ADVANCED COMFORT APPAREL FOR HIKERS

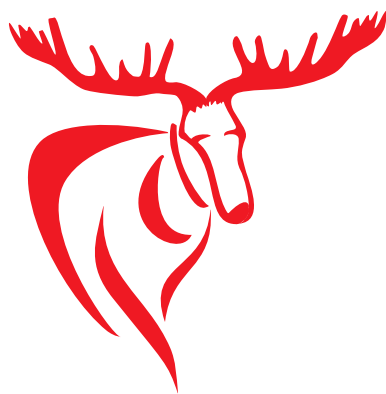

PLUNGE INTO NATURE

ADVANCED COMFORT APPAREL FOR HIKERS

FORZA, CORAGGIO, PERSEVERANZA
SONO QUESTI I VALORI CHE
L'**ALCE ROSSA** SIMBOLEGGIA.

Crediamo che immergersi nella natura sia la chiave per ritrovare il proprio equilibrio.
Per questo vi attrezziamo per viverla al meglio!

STRENGTH, COURAGE, PERSEVERANCE
THAT'S WHAT THE **RED ELK**
STANDS FOR.

We believe that plunging into nature is the key to find your own balance.
And that's why we equip you to live it to the fullest!

Perché rinunciare al Comfort durante le tue camminate? Goditi appieno il tempo libero!

La comodità prima di tutto. È facile pensare che per camminare vada bene qualsiasi pantalone che abbiamo nell'armadio, ma la realtà è diversa e lo scopriamo solo dopo aver percorso lunghe camminate, portandoci a casa i fastidi causati dall'abbigliamento non corretto. Redelk crea ogni suo prodotto per garantire momenti speciali a chi lo indossa, con focus specifico sul comfort del camminatore. Sono l'amore per la natura e la voglia di esplorarla e ammirarla senza distrazioni che ci invitano a non perdere mai di vista il comfort in ogni cammino. L'esperienza trentennale nella produzione di abbigliamento,

unita alla nostra passione per l'outdoor, ci guidano nella scelta dei tessuti sempre morbidi e confortevoli, nel perfezionamento della vestibilità più adatta per camminare e nel creare prodotti che durino nel tempo. L'alce rossa simboleggia e rispecchia il carattere del brand: forza, coraggio e perseveranza ci motivano ogni giorno per migliorare.

Redelk Outdoor, “Advanced Comfort Apparel for Hikers”

Un'intensa passione per la montagna unita all'esperienza trentennale nella produzione di abbigliamento sportivo. La famiglia Redelk sviluppa i suoi prodotti per garantire il comfort ai camminatori più esigenti.

Immersi nel ritmo frenetico di tutti i giorni, presi dallo stress per rispettare le scadenze e dalla fitta agenda della settimana lavorativa, spesso ci avviciniamo alla natura con lo stesso spirito competitivo che ne “snatura” il vero ritmo e ne fa perdere la vera essenza. Per Redelk, vivere la natura significa staccare dalla frenesia, liberarsi dallo stress della performance a tutti i costi per vivere un momento speciale, rigenerandosi con il proprio cammino.

RIGENERARSI IN PIENO COMFORT A CONTATTO CON LA NATURA

L'escursione in montagna, per chi come noi adora camminare, è l'espressione più alta di questo gesto. Con il suo fascino e la sua imponenza ci insegna da sempre e meglio di qualsiasi altro luogo a rispettare i ritmi naturali.

Chi è il camminatore per Redelk? Sicuramente una persona che adora stare all'aria aperta e, proprio per questo, rispettosa dell'ambiente, che veste comodo durante le sue avventure spaziando dal **trekking** in montagna con gli amici alla passeggiata in un borghetto sperduto, oppure a un'attività fisica più tecnica come il **nordic walking**. Il camminatore è una persona attenta ai dettagli, con una gran voglia di perdersi tra le bellezze che solo la natura ha in serbo.

Con queste premesse diamo sfogo alla voglia di percorrere i sentieri di montagna e piste innevate, di esplorare, di raggiungere nuovi paesaggi, passo dopo passo, per avere il piacere di prenderci quel momento di profondo contatto in cui la natura si concede per farsi ammirare in tutto il suo splendore.

Questo è il mood che ispira storicamente l'abbigliamento **hiking Redelk**. Ogni nuova collezione viene creata con lo scopo di garantire momenti speciali a chi veste i suoi prodotti, con il focus specifico sul comfort del camminatore.

La collezione è pensata e costruita mantenendo la centralità del pantalone, indumento chiave nell'affrontare ogni cammino e cuore delle collezioni Redelk.

La forza risiede nella vestibilità impeccabile abbinata alla scelta dei tessuti, morbidi e con caratteristiche tecniche in grado di soddisfare i più esigenti. I pesi e le strutture dei pantaloni sono definiti con cura per offrire il prodotto corretto per ogni camminata, dalla passeggiata di tutti i giorni all'escursione più impegnativa.

L'alce rossa simboleggia e rispecchia il carattere del brand: forza, coraggio e perseveranza che guidano il brand per migliorare ogni giorno i prodotti e i servizi per i clienti.

Don't forget comfort while hiking!

Comfort first. Sometimes we think that any pair of pants is suitable for hiking, but in reality we experience discomfort of wrong clothing only after long walks.

The love for nature and the desire to explore it without any distractions, are the leitmotifs that inspired Redelk to develop its products with maximum comfort for the most demanding walkers.

An intense passion for the outdoors, combined with thirty years of experience in sportswear manufacturing allows our family to identify soft and comfortable textiles, crafting the best fit for

hiking and creating long-lasting products.

The red moose symbolizes and reflects the character of the brand: strength, courage and perseverance, that drive our company to improve products and services for our customers every day.

Redelk Outdoor, “Advanced Comfort Apparel for Hikers”

An intense passion for the mountains combined with thirty years of experience in sportswear manufacturing. The Redelk family develops its products to ensure comfort for the most demanding walkers.

Focused on the frenetic daily rhythm, absorbed by the stress of meeting deadlines and by the busy schedules, we often approach nature with the same competitive spirit that “distorts” its true rhythm, losing its true essence.

For Redelk, experiencing nature means detaching from this hectic world and freeing yourself up from the stress of performance at all costs, so to live in a special moment, regenerating yourself by walking.

REGENERATE IN FULL COMFORT IN CONTACT WITH NATURE

Hiking in the mountains for those of us who love walking is the highest expression of this gesture. Mountains have always taught us, with their charm and magnificence, better than any other place, to respect the natural rhythms.

Who is the walker according to Redelk? Without any doubts, a person who loves being outdoors, is respectful of the environment and usually dresses comfortably during adventures that range from a **trek** in the mountains with friends, to a walk in a remote village, to a more technical physical activity such as **nordic walking**.

The walker is a person who pays attention to details, with a great desire to get lost amongst the beauties that only nature can offer.

With this in mind, we unleash the desire to walk the mountain paths, to explore snowy slopes, to reach new landscapes, step by step, to have the pleasure of taking that moment of deep contact in which nature allows itself to be admired in all its majesty.

This is the mood that historically inspires **Redelk hiking** clothing. Each new collection is created with the aim of guaranteeing special moments to those who wear its products, focusing on comfort.

The collection is therefore designed and produced by focusing, every season, on the pants; a key garment to tackle any routes and the heart of Redelk collections.

Our strength lies in the impeccable fit combined with the choice of fabrics, soft and with technical features, able to satisfy the most demanding people. The weight and structures of the pants are carefully defined to offer the correct product for every walk, from an everyday walk to the most demanding hike in the mountains.

The red moose symbolizes and reflects the character of the brand: strength, courage and perseverance that lead our company to improve products and services for our customers every day.

TECHNOLOGIES

PREMIUM-TEX

Il PREMIUM-TEX è un tessuto laminato realizzato con una speciale tecnica per garantire massima resistenza antistrappo e antirottura. La colonna e l'ottima traspirabilità rendono i capi realizzati in PREMIUM-TEX in grado di offrire eccellenti prestazioni tecniche. La resistenza è affidata alla fibra esterna, mentre la laminazione interna fa da barriera all'acqua, lasciando però fuoriuscire il vapore corporeo.

Grazie alle sue prestazioni termiche, il tessuto soft shell permette di indossare meno strati, garantendo ottima protezione in ogni condizione climatica. Il tessuto presenta un'elevata resistenza all'usura e accompagna ogni movimento assicurando il massimo comfort. Il soft-shell si compone di tre strati: lo strato esterno impermeabile è uno scudo sicuro all'acqua, mentre la membrana laminata sottostante conferisce al capo proprietà antivento e ottima traspirabilità. Lo strato interno è garzato per rendere il capo morbido e comodo.

Tessuto in Nylon elasticizzato con struttura a righe incrociate, viene presentato con diversi finissaggi: coated, con lamina PU ed in versione 2 lamine. Tessuto molto resistente all'acqua, antivento e traspirante, studiato per attività all'aria aperta grazie ad innovative tecnologie.

BIONIC-FINISH® ECO combina ecologia e finitura idrofobica di tendenza per i tessuti. Si tratta di un finissaggio innovativo e sostenibile che garantisce elevati standard di qualità e benefici di comfort e performance. Utilizzato sui tessuti Premium Tex, Premium Shell e sul nuovo tessuto 100% nylon in collezione Redelk, questo finissaggio è altamente idrorepellente e assicura resistenza all'abrasione, all'usura e ai lavaggi. L'assenza di composti fluorurati e di formaldeide preservano anche i requisiti di protezione ambientale durante la produzione, l'uso e lo smaltimento.

BIONIC-FINISH® ECO FINISHING BIONIC-FINISH® ECO combines ecology and trend-setting hydrophobic finishing of textiles. Bionic RUDOLF is a novel and sustainable finishing that ensures high-quality standards and comfort together with performance. Redelk picked this textile finishing for Premium Tex, Premium Shell and the new 100% nylon fabric in collection, as this technology is highly water-repellent and resistant to abrasion, wear and wash. No perfluorinated compounds and no formaldehyde are used for manufacturing BIONIC-FINISH® ECO products, offering to customers an advantageous choice and, thus, sustainably reduce the impact on nature.

PREMIUM-TEX

PREMIUM-TEX is a laminated fabric woven with a special technique to ensure maximum resistance against tearing and ripping. Water column and excellent breathability provide a good technical performance to the garments. The outer layer provides strength whereas the inner lamination ensures water resistance, still leaving out the steam rising from the body.

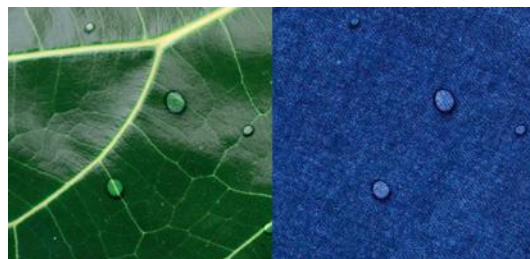

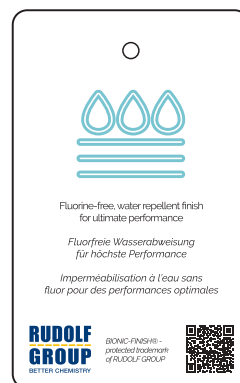

PREMIUM-SHELL

Thanks to its thermal insulation properties, the soft shell ensures a reliable protection in all weather conditions, wearing less layers. Highly resistant to wear, this fabric also allows great freedom of movement. Three layers, three specific functions: the outer fabric provides water resistance to the garment. The laminated membrane between the layers ensures windproof resistance and high breathability. The inner layer is brushed for great softness and comfort.

NYLON - Cross-Stripe

Nylon stretch fabric with cross-stripe structure, presented in different finishing: coated, with PU lamination and 2 layers version. This fabric is highly water-resistant, windproof and breathable finishing, designed for outdoor activities thanks to innovative technologies.
