

## About Us.....

- PCTVS is the largest high school district as well as the largest Career and Technical Education (CTE) high school district in the State. Along with its rigorous academics, high school students from Passaic County Technical Institute and DCL STEM Academy select a career path of choice among our 18 CTE programs. PCTVS currently serves over 4,500 full-time high school students and over 1,000 adults in our LPN, Adult & Continuing Education Programs on our beautiful 55 acre campus.
- **PCTI's new CTE program in Biotechnology**, is designed to specifically meet the demand for highly skilled workers in the region's evolving biotechnology sector by instituting employer-driven, career pathways that connect students to industry valued credentials and degree programs. Our exciting new and innovative Biotechnology facility will be at the center of this cutting-edge CTE Program.
- PCTVS is the most sought-after school district in the County with over 3,600 applications annually for over 1,300 seats in the Freshman class. Interesting statistic: **One in every two students in Passaic County apply to come to our high school district.**

Over **87%** of our students go on to colleges, universities and trade schools.

In addition, PCTVS maintains active partnerships with numerous community and regional employers who play an active role in curriculum development which is consistently updated to meet industry needs and provide valuable work-based learning opportunities.

PCTVS has received numerous national and state awards for their outstanding achievements in academics, Career & Technical Education competitions and our powerhouse athletics!
