle knit fabric are used to provide extra insulation against the cold by trapping body heat and forming a warm air layer next to skin

2 LAYER / ÉPAISSEURS

WARMER / PLUS CHAUD

2 LAYER

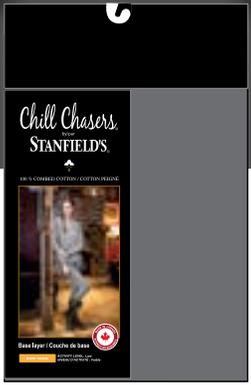

Double Knit Jersey

- 210 gsm
- 50% Cotton / 50% Polyester
- Interlock knitting technique creates a double-knit fabric where the layers are interlocked
- An additional insulating barrier is created where the air is trapped between these two layers
- Both inner and outer layers are a blend of cotton for comfort and polyester for durability

HEAVY WOOL RIB

1X1 Rib knit fabric

- 365 gsm
- 80% Wool / 20% Nylon
- Wool fibers are 100% natural and renewable
- Wool is breathable - the fibers can absorb large quantities of moisture vapour then move it away to evaporate into the air Wool is inherently odor resistant
- Nylon is added for stability and durability
- Our wool is ethically sourced to uphold the national standards of animal welfare

Do not use fabric softener.

GRAPHENE FLEECE

Double-side, brushed fabric

- 170 gsm
- 66% Recycled Polyester/ 30% Graphene infused Polyester/ 4% Spandex
- Graphene, derived from carbon, is a naturally occurring mineral. It is lightweight and technically advanced to provide inherent performance features
- Fabric wicks sweat to keep you feeling more comfortable
- Graphene naturally reduces the presence of odor causing bacteria
- Inherently radiates body energy (heat) back to wearer; exceptionally efficient at accumulating, retaining and distributing heat
- Spandex enhances wearer mobility

Do not use fabric softener.

BRUSHED BACK FLEECE

Modified Three-end Fleece

- 65% cotton / 35% polyester 400 gsm knit
- Oxford twist 400 gsm knit - a unique fabric face construction comprised of 1 black and 1 greige colour yarn; this fabric can be dyed to achieve a 2 colour "heathered" effect
- Solid colour - this fabric is double dyed to achieve a solid colour
- Fleece is a jersey knit with a loop back construction; the loops are brushed to create the plush and fuzzy inner side
- Brushing raises the fibers on the inner side giving the fabric its characteristic softness and also enhances insulation

- The cotton with polyester combines the comfort of cotton with the strength and quick-drying properties of polyester

STANFIELD'S®

WE KNOW COLD / LE FROID, ON CONNAÎT

Stanfield's® has been in the business of winter underwear since 1856 and has long been considered the winter underwear brand in Canada. Quality workmanship, attention to details and legendary comfort are what makes our products unique in the market and why we sell more winter underwear in Canada than anyone else.

We have simplified the thermal base layer shopping process by breaking the products down into 3 simple categories:

WARM, WARMER, WARMEST.

Stanfield's® commercialise des sous-vêtements d'hiver depuis 1856, ce qui en fait une autorité de longue date en matière de sous-vêtements hivernaux au Canada.

Nous avons simplifié le processus de magasinage des couches de vêtements de base en divisant nos produits en trois catégories simples:

CHAUD, PLUS CHAUD, TRÈS CHAUD.

WARM CHAUD	Cool to Cold Temperatures Températures fraîches à froide
WARMER PLUS CHAUD	Cold to Colder Temperatures Températures froides à très froides
WARMEST TRÈS CHAUD	Cold to Very Cold Temperatures Température très froides à glaciales

Contact your Representative for further and complete information on our program of attractive merchandising aids. Merchandising with these fixtures will mean increased sales and profit.

PRICING

ALL PRICES LISTED IN THIS CATALOGUE ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE.

RETURN POLICY

Stanfield's will accept returned merchandise only when authorized and with a registered label affixed to the package.

GOODS RETURNED WITHOUT AUTHORIZATION WILL BE REFUSED BY OUR RECEIVING DEPARTMENT WITH SUBSEQUENT REROUTING TO THE SENDER AT THE SENDER'S EXPENSE.

Return authorization must be requested in writing from our Customer Service department stating reasons for return and giving details as to quantity by style, colour and size.

Return authorization will be granted for the following reasons:

- A) Merchandise not shipped in accordance with customer's specific instructions.
- B) Defective and faulty merchandise will be accepted without fail.

ALL AUTHORIZED RETURNS AND DEFECTIVES MUST BE DIRECTED TO OUR FACTORY IN TRURO, NOVA SCOTIA.

Returned merchandise must be in original packages (except for defective merchandise). ALL MERCHANDISE NOT IN RESEALABLE ORIGINAL PACKAGING WILL BE ASSESSED FOR A RE-PACKAGING CHARGE.

BOXING

Boxing is given in retail selling units, unless otherwise indicated.
