### A future coming from far behind

Thanks to the passion and the great insight of Mr. Mario Bongio, a small manufacturing firm was founded in 1936 in the heart of the Novara province – namely in Alzo di Pella on the shores of Lake Orta, just a few kilometres from Milan. With his courageous choices and top-quality production, Mario Bongio skillfully managed to conduct his business through challenging problems and demanding times. From the very beginning, he established an unmistakable style with innovation and creativity. By incorporating brass and Murano glass manufactured by master glassmakers, its crystal has endowed the company its unique and distinctive characteristics.

Bongio has always considered taps and bathroom fittings in a more comprehensive manner, approaching the subject in its entirety rather than as a collection of separate pieces. In more recent years, the company's manufacturing techniques have evolved alongside its research, which focuses exclusively on delivering top-quality products while maintaining its ever-present, unmistakable style.

### Ground-breaking artisanal skills

Each Bongio product is based on the concept of functional innovation. By getting to the heart of ergonomic, dynamic, energy and sustainability issues, but especially by focusing on materials engineering and practical ramifications, superb results in terms of form and design can be achieved when you are able to rely on pure artisanal expertise.

### A 10-Year Guarantee

All mixers and accessories are checked at various stages of the production chain and an inspection certificate is placed inside each package. Our operators also run thorough surface checks to make sure that each and every piece is aesthetically perfect, smooth and even.

## Solutions

At Bongio, interior designers are valued as key partners. That is why bespoke items and special projects are offered, with materials, finishes, and styles tailored to meet exacting technical and aesthetic demands. An innovative printing system for taps and fittings provides a unique level of customisation, allowing finishes to be selected to match any style preference.

The entire range is proudly manufactured using only the finest Italian materials, including:

- Certified low-lead brass
- Premium fine porcelain
- Murano glass
- 316 Stainless Steel

# Finishes & Colours

---

When selecting materials for mixers, it is essential to strike the perfect balance between style, elegance and functionality. Bongio's products are crafted to seamlessly integrate into both bathrooms and kitchens, offering exceptional resistance to wear. A wide array of finishes and galvanic treatments is the pride of Bongio's technological achievements. Time-tested semi-automatic systems inspect each component for thickness, guaranteeing both strength and shine in every item.

## **The Perfect Gold**

For over 20 years, Bongio has used an exclusive 24-karat gold alloy in its gold plating process, achieving a plating thickness three times greater than standard methods without the need for additional protective coatings. The result is a radiant, pure gold-like finish with enhanced resistance to wear and tear.

## **Thick Chrome Plating & Epoxy-Polyester Powder Coating**

An exclusive manual process carefully controls the time each piece spends in the galvanic tanks, which ensures optimal plating thickness for every shape and model. This results in a superior chrome finish with increased durability, brightness and resistance to various climates and conditions.

## **Soft-Touch Paints**

New matte metallic finishes are treated with a special soft-touch protection, ensuring prolonged durability while preventing fingerprints. These elegant and brilliant finishes are ideal for both flat and rounded designs, complementing any style from minimalist modern to classical or contemporary.

### Three-dimensional beauty in a refined balance of styles

With Capsule, the bathroom fills up with luxury thanks to unique gems of design: three new distinctive, contemporary textures. The result of craftsmanship and cutting-edge technology, embossed geometries create decorations with clear and precise shapes. True works of art that display an extraordinary richness through the many dedicated finishes, with maximum attention to detail.

## **GLOW**

### **Bathe in the glow of luxury**

Glow is a jewel to the touch, made in Bongio. The horizontal pattern of staggered carvings runs across the knob's surface and fills the bathroom with glares and facets of light.

## **GRAIN**

### **Sartorial elegance**

Grain evokes the care of sartorial art with a pattern of round engravings enveloping the mixer's handles.

## **CANNETE**

### **Design to touch**

Straight lines draw parallel trajectories. A sequence that defines the geometric profile, enhancing the distinctive rigor of the handle.

### The Shapes of Matter

Bongio unites shapes and functionality with Tools, a collection designed to enhance the beauty and resistance of 316 stainless steel. Tools highlights the properties of a material that symbolizes sustainability, to meet the needs of those looking for a product that is both classic and modern. The elegant geometry of the spiral shaped handle fits multiple environments, making this collection the perfect solution for taps that stand the test of time.

## Designed by Andrea Castrignano

### A look backward to move forward

The past is not gone. It talks to us, still, as if it were yesterday. Linea by AC originated from the restyling of a project created by Antonio Bongio in the 1980s, now reinterpreted in collaboration with Andrea Castrignano, one of the most influential Italian interior designers. A product with high technical and functional standards, with slender shapes it is designed to leave a unique mark in any environment.

### Stylistic Affinities

Fondness for the environments in which we live is the foundation that gives value, authenticity and beauty to living itself. 936A\_MARCORD is an ideal solution for a wide ranging set of styles, as it is able to reflect the mood and personality of each person.

With its innovative design, 936A\_MARCORD reinterprets and evolves the lines of a great classic of the Bongio catalogue: the 936 collection, a product that embodies the company's DNA and its core values of creativity, functionality, quality, and innovation.
