# WHO IS FUN SPOT?

Started in the USA in the 1970's, Fun Spot has become a worldwide leader in the design and manufacture of indoor adventure parks.

Integrated into the ABEO group in 2018, FUN SPOT is now a One Stop Shop Solution that offers answers to all your questions about running a family entertainment center business, and a full portfolio of products including trampolines, ninja courses, ropes courses, jr. play areas, interactive games and much more.

**Fun Spot  
around the  
world**

---

# THE CURRENT MARKET

We have seen our market evolve during the last few years, due to technological development and the Covid19 pandemic. With our experience in the market and our up-to-date market studies we are able to say that:

Investors  
are looking for a secure  
business with growth  
opportunities to invest in.

They want to be beneficial  
to society and to make their  
visitors happy.

Visitors  
are looking for long-  
lasting experiences  
rather than material  
possessions and are  
willing to spend more  
money on them.

Families  
want to spend more  
guilt-free time together.

People  
want to stay fit and active  
while having fun.

Parents  
are worried their children  
are spending too much  
time online.

---

# WHY CHOOSE FUN SPOT?

## Fun Spot Strengths

Our business is built on the idea that product and service excellence must be a constant pursuit.

We achieve excellence by managing every detail with our customers' needs and goals in mind. This is the philosophy that guides us to create your leisure centre

**One stop shop solution**  
In house expertise, quality products, and the best partners give you everything your business needs to thrive

**Full design services**  
We partner with you to envision and deliver the park that will be successful in your community

**Great People**  
A team of industry professionals with integrity who deliver a customer driven approach

**Quality, safety and operational tools:**  
Every park is of the highest quality and meets industry safety standards

## Process

1

### BUILDING REQUIREMENTS

- Site selection and design
- Overcoming building constraints to meet safety standards
- Optimised layout and customer' flow

2

### BUILDING YOUR DREAM FACILITY

- Working with you to personalize your property and create dedicated graphics boards for a unique design

3

### INSTALLATION

- Dedicated and trained Installation technicians
- Completion pack and maintenance manual

4

### TRAINING

- On-site training prior to opening for you and your staff
- Operational support with manuals: maintenance, incident management, technical information and duties, management advice

5

### CUSTOMER SERVICE AND MAINTENANCE

- Certified service center
- Full maintenance and upgrade products & services
- Access to operational tools

Warranty

## Questions & Answers

Many of you contact us in the early stages of your location search. We receive many questions, and we are more than happy to answer them.

?

**What is the minimum size and height I need for my center?**

The size of your space will depend upon your needs and resources. There's no single ideal park size, but here's a couple useful guidelines.

You can operate a successful **small size** facility with 5,000 sq ft dedicated to attractions. If your market and budget supports a **big size** center, plan to dedicate 18,000 sq ft or more to attractions.

It's important to consider **height clearance**. For trampoline activities, ceiling height must be at least 18 ft; for Clip 'n Climb challenges, you will need 22 ft; other attractions require only 8-10 ft ceiling heights

?

**How many attractions can I have in my building ?**

Throughout this catalog, you'll see minimum dimensions for each attraction. This will help you begin to envision the options for your space. To help you get more specific, **Fun Spot designers** can advise you on the right mix of challenges and can provide you with renderings and fly-through videos to **help you make great decisions**.

?

**What is the budget needed to start my park?**

The budget needed to start your park will depend on many factors. We've leveraged our experience helping people open parks around the world to create an e-book that includes **cost estimates** and other useful considerations.

**DOWNLOAD Fun Spot e-book**

# TRAMPOLINE ATTRACTIONS

Since 1989, we have been producing colorful and durable trampoline fabrics. This is our core business and we have fully participated in the evolution of this activity over the last decade. That is why we now offer a long list of complementary activities that will allow you to stand out from your competitors.

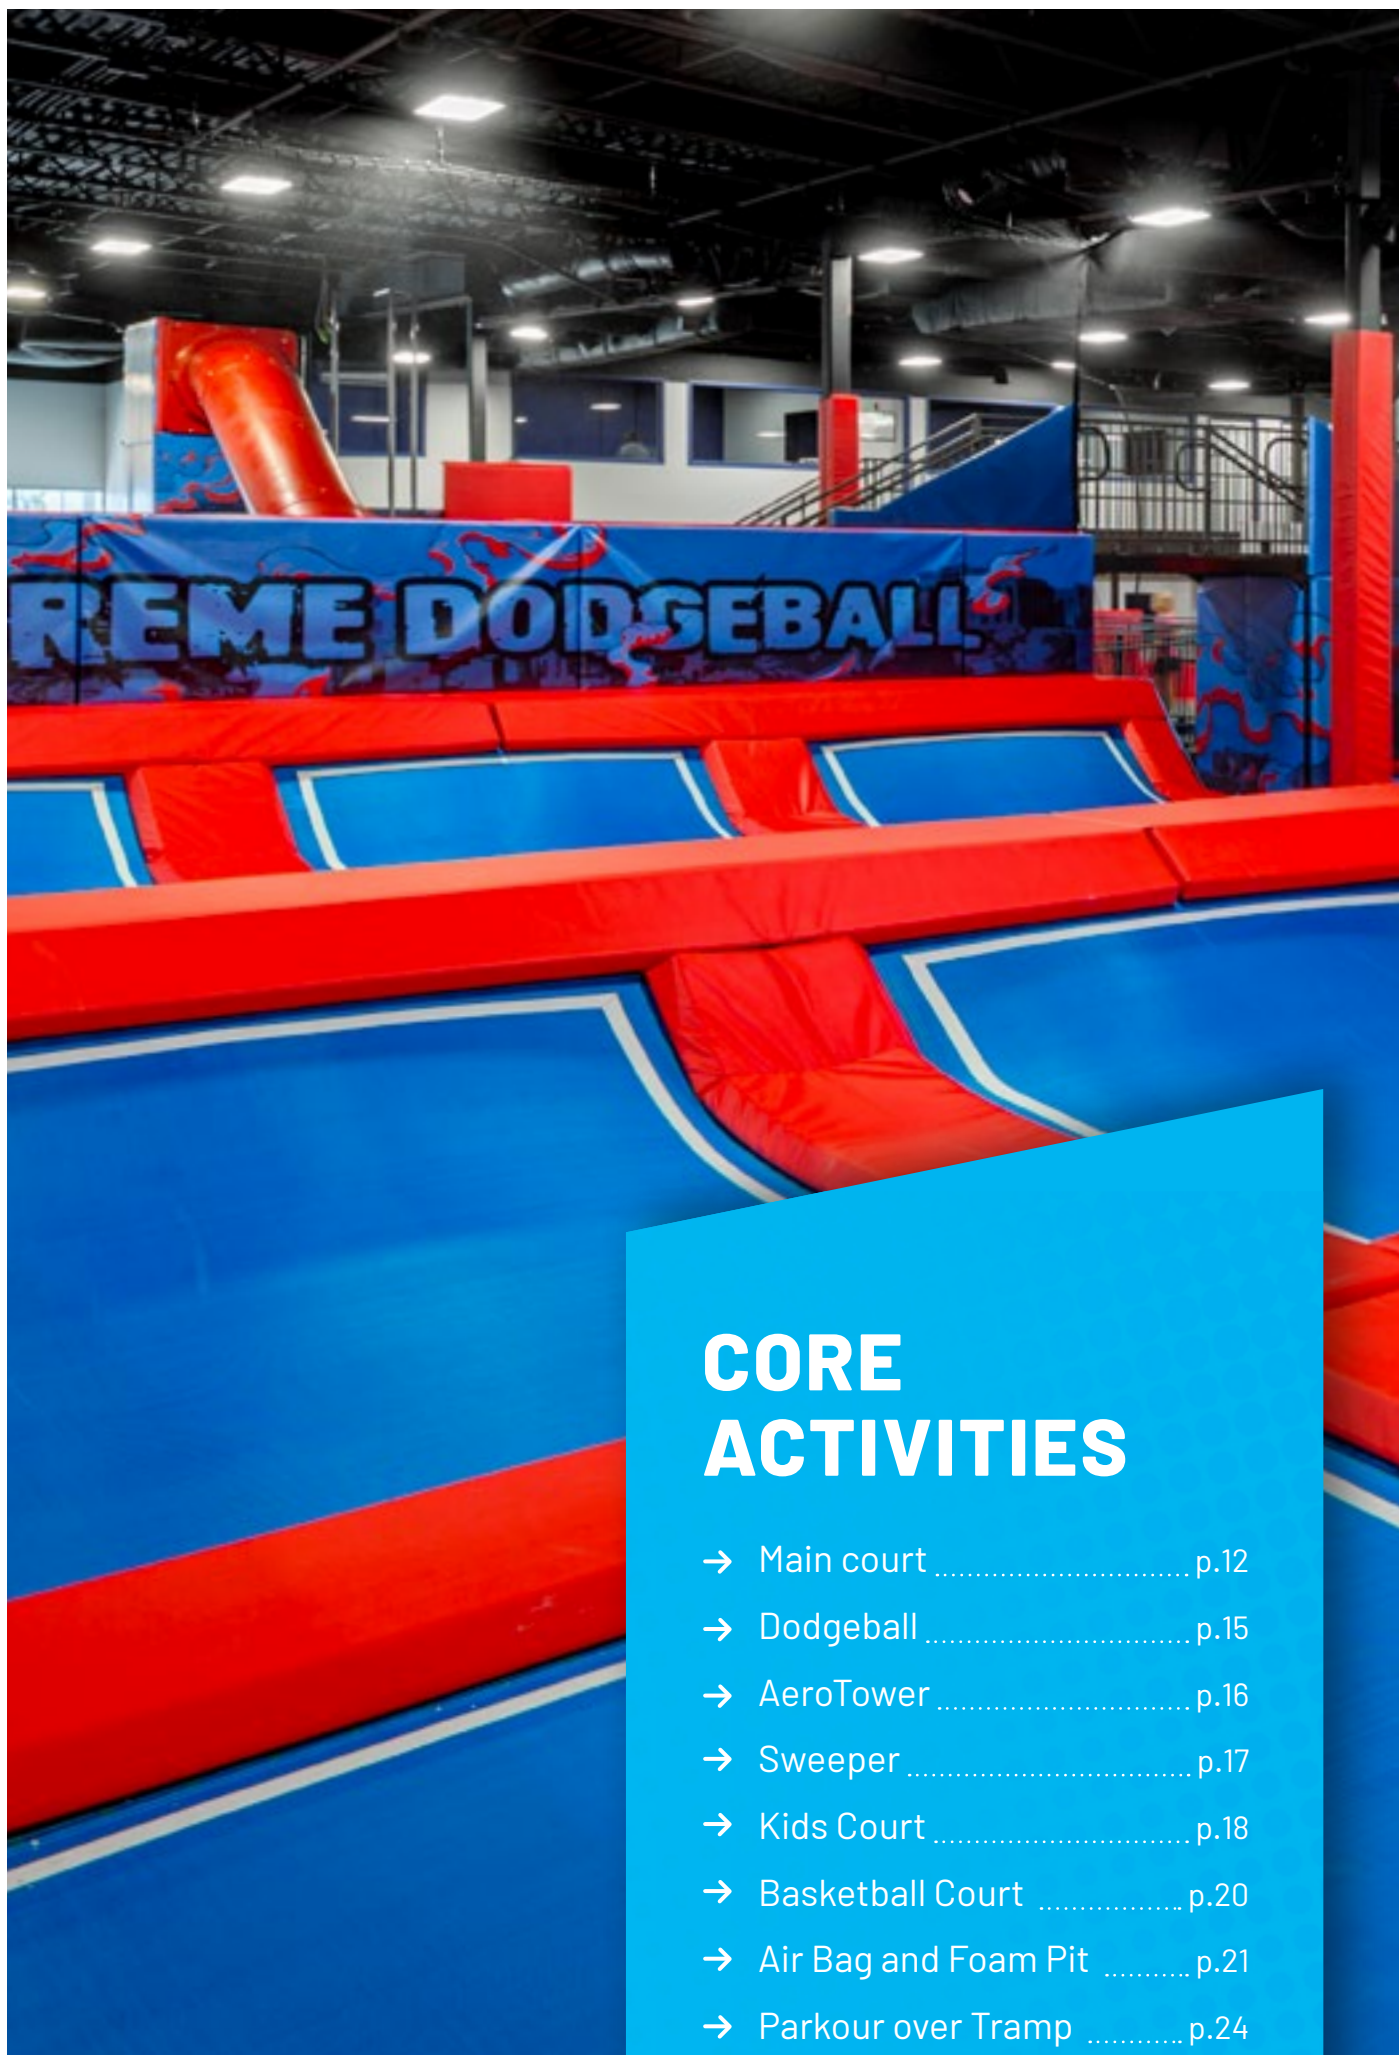

## OUR SAFETY CHECKLIST:

- ✓ Our products and facilities are certified to **ASTM F2970-22** and **BS PAS 5000-2017** standards.
- ✓ We provide checklists for routine inspections.
- ✓ An annual maintenance contract is the best way to ensure quality and safety.
- ✓ We are constantly innovating to improve quality and performance.
- ✓ **NEW and improved safety pads** deliver best in class function and appearance for new and existing parks.

## CORE ACTIVITIES

# MAIN COURT

The Main Court within any trampoline park is the core zone where visitors develop their skills and enjoy discovering the different options trampolining can offer. Turn a main court into a video game party with Pleyo!

### Key features :

- 100% customizable, regardless of the columns we can design the main court anyway you like!
- A good size is 1/3 of the park.
- Note that curved wrap up mats can be used for angled walls.

### Technical info :

Capacity per hour	150 jumpers
Staff required	1 monitor / 32 jumpers
Minimum ceiling height	18 ft
Minimum area	+ 214 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

Digital Tech  
Upgrades

Create your  
own graphics with  
our design team  
(E.g.: Your logo printed all  
around the arena)

### 3 main court examples :

There are countless possibilities to create your own arena. The most important thing is to think about your target and how big you want the area to be.

Here are some examples to give you some ideas.

#### SMALL starting at 214 sq ft

Capacity	8 at the same time
----------	--------------------

Number of features	Angled wall Long lane Jump boxes Mini cube
--------------------	---

Minimum area	+ 214 sq ft
--------------	-------------

Capacity	35 at the same time
----------	---------------------

Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
--------------------	--

Minimum area	+ 985 sq ft
--------------	-------------

#### MEDIUM over 985 sq ft

Capacity	70 at the same time
----------	---------------------

Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
--------------------	--

Minimum area	+ 1805 sq ft
--------------	--------------

#### BIG over 1805 sq ft

## Our features :

## CORE ACTIVITIES

# DODGEBALL

Featuring middle ramp-up surfaces and multiple styles, Xtreme Dodgeball supports mega-active play in a safe and visually stimulating space that is totally customisable to your brand and architecture.

### Key features :

- Everything is custom, we design your dodgeball court to maximise your space
- Open view with no high angle walls, which allows spectators to observe multiple games at one time

### Technical info :

Capacity per hour	270 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	525 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

Glow under  
UV light colors

Create your  
own graphics with  
our design team  
(E.g.: Your logo printed all  
around the arena)

## CORE ACTIVITIES

# AERO TOWER

Our newest innovation integrates AeroStrike technology by Rugged Interactive. Up to 4 players shoot balls at auto return targets while bouncing on trampolines, testing hand-eye coordination and providing great aerobic activity.

### Key features :

- The top of AeroTower moves back and forth while the base remains stationary, providing a unique and challenging basketball-style experience.
- 2-player teams or individuals compete against the clock to make as many baskets as possible within the time limit.
- Make it your own with fully customizable graphics.

### Technical info :

Capacity per hour	96 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	158 sq ft

## CORE ACTIVITIES SWEEPER

Try jumping over the rotating inflatable arm as the speed slowly increases! The patented attraction has earned its place as our most popular attraction. On-going innovation means it just keeps getting better.

### Key features :

- The speed control of the inflatable arm can be managed easily by the operator thanks to a control box.
- To make sure safety is 100% controled, whenever the arm makes contact, the clutch engages and prevents hard knocks.

### Technical info :

Capacity per hour	80 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	158 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

Glow under  
UV light colors

Create your  
own graphics with  
our design team  
(E.g.: Your logo printed all  
around the arena)

## CORE ACTIVITIES

# KID'S COURT

Provide little kids with a memorable, magical, and fun experience with Kid's Court. It is safely designed to develop and engage little brains and bodies.

### Key features :

- We design your Kid's court to maximise your space and to make sure a parent or guardian remains present or can even sit close and participate.
- We suggest including an overflowing foam pit to add extra fun to the court and offer an intermediate activity for the ones who cannot jump yet!

### Technical info :

Capacity per hour	120 jumpers
Staff required	1 monitor / 32 jumpers
Minimum ceiling height	18 ft
Minimum area	165 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

Glow under  
UV light colors

Create your  
own graphics with  
our design team  
(E.g.: Your logo printed all  
around the arena)

## Our features :

## CORE ACTIVITIES

# DUNK LANES

This is a must have in an essential trampoline park package. Each lane allows for high flying fun as you practice hardwood skills on trampolines. Add Battle Baskets technology to enhance the fun and energy levels.

### Key features :

- Engineered to withstand commercial grade use so that children can hang off hoops
- If the space allows it, we recommend having a 2 lanes set with different heights to fit any age.
- It can be fitted with a hydraulic post that moves up and down
- It is a perfect complement to Dodgeball and Kid's court

### Technical info :

Capacity per hour	120 jumpers / lane
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	48 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

Digital Tech  
Upgrades

Create your  
own graphics with  
our design team  
(E.g.: Your logo printed all  
around the arena)

## CORE ACTIVITIES

# AIR BAG & FOAM PIT

Another essential feature of a trampoline park is the Air Bag area or Foam Pit. This area remains the most popular attraction within a trampoline park because it is something that allows you to go crazy and that you will not find at home.

### Key features :

- Flooring options: Airbag and foam pit.
- All materials have been chosen to make sure all the activity options are 100% safe
- Frame options: Stand alones and Multi pit event (see examples on the next pages)
- Featured partners: Big Air Bag

### Technical info :

Capacity per hour	Foam cubes: 150 Air bag: 200
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	263 sq ft

### How to customize it?

Color Customization  
of all the materials  
(see p.29)

## CORE ACTIVITIES

# PARKOUR OVER TRAMP

Give your guests the opportunity to learn the art of moving. Beginners will be able to start out without fear and the more advanced will have the opportunity to try new tricks without risk.

### Key features :

- Parkour steps (2 options)
- Padded block in different sizes
- Perfect combined with Ninja Course

### Technical info :

Capacity per hour	120 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	66 sq ft

- Adventure zones .....p.34

# CLIP 'N CLIMB SAFETY IS EVERYTHING

Normes  
EN 1176  
EN 12572

Safety is our watchword at Clip 'n Climb, and all our Challenges are designed to be hazard free. We extensively test them before adding them to our range. We have developed safety devices and procedures to improve safety and reduce staffing costs without neglecting the visitor experience:

Trubue

The best auto belay system available on the market for complete peace of mind for climbers and operators.

Belaymate

A clipping device to eliminate the risks of wrong attachment. The Challenge only is accessible once the climber is perfectly attached. It allows climbers to be more independent.

Safety flooring

Even if there is no specific regulation, we insist on providing you with safety surface to attenuate any impacts.

Articulated Mats

Creates to control access to the Challenge, it signals its use and warns participants there is a climber above.

## Technical info :

Capacity	Staff required	Minimum ceiling height	Minimum area
1,3 person / climbing line	1 monitor / 12 climbers	21 ft	28 sq ft / challenge

## CLIP 'N CLIMB OUR CHALLENGES

With 3 exciting ranges and over 50 different Clip 'n Climb Challenges available in funky contemporary colors, Clip 'n Climb has huge appeal regardless of age or aptitude.

ASCENDOR

ASTROBALL

CIRCUIT BREAKER

TRIGG

## BOULDERING

The most effective climbing wall to incorporate into your park is the bouldering wall, which we can also modify to make a traverse wall. The height is limited so guests do not have to wear harnesses. Easy to do, this activity will suit all your customers.

### Technical info :

Capacity	1 climber (climbing line) every 3 ft
Staff required	1 monitor / 12 climbers
Min ceiling height	9 ft
Minimum area	60 sq ft

# CLIP 'N CLIMB MARKETING SUPPORT

As a member of our Clip 'n Climb global community, investors benefit from direct access to a full support plan from your project building to equipment and maintenance. A dedicated extranet is at your disposal to connect with Clip 'n Climb owners to share tips, ask for recommendations and download all the materials.

## Brand support :

- ➔ Brand Licensing
- ➔ Brand Guidelines and Social Media Guidelines
- ➔ Tools:
  - Collaterals: climbing passes, loyalty cards, posters...
  - Website and booking system (Our online booking system has proven extremely popular with users)
  - Proven marketing strategies and tips

Support before, during and after sales can be managed on a local basis.

## 2 adventure zone examples :

From 3 Challenges up to more than 50 lines, the possibilities are infinite to create your Clip 'n Climb area.

Here are some examples to give you some ideas :

### CORNER

#### Example configuration

- 7 challenges
- 7 lines
- 12 climbers

# TESTIMONIALS

JEREMY HALL - Director, Rebound UK

"Fun Spot did everything to perfection! I can't tell you how comforting it was to know that my questions would be answered within 24 hours. My park has been open for some time now, and I cannot say enough great things about the build quality. The manufactured structure and softer components are beautiful and reliable. I honestly can say that Fun Spot made my park better than I could have ever imagined."

DUSTIN PELLETIER - Owner, Big Air Spartanburg

"When we chose Fun Spot, we chose American made parts and labour. It was a breath of fresh air to know that I was their top priority from start to finish. Building a park can be stressful, but Fun Spot made it, well – fun and exciting. I've started a lifelong relationship with everyone that helped with our park."

DARREN HEDGES - Director of Air Hop in UK, Germany and Sweden

"We had a trampoline that was damaged. I called up Fun Spot on a Wednesday afternoon, they made the trampoline that evening, shipped it the next day, and by Friday lunch time it was fitted and repaired."

BETHANNE BROWNING - Owner of The Factory

"Fun Spot sent a trainer to help me as I opened this first park. I really didn't know what to expect and they sent someone to help me. She helped me train my staff and just kind of showed me how to run a trampoline park – every aspect of it. That was very, very helpful when you are starting out in this industry."
