Columbia – Because Spending Time Outside Shouldn't Be Complicated

When it comes to outerwear that has you covered, Columbia needs no introduction. Their products have been loved by people of all ages for decades, especially those who can't get enough of the outdoorsy lifestyle.

The Columbia 2025 Collection now offers more than 20 new retail-inspired styles and over 50 technology-packed products for adults and youth. With many companion options, strong inventory, and improved logo positioning to maximize decoration opportunities, count on Columbia for programming and high-quality uniform options. On and off the trail, stay prepared in life-proof pieces.

Columbia's customers are spread across a variety of climates. It's a Columbia motto that spending time outside shouldn't be complicated. That is why Columbia Outerwear is Tested Tough {as a Mother} for answering the call of the outdoors whether that be in the sun, rain, or cold. For camping, climbing, surfing, hiking, and everything in between, put any brand in motion easily, safely, and proudly. With Columbia's product technology, stay equipped to look the great outdoors in the eyes and accept any challenge from Mother Nature.

**“IT’S PERFECT. NOW
MAKE IT BETTER.”**

– GERT BOYLE,
FOUNDER OF COLUMBIA SPORTSWEAR

Gear Up with State of the Art Omni-Tech™

The core of Columbia has always been about innovation, problem-solving, and striving for perfection. These technologies give the brand a quality unmatched by most comparable products, especially in the outerwear space.

Explore Columbia’s action-packed pieces that are made to move with you. From weather-ready vests and jackets to lifestyle layer-ables like beanies and fleeces, stay prepared in pieces that are **#testedtough**.

What does it mean to be tested tough, you ask? Columbia Outerwear is tested tough against every type of terrible, no-good, day-ruining, pain-inducing, career-ending condition. With Columbia’s product technology, stay equipped to look the great outdoors in the eyes and accept any challenge from Mother Nature.

Looking for the ultimate protection on and off the trail, from water to mountains to snow, from reel world to real world? Columbia Outerwear has your back – and your front.

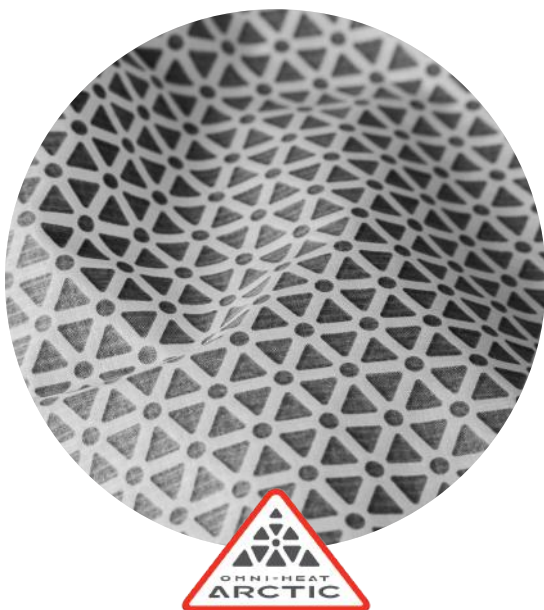

While you're out on that fishing expedition or bucket list hike in the dead of summer, this technology utilizes moisture-wicking fabric that will not only keep you cool but also deflect sunlight, blocking harmful UVA and UVB rays from hitting your body, sun up to sun down.

Whether you live on the water or work in an environment that isn't temperature-controlled, Omni Wick™ provides high-performance wicking that pulls moisture away from your body, accelerating the evaporation process, so you can stay dry on hot days.

Just because you need a little extra warmth and temperature control, doesn't mean you have to pack on the layers. Omni-Heat™ uses lightweight synthetic insulation to give you a "high warmth-to-weight ratio" which helps to keep those extra layers off while beating the cold and the competition. There's warm, then there's Columbia warm.

Built with Omni-Heat™ Arctic, an insulation system inspired by arctic wildlife to deliver lightweight, high-efficiency warmth boosted by solar power.

Long-lasting water and stain repellent helps you stay clean and dry by resisting the absorption of liquids into the fabric.

From drizzle to downpour, stay dry (inside and out) with innovative waterproof-breathable technologies made to take on the elements.

A man in outdoor gear is chopping wood in a forest. He is wearing a blue vest over a white long-sleeved shirt, light blue jeans, and brown boots with red laces. He is using an axe to split a log on a wooden stump. The background shows a dense forest of evergreen trees and a mountain range under a bright sky.
