AERO***DYNAMIC***
WIPER BLADES

HQ Automotive Aero Dynamic Twin-Box Car Wipers are a set of two wiper blades – one for the driver's side and one for the passenger's side – with precisely matched lengths and factory OEM-standard attachments. They are designed to fit specific car models perfectly, ensuring ideal compatibility. These wipers are known for their quality and performance, which closely match or even exceed those installed as standard in automotive factories. Additionally, they feature an advanced graphite coating developed using nanotechnology, providing exceptional durability and effective water removal from the windscreen.

In our offer, we have over 120 indexes from the **Aero Dynamic Twin-Box** series.

A list with specific car model matches is available in the catalog.

Hybrid Wiper Blade

HQ AUTOMOTIVE

A hybrid car wiper blade combines the characteristics of traditional and flat wipers, offering durability and stability at higher driving speeds due to its rigid, aerodynamic design. Its flexible rubber element ensures quiet and effective water removal from the windscreen, which is crucial for safety.

Hybrid wipers often come equipped with special coatings that reduce friction and noise while enhancing durability. Because of their construction, they are more resistant to weather conditions such as snow and ice, making them an ideal choice for drivers seeking reliability and efficiency in diverse weather conditions.
