Staff Picks - Vegetables

We asked three of our Product Managers—each deeply rooted in horticulture and hands-on growing—to share a few of their personal favorite flowers and vegetables for the season. These are the varieties they choose for their own gardens, selected for beauty, performance, and reliability. After all, who better to take inspiration from than the pros who live and breathe plants every day?"

CHRISSY

1. Squash Honeynut, 11237: I can't say enough about this butternut! Smaller than a traditional butternut, this mini squash delivers exceptional sweetness, a rich nutty flavor and a delicious creamy texture. Perfect for roasting, Honeynut caramelizes beautifully, and offers a naturally sweet, buttery taste without any added sugar. My family asks for it by name and it's our go-to for fall and winter meals.

2. Swiss Chard Bright Lights, 00833: Swiss Chard doesn't get the attention it deserves, and this variety is lovely. Baby leaves can be added to salads and the stalks and large leaves are a perfect addition to a sauté or soup. We love to add this to a cheesy quiche for a beautiful, healthy dish. The easy to care for plant is so colorful in the garden — it almost counts as an ornamental too!

ANGIE

1. Pepper Jupiter, 00653: It would not be an exaggeration to say that bell peppers are included in just about every meal in our house. Jupiter is a favorite because of its sweet flavor, nice crunch, and large blocky size. These plants need some space but reward you with generous production. The fruit walls are thick and hold up well to stuffing, roasting, and freezing. My go to summer lunch is chicken salad served on pepper "crackers"!

2. Kale Rainbow Candy Crush, 13152: I love plants that serve more than one purpose and Kale Rainbow Candy Crush is a perfect example. Its vibrant colors intensify as temperatures drop, making it a stunning fall ornamental. But instead of composting it at season's end, I harvest the leaves, lightly coat them with oil and seasonings, and dehydrate them into delicious kale chips. Those fringed leaf margins create plenty of nooks for flavor to cling to. I enjoy savoring the bounty of my garden for just a little bit longer.

KRISTEN

1. Tomato Sun Dipper, 13262: Sun Dipper has a vigorous plant with amazing yields, but is still manageable in the garden. The fruit don't crack, fall from the vine, or get soft on the counter, so I don't have to worry about getting to them in time. I really love their sweetness and flavor, and the kids in my family love the fun shape for dipping!

2. Cucumber Sassy, 00437: I like to make sweet pickles each summer, and Sassy has a heavier, concentrated fruit set that allows me pick enough crisp fruit at the right size to make a batch of pickles. The plants recover well after harvest, so I usually get a few picks each season, with some to spare for fresh snacking.

SQUASH SMOOTH OPERATOR F₁ ORGANIC

Bean Elegance

A high-quality, refined bean produced on a compact plant. Perfect for the home garden. **See page 6.**

Edamame Karikachi No. 3

This reliable heirloom variety produces high yields of sweet, nutty flavored pods. **See page 7.**

Beet Schrute F₁

A fast-growing globe shaped beet with great flavor and beautiful internal color. **See page 8.**

Armenian Pale Green

A burpless variety, fruit is pale green with thin, crisp skin and heavy ribbing. This variety will produce beautiful, straight fruit when grown on a trellis. Plants are extremely productive. **See page 16.**

Pumpkin Cider F₁

Cider has a traditional jack-o-lantern shape with a unique light tan color, perfect for fall decor. The round 18-30 lb. pumpkins have light ribbing and well-attached dark green stems. Full vines are well-adapted to different growing environments. **See page 37.**

Sweet Potato Purple Majesty

High yield, striking purple skin and flesh. Well adapted to all regions. **See page 31.**

Squash Smooth Operator F₁ Organic

This easy to harvest straightneck squash is produced on spineless plants. **See page 46.**

Calendula Bon Bon Apricot

Brighten up your spring with this uniquely colored calendula. Bon Bon Apricot features large showy flowers on compact plants. Perfect for pots and borders. **See page 59.**

Calendula Touch of Red Series

This stunning calendula series consists of contrasting tones creating an attractive effect. Large 2–4-inch flowers offer both beauty and productivity. These tall vigorous plants have strong stems perfect for farmer florists. **See page 59.**

Dichondra Silver Surfer

A more well-behaved Dichondra with a dazzling silver shine. **See page 84.**

Sunflower Astra Series

Semi double flowers with densely petaled centers, branching habit consist of multiple blooms on each 5-6 foot tall plant. Perfect for cutting with very little pollen. **See page 73.**

LEWIS

MASCOTTE

BEANS

Growing Tips: Beans prefer a well-drained, fertile soil and a pH of 6.0 to 6.8. Because the seed is sensitive to cold temperatures, the soil should be at least 70°F for snap beans and 75°F for limas. Plant at a 1" depth, allowing 3-4" between plants and approximately 24" between rows. Most bean varieties germinate in 6-10 days under favorable conditions. Snap beans mature within 2 months from seeding, so successive plantings every third week can produce a constant supply all season.

BUSH BEANS

Bush Blue Lake 274

58 Days. Developed from the famous vining Blue Lake, this easier to pick version produces over a longer season than other bush beans and brings back the meatiness, color and flavor of the "good old days." The 6" long pods are dark green and smooth. Note: Bush Blue Lake 274 was developed from a vining bean and may produce runners under certain conditions.
00018 Treated seed: 100 sds \$4.32; ½ lb \$11.91.
00018 Untreated seed: 100 sds \$4.32; ½ lb \$11.91.

Caprice

56 Days. Caprice has straight smooth pods that have slow seed development and high eating quality. Its upright plants set their 5½" pods mid-high in the plant, which makes harvest easy. Caprice yields well under disease pressure and has good heat tolerance and holding ability. U.S. Patent 6,835,876.
00009 Cruiser Treated seed: 100 sds \$4.38;
1M sds \$19.03.

Celine Organic ● Purple wax bush bean

58 Days. The first purple wax bean on the market, Celine has a bright magenta color, pale yellow interior, and sweet refined pods. The slender pods develop early and in high numbers. Pick these petite filet beans at 4½-5" long for best quality.
13126 Organic seed: 100 sds \$5.25;
1M sds \$20.03.

Elegance ● French filet bean

54 Days. This compact plant produces high yields of straight, medium green, refined pods that measure 4½-5". With slim, tender pods this filet bean brings gourmet quality to your table, and exceptional disease resistance makes it a garden favorite.
13939 Cruiser Treated seed: 100 sds \$3.09;
1M sds \$11.74

Gold Rush Organic ●

55 Days. This reliable variety offers a strong concentrated set of lemon-yellow beans that are easy to pick. The straight tender pods have crisp texture and nice flavor, and the plants carry strong disease resistance.
12761 Organic seed: 50 sds \$4.38;
100 sds \$5.91.

Lewis

53 Days. The upright plants of Lewis produce 5½" long, straight, dark green pods with excellent eating quality, flavor, and offer high yields and high disease resistance.
11016 Cruiser Treated seed: 100 sds \$4.49;
1M sds \$20.59.
11016 Untreated seed: 100 sds \$4.49;
1M sds \$20.59.

Mascotte

50 Days. This AAS Winner is ideal to grow in containers or window boxes. Dwarf upright plants grow 16-18" tall and offer a continuous yield of medium green colored beans.
11271 Untreated seed: 100 sds \$6.64;
1M sds \$19.99.

ROMA II

JACOB'S CATTLE ORGANIC

EASTLAND

DRAGON TONGUE

EDAMAME KARIKACHI NO. 3

FORDHOOK 242

Roma II *Romano bush bean*

59 Days. Romano bush bean that is slow to develop seed, allowing for an extended harvest window of its high quality beans. Its wide, smooth, flat pods measure 5½" and have reduced fiber, which enhances eating quality.

11011 Cruiser Treated seed: 100 sds \$7.42; ½ lb \$10.11.

11011 Untreated seed: 100 sds \$7.42; ½ lb \$10.11.

DRIED BEANS

Dragon Tongue

60-90 Days. This horticultural type bush bean is suited for harvest as a fresh snap bean or as a shelled bean at full maturity. As a snap bean, harvest when the flat 6-8" beans turn from lime green to a buff yellow with bright purple stripes (60 Days). At this stage, the stringless pods are extremely crisp, juicy, and sweet. Pods lose their purple mottling when cooked. If dried beans are desired, let pods fully mature and dry before harvesting (90 Days). The mature seeds are light brown with dark mottling.

11014 Untreated seed: 100 sds \$7.18; ½ lb \$15.41.

Jacob's Cattle Organic

50-90 Days. This heirloom bean offers great versatility. Use for fresh production when beans are green, young, and tender (50 Days). Use as a white bean once the pods start to dry down (70 Days) or use as a winter dry bean once the traditional cream and red colors appear (90 Days). Wonderful flavor for beans and greens, winter soups, and chili.

12363 Organic seed: 50 sds \$6.73; 100 sds \$12.41.

EDAMAME

Edamame Karikachi No. 3

85 Days. Tall, upright plants produce high yields of large, plump pods averaging three seeds per pod. Delicious steamed or boiled, beans have a sweet, nutty flavor. This heirloom variety is well-loved, reliable and highly nutritious.

13926 Untreated Seed: 100 sds \$9.49; 1M sds \$53.78.

LIMA BEANS

Eastland *Baby lima bean*

70 Days. Tall upright bush plants bear gray-green 3" pods filled with dime-sized greenish-white flat beans. This heavy yielder of high quality baby limas is one of the best small lima varieties available.

00021 Treated seed: 100 sds \$7.49; ½ lb \$12.24.

Fordhook 242

74 Days. The large vigorous plants bear heavily from mid-season until frost. The pods are 3½-4" long, uniform and well-filled, and they shell out plump thick beans of the finest quality.

00026 Treated seed: ½ lb \$12.89; 100 sds \$13.49.

POLE BEANS

Kentucky Blue

63 Days. The large, straight, round 6-7" pods are of excellent quality and are produced on vigorous 6-8' vines. White seed. (P.V.P.)

00035 Cruiser Treated seed: 100 sds \$8.58; ½ lb \$29.73.

Seychelles

55 Days. A versatile AAS winning bean that offers stringless dark green 6" pods, with a continuous set of 6 uniform pods per node. Train 7-9' climbing plants to a trellis for best results.

12821 Cruiser Treated seed: 100 sds \$5.40; 1M sds \$21.54.

12821 Organic seed: 50 sds \$4.15; 100 sds \$5.89.

BORO F1

CHIOGGIA GUARDSMARK ORGANIC

DETROIT DARK RED

KESTREL F1

BEETS

Growing Tips: Succession sowings will provide continuous harvests of delicious beets. Sow at approximately 1/2" depth when soil temperatures range from 60-85°F. Even moisture is critical for successful germination and growth. Choose a location with well-drained soil, and do not over water or allow soil to dry out. Germination requires 7-18 days, after which seedlings should be thinned to allow for 2-3" of space between each plant.

Avalanche

50 Days. These snow white roots have the sweetness of ordinary red beets, without the earthy bitterness. The 3" diameter roots are sized nicely for slicing or roasting, and can be grated into salads.

12180 Treated seed: 250 sds \$4.11; 1M sds \$7.52.

Boro F1

50 Days. This flavorful beet was bred with quality of taste in mind. Harvest the roots as baby beets or when they have a diameter of 3-4". Leaves can also be harvested as baby greens.

12531 Untreated seed: 50 sds \$3.28;

250 sds \$4.78.

12531 Organic seed: 250 sds \$5.13; 1M sds \$8.84.

Chioggia Guardsmark Organic

60 Days. These "candy cane" beets are favored for their distinctive pink and white candy striped interior color that is outstanding when served fresh, but tends to fade when cooked. The consistently round, slightly flattened roots have firm sweet mild flavored flesh. The bright green tops are well attached.

11164 Organic seed: 250 sds \$2.20; 1M sds \$7.01.

Detroit Dark Red

63 Days. The globe-shaped roots have good uniformity and solid deep red flesh. The sweet rich flavor can be enjoyed throughout the season by making successive sowings. 2,000 sds/oz.

11209 Treated seed: 250 sds \$2.91; 1 oz. \$3.83.

11209 Untreated seed: 250 sds \$2.91; 1 oz. \$3.83.

SCHRUTE F1

Kestrel F1

53 Days. Kestrel matures early and produces smooth, globe shaped, dark red roots. The refined roots can be harvested early for baby beets or left to mature to full size. Good disease resistance.

00227 Treated seed: 250 sds \$2.20; 1M sds \$4.84.

00227 Untreated seed: 250 sds \$2.20;

1M sds \$4.84

Red Ace F1

54 Days. Red Ace has smooth roots with short upright tops. Resists zoning and bolting in warm weather and has intermediate resistance to Cercospora Leaf Spot.

00210 Treated seed: 250 sds \$2.26; 1M sds \$5.17.

00210 Untreated seed: 250 sds \$2.26; 1M sds \$5.17.

00210 Organic seed: 250 sds \$2.98; 1M sds \$6.98.

Schrute F1

60 Days. A versatile hybrid, Schrute is a fast-growing, globe shaped beet with smooth skin, a beautiful internal color and great flavor. Strong, tall tops are tolerant to bolting and have intermediate resistance to Cercospora and Rhizoctonia.

13839 Treated seed: 250 sds \$3.50; 1M sds \$4.95.

Touchstone Gold

55 Days. A beet root with a vibrant orange-red exterior and rich gold interior. Striking green leaves contrast gold petioles and roots have a sweet mild flavor.

11213 Treated seed: 250 sds \$5.22;

1M sds \$13.05.

11213 Untreated seed: 2250 sds \$5.22;

1M sds \$13.05.

11213 Organic seed: 250 sds \$7.14;

1M sds \$14.03..

ASPABROC F1

ASTEROID F1

BELSTAR F1 ORGANIC

BROCCOLI

Brassica Growing Tips: Members of the Brassica family, (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, and Kohlrabi), will tolerate cooler growing seasons, so extend your harvests by planting from early spring through late summer. Seeds can be direct seeded but are more commonly started indoors and then transplanted into the garden. Sow at a depth of $\frac{1}{4}$ – $\frac{1}{2}$ " at a soil temperature of 65–75°F indoors. Even soil moisture is critical for successful germination and growth, do not overwater or allow to dry out. Seeds will germinate in 6–10 days. Make sure seedlings get plenty of direct sunlight, or use supplemental lighting to encourage healthy transplants. Transplants will be ready to plant in the garden in approx. 4 weeks. Plant transplants 14–18" apart.

Aspacroc F1

55 Days. Known as Broccolini® in the produce section of your grocery store and on restaurant menus, Aspacroc resembles a broccoli raab with an asparagus stem, and offers a mild, spicy taste.

11298 Untreated seed: 50 sds \$4.95;

250 sds \$18.95.

Asteroid F1

77 Days. Dark green heads are high quality with a smooth dome and medium small bead. Healthy, upright plants are easy to harvest—a perfect addition to home gardens.

11726 Treated seed: 50 sds \$2.30; 1M sds \$12.67.

Belstar F1 Organic

66 Days. This widely adapted variety grows well under many different regional growing conditions. After the main head is harvested, smaller side-shoots will be produced. Harvest these medium-sized florets for an extended season. With strong disease resistance, Belstar is a sure performer.

12532 Organic seed: 50 sds \$5.71; 250 sds \$12.37.

Covina F1 Organic

75 Days. This blue-green broccoli has large vigorous plants that are reliable in adverse conditions, forming uniform tightly domed heads. Best in the temperate conditions of the spring and fall seasons. Strong disease resistance.

13355 Organic seed: 50 sds \$7.82; 1M sds \$62.91.

Imperial F1

85 Days. Imperial produces high quality tight dome-shaped heads with small dark green beads. This mid- to late-maturing variety grows best in the summer with longer daylength and warm temperatures, and has excellent post-harvest shelf life. U.S. Patent 7,256,328.

11409 Treated seed: 50 sds \$6.04; 1M sds \$19.34.

11409 Untreated seed: 50 sds \$6.04;

1M sds \$19.34.

Luna F1

72 Days. This high quality dark blue-green broccoli produces uniform heads with medium-to-small bead size. Luna produces side shoots after the main head is harvested, and performs best in early spring or late summer plantings.

11725 Treated seed: 50 sds \$5.51; 1M sds \$18.06.

11725 Untreated seed: 50 sds \$5.51; 1M sds \$18.06.

Purple Magic F1

80 Days. This gorgeous AAS-winning variety has a fully purple head and stem, which boosts its nutritional value. The large domed heads have excellent tenderness and sweet broccoli flavor. Plants are medium-large, upright, and perform well in cooler seasons.

66544 Treated seed: 50 sds \$5.41; 1M sds \$26.66.

COVINA F1 ORGANIC

IMPERIAL F1

LUNA F1

HARVESTING TOOLS

Looking for tools to harvest your Brassicas?

Check out these harvest knives and more, exclusively at harrisseed.com.

PURPLE MAGIC F1

BRUSSELS SPROUTS - JADE CROSS F1

CABBAGE - RUBY BALL IMPROVED F1

CABBAGE - TIARA F1 ORGANIC

CHINESE CABBAGE - BILKO F1 ORGANIC

BRUSSELS SPROUTS

Brussels Sprouts are a long season crop, so plant early to ensure a bountiful harvest in the fall. Sprouts mature from the bottom up, so remove lower leaves as they yellow, and pick sprouts at the bottom of the stalks. When the lower sprouts are harvested, those higher on the stalk will grow more quickly.

Jade Cross F1

85 Days. Jade Cross produces high yields of very flavorful, deep green $\frac{3}{4}$ -1" sprouts. Early maturity allows for later planting when cooler growing conditions are more favorable for sprout quality.

11240 Treated seed: 50 sds \$4.72; 250 sds \$15.91.

11240 Untreated seed: 50 sds \$4.72;
250 sds \$15.91.

CABBAGE

Bravo F1

85 Days. Bravo cabbage, a rugged hybrid, has performed well from the Deep South in winter to the North in summer. The large, round cabbage heads are uniform and a beautiful blue-green color. Use close spacing (10-12") for smaller heads and wide spacing (18-24") larger heads for sauerkraut.

00247 Treated seed: 50 sds \$5.49; 1M sds \$11.60.

00247 Untreated seed: 50 sds \$5.49; 1M sds \$11.60.

Bronco F1 Organic

78 Days. A main-season variety with high yields and high-quality 6-7" heads with a short core, sweet and crunchy texture, and tolerance to tip burn. The firm blue-green heads are tightly wrapped and a consistent 3-5 lb. size. Expect high-quality heads with a short core, sweet and crunchy texture, and tolerance to tip burn.

13356 Organic seed: 50 sds \$2.80; 1M sds \$21.41.

CABBAGE - BRAVO F1

CABBAGE - BRONCO F1 ORGANIC

CABBAGE - FARAO F1 ORGANIC

Farao F1 Organic

63 Days. Very uniform dense dark green 3-4 lb. heads are produced on a small framed plant. Tender leaves offer a mild peppery sweet flavor, perfect for fresh slaw or stir fry. Farao performs well in the summer season.

12366 Organic seed: 50 sds \$4.72;
250 sds \$15.10.

Ruby Ball Improved F1

65 Days. Ruby Ball Improved is an early maturing 3-4 lb. red cabbage with a dark red exterior color. Its interior is solid with an attractive red and white coloring.

12317 Treated seed: 50 sds \$6.02; 1M sds \$20.68.

12317 Untreated seed: 50 sds \$6.02; 1M sds \$20.68.

Tiara F1 Organic

57 Days. This early maturing green cabbage forms small round 2-3 lb heads measuring 4-6" in diameter. The compact plants are excellent for close spacing and small gardens, and the mini heads offer excellent eating quality with flavorful crisp leaves and a short core.

13357 Organic seed: 50 sds \$5.60; 1M sds \$36.74.

CHINESE CABBAGE

Bilko F1 Organic

63 Days. Bilko produces creamy yellow, sweet, mild-flavored leaves, is slow to bolt, and makes a great substitute for lettuce or traditional cabbage.

12365 Organic seed: 50 sds \$6.57; 1M sds \$19.16.

DEEP PURPLE F1

GOLDFINGER F1

RAINBOW F1

FUERTE F1

NANTINDO F1

SCARLET NANTES

CARROTS

Rich in calcium, vitamin A, and fiber, carrots are very easy to grow. Nantes carrots are slender in shape with rounded tips, or stump roots. Chantenay carrots are broad at the top with a tapering shape and rounded tip.

Growing Tips: Carrots prefer sunny locations and well drained soil. They benefit from a sandy soil, but you can grow them in raised beds at least 8-10 inches high. Carrots need consistent moisture to sprout and may take up to 18 days to germinate. You can sow them 2 to 3 weeks before your last frost date in the spring. Just make sure your soil has warmed up and dried out a little after the winter.

Deep Purple F1

72 Days. These dark purple carrots have a tapered shape and deep color through to the core. The sweet roots reach 7-8" in length and are excellent for fresh eating. Deep Purple has tall strong healthy tops and good disease resistance.

12936 Treated seed: 250 sds \$4.56; 1M sds \$11.71.

12936 Untreated seed: 250 sds \$4.56; 1M sds \$11.71.

Fuerte F1

70 Days. This excellent Nantes carrot is known for its nice uniform shape with strong tops and good flavor. Fuerte offers high yields of medium-orange blunt-tipped cylindrical roots with some shoulder.

12723 Untreated seed: 50 sds \$4.15; 1M sds \$12.61.

Goldfinger F1

69 Days. Goldfinger is a beautiful Nantes type carrot that produces high quality roots. Its dark orange exterior color and smooth appearance has real eye-appeal, and its eating quality is superb. Harvest early for baby carrots.

11909 Treated seed: 50 sds \$2.88; 250 sds \$4.85.

11909 Untreated seed: 50 sds \$2.88; 250 sds \$4.85.

Nantindo F1

70 Days. Tender and sweet 6-8" roots have a beautiful deep orange color that carries well into the crisp and tender interior. Strong tops allow for easy harvest and the tenderness of the small core is exceptional.

00328 Treated seed: 250 sds \$2.94; 1M sds \$7.30.

00328 Untreated seed: 250 sds \$2.94; 1M sds \$7.30.

Rainbow F1

67 Days. This unique hybrid is a single variety with multi-colored roots in white, yellow, orange, and coral. Unlike colored carrot mixes, the roots of Rainbow mature uniformly for beautiful bunches of 7-9" carrots with 12" tops. Intermediate resistance to Alternaria Black Rot, and Cercospora Leaf Blight.

13571 Treated seed: 250 sds \$2.19; 1M sds \$6.93.

Scarlet Nantes

68 Days. Nantes carrots have a well-deserved reputation for fine flavor and attractive appearance. Tender and crisp with delightful sweetness, Scarlet Nantes has short tops and brightly colored interiors. Can also be used for freezing.

00323 Treated seed: 250 sds \$2.32; ½ oz. \$4.31.

00323 Untreated seed: 250 sds \$2.32; ½ oz. \$4.31.

White Satin F1

68 Days. This Imperator x Nantes hybrid produces sweet 8-9" long cylindrical roots with high quality. The bright white roots complement other colored carrots beautifully, and the plants have excellent disease resistance and tall tops for easy harvest.

12540 Untreated seed: 250 sds \$3.64.

Yaya F1 Organic

60 Days. This variety sets the standard for uniformity for Nantes type carrots, making it ideal for full size or baby carrots. The 7" cylindrical, blunt roots are a brilliant deep orange and have strong resistance to many root and foliar diseases.

12370 Organic seed: 250 sds \$4.56;

1M sds \$10.02.

Yellow Stone Organic

70 Days. This versatile variety can be used fresh, cooked, or stored. Averaging 9" long, the bright yellow roots are very sweet and crisp. The plants have strong tops that make it easy to harvest.

12539 Organic seed: 250 sds \$3.73; 1M sds \$7.68.

CAULIFLOWER

Cauliflower produces best when it matures during cool weather and is grown with plenty of moisture. To keep white heads bright, gather the outer leaves over the head and secure with twine or rubber bands when heads reach golf ball size. Check regularly to harvest at peak maturity. Oppositely, colored varieties will mature better when they are exposed to sunlight, so do not wrap these heads. **For more cauliflower growing tips, see broccoli growing tips on page 9.**

Absolute F1

70 Days. This self-wrapping variety offers good protection to its dense domed bright white heads. Excellent uniformity and wide adaptability are regularly noted.
00344 Treated seed: 50 sds \$8.49; 1M sds \$36.27.
00344 Untreated seed: 50 sds \$8.49; 1M sds \$36.27.

Flamenco F1

72 Days. Exceptional flavor and quality make Flamenco a great choice for fresh eating. The high, bright white, domed heads have dense curds and good cover.
12604 Treated seed: 50 sds \$6.66; 500 sds \$57.27.
12604 Untreated seed: 50 sds \$6.66; 500 sds \$57.27.

Flame Star F1

80 Days. Medium plants produce heavy heads of smooth dense high quality curds with pale orange color. Good tolerance to heat and stress.
12764 Treated seed: 50 sds \$22.27; 500 sds \$137.92.

Graffiti F1

85 Days. The heads do not require tying, and the deep purple color will be the highlight of salads and relish trays. Works best for fall planting but can also be grown in spring. Purple color will fade with cooking.
00346 Treated seed: 50 sds \$24.21; 500 sds \$104.75.

Skywalker F1 Organic

80 Days. Heavy heads with self-wrapping leaves make this an easy variety to grow. Uniform milky white curds are tight and high quality for fresh eating and cooking.
12541 Organic seed: 50 sds \$8.99; 250 sds \$33.88.

Snow Crown F1

50 Days. For early harvest and excellent quality, choose Snow Crown. Solid round snow white heads have a tight curd and 7-8" diameter.
00345 Treated seed: 50 sds \$6.40; 1M sds \$23.97.

Twister F1

75 Days. Twister produces tight, heavy heads with exceptional wrap and bright white color. Medium plants are well-adapted across growing climates.
12996 Treated seed: 50 sds \$7.43; 1M sds \$35.92.

Veronica F1 Organic

77 Days. This green Romanesco has spectacular aesthetics and earthy flavors when eaten fresh. It becomes sweeter after cooking and holds its color and structure.
12542 Organic seed: 50 sds \$13.09; 250 sds \$55.20.

SWEET CORN

Growing Tips: Plant sweet corn at a depth of 1" in fertile soil with a minimum soil temperature of 65°F. Space plants at 8" within the row and 24-36" between rows. Plant varieties in blocks of at least 4-5 rows for proper wind pollination. Even soil moisture is critical for successful germination and growth, do not overwater or allow to dry out. Crop protectants, like Thuricide, may be used for worm control.

We offer 4 basic types of sweet corn:

Standard (su): Heirloom - lower sugar

Sugary Enhanced (se): More tender; medium sugar

Synergistic (sy): Tender; medium-to-high sugar

Supersweets (sh): High-to-extra-high sugar

Su, se, and sy types may be grown together but supersweets require isolation from these types. Isolate white varieties from yellow and bicolor varieties to maintain pure white color.

CORONADO F₁

WHITE CORN

STANDARD SUGARY WHITE

Silver Queen F₁

88 Days. (su) Late maturing ears are large and well-filled with glossy white kernels. Beautiful ears have tight dark green husks and creamy kernel quality. Wait until the soil has warmed to above 65°F before planting.

00134 Cruiser Treated seed: 250 sds \$9.67;
1M sds \$17.35.

00134 Untreated seed: 250 sds \$9.67;
1M sds \$17.35.

SUGARY ENHANCED WHITE

Silver King F₁

82 Days. (se) Silver King matures earlier than Silver Queen and has improved eating quality. Easy-to-pick 8" ears are produced on plants with good disease protection.

01172 Cruiser Treated seed: 250 sds \$8.56;
1M sds \$17.35.

SUPERSWEET WHITE

Isolation recommended to ensure quality.

Xtra-Tender™ Natural Bright XR F₁ Organic

74 Days. (sh) As a sister line of bicolor Natural Sweet XR F₁, this exceptional white supersweet variety is one of few available organically. Expect excellent seedling vigor, plant strength, and top eating quality. Resistance to Common Rust (RpG).

12830 Organic seed: 50 sds \$13.19; 250 sds \$20.66.

Coronado F₁

78 Days. (sh) This widely adaptable variety has all of the best traits for garden growing. Strong plants produce large ears that are well protected and easy to harvest. The ears have vibrant white kernels that are tender and flavorful.

12794 Cruiser Treated seed: 250 sds \$11.12;
1M sds \$26.04.

YELLOW CORN

SYNERGISTIC YELLOW

Inferno F₁

73 Days. (sy) Inferno produces very sweet 7½-8" ears that are packed with tender yellow kernels. Its dark husk offers good protection to the ear, and the plants have good disease protection.

12319 Cruiser Treated seed: 250 sds \$13.79;
1M sds \$27.97.

SUPERSWEET YELLOW

Isolation recommended to ensure quality.

Candice F₁

74 Days. (sh) Large ears are filled with tender glossy yellow kernels of the highest sweetness and quality. Candice truly performs with excellent yield potential, husk protection, and flavor.

12327 Cruiser Treated seed: 250 sds \$10.91;
1M sds \$28.33.

12327 Untreated seed: 250 sds \$10.91;
1M sds \$28.33.

Summer Celebration F₁

74 Days. (sh) The 7½" ears have bright yellow kernels, excellent supersweet eating quality, extended field holding ability, and an attractive husk package. Tall plants stand strong against lodging and have good disease protection.

13074 Cruiser Treated seed: 250 sds \$7.88;
1M sds \$19.34.

BICOLOR CORN

SUGARY ENHANCED BICOLOR

Delectable R/M F₁

84 Days. (se) The 8½"-9" ears of this variety have strong kernel fill, a wonderful tenderness and taste, and are tightly wrapped with a dark green husk. Strong plants offer a great disease package.

01135 Cruiser Treated seed: 250 sds \$7.07;
½ lb \$23.50.

SYNERGISTIC BICOLOR

Montauk F₁ ●

79 Days. (sy) Montauk produces large 8" ears that have an eating quality second to none. Highly recommended for its high yields, beautiful kernel color, and good husk protection.

01108 Cruiser Treated seed: 250 sds \$12.30;
1M sds \$28.82.

01108 Untreated seed: 250 sds \$12.30;
1M sds \$28.82.

Sweetness F₁

68 Days. (sy) Sweetness has excellent early germination and seedling vigor for strong garden performance. The 8" ears have high eating quality, sweet flavor, and a protective husk. Shorter plants with strong disease resistance.

12598 Cruiser Treated seed: 250 sds \$12.00.

SUPERSWEET BICOLOR

Isolation recommended to ensure quality.

Raquel F₁ ●

72 Days. (sh) This bicolor supersweet has excellent yield potential and holding ability. The large ears fill well to the tip with sweet and flavorful kernels, protected by a tight, deep green husk.

12321 Cruiser Treated seed: 250 sds \$13.01;
1M sds \$26.32.

Rosie F₁ ●

74 Days. (sh) This mid-season bicolor has superior eating quality and holding ability. The large ears have glossy bright kernels and a tight, dark green husk that covers the ear well.

12322 Cruiser Treated seed: 250 sds \$11.61;
1M sds \$26.37.

12322 Untreated seed: 250sds \$11.61;
1M sds \$26.37.

Xtra-Tender™ Natural Sweet XR F₁ Organic ●

74 Days. (sh) The excellent eating quality and flavor of this variety will have your family and friends asking for it by name! A great choice for its tender sweet kernels and strong productive plants.

12717 Organic seed: 50 sds \$11.95;
250 sds \$19.50.

Honey 'N Pearl F₁ ●

75 Days. (sh) One of the first supersweet varieties developed, Honey 'N Pearl has sweet, tender bicolor kernels. A classic - and a long-time favorite for gardeners. For best germination and seedling performance, plant in warm soil.

11101 Cruiser Treated seed: 250 sds \$9.95.

EARTH TONES DENT

GLASS GEM ORGANIC

STRAWBERRY DE-LITE

FIRECRACKER

MINIATURE BLUE

ORNAMENTAL CORN

Earth Tones Dent

90 Days. Earth Tones Dent is an exciting reselection from an heirloom, dent flour corn. The 8 to 10" ears display beautiful, muted earth tones of gold, bronze, mauve-pink, green, brown and blue. The attractive ears can be used for fall decoration, ground to use for flour or used for bird or animal feed.

01118 Untreated seed: 100 sds \$5.01; ½ lb \$16.79.

Firecracker

95 Days. Produces high yields of 5" multicolored ears, great as an ornamental and for popping. Red stalks reach 7½ feet. When popped, Firecracker produces a small white flake.

12627 Treated seed: 100 sds \$5.07; ½ lb \$19.71.

Glass Gem Organic

100 Days. The name says it all, this variety is a gem! The iridescent shiny glass-like kernels will glisten in the fall sunshine. Sturdy plants grow 6-8' tall and produce an abundance of 7-8" long ears. The multi-colored kernels can be popped or ground into flour.

**12409 Organic seed: 100 sds \$13.64;
250 sds \$17.28.**

Mini Blue Popcorn

100 Days. Shiny colonial blue kernels cover the 2 to 4" ears of this unique variety. Plants produce several uniform ears that are ideal for ornamental and craft use. A real must for those growing ornamentals.

01146 Untreated seed: 100 sds \$5.67; 1 oz. \$15.63.

Strawberry De-Lite

98 Days. This beautiful strawberry popcorn has longer ears than the standard, and a striking variety of colors including deep red, light pink, tan, and cream-colored kernels. The strong stalks stand well and offer outstanding yields of these attractive ears with beige husks that are occasionally streaked with red.

12847 Untreated seed: 100 sds \$4.88; ½ lb \$25.99.

Wilda's Pride

110 Days. Tall sturdy plants produce 8-11" ears with kernel colors of yellow and white, deep maroon red, solid yellow, black red, and a wide assortment of multi-color combinations.

01177 Treated seed: 100 sds \$5.50; ½ lb \$12.80.

01177 Untreated seed: 100 sds \$5.50; ½ lb \$12.80.

POPCORN

Harvest Tip: Kernels will not pop unless they are completely dry. Allow ears to dry on the plant as long as possible. After harvesting, pull the husks back and hang ears in a well ventilated, dry location to cure further. This may take one to three weeks. Kernels are ready when they are easy to remove from the cob. They can then be stored or popped!

Gourmet Mushroom F1

103 Days. A superior mushroom-type variety with large kernels that pop into ball and mushroom shaped flakes, excellent for caramel and kettle corn.

12600 Treated seed: 100 sds \$7.57;

1M sds \$21.15.

12600 Untreated seed: 100 sds \$7.57;

1M sds \$21.15.

Top Pop F1

100 Days. These tall plants produce large ears of bright yellow kernels. When dry they will pop into large "sunburst" flakes that are tender and delicious.

01162 Treated seed: 100 sds \$6.59; 1M sds \$18.41.

CUCUMBERS

Growing Tips: Cucumbers can be direct sown or started indoors 12-15 days before transplanting into the garden. Jiffy pots are excellent for starting cucumber seedlings (**see page 87**). Direct sow cucumbers at a depth of 1/2-1" in 70°F soil, seed will germinate after 6-10 days. Even soil moisture is critical for successful germination and growth, do not overwater or allow to dry out. Cucumbers are highly susceptible to fungal diseases, which can be managed using products like Liquid Copper (**see page 102**). Pick fruit regularly for a continuous yield.

Cucumber Flowering Types

Monoecious - most open pollinated varieties are this type; plants produce both male and female flowers and need to be naturally pollinated by insects to set fruit.

Gynoeceious - plants produce predominately female flowers, resulting in higher yields, and should be planted near a monoecious type to provide adequate pollination for fruit set. Most gynoeceious varieties are packaged with 12-15% pollinizer variety mixed in.

Parthenocarpic - plants produce seedless fruit without requiring pollination; if pollination does occur, fruit shape and eating quality may be affected.

SLICERS

Armenian Pale Green ●

65 Days. Monoecious. This cucumber is genetically a melon! A burpless variety, fruit is pale green with thin, crisp skin and heavy ribbing. Best harvested between 12-18" this variety will produce beautiful, straight fruit when grown on a trellis. Plants are extremely productive. Commonly known as a Snake Cucumber or Yard Long Cucumber, this unique heirloom variety is sweet and non-bitter.

13931 Untreated seed: 50 sds \$2.95; 500 sds \$9.95.

Burpless 26 F1 ●

60 Days. Monoecious. Pick when young (not over 8-10" long) to enjoy its delicate taste and thin, tender skin.

00402 Treated seed: 50 sds \$4.67; 500 sds \$27.70.

00402 Untreated seed: 50 sds \$4.67; 500 sds \$27.70.

Diva F1 ●

58 Days. Parthenocarpic. Diva has a wonderful sweet and mild flavor, and its non-bitter skin requires no peeling. The vines yield plenty of bright green, slightly tapered tasty cucumbers. Diva is self-pollinating.

00444 Untreated seed: 50 sds \$6.24;

500 sds \$16.92.

Marketmore 76 ●

68 Days. Monoecious. This variety features a deep, consistent color and a trim, uniform shape, as well as great taste.

00427 Treated seed: 50 sds \$2.06; 1 oz. \$8.15.

00427 Organic seed: 50 sds \$2.99; 500 sds \$9.68.

Raider F1

52 Days. Gynoeceious. This hybrid is a high yielder of uniformly dark green cylindrical fruit. Pollinizer included.

00441 Treated seed: 50 sds \$7.34; 500 sds \$18.45.

00441 Untreated seed: 50 sds \$7.34;

500 sds \$18.45.

Sweet Slice F1

63 Days. Monoecious. The skin is tender and free of bitterness, and plants produce excellent yields. Pick when fruit are 6-8" long for best flavor.

00438 Treated seed: 50 sds \$7.95; 500 sds \$61.70.

00438 Untreated seed: 50 sds \$7.95;

500 sds \$61.70.

Tasty Green F1 Organic ●

60 Days. Monoecious. An early maturing variety best picked at 8-10" long with tender non-bitter skin and crisp sweet flavor. Plants are strong and disease resistant.

12373 Organic seed: 50 sds \$6.02; 250 sds \$21.28.

SUPPORT NETTING

Don't forget your trellis supports to make weeding and picking cucumbers easier. See page 96.

DOUBLE YIELD ORGANIC

DMP GHERKING F1

MINI-ME F1 ORGANIC

PICKLES

Growing Tips: Pickling cucumber varieties can be sensitive to stressful environments. Seasons with extreme weather conditions, such as droughts, may cause flowers to drop or fruit set to be slow. Encourage ideal growing conditions by providing pickling cucumber plantings with uniform watering and supplemental fertilization if needed. Encourage bees near your cucumber plantings to ensure strong fruit set; however, bee pollination of parthenocarpic (self-pollinating) varieties, such as Gherking, may cause some fruits to have a teardrop shape.

Double Yield Organic ●

50 Days. Monoecious. Grow a part of history! Bred and introduced by Joseph Harris in the 1924 Harris Seed catalog, it was one of the finest pickling varieties, and still stands true today. It produces high yields of 6" green fruit with traditional black spines- just right for sweet gherkings, dill pickles, and fresh eating.

12374 Organic seed: 50 sds \$4.29; 500 sds \$11.94.

Gherking F1 DMP

53 Days. Parthenocarpic. Strong vines produce good yields of dark green pickles with white spines. Gherking is bitter free, perfect for pickling or eating fresh. Trellis recommended for easy harvest of high quality fruit. Gherking is self-pollinating.

**12329 Untreated seed: 50 sds \$10.80;
500 sds \$49.08.**

Mini-Me F1 Organic ●

45 Days. Parthenocarpic. This mini variety is perfect for snacking at 3-3½ inches long. Plants are extremely productive, setting 2-5 uniform fruit per node. Pick small for crisp shiny fruit with excellent appearance and flavor.

**12957 Organic seed: 50 sds \$13.45;
250 sds \$55.73.**

Patio Snacker F1

55 Days. Parthenocarpic. Grow Patio Snacker cucumbers in large containers with a short trellis for patio plants. Short, 3-5' branching vines produce good yields of flavorful, dark green fruit. The crunchy fruit measure 1½" in diameter x 6-8" in length. Patio Snacker is self-pollinating.

**11095 Untreated seed: 100 sds \$17.90;
500 sds \$70.09.**

Regal F1 ●

52 Days. Gynoecious. Regal makes a great pickle with good brining quality. Fruit has white spines, is dark green and is uniformly sized with blunt ends.

**00446 Treated seed: 50 sds \$6.88; 500 sds \$12.76.
00446 Untreated seed: 10 sds \$2.95; 50 sds \$6.88.**

Sassy F1

57 Days. Gynoecious. A high quality pickle with very dark green color and slightly longer fruit. Strong vines with good adaptability and disease resistance produce concentrated yields for larger batches of pickling.. Pollinizer included.

00437 Treated seed: 50 sds \$7.10; 500 sds \$9.99.

Snack F1 DMP

50 Days. Parthenocarpic. Vigorous vines set early yields of dark green mini cucumbers best harvested at a length of 4-6". The uniform fruit are smooth, sweet, and non-bitter. Strong disease resistance.

13418 Untreated seed: 50 sds \$11.13; 500 sds \$72.56.

CUCAMELON

Mouse Melon

65 Days. Mouse Melon, Cucamelon, Mexican Sour Gherkin - many names, one cute fruit! Large vining plants perform best when trellised and produce an abundance of small oblong green-striped fruit. This Mexico-native is crunchy, crisp and sweet, and can be used for pickles, stir-fries, salads, cocktails, and as a delicious snack!

**22957 Untreated seed: 50 sds \$4.95;
100 sds \$7.96.**

MUSTARD MIZ AMERICA

MICRO GREENS

Starting seeds to harvest as a micro green is an easy and efficient way to consume a power pack of nutrients! The life cycle of micro greens starts with germination when the root radicle emerges. Sprouting begins and the shoot emerges. The cotyledon stage is reached when the first set of leaves open, followed by the true-leaf stage when the first true leaves appear. Spread seeds onto a soil or hemp substrate that can be held in a tray. Avoid overwatering and promote aeration by misting the seeds. Adequate lighting is needed, and plant habit and appearance can be altered by using LED lights of varying spectra. Most typically harvest when 90% of true leaves are present (between 6-10 days) and cut plants right above the substrate.

BioStrate® 160 Felt

Moisten BioStrate® Felt with mist or a quick dip in a water bath and let excess water drain to grow micro greens. Sprinkle seeds to the desired density, then mist. BioStrate performs best when not overwatered. The amount of water will vary depending on the system used. The felt should be kept moist, not saturated. Water level should not be higher than the top of the medium. If water pools on the felt, reduce water flow. Available in 9½"W x 19½"L sheets and by the roll.

42015 BioStrate 160 Sheets 20ea. **\$24.95**

42014 BioStrate 160 Roll 9" x 250' **\$126.25**

BioStrate® Felt Kit

This lightweight, pH balanced, bio-based textile absorbs and retains water while providing an inert environment for healthy root development. Simply moisten the sheets, let excess water drain, and place into tray. Sprinkle seeds to the desired density and mist. Place dome over the tray and mist each day until greens reach desired stage. Do not let mat dry out (may require additional watering to keep moist). Each kit comes with 10 sheets of 9½"W x 19½"L BioStrate Felt, 2 trays and a dome.

42016 BioStrate® Felt Kit **\$22.95**

Terrafibre™ Hemp Grow Mats

Using the fibrous byproduct of the industrial hemp plant, Terrafibre™ grow mats are ideal for micro greens, sprouts, wheat grass, and other short rotation crops. Industrial hemp fibers are separated, cleaned, and needle punched to produce a 100% biodegradable soil-less growing medium. Hemp fibers have high water retention, keeping seeds wet through germination. Just sprinkle seeds to the desired density, then mist. Mats are pre-cut in 5" squares or the 10"W x 120"L roll allows you to cut to size to fit your needs. Mats are 100% biodegradable and fully compostable.

41827 Terrafibre 10"W x 20"L Mats 10ct. **\$25.95**

41828 Terrafibre 5"W x 5"L Mats 40ct. **\$17.95**

41829 Terrafibre 10"W x 120'L Roll **\$109.95**

Micro Greens Trays

These double-thick, heavy-duty trays are perfect for starting, growing, and harvesting micro greens. These shallow germination trays allow you to cut your micro greens closer to the plant base for increased yields and presentation. The shallow trays also offer better air flow around the plants, reducing the chances of fungus or disease. These trays are available with or without drainage holes. Trays measure 10"W x 20"L x 1.25"D.

41801 Drainage 5ct. **\$32.95**

41800 No Drainage 5ct. **\$32.95**

Harris' Micro Greens Mix

This formulated blend contains 7 different greens that offer an interesting combination of texture, flavor and color to use in your salads or sandwiches. The mix contains Swiss chard, beet greens, arugula, kale, and lettuce. 30,000 seeds/oz.

11522 Untreated seed: 250 sds **\$4.31**; 1 oz. **\$7.43**.

ALFALFA SPROUTS

CLOVER SPROUTS

MUNG BEAN SPROUTS

SPROUTS

Sprouts are considered by many to be a “super-food” because they have such high levels of protein, vitamins, minerals, antioxidants, and fiber. They are quick and easy to grow year-round in your kitchen, no grow lights required. Sprouts can be enjoyed raw in sandwiches, salads, or as a snack, but they also make a great addition to homemade soups. Our top-quality sprout seeds have a high rate of germination and have been tested to be free of human or plant-based pathogens. All the seeds that we sell for sprouting are USDA organic and are packaged in resealable pouches for storing

Note: When growing sprouts, it is important to only use seeds that have been specifically prepared for sprouting. To ensure safety for eating, you should not use ordinary garden seeds for sprouting.

Alfalfa Sprouts

12111 Organic seed: 3 oz. \$6.15; 6 oz. \$8.50.

Bean Mix Sprouts

Contains adzuki, mung, and green lentils.

12123 Organic seed: 3 oz. \$5.75; 6 oz. \$6.75.

Broccoli Sprouts

12113 Organic seed: 3 oz. \$9.35; 6 oz. \$14.35.

Clover Sprouts

12115 Organic seed: 3 oz. \$5.60; 6 oz. \$6.75.

Crispy Salad Mix Sprouts

Contains green pea, green lentils, and red lentils.

12125 Organic seed: 3 oz. \$4.75; 6 oz. \$6.00.

Mung Bean Sprouts

12117 Organic seed: 3 oz. \$5.60; 6 oz. \$6.25.

Spicy Mix Sprouts

Contains clover and radish.

12121 Organic seed: 3 oz. \$5.65; 6 oz. \$7.35.

Sunflower Sprouts

12184 Organic seed: 3 oz. \$5.65; 6 oz. \$7.35.

Wheat Sprouts

12119 Organic seed: 3 oz. \$4.35; 6 oz. \$5.75.

BROCCOLI SPROUTS

Four Tray Sprouter

This 4-tray seed sprouter produces nutritious sprouts in just 3-5 days. Simply spread the seeds in each tray and pour water in the top tray. As the water slowly siphons through to the trays below, the seeds are gently soaked to start the germination process. The four 6" diameter trays are made of BPA free plastic that is dishwasher safe and easy to clean by hand.

41159 Four Tray Sprouter \$18.95

Sprouting Mason Jar Lid

This sprouting lid fits most wide mouth mason jars. Made of a durable food-grade plastic with mesh holes big enough to drain, but small enough to hold tiny seeds, like alfalfa. Order multiple sprout lids and rotate your crops every 3-4 days to make sure that you always have a steady supply of your favorite sprouts. BPA free and dishwasher safe.

41158 Sprouting Mason Jar Lid \$5.95; 2@ \$5.50 ea.

ASSORTED GREENS

Growing Tips: Greens are easy to direct sow and are adaptable to many growing situations, including gardens, raised beds, and containers. Seeds germinate best between 60-80°F. Plant seeds at a depth of ¼-½". Start a mix of different varieties every two weeks to have a succession of fresh greens all season long. Harvest at the baby leaf or full leaf stage and choose varieties with different colors, textures, and flavors to create unique mixes.

ARUGULA

Astro ●●

24-38 Days. Gardeners prefer Astro for its lobed leaf type and its high yields of whole leaf arugula. Slow bolting vigorous plants may be cut at the baby or mature stage. Distinctly nutty flavor and attractive medium green color.

01935 Treated seed: 1 oz. \$7.83; ¼ lb \$28.29.

01935 Organic seed: 250 sds \$4.78; 1M sds \$9.20.

Uber Organic ●

40 Days. Dark green arugula with a uniform refined serrated leaf and strong rocket flavor. With an upright habit, thick leaf, and stable quality, Uber is easy to harvest. Harvest at 21 days for baby leaf or 40 days for full size.

13258 Organic seed: 250 sds \$3.71; 1M sds \$6.75.

COLLARDS

Flash F1 ●

75 Days. This hybrid collard is slow to bolt, has good uniformity, and fast re-growth allowing for heavy repeat harvests. The dark green leaves are smooth and broad.

00390 Untreated seed: 250 sds \$9.56; 1 oz. \$47.35.

Top Bunch 2.0 F1

70 Days. This early maturing hybrid has wavy, lightly savoyed blue-green leaves that re-grow quickly after harvest. Upright plants are slow to bolt and are a top choice for fresh eating.

12780 Untreated seed: 250 sds \$10.17;
1 oz. \$44.56.

CHICORY

Escarole Eliance Organic ●

50 Days. Dark green smooth leaves fill out tight heads that are upright and heat tolerant. Try covering with blanching caps the week before harvest for the best internal color and sweetness.

12951 Organic seed: 50 sds \$1.94; 250 sds \$7.02.

Endive Benefine Organic ●

48 Days. This heat-tolerant frisée endive is suitable for growing in spring, summer, and fall plantings. Its compact, upright, tightly filled heads are strong against bolting and tipburn and have attractive shiny dark green exterior and well-blanching interior leaves. With high yields of nicely frilled leaves and proven adaptability, Benefine is an excellent choice for any region.

12950 Organic seed: 50 sds \$1.56; 250 sds \$6.62.

Radicchio Fiero F1 Organic ●

66 Days. A great fresh market vegetable, Fiero is an upright, elongated variety that is suitable for all growing seasons. It has excellent eye appeal with its vibrant, deeply ribbed purple and white veined leaves. Early maturity, Treviso type.

12546 Organic seed: 50 sds \$10.10; 250 sds \$32.30.

Radicchio Leonardo F1 Organic ●

81 Days. Later maturing than other varieties but extremely vigorous. Good for fall production and resistant to bolting. The round, dark red heads will become more vibrant and flavorful when maturing in cooler temperatures. An alternative to red cabbage, radicchio offers an unforgettable tender, crisp leaf for a perfect addition to any salad or slaw.

12547 Organic seed: 50 sds \$9.54; 250 sds \$29.94.

GREENS - BRIGHT AND SPICY MIX

GREENS - HARRIS' MESCLUN MIX

KOHLRABI - KOLIBRI F1 ORGANIC

KOHLRABI - KONAN F1

GREENS MIXES

Bright and Spicy Mix

This colorful mix includes pak choi, tatsoi, mizuna, and mustard in a spectrum of colors; golden yellow, red, purple, light and dark green. The well-balanced formulated blend provides a full range of leaf types, textures, and flavors for an exceptional greens mix.

13119 Untreated seed: 1 oz. \$16.73; ¼ lb \$45.93.

Harris' Mesclun Mix

Our mix has been carefully selected to give you a wonderful collection of color, texture and flavor. The mix includes eight different varieties of green and red lettuce, mustards, kale, mizuna and spinach. 30,000 seeds/oz.

00595 Untreated seed: 250 sds \$3.63; 1oz 27.63; ¼ lb \$59.37.

KOHLRABI

Harvest kohlrabi before the bulbs split for the best flavor and texture, as overgrown kohlrabi can become woody. Try cutting bulbs into sticks for dipping in hummus or sauces, or add shredded kohlrabi to salads and slaws.

Kolibri F1 Organic

48 Days. Striking purple bulbs have white interiors with sweet mild flavor. Start harvesting at the 3" stage. Excellent field holding ability allows for longer harvests of large bulbs with high interior quality.

12381 Organic seed: 50 sds \$7.05; 250 sds \$16.49.

Konan F1

49 Days. An early-maturing, All-America Selections winner that is a top performer. Konan produces an upright plant with smooth bulbs that have excellent texture and flavor.

12631 Treated seed: 50 sds \$7.13; 1M sds \$44.00.

12631 Untreated seed: 50 sds \$7.13;

1M sds \$44.00.

MUSTARD

Miz America F1

25 Days. This red mizuna-mustard hybrid has exceptional leaf color, shape, and size with a mild peppery flavor. Great for baby leaf, and mature leaf harvests, the deep red color is maintained throughout maturity on both sides of the leaf. Makes an excellent garnish.

12492 Untreated seed: 50 sds \$2.18;

1M sds \$5.37.

Tasty Mustard Mix

A formulated mix of five different mustard varieties including light and dark green, red, and purple leaves. Leaf shapes vary from broad serrated to deeply frilled types, giving this flavorful mix a beautiful contrast of colors and textures.

13121 Untreated seed: 1 oz. \$16.90, ¼ lb \$46.63.

PAK CHOI

Bopack F1 Organic

45 Days. Flexible for baby Pak Choi as well as full size heads, Bopack matures earlier than other varieties and offers a compact upright habit. The tender leaves and crisp sweet stalks are excellent for cooking or eating raw. A strong performer for all seasons, Bopack holds quality and flavor even in summer heat.

13005 Organic seed: 50 sds \$4.14; 250 sds \$6.86.

Joi Choi F1

24-45 Days. A hybrid Pak Choi with attractive spoon-shaped stalks, ivory white stems, and dark green leaves. Harvest at 25 days for baby greens and 45 days for full size. Compact plants hold well in the garden with tolerance to both bolting and cool temperatures.

00260 Treated seed: 50 sds \$4.53; 1M sds \$11.37.

00260 Untreated seed: 50 sds \$4.53;

1M sds \$11.37.

SNOWY ORGANIC

EGGPLANT

Growing Tips: Sow seeds indoors 8-10 weeks prior to transplanting. Like tomatoes and peppers, seed germinates best at a soil temperature between 75-85°F, which can be maintained most easily using a heat mat. Make sure that seedlings get plenty of direct sunlight, or use supplemental lighting to ensure healthy transplants. Plant transplants 18-24" apart and apply fertilizer and even watering to ensure strong fruit set. Plastic mulch and continuous harvesting will help to produce high yields.

ORGANIC

GAUDI F1

ORGANIC

LISTADA DE GANDIA ORGANIC

Classic F1 ●

76 Days. If you prefer a standard teardrop-shaped eggplant, we recommend Classic. The tapered shape is uniform in all sizes and its color is a rich, deep purple-black. The vigorous plants stand up to stress better than most.

00465 Treated seed: 50 sds \$9.83; 500 sds \$19.90.

00465 Untreated seed: 50 sds \$9.83; 500 sds \$19.90.

Fairy Tale F1

50 Days. This All-America Selections winner has a compact plant perfect for containers or small-space gardens. The productive semi-spineless plants set clusters of small white fruit with violet stripes. Harvest the tender, non-bitter fruit at 1-2" long for baby size or 2-6" for full size.

00470 Untreated seed: 500 sds \$63.91;

1M sds \$119.52.

Gaudi F1 ●

80 Days. Long oval purple-black fruit are firm and set on strong upright plants. The bright green calyx is spineless for easy harvest, and the dark black color has impressive holding ability through and after harvest.

13151 Treated seed: 50 sds \$13.67; 500 sds \$53.88.

13151 Organic seed: 50 sds \$24.95;

500 sds \$94.95.

Listada de Gandia Organic ●

80 Days. Striking elliptical egg-shaped fruits are 5-6" long with white and purple stripes. Favored for its excellent flavor, tender texture, and very thin skin that does not require peeling.

12376 Organic seed: 50 sds \$3.27; 250 sds \$7.76.

Little Fingers Organic ●

68 Days. Straight fruits are 4-5" long by 1-2" wide, set in clusters of 3-6. The creamy white interior offers a smooth taste and few seeds. Tender, thin skins do not require peeling or salting before cooking. Grill whole.

00460 Organic seed: 50 sds \$4.32; 500 sds \$15.41.

Patio Baby F1

45 Days. This high yielding, compact AAS Winner produces mini eggplants very early and continues throughout the season. Patio Baby is a great choice for containers!

22895 Untreated seed: 50 sds \$21.05;

500 sds \$58.62.

Shikou F1

75 Days. Shikou is a long Asian-type eggplant with dark glossy fruit that have a purple semi-spineless calyx (stem), few seeds, thin tender skin, and a very white interior. Fruit are easy to prepare—just slice and sauté or stir-fry, no peeling or salting required.

12183 Untreated seed: 50 sds \$8.39; 500 sds \$24.04.

Snowy Organic ●

65 Days. This ivory-white Italian type eggplant reaches 7" long and has excellent flavor and firm fruit. Performs well in-ground and in containers.

11466 Organic seed: 50 sds \$5.50; 500 sds \$16.72.

BLACK MAGIC

ORGANIC

DAZZLING BLUE ORGANIC

ORGANIC

LACINATO ORGANIC

RAINBOW CANDY CRUSH F1

KALE

Growing Tips: Kale is one of the easiest and most rewarding greens to grow, thriving in cool seasons and rich, well-drained soil. For best results, sow seeds in early spring or late summer, spacing plants about 12–18 inches apart to encourage full, leafy growth. Keep the soil consistently moist and add a layer of compost or balanced organic fertilizer to support nutrient-dense leaves. Kale loves sunlight but can tolerate partial shade, especially in warmer climates. Harvest outer leaves regularly to promote fresh growth and let a few plants overwinter—cool temperatures actually sweeten the flavor, giving you crisp, delicious leaves well into the fall and even early winter.

Black Magic ●

60 Days. Tuscan/Lacinato. Deep green, almost black color and exceptionally sweet rich flavor set this outstanding Lacinato type apart from others. The gorgeous, narrow strappy leaves are deeply puckered and the upright plants are easy to harvest, offering improved bolt tolerance, uniformity, and winter hardiness.

11430 Untreated seed: 1M sds \$6.26.

Dazzling Blue Organic ●

60 Days. Tuscan/Lacinato. This striking blue kale offers vivid color in both the leaves and pink mid-rib veins. More winter hardy than regular lacinato, this variety will extend your season well into winter.

12725 Organic seed: 50 sds \$2.37; 250 sds \$4.01.

Lacinato Organic ●

60 Days. Tuscan/Lacinato. These 10"L x 3"W wrinkled, dark blue-green leaves are a must for salads, smoothies, and soups. Tender leaves are great for cutting at the baby leaf stage. Extremely cold tolerant, a frost will sweeten the taste. Lacinato is also an outstanding variety to plant as an ornamental for large garden bed or landscape displays.

00052 Organic seed: 50 sds \$3.81; 250 sds \$5.70.

Rainbow Candy Crush F1

55 Days. Pink Curl. A vibrant pink kale with bright green edges and an upright growth habit. Rainbow Candy Crush has a mildly sweet flavor and thick tender leaves, excellent for kale chips. Color varies with temperature from pink to magenta to purple, beautiful for ornamental use.

13152 Untreated seed: 50 sds \$18.15;

250 sds \$76.23.

Redbor F1

55 Days. Red Curl. This curly kale has eye-catching red and purple color, perfect for salad mixes and edible garnishes. Plants grow up to 24" tall and have an upright uniform habit. Continuously cut for yields all season.

01501 Untreated seed: 50 sds \$7.16;

250 sds \$21.27.

Red Russian ●

50 Days. Russian. Well-known and sought after by home cooks and chefs, Red Russian is a staple kale variety. Its broad flat green leaves are defined by rosy red veins and have gently serrated edges. Cut Red Russian at baby leaf size or harvest mature leaves. 9,000 seeds/oz.

00488 Untreated seed: 100 sds \$2.30; 1 oz. \$3.93.

00488 Organic seed: 1 oz. \$12.87; ¼ lb \$37.50.

Vates ●

55 Days. Green Curl. A very uniform selection for finely curled vigorous leaves with lush, blue-green color. If protected, the 15" plants overwinter well and are sweetened by cool temperatures. 8,500 seeds/oz.

00487 Treated seed: 1100 sds \$2.45; 1 oz. \$7.92.

00487 Untreated seed: 100 sds \$2.45; 1 oz. \$7.92.

ANNUAL HERBS

Basil Everleaf Emerald Towers

Impressive columnar plants reach 2-3' tall and are highly branched with short internodes. Plants flower up to 12 weeks later than standard basil, yielding high harvest potential of dark glossy foliage with traditional Genovese flavor. Suited for container and in-ground growing.

63585 Untreated seed: 250 sds \$12.64; 1M sds \$24.90.

Basil Everleaf Lemon

Upright plants have short internodes and a large volume of bright, lemon-flavored leaves. The vigorous plants will flower 6-8 weeks later than other lemon basil on the market. An excellent choice for both in ground and container plantings.

13425 Untreated seed: 50 sds \$4.58; 250 sds \$10.79.

Basil Italian Large Leaf

The slow bolting well-branched plants grow 12-18" tall with a 24" spread. The broad dark green glossy leaves are 2-4" wide and are very aromatic. As one of the highest yielders, Italian Large Leaf is an excellent candidate for container growing.

11937 Untreated seed: 100 sds \$4.03; 250 sds \$6.65.

Everleaf Thai Towers

Upright columnar plants reach 2-3' tall with medium green licorice-flavored leaves and soft purple stems. Well-branched plants have short internodes, handle cutting well, and flower 10-12 weeks later than other Thai basil for exceptional harvest potential. Excellent flavor for cooking and a stunning ornamental.

13426 Untreated seed: 50 sds \$4.45; 250 sds \$10.53.

Basil Prospera® Premium F1 Organic

A beautiful plant habit with bolt resistance, Prospera Premium provides long lasting production of aromatic Genovese basil. High resistance to Downy Mildew. Intermediate resistance to Fusarium.

12822 Organic seed: 50 sds \$3.13; 250 sds \$5.11.

Basil Purple Ruffles

This ornamental variety produces fragrant ruffled deep-purple leaves and light pink flowers. The vigorous well-branched plants are 18-24" tall. Perfect for adding a different color to pesto, salads and vinegars! P.V.P.

315,000 seeds/oz. 01933 Untreated seed: 100 sds \$4.22; ¼ oz. \$40.58.

Cilantro Santo

Fast growing yet remarkably slow bolting, Santo produces strong 1-2' tall stems. The broad celery-like leaves are deep green with strong flavor. 1,900 seeds/oz.

00954 Treated seed: 1100 sds \$2.74; 1 oz. \$4.62.

00954 Untreated seed: 100 sds \$2.74; 1 oz. \$4.62.

00954 Organic seed: 50 sds \$3.99; 250 sds \$6.36.

Dill Bouquet

Very vigorous and easy to grow with strong flavor. Plants reach 3-4' tall with feathery green leaves and greenish yellow flowers excellent for flavoring and pickling. 21,000 seeds/oz.

00459 Treated seed: 100 sds \$2.00; 1 oz. \$4.83.

Dill Fernleaf

The dwarf 18" plants are excellent for growing in containers and slow to bolt. The delicate blue-green foliage makes it perfect for baby dill. 12,000 seeds/oz.

01939 Untreated seed: 1100 sds \$5.29; 250 sds \$7.10.

MUIR MTO ORGANIC

LETTUCE

Growing Tips: Lettuce is adaptable to many growing situations, including raised beds and containers. It is easy to direct sow, or can be started indoors as transplants. Seeds germinate best between 60-80°F. Plant seeds 1/4-1/2" deep and thin after germination, allowing 4-8" between leaf lettuce plants and 8-12" between head lettuce plants. Start a mix of different varieties every two weeks to enjoy a succession of fresh lettuce all season long. Use row covers for protection against frost, wind damage, and insects (**see page 99**). 33,000 untreated seeds/oz. 1,000 pelleted untreated seeds/oz.

MIXES

Colored Romaine Blend

This specialty blend combines three different colored Romaine types to be used for growing baby leaf lettuce. Colors included in this blend are red, green with red speckles, and solid green.

11504 Untreated seed: 250 sds \$4.10; 1/2 oz. \$11.31.

Harris' Lettuce Blend ●

With its stunning mix of color, shape and leaf textures, this formulated blend of six lettuce varieties is certain to liven up any salad. Harvest when leaves reach 4-6" in height. Cut the young plants about 1/2" above the soil and they will regrow for a later harvest. Mix includes: Cimmaron, Red Salad Bowl, Tango, Black Seeded Simpson, Green Salad Bowl, and Royal Oakleaf.

11525 Untreated seed: 250 sds \$3.69; 1 oz. \$13.92.

Heirloom Cutting Blend Organic ●

A well balanced formulation of green, red and speckled loose leaf, green butterhead, and red romaine lettuces. Sow close and cut early for baby leaf, or give more space and time for larger leaves.

12395 Organic seed: 50 sds \$2.03; 250 sds \$3.81.

BATAVIA/SUMMER CRISP

Muir MTO Organic ●

50 Days. The sweet crispy light green leaves of this slow growing variety are upright and form a well filled heart. Plants are strong against bolting and tip burn with strong disease resistance.

12393 Organic seed: 50 sds \$3.66; 250 sds \$6.54.

12393 Pelleted Organic seed: 50 sds \$3.79;

250 sds \$6.61.

QUICK & EASY SALAD MIXES

Multi-Seed Pellets: An easy and efficient way to start mixed salad containers. Each SimplySalad pellet contains multiple seeds and will produce 3 or more seedlings. For best results, evenly space 4-5 pellets in a 10-12" diameter container. Choose from three mixes:

68 Days. Harmony is a remarkably uniform butterhead that has excellent internal quality, tender texture and sweet flavor. It produces large heads with rich deep green color and smooth glossy leaves. Pelleted seed only.

00526 Pelleted Untreated seed: 100 sds \$3.95; 250 sds \$4.45.

Marciano MTO Organic

50 Days. A compact variety with smooth leaves showcasing deep burgundy color and fresh bright green, well filled interiors. Sweet tender leaves and short cores made Marciano a trial favorite. Tolerant to tip burn and slow to bolt.

12952 Organic seed: 50 sds \$2.66; 250 sds \$4.36.

HEAD

Meridian

75 Days. Meridian forms well-filled uniform heads with good weight. The heads have a nice shape, short core, and are easy to cut and clean. Plants are compact, resist bolting, and carry strong disease resistance.

13267 Untreated seed: 250 sds \$3.28; 1M sds \$7.36.

LEAF

Green Salad Bowl *Green Leaf*

48 Days. Each plant makes a decorative rosette of wavy notched leaves. It stays in prime condition all season long—always tender, sweet and delicious.

00540 Untreated seed: 250 sds \$4.94; 1/2 oz. \$6.51.

New Red Fire MTO *Red Leaf*

45 Days. Compact dense plants produce highly attractive, deep red leaf lettuce. Slow bolting and tolerant to heat and cold. Great for spring and early summer use in temperate areas and early summer to fall in cooler regions.

00512 Untreated seed: 250 sds \$3.21; 1M sds \$7.95.

00512 Pelleted Untreated seed: 100 sds \$3.00; 250 sds \$5.59.

ROMAINE

Jara MTO Organic

55 Days. A standout in our trials, Jara was bred to perform in adverse conditions. This green romaine produces beautiful dense hearts, is slow to bolt in the summer heat, and is protected by a robust disease package. Mosaic tested.

12839 Organic seed: 50 sds \$2.87; 250 sds \$3.71.

Pomegranate Crunch MTO Organic

50 Days. This lettuce has an open habit and smooth butterhead-like leaves of deep intense red on the outside and red to green inside. A unique color combination for salad mix, hearts or plating. Strong disease resistance and garden performance make it a favorite to grow.

12397 Organic seed: 50 sds \$3.22; 250 sds \$5.82.

12397 Pelleted Organic seed: 50 sds \$4.55; 250 sds \$6.79.

SOLSTICE F₁

MELONS

Growing Tips: Start melons indoors 12-15 days before transplanting into the garden, or direct sow at a depth of 3/4" in 80°F soil. Seed will germinate after 6-8 days. Even soil moisture is critical for successful germination and growth, do not overwater or allow to dry out. Plant transplants 18-24" apart, with 6-8' between rows.

Ambrosia F₁

86 Days. A winner in taste tests, Ambrosia is recognized as one of the best tasting melons in the East. Its 4 to 4 1/2 lb., round fruit has a tan color with peach-colored flesh that has a wonderful sweet flavor. The fruit's small seed cavities leave more room for the flavorful flesh.

00567 Treated seed: 25 sds \$5.85; 250 sds \$28.67.

Athena F₁

75 Days. Athena is the most widely used melon in the Eastern U.S. for its holding ability both on the shelf and for shipping. The 5-7 lb. melons have light ribs, medium netting, and tend to stay firm even when harvested at full slip. This variety does not trade flavor for firmness..

11219 Untreated seed: 25 sds \$9.71;

250 sds \$39.23.

Earli Dew F₁

80 Days. When ripe, the flesh is a distinct lime green color, and the fruit slips from the vine like a muskmelon. Averaging 2 1/2-3 lbs., this succulent melon is ideal for home gardens.

00564 Treated seed: 25 sds \$7.01; 250 sds \$36.47.

Melonade F₁

70 Days. This unique melon has a distinct lemon-lime flavor with standard cantaloupe flesh color and texture. Delicious on its own or in culinary creations, Melonade is a repeat favorite in our taste tests. The 4-5 lb. oval fruit have pronounced sutures and medium netting and are ready to cut from the vine when they become pale green to yellow and the nearest tendril has dried.

13242 Untreated seed: 25 sds \$14.01;

250 sds \$78.98.

Solstice F₁

76 Days. Solstice produces huge 7-9 lb. fruit that have deep ribs and heavy, ropey netting. Its thick flesh is very sweet, and there will be plenty to go around when you slice open one of these impressive fruits.

11216 Treated seed: 25 sds \$9.53; 250 sds \$38.61.

Sugar Cube F₁

81 Days. Sugar Cube is a personal-sized 2 lb. melon that is small in size, but big on taste. Its deep orange colored flesh has superb eating quality and incredible sweetness.

11575 Treated seed: 25 sds \$7.66; 250 sds \$33.32.

11575 Untreated seed: 25 sds \$7.66;

250 sds \$33.32.

Tweety F₁

70 Days. A large bright yellow Canary melon weighing 4-6 lbs. Tweety has pale ivory-green flesh that is mild, sweet, and aromatic.

12989 Treated seed: 25 sds \$7.19; 250 sds \$29.36.

OKRA

Clemson Spineless

55 Days. Tall plants produce high quality, dark green, slightly grooved, spineless pods. Harvest young at 2 1/2-3" long. Pods are excellent in soups, stews and relishes. 500 seeds/oz.

00599 Untreated seed: 50 sds \$2.09; 1 oz. \$4.12.

Jambalaya 2.0

50 Days. An early maturing okra variety that offers high yields of very uniform, shiny, dark green pods set from showy ornamental flowers.

12477 Untreated seed: 50 sds \$7.10;

250 sds \$16.13.

PARSNIP

Javelin F₁

110 Days. The most successful hybrid parsnip on the market, Javelin produces a slender wedge shaped root with shallow crowns. Suitable for sowing from December through May, offering potential for a nearly continuous harvest. Excellent canker resistance and field holding ability.

12810 Untreated seed: 250 sds \$5.25; 1M sds \$12.58.

PEAS

Growing Tips: Plant peas as soon as you can work the ground in early spring after your last frost. Sow at 1" depth and 1-3" spacing. If temperatures average around 60-65°F, seeds will germinate in one week. Some varieties will need trellising; smaller bush varieties do not require trellising unless desired. Harvest Snap and Shelling peas when pods are large and rounded. Leave in shell until just before cooking to preserve sweetness. Snow peas should be picked when pods are still flat for best tenderness and sweetness.

COWPEA

Phenomenal

65 Days. (24") A showy variety that sets long yellow pods with red stems on bright green plants. Pods hold an average of 12 peas each, which are higher in amino acids and antioxidants than many other cowpea varieties. Seeds are cream colored and spotted with black and dark brown coloration.

12787 Treated seed: 250 sds \$4.63; ½ lb \$10.34.

SHELLING PEAS

Lincoln ●

67 Days. (28-30") Lincoln has exceptional tenderness and sweetness, both fresh and frozen. The vines do not require trellising.

00168 Treated seed: 100 sds \$3.04; ½ lb \$7.10.

00168 Untreated seed: 100 sds \$3.04; ½ lb \$7.10.

Little Marvel

67 Days. (18-20") These prolific dwarf vines offer dependable, early yields. Abundant, three-inched, blunt tipped pods are filled with five to six plump berries of unusually fine sweetness and flavor when picked young. Little Marvel develops its seeds quickly and needs no trellis.

00170 Treated seed: 100 sds \$3.16; ½ lb \$5.79.

SNAP PEAS

SS 141 Sugar Snap Organic ●

55 Days. (35") A vigorous, widely adapted variety that is good for early or late season production. Cooler temperatures will produce a sweeter flavor. Jumbo pods are plump with outstanding flavor.

12727 Organic seed: 50 sds \$2.23; 250 sds \$5.13.

Sugar Sprint

62 Days. (26") Sugar Sprint is a short-vined snap pea. This variety produces excellent early yields of edible, stringless pods that are very sweet and tender. The 3" pods can be enjoyed fresh off the vine, steamed or used in stir-fry.

00195 Cruiser Treated seed: 100 sds \$3.27;

1M sds \$8.70.

00195 Untreated seed: 100 sds \$3.27; 1M sds \$8.70.

Super Sugar Snap ●

66 Days. (4-5") High quality dark green pods reach 3" and are very tender. This highly disease-resistant snap pea is enjoyed raw, cooked or stir-fried. Trellising required.

00189 Cruiser Treated seed: 100 sds \$3.21;

1M sds \$8.51.

00189 Untreated seed: 100 sds \$3.21; 1M sds \$8.51.

SNOW PEAS

Norli Organic ●

48 Days. A compact plant that produces stringless 2½" pods. One of the most tender snow peas you will expose your taste buds to. Eat fresh right off the plant. Great for salads or sautéed.

12552 Organic seed: 50 sds \$3.46; 250 sds \$4.83.

Oregon Sugar Pod #2 ●

65 Days. (24-28") Pick the large flat pods before the peas fully develop for a delicious treat, whether steamed, fresh in salads, or stir-fried. The vines are vigorous and produce continuous yields.

00153 Cruiser Treated seed: 100 sds \$2.26;

½ lb \$7.53.

00153 Untreated seed: 100 sds \$2.26; ½ lb \$7.53.

CALWONDER

LADY BELL F1

PURPLE BEAUTY

EARLY SUNSTATION F1

NEW ACE F1

REVOLUTION F1

PEPPERS

Growing Tips: Sow seeds indoors 8-10 weeks prior to transplanting. Seed germinates best at a soil temperature between 75-85°F, which can be maintained most easily using a heat mat. Make sure that seedlings get plenty of direct sunlight, or use supplemental lighting. For space saving, peppers can be planted close together, 14-16", and still produce great yields. Provide fertilizer and even watering to ensure strong fruit set. As peppers mature, they change from green to their mature color. They are edible at all stages of ripeness, but are sweetest when fully mature.

SWEET BELL

Calwonder

72 Days. A standard for open-pollinated bell peppers, Calwonder may not yield like a hybrid, but its fruit are thick-fleshed, dark green, and blocky. Calwonder is best suited for areas with warm nights and a long growing season. Peppers mature to deep red.

00656 Untreated seed: 50 sds \$7.91; 250 sds \$19.95

Early Sunstation F1

70 Days. Yields blocky fruit that are crisp and delicious in the green stage and ripen to a beautiful golden-yellow with a sweet taste.

00664 Treated seed: 50 sds \$14.30; 250 sds \$48.83.

Jupiter

75 Days. Known for its jumbo size, this 4-lobed open pollinated sweet pepper ripens green to red and has nice thick walls that stand up to stuffing or freezing. High resistance to TMV.

00653 Untreated seed: 50 sds \$6.89; 250 sds \$10.89.

King of the North Organic

70 Days. Introduced in the 1933 Joseph Harris Seed Catalog. Trials have shown comparable yields to hybrids! Sturdy plants produce early, heavy yields of blocky, thick walled, 3-4 lobed fruit. Crisp sweet flesh is delicious for fresh salads or cooking.

12411 Organic seed: 50 sds \$5.19; 250 sds \$16.46.

Lady Bell F1

71 Days. These peppers are best for stuffing and freezing and have a delicious sweet flavor. Ripens from rich green to a bright attractive red.

00673 Treated seed: 50 sds \$14.45; 250 sds \$40.98.

00673 Untreated seed: 50 sds \$14.45; 250 sds \$40.98.

New Ace F1

65 Days. Early ripening fruit have 3-4 lobes and medium-thick walls that are sweet and tender.

01648 Treated seed: 50 sds \$7.79; 250 sds \$23.95.

Purple Beauty

75 Days. This productive open-pollinated variety yields an abundance of sweet deep purple 3"W x 3"L blocky fruit. Mature color is a deep red that develops very late. Purple Beauty's unusually bright color makes a nice addition to fresh summer salads!

00662 Untreated seed: 50 sds \$4.36; 250 sds \$7.74.

Revolution F1

72 Days. Large blocky fruit with extra thick walls ripen from dark green to red. Revolution is perfect for stuffing, roasting, freezing, and in fresh salads.

01667 Treated seed: 50 sds \$18.16; 100 sds \$27.54.

01667 Untreated seed: 50 sds \$18.16; 100 sds \$27.54.

01667 Pelleted Treated seed: 50 sds \$18.54; 250 sds \$63.26.

JUPITER

KING OF THE NORTH ORGANIC

CANDY CANE RED F1

SWEET SPECIALTY

Candy Cane Red F1

65 Days. Eye-catching, variegated foliage and fruit that ripen from green striped to solid red make this pepper very unique. The medium sized plants produce high yields of cone shaped fruits that are 1¼"W x 3¾"L. The sweet flavor, thin walls, and crisp texture make this pepper perfect for fresh eating at any stage of ripeness.

23432 Untreated seed: 50 sds \$15.78;
250 sds \$51.52.

Giant Marconi F1

63 Days. An Italian fryer type pepper that has a wonderful sweet taste when it matures to red. The 3"W x 8"L fruit taper slightly, mature early and are great for roasting or grilling.
01658 Treated seed: 50 sds \$9.42; 250 sds \$32.90.

Hamik F1 ●

73 Days. Nearly seedless fruit have exceptional sweetness, ripen from light green to a brilliant orange, and are produced on compact, sturdy plants. The cone-shaped fruit measure 2-1/2" long by 1-1/4" wide, and have a crisp, juicy flesh.
11922 Untreated seed: 50 sds \$5.90;
250 sds \$19.95.

Mad Hatter F1

75 Days. These unique peppers have a refreshing citrus-floral flavor that remains sweet, only occasionally expressing mild heat near the seeds.
12490 Untreated seed: 10 sds \$7.89; 50 sds \$17.12.

GHOST PEPPER MULTI-COLOR

HUNGARIAN WAX

SPECIALTY

Carolina Reaper ●

110 Days. The Guinness Record holder for hottest pepper in the world, Carolina Reaper averages 1.5 million and peaks at 2.2 million Scoville units. Ripening to a deep red color, the fruit have a bumpy surface and average 1.5" W x 2"L. **Please note: This pepper is extremely hot! Handle seed and fruit very carefully!**

12980 Untreated seed: 50 sds \$18.15;

250 sds \$63.43.

Chile G76 F1 Anaheim pepper

72 Days. Chile G76 produces medium-thick fleshed fruit that have mild heat and a rich satisfying chile flavor. Its uniform 2"W x 8"L fruit ripen from bright green to red. **11653 Treated seed: 50 sds \$18.23; 250 sds \$55.86.**

Chocolate Habanero

95 Days. The favored Habanero in the Caribbean for making barbeque sauces and marinades. Chocolate Habanero has a unique rich flavor and can be dried and smoked. The 14 to 18" tall plants produce big yields of green fruit that ripen to a chocolate color and measure 2" long x 1-1/2" wide. The fruit are thin-walled and their Scoville heat rating is 100,000 - 350,000.

11211 Untreated seed: 50 sds \$2.70; 250 sds \$4.96

Ghost Pepper Multi-Color (Bhut Jolokia)

95 Days. Ghost Pepper, also known as Bhut Jolokia, is a legendary pepper considered one of the world's hottest peppers. The thin-walled, wrinkled, pointed fruit are 3-3 1/2" in length, ripening to variations of red, peach, and yellow. **Please note: This pepper is extremely hot! Handle seed and fruit very carefully!**

11443 Untreated seed: 50 sds \$6.03; 1/4 oz. \$44.70.

Habanero Orange

90 Days. The productive plants support large numbers of thin-fleshed, wrinkled fruit that turn from light green to golden orange at maturity. These peppers are approximately 1 1/2"W x 2"L and are used both fresh or dried. The citrus flavors are great for hot sauces.

00665 Untreated seed: 50 sds \$3.67; 250 sds \$10.39.

Hungarian Wax

60 Days. This early, prolific hot pepper has bright yellow, waxy fruit that turn red when ripe. The peppers are 5-6" long and great for canning.

00672 Untreated seed: 50 sds \$3.89; 250 sds \$7.74.

Mariachi F1 Santa Fe Grande pepper

85 Days. Mariachi produces unique cone-shaped fruit that ripen from pale cream to creamy orange to orange red at full maturity. The mild 3-4" long fruit are great to use for salsas, sauces, stuffing, or grilling.

11660 Treated seed: 50 sds \$15.02; 250 sds \$52.82.

Takara F1 Shishito pepper

60 Days. A shishito pepper that produces small, finger-sized fruit with a mild but rich flavor. One in every ten peppers may have a little heat. Serve these tasty peppers at your next garden party to see who gets the luck of the draw!

12480 Untreated seed: 50 sds \$13.69;

250 sds \$39.75.

SANCHEZ

BLUE DOLL F1

PUMPKINS

Growing Tips: Pumpkins can be direct sown or started in Jiffy Pots (see page 90). Plant seeds at a depth of 1" in fertile, well drained soil with a minimum temperature of 70°F. To ensure fruit set and yields, allow sufficient space between each plant. Give small pumpkins a 12 ft² area, large pumpkins a 24 ft² area, and jumbo pumpkins at least a 36-48 ft² area per plant.

NOVELTY PUMPKINS

Batwing Mix *Multi-colored*

80 Days. These ½-1 lb. fruit have a novel dipped-in-paint look. Expect a variation of colors, with most being half dark orange and half dark green, while others are completely orange or completely green. 5,000 seeds/lb.
12338 Treated seed: 25 sds \$3.58; 1 oz. \$22.48.

Blaze F1 *Orange and Yellow Striped*

100 Days. This small bright yellow pumpkin has deep-orange stripes along the ribs and strongly attached stems. The flat round fruit have shallow ribbing, average 7" in diameter by 3½" high, and weigh 3 lbs. With sweet edible flesh, Blaze is a great multi-purpose variety. The reduced vines are vigorous and have strong PM resistance.
12970 Treated seed: 25 sds \$17.84; 250 sds \$54.79

Blue Doll F1 *Blue*

110 Days. Blocky, deep ribbed fruit are a blue-gray color. Large vines produce excellent yields of 15-20 lb. fruit that have a sweet, deep orange flesh that are great for pies, soups, and canning.
11476 Treated seed: 25 sds \$21.02; 250 sds \$72.68.

Fairytale *Flat*

125 Days. Fairytale is a delicious French heirloom pumpkin that is perfect for baking pies and cooking soups. The 15 lb. fruit are heavily scalloped or ribbed and mature to an unusual buckskin color. A unique pumpkin for Halloween.
01328 Treated seed: 25 sds \$13.30; 250 sds \$40.30.

Fireball F1 *Orange and Yellow Striped*

110 Days. This striking decorative pumpkin boasts a vibrant orange and yellow striped pattern. The medium 9 lb. fruit have a flattened round shape and strong dark green stem with excellent contrast. As fruit mature, stripes transition from green to orange on an unchanging yellow background.
13035 Treated seed: 25 sds \$16.51; 250 sds \$52.36.

Flat White Boer Ford *White*

115 Days. A unique stacking shape, vigorous vines produce 10-17 lb. fruit that are flat and slightly scalloped. The fruit have a good white color that do not bleach out or yellow over time. Flat White Boer Ford has sweet, bright orange edible flesh and stores well during the winter.
11486 Treated seed: 25 sds \$8.67; 250 sds \$24.98.

Sanchez *Warty*

95 Days. Sanchez pumpkin is a one-of-a-kind pumpkin with it's unique squatty shape and warts. Full vines produce good yields of 3-6 lb. fruit that measure 6-7" wide x 4-5" tall. The bright orange pumpkins have moderate to heavy warting and thin stems.
11489 Treated seed: 25 sds \$9.20; 250 sds \$35.25.

CIDER F₁

JADE KNIGHT F₁

LONG ISLAND CHEESE

HOT CHOCOLATE F₁

JARRAHDALE

MARINA DE CHIOGGIA

Cider F₁ **Tan**

105 Days. Cider has a traditional jack-o-lantern shape with a unique light tan color, perfect for fall decor. The round 18-30 lb. pumpkins have light ribbing and well-attached dark green stems. Full vines are well-adapted to different growing environments and carry intermediate resistance to PM.

13235 Treated seed: 25 sds \$16.95;
250 sds \$52.77.

Hot Chocolate **Tan**

90 Days. A small edible variety with unique caramel-chocolate color, strong stem, and high yields. The 5-8 lb. fruit have smooth skin and light ribbing, and plants carry intermediate resistance to PM.

12971 FarMore Treated seed: 25 sds \$22.78;
250 sds \$76.59.

Jade Knight F₁ **Blue**

90 Days. This blocky oblate squash has moderate ribbing and a unique deep gray-green color. The trailing vines set excellent yields and carry intermediate resistance to PM (race 2) and ZYMV. Perfect for ornamental display or as an edible with thick bright yellow flesh. Pair with other green and white varieties for a different take on monochrome fall decor.

12991 Treated seed: 25 sds \$15.08;
250 sds \$44.53

Jarrahdale **Blue**

100 Days. The 6-10 lb. deeply ribbed fruit are a bluish-gray color and their stringless golden-orange flesh has a nutty and sweet taste when cooked. Jarrahdale stores well for use throughout the winter. 2,200 seeds/lb.

11680 Treated seed: 25 sds \$3.57; 1 oz. \$8.85.
11680 Untreated seed: 25 sds \$3.57; 1 oz. \$8.85.

Long Island Cheese **Tan**

108 Days. This classic heirloom variety has smooth tan skin with medium ribs and a flattened shape that resembles a wheel of cheese. The deep orange flesh is moderately sweet and great for pies. Good for long-term storage.

01699 Treated seed: 25 sds \$4.61; 1 oz. \$10.42.

Marina De Chioggia **Warty**

100 Days. A unique green warted Italian heirloom squash valued for its eating quality, and traditionally used in preparing gnocchi and ravioli. The perfect shape for stacking, this novel ornamental is also long-storing.

12856 Treated seed: 25 sds \$7.15; 1 oz. \$14.73.

Moranga **Pink**

95 Days. These 4-8 lb. squash have a flattened oblate shape with deep ribs and beautiful colors ranging from light pink to salmon. An ingredient in traditional Brazilian cuisine, this heirloom squash is flavorful and stores well.

12982 Untreated seed: 25 sds \$4.67;
250 sds \$14.68.

PUMPKINS CONT.

Dill's Atlantic Giant *Extra large*

125 Days. With normal care, fruit often weigh 200-300 lbs., but the world record is over 2,000 lbs.! They require plenty of space with vines spreading up to 25'. 1,700 seeds/lb. 00689 Treated seed: 10 sds \$6.40; 1 oz. \$19.07.

Moonshine F₁ *White*

100 Days. These very uniform 8-12 lb. fruit have the strongest and darkest colored stem in this class. Moonshine's striking white color, slight ribbing, and smooth skin make it ideal for painting. Intermediate resistance to PM.

12612 Treated seed: 25 sds \$20.17; 250 sds \$58.25.

12612 Untreated seed: 25 sds \$18.62;

250 sds \$55.20

One Too Many *Multi-colored*

110 Days. These white fruit are laced with red veins, resembling a bloodshot eye. Large vines have intermediate resistance to Powdery Mildew and produce 20-25 lb. fruit that vary in shape from round to flattened oblong.

11978 Treated seed: 25 sds \$15.60;

250 sds \$96.65.

Polar Bear F₁ *White*

100 Days. These large to extra-large round, white fruit weigh 30-65 lbs. and have good color retention. They are a beautiful addition to fall displays.

12616 Untreated seed: 25 sds \$18.92;

250 sds \$63.95.

Popcorn F₁ *Warty*

110 Days. A creamy white, heavily warted pumpkin with long dark green stems. The 18 lb. fruit will become a buttery color with time. Handle fruit with care to minimize damage to the warts.

13082 Treated seed: 25 sds \$17.07;

250 sds \$45.47.

Porcelain Doll Improved F₁ *Pink*

110 Days. An improvement on the original Porcelain Doll with deeper and more uniform pink color, Porcelain Doll Improved is a large, blocky, deep-ribbed squash weighing 15-20 lbs. Large vines produce excellent yields and offer intermediate resistance to PM and DM. The bright orange flesh is great for eating.

12962 Treated seed: 25 sds \$23.47; 250 sds \$89.49.

Secretariat F₁ *Large*

105 Days. This thick-stemmed dark orange pumpkin has a slightly flattened shape. The medium-large vines have intermediate resistance to PM and are very productive, bearing multiple fruit per plant.

12628 Treated seed: 25 sds \$17.96; 250 sds \$60.05

12628 Untreated seed: 25 sds \$15.85;

RADISHES

Radishes are one of the first crops to be planted and harvested in the spring. Seeds germinate in 5 days and roots are ready to harvest in 20-60 days. Radishes make a great container crop, requiring only 4-8" of soil depth to grow.

April Cross F1

60 Days. The pure white roots can grow up to 16" long and 2½" in diameter. The roots have a crisp texture and a mild but subtly sweet flavorful taste. April Cross makes a great storage radish.
11700 Treated seed: 250 sds \$15.14; 1M sds \$28.52.

Bluemoon F1

60 Days. A stunning radish with lavender-blue exterior and flesh that adds an unexpected pop of color to salads. A favorite from our trials, the roots are exceptionally tolerant to cracking and pithing, and have uniform conical shape.
12770 Untreated seed: 250 sds \$6.52; 1M sds \$15.44.

Champion

26 Days. Champion stays mild and delicious without a trace of pithiness. Grow extra-early and late plantings for tasty radishes all season long.
00708 Treated seed: 250 sds \$2.43; 1 oz. \$5.87.

Cherriette F1

30 Days. This hybrid radish produces globe shaped, cherry red roots with medium tops. Cherriette produces good yields of uniform, crisp radishes that generally don't get pithy or woody, even in larger sizes. An improved Cherry Belle type.
00702 Untreated seed: 250 sds \$4.79; 5M sds \$17.45.

Cherry Belle

24 Days. Smooth and uniform, Cherry Belle has exceptionally short tops and quickly reaches edible size. The tasty white flesh is crisp and delicious.
00706 Treated seed: 250 sds \$2.35; 1 oz. \$5.53.
00706 Organic seed: 250 sds \$4.26; 1M sds \$9.57.

French Breakfast

25 Days. This distinctively-colored French heirloom has been grown and enjoyed for well over 100 years. Its bright scarlet cylindrical roots are tipped with white and measure about 2" long. Grow some of these delicious radishes for your table.
00704 Treated seed: 250 sds \$2.60; 1 oz. \$4.53.
00704 Organic seed: 250 sds \$5.01; 1M sds \$8.06.

Purpella F1

25 Days. A deep plum-colored radish with a crisp white interior, Purpella is a beautiful addition to the garden. The round roots are uniform in shape and size, with smooth shoulders and low cracking. Well-attached, vigorous, medium tops measure 5-6", and are slow to bolt.
13422 Treated seed: 250 sds \$5.94; 1M sds \$10.09.

Red Satin F1

22 Days. For picture-perfect uniform bright red roots, Red Satin is an outstanding choice. Flesh is pure white, flavorful, and crunchy. Medium-sized tops are well attached for easy harvest.
11702 Treated seed: 250 sds \$6.76; 5M sds \$17.65.
11702 Untreated seed: 250 sds \$6.76; 5M sds \$17.65.

Watermelon

50 Days. This Chinese ball-shaped radish offers a pinkish-red interior color surrounded by a whitish flesh that turns green at the shoulders. Depending on when they are harvested, roots can measure from 2-4" in diameter and have tall tops. The flesh is crisp and mildly sweet. Great in salads!
11498 Untreated seed: 250 sds \$2.81; 1 oz. \$4.83.

SWISS CHARD - BRIGHT LIGHTS

SPINACH

A quick, easy to grow crop that thrives in cool weather, plant spinach in the early spring or late summer/fall. Spinach can be overwintered if protected with row covers or mulch. Spinach also grows well under counter-top grow lights right in your kitchen. Visit our Supplies section, (pages 86-103), to learn more about useful supplies for growing your Spinach plants for fresh greens all year.

Acadia F1 Organic

45 Days. Acadia is a dark green semi-savoyed spinach with medium-sized oval leaves and good texture for baby leaf harvest. Slow growing, tolerant to bolting, and suited for main season growing.

12954 Organic seed: 50 sds \$1.95;

250 sds \$3.64.

Seaside F1

25 Days. An excellent choice for baby leaf, the spade-shaped, dark green leaves are smooth and thick. The upright plants are slow to bolt and have high disease resistance.

12623 Treated seed: 250 sds \$2.10; 1M sds \$4.84.

12623 Untreated seed: 50 sds \$1.91;

250 sds \$2.10.

Space F1 Organic

40 Days. Medium-green leaves are smooth to slightly savoy with an upright habit for easy harvest. Space is well adapted to a range of conditions, resists bolting, and has high disease resistance.

13241 Organic seed: 250 sds \$3.44; 1M sds \$5.72.

SWISS CHARD

Closely related to beets, Swiss chard has edible leaves and stalks rather than roots. It has a milder taste than spinach and does not cook down as much. Swiss chard is also much more tolerant of the summer heat. Plant in well-drained soils ranging from 60-85°F. Even soil moisture is critical for successful germination and growth, do not overwater or allow to dry out. Allow 7-18 days for germination. Plant seeds at a depth of approx. 1/2", and thin to a distance of 3-4".

Bright Lights

55 Days. This AAS winner offers consistent growth rate and excellent quality of lightly savoyed green or bronze leaves with multicolored petioles. Expect variations of red, orange, gold, pink, purple, and white petioles in this eye-catching mix that is suited to harvest at baby leaf and full maturity. Decorticated seeds.

00833 Untreated seed: 100 sds \$3.77;

250 sds \$4.86.

Peppermint

60 Days. A highly ornamental chard that boasts pure white petioles with vibrant pink streaks. Topped by dark green, glossy leaves, plants have a very high resistance to bolting and perform well across multiple seasons.

11163 Untreated seed: 50 sds \$2.39;

250 sds \$3.41.

Rainbow Blend Organic

55 Days. The beautiful mix of red, yellow, orange, pink and white stems have dark green, multi-colored veined savoy leaves which will add depth and texture to your greens mix. This variety can be enjoyed fresh or cooked. Harvest at the baby leaf or full leaf stage.

12382 Organic seed: 50 sds \$3.73;

250 sds \$5.41.

WINTER SQUASH

Growing Tips: Winter Squash can be direct sown or started in Jiffy Pots. Plant seeds at a depth of 1" in fertile, well drained soil with a minimum temperature of 70°F. To ensure fruit sets and yields, allow sufficient space between each plant. Give small vines a 10 ft² area, and large vines a 15 ft² area. For best flavor, be sure to harvest winter squash when they are fully mature.

ACORN

Baked Potatoes F1

90 Days. Tan fruit weighing 1-1½ lbs. are produced on space-saving bush plants. The sweet flesh is off-white in color with a typical acorn texture.
12343 Treated seed: 25 sds \$5.68; 250 sds \$24.45.

Carnival F1

85 Days. Semi-bush plants produce acorn-shaped fruit that bear shades of green, yellow, and orange. The fruit have golden yellow flesh that is delicious. Its great taste improves during storage.
00774 FarMore Treated seed: 250 sds \$24.13.
00774 Treated seed: 25 sds \$5.40; 250 sds \$23.40.
00774 Untreated seed: 25 sds \$5.40; 250 sds \$23.40.

Goldilocks F1

85 Days. This bright orange acorn has a rich nutty flavor great for cooking, but can also double as a decorative squash. The vigorous plants can yield over 10 fruit each and have Powdery Mildew protection.
13288 Untreated seed: 25 sds \$6.94; 250 sds \$22.44.

Mashed Potatoes F1

90 Days. Unique 1-1½ lb. fruit with a white rind and flesh that is nearly white. When baked and seasoned with garlic and butter, the flesh offers the consistency and flavor of mashed potatoes, a perfect addition to low-carbohydrate meals.
12208 Treated seed: 25 sds \$5.38; 250 sds \$18.17.

BUTTERCUP

Buttercup Burgess

100 Days. Excellent for freezing, the flesh is a deep orange color and entirely free from stringiness. Full vines produce numerous uniform fruit with a dark green outer shell. 2,775 seeds/lb.
00773 Treated seed: 25 sds \$4.51; 1 oz. \$5.39.
00773 Untreated seed: 25 sds \$4.51; 1 oz. \$5.39.

DELICATA

Honeyboat Delicata Organic ●

90 Days. Honeyboat Delicata's coppery-tan fruit are very sweet and just the right size for roasting and single servings. The flesh of this unusually colored Delicata is high in Calcium, Potassium, Folate, and Vitamins A & C. A reliable winter storage squash with fruit averaging 1 lb.
12427 Organic seed: 25 sds \$3.26; 250 sds \$12.20.

HUBBARD

Blue Magic F1

100 Days. This small hybrid Blue Hubbard has the same great eating qualities as a normal size hubbard, with its fine-grained, tasty flesh. The 4-6 lb. fruit are produced on semi-vining plants. 2,000 seeds/lb.
11791 Treated seed: 25 sds \$7.07; 1 oz. \$21.86.

SQUASH ALL-SEASON COLLECTION

Help yourself to some of some of our favorite summer and winter squash in a money-saving collection. This combo pack includes one packet (25 seeds) each of **Butterfly** (butternut), **Multipik** (yellow summer), **Royal Ace PM** (acorn), **Vegetable Spaghetti** (spaghetti), and **Zucchini Elite**.
00981 Treated seed \$28.08; Get 2 for \$26.68 ea.

BUTTERBABY

ESSEX F1

HONEYNUT

HAMILTON ORGANIC

WALTHAM BUTTERNUT

BUTTERNUT

Butterbaby

100 Days. A mini butternut with tan skin and sweet dark orange flesh. High yields of 1/2-1 lb. fruits are produced on vines with high resistance to PM. Butterbaby fruit measure 6" L x 4" W, are flavorful and sweet (9-11% Brix), and offer better storability than other mini butternuts. Good heat set. 12687 Treated seed: 25 sds \$4.02; 250 sds \$16.84.

Essex F1

95 Days. The deep orange flesh of this large 3-4 lb. fruit has exceptional butternut flavor and sweetness. With intermediate resistance to PM and the vigor and yield of a hybrid, Essex is a strong performer in all conditions.

12949 Untreated seed: 25 sds \$10.02;

250 sds \$42.71.

Hamilton Organic

95 Days. An open pollinated butternut selected and produced in New England, Hamilton's unique deep orange flesh has exceptional butternut flavor, high sugars and an abundance of flesh. Fruit size averages 2-3 lb. Intermediate resistance to Powdery Mildew.

12828 Organic seed: 25 sds \$7.30; 250 sds \$24.85.

Honeynut

110 Days. This mini personal-size butternut offers distinctive toasty-brown skin color and superbly sweet, nutty, deep-orange flesh. Compact vines have intermediate resistance to Powdery Mildew. The 1-1 1/2 lb. fruit ripen late, so plant as early as possible.

11237 Treated seed: 25 sds \$4.17; 250 sds \$13.57.

11237 Organic seed: 25 sds \$5.37; 250 sds \$15.60.

Waltham Butternut

97 Days. Our most popular winter squash, the fruit are 8-10" long with thick, cylindrical necks and a creamy tan skin. Produced on large vines, these squash are remarkably uniform with thick, meaty necks.

00825 FarMore Treated seed: 250 sds \$9.13.

00825 Treated seed: 25 sds \$2.76; 250 sds \$8.87.

00825 Organic seed: 25 sds \$4.02; 250 sds \$10.37.

SPAGHETTI SQUASH

Primavera F1

93 Days. This very uniform high yielding 2 1/2-3 lb. squash produces a nice canary-yellow skin color at maturity. Its restricted vine allows for a more concentrated fruit set. When compared to the standard OP variety, Primavera really stood out in our trials.

11029 FarMore Treated seed: 250 sds \$37.81.

11029 Untreated seed: 25 sds \$12.52;

250 sds \$33.56.

SPECIALTY

Autumn Frost F1

100 Days. Uniquely ribbed, round fruit ripens to dark tan with a frosted overlay. Flesh is similar to butternut with superior flavor, quality, and storage of up to 4 months. Prepare by cutting lengthwise for roasting or cut the top 2" to stuff and bake upright. Intermediate resistance to Powdery Mildew.

12961 Treated seed: 25 sds \$8.00; 250 sds \$36.39.

12961 Organic seed: 25 sds \$8.62; 250 sds \$39.71.

Queensland Blue

95 Days. This ribbed, dark blue-green pumpkin-like squash produces 8-10 lb. fruits with thick, sweet, meaty, orange flesh that is excellent for cooking. Use for fall decoration and then store in a cooler or root cellar for winter use.

12428 Untreated seed: 25 sds \$4.15;

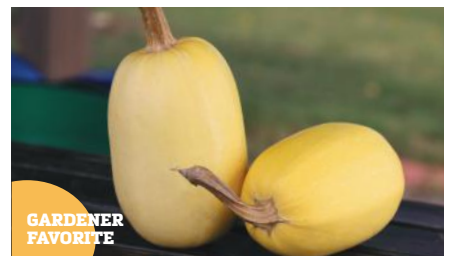

250 sds \$18.10.

Speckled Hound F1

100 Days. Blocky fruit have a unique peach color with green and teal splotches that make this squash both decorative and edible! The thick yellow-orange flesh is very tasty, with a dry texture similar to a buttercup squash. Intermediate resistance to ZYMV.

11772 Treated seed: 25 sds \$10.66;

250 sds \$34.33.

SUMMER SQUASH

Growing Tips: Summer squash reliably performs for both beginning and experienced growers. Seed can be direct sown or started as transplants in Jiffy Pots. Plant seed at a depth of 1" in soil with a minimum temperature of 70°F. Start transplants 12-15 days before transplanting in the garden. Harvest fruit when they reach a length of 7-8" for peak quality. Continual harvest of young fruit will increase yields.

GREEN ZUCCHINI

Green Machine F₁ Organic

44 Days. This high yielder is widely adaptable, producing 7-8" uniform medium green fruit with light flecking. A strong open plant allows easy harvest. This variety offers growers a strong disease package.

12205 Organic seed: 25 sds \$11.84; 50 sds \$17.06.

Spineless Perfection F₁

45 Days. This upright open plant has spineless leaf petioles which makes harvest easier and minimizes fruit damage. The medium-green fruit have slight flecking and the stem allows easy harvest with just a twist.

11796 FarMore Treated seed: 25 sds \$14.45; 250 sds \$42.70.

11796 Untreated seed: 25 sds \$11.98; 250 sds \$39.81.

Zucchini Elite F₁

48 Days. This variety is a favorite with vigorous plants that are prolific and will yield all season if you keep them picked. The young squash are uniformly slender and a dark glossy green color. Harvest fruit at 7-8" for peak flavor and tenderness.

00828 FarMore Treated seed: 250 sds \$26.29;

1M sds \$87.73.

00828 Treated seed: 25 sds \$7.91; 250 sds \$24.33.

00828 Untreated seed: 25 sds \$7.91; 250 sds \$24.33.

GOLDEN ZUCCHINI

Yellowfin F₁ Organic

47 Days. Beautiful deep yellow color is expressed best in cooler conditions and carries up into the peduncle. The plant habit is open and semi-spineless for easy picking. Pick daily for continuous yields and longer lasting plants. Intermediate resistance to Powdery Mildew and Cucumber Mosaic Virus.

12829 Organic seed: 25 sds \$13.31;

250 sds \$50.79.

YELLOW SUMMER SQUASH

Multipik F₁

50 Days. Bearing early and continuously, Multipik has tremendous yields, even by summer squash standards. This high quality squash has a light sweet taste that you'll enjoy all season long.

00810 FarMore Treated seed: 250 sds \$18.24.

00810 Treated seed: 25 sds \$5.86; 250 sds \$17.58.

00810 Untreated seed: 25 sds \$5.86; 250 sds \$17.58.

Smooth Operator F₁ Organic

50 Days. Smooth, bright yellow straightneck squash are produced on an upright, open plant that is spineless, making harvest a breeze. Growers can expect high yields of slim, refined 6-7" fruit. High resistance to PM.

13930 Organic seed: 25 sds \$17.60;

250 sds \$67.67.

SPECIALTY SUMMER SQUASH

Eight Ball F₁

42 Days. The very first round zucchini with true dark green color. It produces round fruit on strong open-bush plants in only 42 days. Harvest fruit at a diameter of 3-3¼".

00820 Treated seed: 25 sds \$6.88; 250 sds \$28.92.

Y-Star F₁ Organic

50 Days. This variety produces shiny, golden yellow scalloped fruit with small green circles on the blossom end (appearance will vary under different environmental conditions). Pick small at the 2-4" stage before seed development for a tasty summer squash flavor with a hint of nuttiness. Eat raw in salads or grilled. If left on the vine, fruits will develop a hard shell.

12425 Organic seed: 25 sds \$17.52; 50 sds \$23.96.

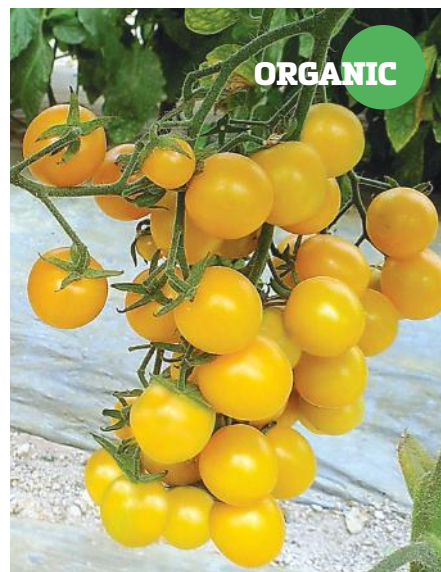

ARTISAN™ PINK BUMBLEBEE ORGANIC

CANDYLAND RED

CHOCOLATE SPRINKLES F1

ESTERINA F1 ORGANIC

TOMATOES

Growing Tips: Sow seeds indoors 5-6 weeks prior to transplanting. Like peppers and eggplants, seed germinates best at a soil temperature between 75-85°F, most easily maintained using a heat mat. Make sure seedlings get plenty of direct sunlight or use supplemental lighting to ensure healthy transplants. Supply fertilizer and even watering for strong fruit set. Plastic mulch and staking will reduce disease and make harvest easier. Grow tomatoes in containers on your patio to have fresh fruit just outside your door!

CHERRY

Artisan™ Pink Bumblebee Organic ●

70 Days. Indeterminate. This 1-1½" round cherry tomato has superb flavor and beautiful pink and yellow stripes. Fruit resist cracking and are extremely versatile in the kitchen.

11256 Organic seed: 50 sds \$6.83; 100 sds \$13.25.

Candyland Red *Current tomato*

58 Days. Indeterminate. This currant tomato has a much more manageable and compact plant than others of this type. Its ½" sweet, round, deep red fruit are produced on long trusses.

12335 Untreated seed: 50 sds \$8.03;

100 sds \$15.61.

Chocolate Sprinkles F1

53 Days. Indeterminate. High yields of copper-red colored fruit striped with green. The 1½" oval-shaped fruit have a rich sweet taste and are produced in abundance on thick trusses.

12337 Untreated seed: 10 sds \$7.13; 50 sds \$12.95.

Esterina F1 Organic ●

60 Days. Indeterminate. Very sweet 1-1½" cherry tomatoes are highly crack resistant. This multi-cluster type produces heavy yields of flavorful, bright yellow-orange fruits.

12333 Organic seed: 50 sds \$21.63.

Sparky XSL F1

65 Days. Indeterminate. From the Cream of the Crop brand, Sparky XSL has exceptional flavor and sweetness, beautiful gold striping, and high yields per plant. With the X-tended Shelf Life trait, fruits hold well in the garden and on the shelf after harvest.

12984 Untreated seed: 50 sds \$20.46;

100 sds \$37.80.

Supersweet 100 F1 ●

70 Days. Indeterminate. Exceptionally sweet and high in Vitamin C, Supersweet 100 produces hundreds of small cherry tomatoes in clusters.

00851 Untreated seed: 50 sds \$6.96;

100 sds \$10.38.

00851 Pelleted Untreated seed: 50 sds \$9.31;

500 sds \$45.73.

Tropical Sunset Organic ●

65 Days. Indeterminate. A favorite from our trials, Tropical Sunset has earned its place in the Cream of the Crop Series from its sweet fruity flavor (8% Brix) and beautiful golden fruit with orangey-pink blush. Fruit are round, 1½" in diameter, and hold well on the plant when ripe.

12983 Organic seed: 50 sds \$5.95; 100 sds \$10.94.

SLICING TOMATOES INDETERMINATE

Better Boy Plus F1

80 Days. An improvement on the classic Better Boy, Better Boy Plus offers more flavor, higher quality, and stronger disease resistance than the original. The bright red fruit are firm, have low radial cracking, and weigh approximately 1 lb. The indeterminate plants carry high disease resistance.

13041 Treated seed: 50 sds \$8.85; 100 sds \$15.44.

Big Beef Plus F1

75 Days. Big Beef Plus offers the same well-known traits of Big Beef with better flavor, adaptability, disease resistance, and appearance. The fruit have larger size and deeper red color from the Crimson gene, traditional tomato flavor, and greater yield potential. Indeterminate plants have strong disease resistance.

13040 Treated seed: 50 sds \$10.01; 100 sds \$14.77.

Carolina Gold F1

75 Days. Carolina Gold features unique yellow-gold colored fruit that are low in acid and uniform ripening. This strong adaptable determinate plant produces mostly extra-large and large fruit throughout the season. To maximize yield potential, plant in ground with stakes for added support.

11880 Untreated seed: 50 sds \$14.16; 500 sds \$58.60.

11880 Pelleted Untreated seed: 50 sds \$15.14; 500 sds \$62.78.

DarkStar F1

72 Days. DarkStar is an exceptional purple beefsteak tomato for open-field growing, with high yield potential, heirloom flavor, and hybrid disease resistance. The ribbed, oblate fruit average 8-10 oz. and the vigorous indeterminate plants perform best in-ground with added support.

13437 Untreated seed: 50 sds \$16.99; 100 sds \$26.09.

Jet Star F1

72 Days. This exceptional plant produces large quantities of clean, tasty red fruit generally free of cracks and scars. Jet Star is a low acid tomato, so we suggest adding lemon juice when canning this variety.

00869 Treated seed: 50 sds \$9.96; 100 sds \$12.60.

00869 Untreated seed: 50 sds \$9.96; 100 sds \$12.60.

OPEN POLLINATED & HEIRLOOM

Beefsteak Organic

90 Days. A household name since the 1890s and especially popular in the Northeastern US. Beefsteaks are known for large, 2 lb. fruit and distinct heirloom flavor. Great all-purpose variety for slicing, cooking, using in salads, canning and fresh eating.

00090 Organic seed: 50 sds \$5.56; 100 sds \$9.31.

Beefy Purple

75 Days. Beautiful 12-14 oz. mahogany fruit are striped with green and have deep purple internal color. This open pollinated variety earned its place in the Cream of the Crop™ series with firm flavorful fruit that have a good shelf life. The determinate plants make Beefy Purple easy to manage.

13582 Untreated seed: 50 sds \$5.57; 100 sds \$8.78.

Cherokee Purple

72 Days. Rumored to be a descendant of a variety used by the Cherokee Indians, this interesting heirloom tomato has a distinctive look. Medium-large, oblong fruit have a pink-purple color inside and out. The flavor is complex, balanced, and slightly smoky.

00841 Untreated seed: 50 sds \$4.70; 500 sds \$9.94.

Bronze Torch F1 ●

65 Days. Indeterminate. Brick-red fruit with bronze striping add beautiful contrast to salads. Exceptional flavor, texture, and sweetness are the standouts of these large grape 1¼"W x 2½"L fruit. Prolific indeterminate plants are high yielding and stand up well to stress.

12799 Untreated seed: 50 sds \$16.42; 100 sds \$28.79.

Marzito F1

55 Days. Indeterminate. This versatile mini-marzano tomato is perfect for fresh eating or cooking into sauce. Fruit have an elongated shape, firm texture, and a memorable sweet, rich flavor.

65265 Untreated seed: 50 sds \$22.37; 100 sds \$36.08.

Sun Dipper F1

63 Days. Indeterminate. This unique orange grape tomato has a shape that makes it easy to hold for dipping. Its bright orange color and sweet flavor make it perfect for snacking. High resistance to disease.

13262 Untreated seed: 50 sds \$17.12;

100 sds \$31.75.

COCKTAIL

Indigo Rose

80 Days. Compact Indeterminate. These intriguing deep purple-black tomatoes are prolific, gorgeous, and richly flavored. The 1½-2 oz. round fruit are remarkably dark where exposed to sun and blushed red where shaded.

11171 Untreated seed: 10 sds \$3.68; 100 sds \$13.43.

Mountain Magic F1 ●●

75 Days. Indeterminate. A gourmet cocktail type that produces high yields of 2 oz. fruit that have great flavor and high sugars. The plant has a high level of resistance to disease.

11382 Untreated seed: 10 sds \$7.11; 100 sds \$30.09.

SAUCE FOR CANNING

Bellatrix F1 ●

65 Days. Determinate. An early maturing and high-yielding Roma tomato with a concentrated set and excellent quality for cooking and preserving. Fruit are 4-5 oz and have low incidence of blossom end rot. They perform best in the ground or large container. High resistance to disease.

65264 Untreated seed: 50 sds \$19.52;

100 sds \$33.36.

Roma VF

80 Days. Determinate. Compact plants produce plum-shaped, thick-walled fruit measuring 2½-3" long. Fruit are great for paste, juice, canning or fresh eating.

00886 Untreated seed: 50 sds \$3.51; 500 sds \$9.41.

San Marzano

85 Days. This old-style Italian Roma type is later to mature than Roma VF but offers larger fruit size. The indeterminate plants produce high yields of large fruit that hang in large clusters. The bright red fruit measure 3½-4"L and have an extra-high solid content that makes them ideal for canning. San Marzano holds well on the vine and in storage.

11889 Untreated seed: 50 sds \$4.09; 500 sds \$14.95.

GROUND CHERRY

Aunt Molly's Organic ●

85 Days. Once a very common home garden crop, ground cherries have become increasingly hard to find. The excellent citrus flavor enlivens salads, jams, pies, and sauces. Encased in a paper-like husk, fruits will store 3-4 weeks under cool and dry conditions. Bushy productive plants grow 24" tall. Great for containers. A fun and easy fruit for children to grow in the garden.

12500 Organic seed: 10 sds \$2.20; 50 sds \$3.58.

Harris Seeds will be closed the following dates for holiday breaks:

2026: January 1, May 22-25, June 19, July 3-6, September 7, November 11, November 26-27, December 24-25

Shipping & Handling: SEEDS

Shipping & Handling charges include outbound freight and packaging materials. Charges apply to all orders (excluding plugs & liners, and select wholesale items), and are based on the total order value before tax.

Order Value	S & H
\$0.01-\$10.00	\$6.99
\$10.01-\$30.00	\$10.99
\$30.01-\$60.00	\$13.99
\$60.01-\$100.00	\$16.99
\$100.01-\$150.00	\$20.99
\$150.01-\$200.00	\$24.99
\$200.01-\$250.00	\$26.99
\$250.01-\$299.99	\$28.99
\$300 or more	FREE

Standard Shipping

Upon receiving your order, please allow us 48 hours to process and ship your order. Due to high demand during the peak months of January-May, orders may require additional time for packaging/shipment. Preferred shipment carriers are USPS and UPS. Please advise if you require a special carrier

Expedited Shipping

Expedited shipping is available upon request. Additional charges apply. Please call for details.

Truck Shipping

Large seed and supply orders may be shipped by truck. Additional charges apply. Please call for details.

Shipping Outside Continental U.S.

We are unable to ship outside the USA at this time. Additional charges may apply when shipping to AK, HI, PR, or U.S. holdings outside of the contiguous USA. Also please note that Credit/Debit cards, Checks and Money Orders must be from a U.S. based financial institution.

Additional Fees & Surcharge

Please be advised that our S&H rates are subject to change and that a surcharge may be applied for a select number of products that require additional postage, including large and heavy supplies, and live plant products shipping directly from our partner growers. Orders shipping to PR will incur a \$10 fee for phytosanitary certificates (per order). Please take advantage of our ship complete process to ensure all items ordered will ship. Back orders will be canceled.

P.O. Boxes & Street Addresses

Customers with P.O. Boxes should include a complete street address to ensure prompt delivery.

Deliveries

Please meet your driver when possible and bring in your box(es) from the elements ASAP. Do not refuse shipment for any reason, you will still be financially responsible for the items. Any issues with shipping must be reported within 24 hrs. Please be available on your delivery date.

Shipping & Handling:

PLUGS, BULBS, BARE-ROOTS, AND TUBERS

**Subject to vendor's terms and conditions.*

P.O. Boxes: Vendors cannot ship live plants to PO Boxes. Please provide a physical address and phone number at order placement.

Freight: Plugs, live bulbs, roots are shipped by the supplier. Freight is estimated for plug orders until shipping when true freight has been received.

Sales Policies

Sales Tax

Sales tax is charged on all orders shipping to a state where we have Sales Tax Nexus. As of 7/1/2024 this includes all states with the exception of AK, DE, MT, NH, NM, and OR (for the most up to date list, please visit our website). Sales tax will be charged on all purchases within those states unless we have your resale or tax exempt certificate on file. If you are tax exempt, please include your resale or tax exempt certificate with your initial order. See Deliveries section under shipping and handling: seeds

Return & Refund Policy

All seed sales are final. All supplies must be returned in saleable condition within 90 days of purchase. We no longer accept returns or exchanges unless the product is damaged in transit or if the incorrect item was shipped. All damaged orders must be accompanied by a Return Authorization number (RMA), which can be obtained by calling us at 800.544.7938. For plug and live orders, claims must be made within 24 hours after receiving shipment.

Cancellation Policy

Orders for Live Goods may be canceled up to 5 weeks prior to the ship date. Unfortunately, cancellation requests made later than 10 business days prior to the ship date cannot be accommodated.

Prorate Policy

All seeds and plants listed for sale in this catalog are subject to delivery by our growers and suppliers. In the event that a variety is not delivered in full, we may choose to prorate the amount sold to each customer.

Catalog Pricing

Prices in this catalog are effective through June 30, 2025 and are subject to change without notice.

Harris Seeds and Customer Responsibilities

Variety Selection & Cultural Practices

The varietal descriptions and cultural information in this catalog are based on the observations and experience of our employees, associates, and suppliers. We strive to present the varietal and cultural information you need to choose appropriate varieties and raise them successfully.

Customer results may differ from our printed information as growing conditions vary considerably depending upon geographic location, soil type, climatic conditions, pest or disease pressures, and cultural practices.

We recommend that you consult your state's agricultural extension service for varietal suggestions and cultural information specific to your local area. **Although we do our utmost to provide accurate, helpful information and advice, you alone are ultimately responsible for the success or failure of your crops.**

Plant Diseases

Many flower and vegetable species are susceptible to serious seed- and soil-borne diseases. Our seed is carefully grown, treated, and/or tested to prevent seed-borne infection. Despite our best efforts, we are unable to guarantee absolute freedom from seed-borne disease, nor soil-borne organisms from attacking plants during growth. We try to offer superior varieties with resistance and/or intermediate resistance to diseases whenever such varieties are available and adapted to your conditions. We urge you to look for these features as you plan your seed purchases.

Free standard shipping on orders of \$300 or more!

SHIPPING & HANDLING

Shipping & Handling charges include outbound freight and packaging materials. Charges apply to all orders (excluding plugs & liners, and select wholesale items), and are based on the total order value before tax.

Gifts for gardeners

HARRIS SEEDS 6 PIECE GARDEN TOOL SET

HARRIS SEEDS LEATHER TOOL BELT/POUCH

HARRIS SEEDS SOIL HORI KNIFE WITH LEATHER SHEATH

HARRIS SEEDS BYPASS PRUNERS

HARRIS SEEDS CANVAS TOOL BAG

HARRIS SEEDS DUAL BLADED GRAFTING KNIFE

HARRIS SEEDS GARDEN SCISSORS

Harris Seeds 6 Piece Garden Tool Set

This comprehensive set of six garden tools provides everything needed for cultivating and maintaining a thriving garden. Included in the set are a sturdy trowel for digging and transplanting, a hand cultivator for breaking up soil and removing weeds, a transplanting spade for delicate planting tasks, a durable garden fork for aerating the soil and turning compost, a soil scoop to make potting up your plants so much easier, and a small hand rake that is just the right size for fitting in and around small areas for weeding and raking up debris. With these essential tools, gardeners can effortlessly tackle a wide range of tasks, from planting and weeding to pruning and watering, ensuring their garden flourishes throughout the seasons.

42043 6 Piece Garden Tool Set \$39.95

Harris Seeds Bypass Pruners

Harris Seeds bypass pruners are precision-crafted cutting tools designed to facilitate clean and efficient pruning in the garden. Featuring high-quality hardened steel blades, these pruners offer sharpness and durability for precise cuts on branches, stems, and foliage. The bypass design allows for smooth and accurate cuts, minimizing damage to plants and promoting healthy growth. With ergonomic handles and a comfortable grip, these pruners reduce hand fatigue during extended use. Whether you're shaping shrubs, trimming flowers, or harvesting fruits, Harris Seeds bypass pruners are reliable companions for any gardening task.

42054 Bypass Pruners \$19.95

Harris Seeds Canvas Tool Bag

Say hello to your new favorite garden sidekick! This heavy-duty canvas tool bag is tough enough to handle dirt but cute enough to gift. With 8 roomy outside pockets (5" deep x 3.5" wide), there's plenty of space for all your garden goodies—trowels, pruners, seed packets, snacks (hey, we don't judge). The comfy leather handle makes it easy to carry wherever your green thumb takes you. Sized at 9.5" x 9.5" x 9.5" with a flat round bucket-like design.

42069 Harris Seeds Canvas Tool Bag \$29.95

Harris Seeds Dual Bladed Grafting Knife

The dual-bladed grafting knife is a specialized tool essential for precise and efficient grafting in horticulture and arboriculture. Featuring two sharp, distinct blades—one straight-edged and the other hooked or curved—it enables gardeners and botanists to make clean cuts on both scion and rootstock, facilitating the joining of plant tissues with utmost accuracy. The straight blade is ideal for creating smooth, uniform cuts, while the hooked blade assists in shaping and preparing the grafting site. This versatile tool ensures successful graft unions, promoting healthy plant growth and propagation with ease and precision.

42041 Grafting Knife \$16.75

Harris Seeds Garden Scissors

Designed for precision trimming and pruning, these 2.5" snips feature durable plastic handles for a comfortable grip and easy handling. Their compact size makes them perfect for intricate tasks in your garden or indoor plants. Whether you're trimming herbs, deadheading flowers, or shaping bonsai, these snips are your go-to tool for maintaining your green oasis with ease.

42056 Garden Scissors \$12.50

Harris Seeds Leather Tool Belt/Pouch

The leather garden tool belt in crazy horse leather is a durable and stylish accessory designed to keep your garden tool close at hand when while you work outdoors. Crafted from high quality leather, it features multiple pockets and compartments to accommodate different tools such as your phone, seed packets, pruners, snips, marker and labels, and a soil knife. The adjustable belt allows for a comfortable fit around the waist, while the durable stitching ensures long lasting durability even in rugged outdoor environments.

42053 Harris Seeds Leather Tool Belt \$59.95

Harris Seeds Soil Hori Knife with Leather Sheath

The Hori knife, or soil knife, is a traditional gardening tool renowned for its versatility and precision. With a sharp, curved blade crafted from high-quality steel, it is designed for various tasks such as digging, weeding, and transplanting in both soil and bonsai cultivation. Its ergonomic design allows for comfortable use over extended periods, making it indispensable for gardeners and horticultural enthusiasts alike. This knife also comes with a Harris Seeds branded leather sheath with a belt loop that makes the perfect gift for the gardener in your life.

42042 Harris Seeds Soil Hori Knife \$19.25

CAUDATUS RED

DREADLOCKS ORGANIC

**AGROSTEMMA
MILAS QUEEN MIX ORGANIC**

CORAL FOUNTAIN

HOT BISCUITS MIX ORGANIC

ANEMONE - MONA LISA MIX F1

ANGELONIA - SERENA MIX F1

AGERATUM

Blue Horizon

Ageratum are sun loving plants that produce an abundance of small fuzzy blooms. Masses of flowers cover the well branched plants.

02000 Untreated seed: 50 sds \$8.09;
500 sds \$15.79.

AGROSTEMMA

Milas Queen Mix Organic

A mix of white and purple 2" flowers in a classic single bloom shape, providing the quintessential cottage garden feeling for a mass planting or pop of color. Flowers reach up to 3 ft high on long stems and look lovely bobbing in the breeze. A great beginner flower for direct sowing.

23463 Organic seed: 50 sds \$2.56; 250 sds \$9.23.

ANEMONE

Mona Lisa Mix F1

A masterpiece among anemones: Mona Lisa puts out up to 18 flowers per plant and blooms under lower winter light levels. Mix of pink, purple, red, and white shades. Height: 16-20", 6-8" spread.

21877 Untreated seed: 25 sds \$14.85;
50 sds \$23.93.

ANGELONIA

Serena® Mix F1

Serena Angelonia seeds develop into a lovely plant that produces continuous blooms from early spring through summer. A hardy annual, this summer snapdragon will amaze you with its elegant look and dainty flowers in lush, bold colors such as pink, purple, and white against rich green foliage. Suitable for borders and containers, this variety delights even the most discerning gardener. A multi-award winning series, the superb, low-maintenance Serena F1 doesn't need much water and thrives in the summer heat, with vivid flowers that attract butterflies and hummingbirds.

20255 Pelleted Untreated seed: 25 sds \$16.78;
50 sds \$23.26.

AMARANTHUS

Both hanging and upright types offer an enchanting look in the garden that plays well in bouquets. Pinch at 9 inches for multiple cuttable stems. Direct sow outdoors after last frost to garden beds or pots.

Caudatus Red

Commonly known as Love-Lies-Bleeding, this interesting old fashioned annual is best known for its large, drooping tassels of flowers that spill from the tall plants. They are often grown for cut flowers to use in fresh and dried arrangements, and in wreaths where they add both color and texture.

21926 Untreated seed: 50 sds \$4.72;
250 sds \$7.95.

Coral Fountain

Spilling tassels of coral and muted pink shades. This interesting old fashioned grain is a favorite direct sow flower. Hanging and upright types offer an enchanting look that designers will love.

24093 Untreated seed: 50 sds \$3.98;
250 sds \$5.34.

Dreadlocks Organic

Husky plants with thick knotted trails of deep red blooms falling from sturdy stems. Dreadlocks will add funky creativity to any cut flower display. Height: 24-36".

23464 Organic seed: 50 sds \$3.10; 250 sds \$11.34.

Hot Biscuits Mix Organic

Feathery flowers, with earthy cinnamon color. A great filler to compliment white and pale-pink statement blooms. Plumes can be multiplied if you pinch the center bud. Height: 4'.

23466 Organic seed: 50 sds \$3.95; 250 sds \$10.95.

ASTER

Considered an 'old fashioned' flower, asters still enjoy popularity in cutting gardens. Start indoors 6-8 weeks before last frost then transplant to garden beds.

Giant Ray Mix

Unique flower texture with pointy quilled petals. Shades of blue, pink, red, and white. Bloom Size: 5-5½". Bloom Type: Double. Height: 24-30", 12-18" spread.

02090 Untreated seed: 50 sds \$4.42; 500 sds \$6.95.

Matsumoto Mix

Heat resistant Matsumoto Mix produces 2" diameter flowers with eye-catching yellow centers on upright plants. Fusarium tolerance is an added plus.

09898 Untreated seed: 500 sds \$6.29;

1M sds \$11.12.

BACOPA

Bacopa grows well in cool coastal climates and in part shade in warm climates. Keep evenly watered during hot, dry spells, or they will drop their flowers. Bacopa can be propagated through cuttings.

Utopia Collection F1

Bacopa's tiny flowers add dainty grace to the garden. The varieties in this collection are excellent for hanging baskets or a spiller for a mixed container. Start indoors 4-6 weeks before last frost then transplant to pots..

20684 Blutoxia®: Lavender-blue.

23712 Pinktopia®: Bright pink.

20685 Snowtopia®: ● White.

Multi-Pelleted Untreated seed: 10 sds \$7.11;

50 sds \$17.95.

CALENDULA

Bon Bon Apricot ●

Brighten up your spring offerings with this uniquely colored calendula. Known for their extended bloom time and versatility, Bon Bon Apricot features large showy flowers on compact plants. Perfect for pots and borders. Height: 12", 6-8" spread.

24252 Raw seed: 50 sds \$2.95; 250 sds \$5.95.

Kinglet Formula Mix

We love the unusual yet classic shape and form of Calendula. Cut flower growers gravitate to this Kinglet for the clean, crisp flowers in bright and cheerful colors. A stunning mix of orange, yellow and apricot shades.

23348 Untreated seed: 50 sds \$3.51; 250 sds \$7.97.

Touch Of Red Series ●

This stunning calendula series consists of contrasting tones creating an attractive effect for borders, containers, and vases. Large 2-4-inch flowers offer both beauty and productivity for growers and gardeners alike. The Touch of Red series are tall vigorous plants that have strong stems perfect for farmer florists or adding height to a cottage garden. Height: 24", 10-12" spread.

24253 Buff: Petals are cream colored on the front and crimson on the reverse.

24254 Mix: Includes all three colors of the Touch of Red series: yellow, buff, and orange. Flowers have a dark center and each petal has a "touch of red" along on the edges.

Raw seed: 50 sds \$2.95; 250 sds \$5.95.

CHIEF RED FLAME

CELOSIA

Celosia thrives in high summer heat, producing long-lived blooms that add color, texture, and surprising shapes to gardens and containers. Start indoors 4-6 weeks before transplanting outdoors..

Asian Garden

A pollinator magnet, this terrific variety produces bright pinkspikes all summer long. Height: 30-40", 12-18" spread. **23299 Untreated seed: 50 sds \$3.96; 250 sds \$8.50.**

Celway Mix

The series reputation for long vase life is a plus for cut flower gardeners. Mix includes shades of lemon, orange, purple, red, terracotta, and white. Height: 28-40", 5" spread. **21930 Pelleted Untreated seed: 25 sds \$7.64; 100 sds \$17.39.**

Century Mix

Century Mix offers intriguing texture and stiking color in the form of feather-like blooms. Also known as cockscomb, the large, bright plumes grow tall enough to make it ideal for cutting. Also an excellent in both pots and beds. Colors include cream, orange, red, salmon and yellow. **02250 Untreated seed: 50 sds \$5.03; 500 sds \$15.29.**

Chief Red Flame

Large uniquely shaped brain-like flower combs are excellent for floral work and dried arrangements. Plants are suitable for open field or protected culture and respond well to pinching. 60 days from transplant, 80 days from direct seeding. 60 days from transplant, 80 days from direct seeding. Large, crested dark red flower combs.. **23266 Organic seed: 50 sds \$4.56; 250 sds \$8.44.**

Dragon's Breath® Red

The unique green-red foliage and blazing-red, gorgeous flowering plumes are beautiful in cut flower arrangements, containers, beds and large landscapes. Height: 24-32", 12-16" spread.

23037 Untreated seed: 110 sds \$6.95; 100 sds \$37.95.

Flamingo Feather

Feathery plumes start off soft pink and turn to white. Height: 40", 12-18" spread.

02246 Raw seed: 50 sds \$2.16; 1M sds \$7.53.

Pampas Plume Mix Organic

Large feathery plumes are a great textural addition to bouquets. Mix includes shades of yellow, orange, pink, and red. Height: 30-40", 6-12" spread.

23467 Organic seed: 50 sds \$3.16; 250 sds \$15.10.

Supercrest Mix Organic

Mixture of fan-shaped flower combs in iridescent shades of green, orange, pink, red, and yellow. As peculiar as it is pretty, resembling coral reef or even brains, Supercrest makes for a surprising pop of texture and shape amongst more traditional blooms like begonias and margigolds in mixed containers. Height: 36-48", 6-8" spread.

23264 Organic seed: 50 sds \$4.51; 250 sds \$7.95.

KONG MOSAIC

Premium Sun Coral Candy

COLEUS

Chocolate Covered Cherry

Although all coleus varieties perform well in shady locations, some varieties will also tolerate much sunnier conditions. This variety is adaptable to full sun conditions where there is high humidity. Under dryer conditions, partial shade is recommended to prevent leaf scorching. This coleus flowers late, thus its feature is its foliage. They are well-suited for containers, landscapes, and garden accent plants. Color: Rose centers on each leaf are surrounded by deep mahogany, and topped off with thin green margins.

22436 Pelleted Untreated seed: 25 sds \$9.80; 100 sds \$28.42.

Giant Exhibition™ Mix

Giant Exhibition features extra large leaves on a compact plant habit. Leaves are about 6-7" long on mid-height plants, providing a colorful display in gardens, containers and landscapes. Formula mix of five colors - Limelight (green), Magma (burgundy), Marble (marble pattern of reds, green and white), Palisandra (dark purple-black), Rustic Red (red/maroon with green margins).

20268 Untreated seed: 100 sds \$18.33; 500 sds \$80.70.

Kong® Mosaic Mix

Bright patterns of green, red, and cream with extra huge leaves that cover well-branched plants make them an excellent choice for both container gardens and bedding. Recommended for 4"+ pots and mixed containers. Height: 18-20", 15-18" spread.

20001 Pelleted seed: 100 sds \$29.72; 500 sds \$131.45.

Premium Sun Coral Candy

The first seed coleus to ever win the coveted AAS Winner designation! Coral Candy features unique, multicolored foliage on a uniformly compact plant. This new form has narrow, serrated leaves that gracefully drape down the mounded plants.

24138 Pelleted Untreated seed: 25 sds \$11.26; 100 sds \$26.89.

Rainbow Formula Mix

This popular container and bedding strain has broad leaves on well-branched plants. This mixture is full of surprises, with a wide range of pattern combinations.

02300 Untreated seed: 500 sds \$10.66; 1M sds \$14.32.

Wizard Select Mix

Oval to heart-shaped leaves in a charming color range. Garden performance is superior due to the dwarf basal branching plant habit. Mixture of Coral Sunrise, Mosaic, Pastel, Pineapple, Scarlet, Sunset, and Velvet Red.

20812 Untreated seed: 50 sds \$5.04; 500 sds \$10.13.

 **GERBERA - COLORBLOOM MIX**

GERBERA

Gerbera make for a fantastic cut flower for their fanciful colors and long, strong stems. A member of the Aster family, they are closer in relation to sunflowers than they are to traditional perennial daisies. They do not like "wet feet", so be careful not to over-water, allowing the top inch of soil to dry out between waterings. Bottom watering is suggested. These are an excellent investment for growers with greenhouses, as they will bloom all year. Repot to a bigger container every 12-18 months to allow your plants to grow and flourish. When grown outdoors, they are hardy annuals and perennials in mild regions.

Cartwheel Strawberry Twist

This lively mix offers large, showy, semi-double flowers such as an unusual form! They are best grown in 5" pots or larger and are the perfect gift for Easter and Mother's Day. The colors range from shades of buttery yellow with a hint of pink, to deep strawberry red with a pop of yellow.

22656 Film coated seed: 50 sds \$41.84;
100 sds \$55.38.

Colorbloom Mix

So bright and vibrant - they hardly seem real! The ColorBloom Gerberas are quick to bloom and their compact plants produce long-lasting flowers. Gardeners love their fanciful nature.

63941 Film coated seed: 10 sds \$9.36;
50 sds \$36.28.

63941 Untreated seed: 10 sds \$9.36;
50 sds \$36.28.

GOMPHRENA

Ping Pong Series

Gomphrena is beloved for being both playful and pretty, delivering an explosion of colorful ball-shaped blooms that fit any garden style. It adds height, shape, texture, and dimension, making it terrific as a cut flower for fresh bouquets or dried. Easy to grow, tolerant to drought, and minimal maintenance required makes it great for beginners. Start indoors 4-6 weeks before last frost then transplant to garden beds or pots. Height: 16-20", 8-10" spread.

23194 Lavender

23196 Purple

23195 Mix: Shades of lavender, purple, and white.

Untreated seed: 50 sds \$6.95; 250 sds \$15.00;
1M sds \$51.52.

QIS Mix

Rubbed seed. Mixture of carmine, lilac, pink, red, orange, purple, rose, and white. Height: 24-26", 10" spread.

08184 Untreated seed: 250 sds \$6.38;
1M sds \$15.76.

WHAT IS FILM-COATED SEED?

Film coating is a thin, often colorful layer added to seeds to improve visibility and help them move smoothly through planting equipment, which is why it's also called slick coating. It can shield seeds from environmental stress and sometimes carries treatments that boost germination or provide pest protection.

 **NASTURTIVM - ALASKA MIX**

MORNING GLORY (IPOMOEIA)

A vigorous climber that begins blooming in early summer and produces attractive flowers all the way through fall. Can be grown in the ground, in trellised containers, and hanging baskets.

Carnival

Redefine what you imagine when you think "morning glory": Hot magenta and purple blooms with bold white stripes. These climbers are for gardeners who like to put on a color show. Blooms last for just one day but plants produce them abundantly all season long.

20994 Untreated seed: 500 sds \$4.92;
1M sds \$9.08.

Giant White Moonflower

Huge 5" white flowers are fragrant when they open in the evening. Recommended for planting along decks and porches, where the evening fragrance and white luminescent flowers can be enjoyed.

02996 Untreated seed: 50 sds \$2.93; 500 sds \$8.12.

Heavenly Blue

The quintessential Morning Glory of yesteryear, we love Heavenly Blue's traditional 2-4" periwinkle flowers, that bloom plentifully, each one lasting only a day. Height: 12", 6-12" spread.

02974 Untreated seed: 50 sds \$7.95;
500 sds \$11.95.

NASTURTIVM

Nasturtium make excellent fillers for containers and hanging baskets. They are also a nice fill-in item for garden beds and can be used as an annual ground cover. Frequently used in the restaurant trade as a garnish, the whole plant is edible, with flavor similar to watercress, that's peppery on the back end.

Alaska Mix

Unique cream and green foliage. Produces 2-2½" blooms in a color range of cherry, crimson, orange, salmon, and yellow. Height: 10-12", 8-10" spread.

02994 Raw seed: 50 sds \$3.08; 250 sds \$9.23.

Baby Series

AAS's expert judges praised the uniformly compact plants that sported flowers with consistent coloration. Their compact habit means less "flower flopping," with their blooms remaining upright throughout the season. Height: 10"-12", 6"-12" spread.

65821 Orange: bright orange

23774 Rose: unique rose

Untreated seed: 50 sds \$9.09; 250 sds \$28.46.

NIGELLA

Miss Jekyll Mix Organic

Nigella's are funky, fun - and edible! This mix is a great filler in bouquets or for garnishing dishes. Seed pods are a secondary accent later in the season. Colors includes shades of pink, purple and white. Height: 16-24, 9-12" spread.

23468 Organic seed: 25 sds \$2.95; 50 sds \$4.49.

PENTAS

This heat loving plant continues to impress as it becomes more recognized to use in both gardens and containers. Star-like florets are produced on large clusters in colors that cover the lilac, pink, red, and rose spectrum. Bee and butterfly friendly flowers are trending, and Pentas are sure to attract pollinators!

Lucky Star® Mix F1

Lucky Star leads the industry for rich colors and a compact manageable habit. Follow-up blooms do not surpass the prior flush of flowers, so plants remain tidy and compact with minimal effort. All varieties flower within a 1 week window of each other, making an attractive and neat display. Their continuous blooming nature allows you to enjoy these beauties throughout the entire growing season. Height: 12-16", 12-14" spread.

23508 Pelleted Untreated seed: 25 sds \$9.20;
100 sds \$18.26.

PETUNIAS (cont.)

SPREADING

Shock Wave® Series F1

The Shock Wave series has found its niche as the small flowered, spreading seed petunia series of choice. The earliest to flower in the spreading petunia class, they yield a proliferation of 1½-2" blooms that blanket the mounded plants. See the diagram on page 69 for best outdoor uses. Height: 7-10", 20-30" spread.

22468 Deep Purple ●

23791 Purple Tie Dye: purple-blue and white bicolor

Pelleted Untreated seed: 25 sds \$13.42;

100 sds \$28.75.

Tidal Wave® Series F1

Considered a 'hedgiflora' petunia, this series is an aggressive grower, forming an almost 'shrub-like' shape that holds all summer long. A great landscape petunia, space 12" apart in the ground for a dense mounded hedge, or 24" apart for a ground cover. Tidal Wave is also the petunia of choice for the super large planters used in corporate and municipal landscapes. See the diagram on page 69 for best outdoor uses. Height: 16-22", 30-60" spread.

02211 Silver:  silvery white to pale lavender flowers. Slightly later to flower, more dense and mounded plant habit

22974 Velour Red: ●  dark blood red with velvety undertones and dark throat

Pelleted Untreated seed: 25 sds \$13.42;

100 sds \$28.75.

UPRIGHT GRANDIFLORA

- Upright plant habit
- Large single (up to 5" diameter) or double flowers
- Fewer flowers, but flowers are large and showy
- They take a hit in rainy weather, but will bounce back
- Great for garden beds and patio containers

Dreams™ Mix F1

Popular for the narrow 7-day window of bloom time across the series! Gardeners also enjoy their holding ability under hot, humid, and rainy conditions. Height: 10-15", 10-12" spread.

03230 Pelleted Untreated seed: 50 sds \$7.80;

500 sds \$9.13.

Sophistica® Blackberry F1 ●

Petunias for the designer! Large 'one-of-a-kind' shimmering black with reddish purple undertone blooms fill out lush upright plants. Height: 10-15", 10-12" spread.

22469 Pelleted Untreated seed: 25 sds \$8.54;

100 sds \$18.65.

RUDBECKIA

Rudbeckia are workhorse garden annuals. Their vigor nicely fills in garden beds or planters, and their cheery daisy-like flowers cover the plants for bursts of color all summer long! Start indoors 6-8 weeks to transplant or direct sow after last frost in garden beds.

Goldilocks Organic ●

These dark-eyed gals feature fancy 4-5" double flowers with twisting and curled golden petals. Height: 36-42", 12-18" spread. **03949 Organic seed: 50 sds \$5.43; 250 sds \$11.11.**

Indian Summer

Extra-large single flowers in a charming golden yellow. A great selection for mixed containers or for cut flowers. Height: 36-42", 18-24" spread.

**02402 Untreated seed: 250 sds \$8.83;
1M sds \$26.60.**

Prairie Sun

Pale yellow tipped golden 6-8" flowers with a pale green center. Height: 28-32", 18-24" spread. **03969 Pelleted seed: 25 sds \$6.99; 250 sds \$25.37.**

SNAPDRAGON

An old-fashioned garden favorite with delicately colored blossoms arranged on spikes. Beautiful for borders, backgrounds, and cut flower arrangements. Start indoors 8-10 weeks before last frost then transplant to garden beds or pots.

Madame Butterfly Mix F1

A favorite in our trials! The double azalea flowers create very full flower spikes. Blooms in shades of lavender, orange, pink, red, white and yellow.

Height: 24-30", 14-16" spread.
23641 Raw seed: 50 sds \$6.50; 500 sds \$16.56.

Rocket Mix F1 ●

A long time super garden performer, producing tall spikes that display bright, closely set florets on sturdy stems. Height: 30-36", 16-18" spread.
03395 Raw seed: 50 sds \$2.25; 500 sds \$10.41.

Sonnet Mix F1

Bright flower spikes appear on sturdy, well-branched plants. Mix includes bronze, burgundy, carmine, crimson, orange-scarlet, pink, rose, white and yellow.
**03380 Untreated seed: 50 sds \$6.65;
500 sds \$10.31.**

SUNFLOWER

Sunflowers are garden favorites! Find sunflowers with heights ranging from eight inches to twelve feet, and flower colors extending from the traditional yellow to colors like bronze and burgundy. We have a huge selection, with our complete offering at harrisseed.com. Direct sow outdoors after last frost to garden beds or pots.

DWARF TYPES

Bert® F1

Perfect for a 4-6" pots, the bright yellow petals surround a chocolate-colored, pollen-free disk. Height: 14-18", 8-12" spread.

23536 Untreated seed: 25 sds \$5.57; 250 sds \$29.48.

Smiley™ F1

Broad rich yellow petals surround an attractive pollen-free disk. This early bloomer can kick off your sunflower pot crops sales. Height: 6-20", 12-16" spread.

23738 Untreated seed: 10 sds \$6.95; 50 sds \$8.95.

Grow Gardens Grow Sunflowers Kit

Enjoy this kit that includes seed for Velvet Queen, Dwarf Sungold, Autumn Beauty, Classic Mammoth, Dwarf Sunspot, and Yellow Lemon Queen. 41412 Grow Gardens Kit: \$16.25 ea.

GIANT TYPES

Grow the tallest sunflowers in the neighborhood! Our selection of giant sunflowers will produce the largest flowers available. Grow in the garden as a hedge at the back of the garden, or grow a fun fort your kids will love!

American Giant F1

The sturdiest of the giant types with no worries about them falling over. Flower heads can grow as wide as 12". Height: 8-15', 24-30" spread.

22870 Untreated seed: 50 sds \$5.37; 250 sds \$16.83.

Mammoth

The standard giant sunflower that produces hundreds of edible seeds. Height: 8-10', 36-42" spread.

00747 Untreated seed: 50 sds \$3.95; 250 sds \$5.95.

Titan Organic

One of the tallest, largest seeded, largest headed sunflower varieties you will ever grow. This amazing plant grows 12 - 14 ft. tall with flower heads up to 24" across. They'll stop traffic in your neighborhood. Extra-large seeds are great for roasting.

23276 Organic seed: 50 sds \$4.73; 250 sds \$12.72.

ASTRA GOLD

ASTRA YELLOW BROWN

AUTUMN BEAUTY MIX ORGANIC

GOLD RUSH

GOLDY DOUBLE ORGANIC

TALL CUT FLOWER TYPES

The key to amazing sunflowers is plenty of water and fertilizer. Their roots can run over 2 feet deep, and rapidly deplete the soil around them to achieve their height and support their leaves and blooms over such a short grow period. We recommend amending your soil before planting and fertilizing every two weeks.

Astra Series

Semi double flowers with densely petaled centers, branching habit with multiple heads per plant. Perfect for cutting. This series has very little pollen. Branching. Height 4'.

24261 Astra Gold

24262 Astra Yellow Brown

Raw seed: 50 sds \$3.95; 250 sds \$13.54.

Autumn Beauty Mix Organic

Harvest an array of 5" blooms late summer through fall. Great for hedges and cut flowers. Height: 5-7'.

03500 Organic seed: 50 sds \$3.73; 250 sds \$9.72.

Gold Rush

This early bloomer flowers quickly, producing numerous branches of perfect golden orange flowers with a rich dark disk. Branching. Height: 4-6'.

23239 Raw seed: 50 sds \$5.50; 250 sds \$8.69.

Goldy Double Organic

Large 6-10" fluffy flowers open up semi-double, then mature to fully double heads of golden orange petals. Plants produce multiple stems for many cuts with extended vase life. Height: 5-6'.

22574 Organic seed: 50 sds \$4.60;

250 sds \$11.37.

VINCA

Heat loving annual vinca is a great alternative for impatiens when you're dealing with full sun conditions. Large flat flowers with overlapping petals cover glossy green foliage for colorful displays! An excellent annual for both garden beds and planters. Start indoors 4-6 weeks before last frost then transplant to garden beds or pots.

MEGA BLOOM® Orchid Halo

Bright rich purple w/wide white eyes, Mega Bloom is a new series, born of two AAS winning vinca, bred to withstand heat and humidity with huge 3" blooms! These flowers present an eye-catching look in the garden, even from a distance.

23360 Untreated seed: 25 sds \$4.83;

250 sds \$31.36.

Tattoo™ Series

A fun, bold, color-rich series, Tattoo is, without a doubt, the most unique vinca on the market today. Offering the well-branched floriferous plants you expect from PanAmerican breeding, each petal looks as if it has been inked or airbrushed with soft black brush strokes.

23573 Black Cherry: swirls of cherry/raspberry

24083 Orange: medium orange

23555 Papaya: soft 'orangesicle'

23556 Raspberry: deep raspberry to soft rose

23574 Tangerine: tangerine blooms with bright eye

Untreated seed: 25 sds \$4.25; 250 sds \$22.30.

WILDFLOWERS

Add a touch of color to large areas while providing a natural habitat for bees and other beneficial insects. Wildflowers are ideal for displays and are a prime choice for sowing alongside roadways, spray paths, ditch banks, or hedge rows to prevent erosion. Maximum planting rates are based on 120-140 seeds per square foot (8 to 24 pounds per acre) and are recommended when adequate soil preparation and weed control are not possible, or when maximum color is required. Visit www.harriseseeds.info/Wildflowers for more details and more mixes.

Cut Flower Mix

Looking for a great display or easy you-cut rows ideal for any vase! This mix stood out in trials with a mix of annuals and perennials including clarkia, dianthus, echinacea, gypsophila (baby's breath), larkspur, poppies, rudbeckia and much more. Flowers will provide color throughout the growing season. Plant at 10-20lbs per acre.

24097 Raw seed: ¼ lb \$19.12; 1 lb \$55.92.

Midwest Mix

A great mix of annuals and perennials for ornamental landscaping in the midwestern U.S. IL, IN, IA, Eastern KS, KY, MI, MN, MO, Eastern NE, OH, WI. Flowers will provide color throughout the growing season. This mixture contains native species as well as non-native species that are adapted to the region. Mix includes different species of aster, centaurea, chrysanthemum, coreopsis, echinacea, gaillardia, gypsophila, liatris, lupinus, papaver, penstemon, rudbeckia, and more.

21998 Raw seed: ¼ lb \$20.66; 1 lb \$60.84.

Northeast Mix

A great mix of annuals and perennials for ornamental landscaping in the northeastern U.S. CT, DE, ME, MD, MA, NH, NJ, NY, PA, RI, VT, Washington D.C., VA, and WV. Flowers will provide color throughout the growing season. This mixture contains native species as well as non-native species that are adapted to the region. Mix includes different species of aster, centaurea, coreopsis, dianthus, echinacea, gaillardia, gypsophila, liatris, lupinus, papaver, penstemon, rudbeckia, and more.

21999 Raw seed: ¼ lb \$19.55; 1 lb \$57.76.

Southeast Mix

A great mix of annuals and perennials for ornamental landscaping in the southeastern U.S. This area includes AL, AR, northern FL, GA, LA, MS, NC, SC, TN and extreme eastern TX. Flowers will provide color throughout the growing season. This mixture contains native species as well as non-native species that are adapted to the region. Mix includes different species of aster, coreopsis, echinacea, gaura, gypsophila, linum, monarda, papaver, phlox, rudbeckia, salvia, verben, and more.

ZINNIAS FOR BACKGROUNDS AND CUT FLOWERS

Zinnias can be direct sown outdoors once all danger of frost is past. Or get a head start by sowing your seed inside about 4-5 weeks prior to transplanting outside. Because of their delicate roots, we suggest sowing the seed directly in Jiffy Peat products. Planting the pot/pellet directly into the garden once your transplants are ready avoids damaging the root system.

Benary's Giant Series ●

Our most popular zinnia of all, this superb series is an excellent choice for garden bed backgrounds or as a cut flower. Tall, sturdy plants produce large 3-4" blooms on strong stems. Height: 40", 12-16" spread.

03978 Untreated seed: 25 sds \$10.43; 250 sds \$50.71.

Profusion Series

Profusions are well known for their vibrant colorful abundance of big blooms. We've selected the most outstanding color choices for your garden enjoyment. Height: 12-18", 16-24" spread.

23747 Cherry Bicolor

23790 Red Yellow Bicolor 

23579 AAS Mix:  Cherry, Orange, Red, and White.

Untreated seed: 25 sds \$6.35; 250 sds \$25.69.

Zahara Series

A stand-out marvel in garden beds! Little garden maintenance is needed to enjoy large, brilliantly-colored blooms in both single and double flower form, from early summer through late fall. Height: 16-20", 16-20" spread.

23577 Double Bright Orange: Bronze-orange.

21892 Double Cherry:  Bright carmine red.

21046 Single Mix: Shades of 9 colors.

Film coated seed: 25 sds \$5.02;

250 sds \$20.49.

   **PROFUSION CHERRY BICOLOR**

   **ZAHARA DOUBLE BRIGHT ORANGE**

Staff Picks - Flowers

We asked three of our Product Managers—each deeply rooted in horticulture and hands-on growing—to share a few of their personal favorite flowers and vegetables for the season. These are the varieties they choose for their own gardens, selected for beauty, performance, and reliability. After all, who better to take inspiration from than the pros who live and breathe plants every day?"

CHRISSY

1. Nigella Miss Jekyll Mix Organic 23468: Nigella has found a forever home in my gardens. I love the mix of colors, the feathery foliage and the seed pods are stunning! The fresh blooms and seed pods make a perfect addition to bouquets. They're so unique and easy to grow. I sprinkle the seeds along the borders of my beds and have flowers throughout the summer.

2. Basil Cardinal Organic 20967: If you're looking for an easy to grow, aromatic flower you must try this Cardinal basil. The leaves are a bright, lush green and the flowers are a beautiful, deep maroon color. My garden smells divine and the bees absolutely love the flowers! You can cut whole branches for bouquets and, if you keep cutting, the plant will keep producing. I've had good luck direct sowing this in my garden but it's also easy to transplant.

ANGIE

1. Verbena Finesse 03702: Equally stunning in the garden as in a vase, Verbena Finesse is a must-have plant for my personal gardens. I place it throughout the landscape, where its slender foliage and stems fade into neighboring plants, leaving you with the illusion of vibrant purple blooms floating in midair. Flowers appear from early summer until frost, and their sturdy stems make them ideal for using in cut arrangements.

2. Calendula Bon Bon Apricot 24252: Every early spring I look forward to growing pots of Calendula near my front door. These large daisy-like flowers are so very cheerful when days can still be a bit grey. I feel like these beauties don't get acknowledged nearly enough for their tolerance to cooler temperatures. Calendula are easy to start from seed and quick to grow, rewarding you with showy, bold blooms.

KRISTEN

1. Zinnia Queeny Lime Red 22005: I love to grow my own cut flowers and fill my home with bouquets throughout the summer. Zinnias are my favorite, they are so easy to grow, you can get so many stems from each plant, and the pollinators love them! There are so many colors to choose from, but Queeny Lime Red is one I always include. It is beautiful in the garden and works with almost any color scheme in a bouquet. I also like that the color is still really lovely as the blooms fade.

2. Celosia Celway Mix 21930: Celosia is another cut flower that is easy to grow and will give you so many stems. It adds a unique texture to bouquets, and Celway Mix has beautiful, deep jewel tones that I love. I have a lot of success with starting the pelleted seeds, and because they have colored stems I can be sure I save each unique color when thinning the seedlings.

NIGELLA MISS JEKYLL MIX ORGANIC

ORNAMENTAL BASIL CARDINAL ORGANIC

VERBENA - BONAREINSIS FINESSE

CALENDULA BON BON APRICOT

ZINNIA QUEENY LIME RED

CELOSLIA CELWAY MIX

Perennials

ASCLEPIAS - SILKY GOLD

ECHINACEA - CHEYENNE SPIRIT MIX

ECHINACEA POWWOW WILD BERRY

ASCLEPIAS - SOULMATE

ASCLEPIAS

Silky Gold

A must for all pollinator gardens, Asclepias prefers a warm, dry location. While the striking colors of this tropical milkweed attract many pollinators and beneficial insects, it's critical to cut back the foliage of plants grown in warmer climates—where it doesn't go dormant—in late Fall. This helps prevent disruption to the Monarch butterfly's migration and also reduces the spread of a parasite that specifically harms Monarchs. Height: 24-28", 10-12" spread.

20437 Untreated seed: 250 sds \$10.30; 1M sds \$29.42.

Soulmate

Common name: Milkweed. Tall stems with stunning deep rose clusters of bloom, this swamp milkweed attracts pollinators and has a great vase life. A must-grow for any cottage garden. Height: 32-48", 20-24" spread. Look for Swallowtail and Monarch caterpillars in the summer!

24109 Untreated seed: 250 sds \$11.40.

DELPHINIUM

Aurora Mix F1

A formula mixture of blue, lavender, purple, and white shades. Finishes 15-17 wks. Zones 3-7. Height: 30-42", 10-12" spread.

20821 Raw seed: 25 sds \$15.53; 100 sds \$39.95.

DELPHINIUM - AURORA MIX F1

ECHINACEA

Cheyenne Spirit Mix

Common name: Coneflower. A popular native plant for its adaptability. It can take a variety of soil types and can thrive in full sun to half shade. This All America Selections award winning echinacea mixture blooms with sought-after shades of red, orange, purple, scarlet, cream, yellow and white. Superior genetics creates highly branched plants, putting on more flowers per plant than ever before and providing high color impact. Flowering first year from seed, Cheyenne is deer proof, essential for pollinators, and comes back stronger every year. Color: Shades of red, orange, purple, scarlet, cream, yellow and white.

22467 Untreated seed: 10 sds \$8.61; 100 sds \$46.16.

PowWow Wild Berry

Common name: Coneflower. PowWows are quicker to flower than any other seed Echinacea. Add a highly basal-branching plant habit that is genetically short, and you have a winner. That is exactly what happened with PowWow Wild Berry, which achieved a prestigious All America Selections award for both outdoor performance and amazing color. Best yet, plants flower first year approximately 20 weeks from sowing, with the rapid and uniform flowering occurring at 14 hours of light. Deer proof and loved by pollinators. Color: Deep rose-purple.

21891 Untreated seed: 25 sds \$13.29; 100 sds \$26.25.

GAILLARDIA - ARIZONA SUN

GAILLARDIA - MESA PEACH

HIBISCUS LUNA MIX

GAILLARDIA - MESA RED

GARDENER FAVORITE

LAVENDER - HIDCOTE

GAILLARDIA

Arizona Sun

Common name: Blanket Flower.

Gaillardia is an excellent choice for perennial beds. Arizona Sun flowers first year from seed, are early to bloom, and continue to produce flushes of blooms throughout the summer and well into the autumn. A great choice massed in landscape but also looks great in pots and mixed containers. The Arizona Gaillardia series thrives in hot sun, giving it mass appeal. Color: Red-orange and yellow bi-colored flowers.

20027 Film coated seed: 50 sds \$6.30;
250 sds \$17.21.

Mesa Series

Common name: Blanket Flower. Hybrid Mesa delivers a uniform habit with more flowers than typical open pollinated varieties - a trait that has been consistently demonstrated in our trials. Gardeners love the lovely, soft, non-fading color all season long, and the inherent drought tolerance. Because Mesa is a first year flowering perennial, it is an excellent choice for mixed containers, gardens, and landscapes. Blanket Flowers are pollinator magnets and deer resistant.

22673 Mesa Peach

23190 Mesa Red

Untreated seed: 100 sds \$14.94;
500 sds \$66.15.

HIBISCUS

Luna™ Mix

The large 6 to 8" saucer-shaped flowers of this Hibiscus series attract everyone's attention. Because of the striking blooms, it is ideal for both containers and perennial beds. The plant habit also makes a great perennial hedge that return year after year in a blaze of showy color.

20700 Untreated seed: 100 sds \$53.18;
500 sds \$235.05.

LAVENDER

Hidcote

A long-time favorite, Hidcote Blue is now available with high-quality, reliable seed. Attractive, tiny, purple-blue flowers contrast with the grey-green foliage, forming attractive evergreen clumps. Their scent is heavenly, and attracts pollinators for miles. Hidcote is used for perennial gardens, rock gardens, and as potpourri. Extremely drought and deer tolerant.

09597 Untreated seed: 500 sds \$8.71;
1M sds \$16.16.

LEUCANTHEMUM

Crazy Daisy

Creamy white petals, some quilled, envelop a sharp contrasting yellow eye, giving an overall fluffy appearance to the 2-1/2" blooms.

03808 Untreated seed: 500 sds \$17.95;
1M sds \$33.42.

LUPINE

Russell Mix

Russell Mix Lupine gives beds a wow factor with showy flowers on spikes in a well rounded color range. Makes a unique cut flower as well. Colors can show up in shades of white, yellow, pink, orange, red, salmon, lavender, blue, purple, and bicolors.

02810 Untreated seed: 50 sds \$2.71;
500 sds \$11.40.

POPPY

Champagne Bubbles Mix

Large 3-5" cup-shaped flowers top bushy, strong-stemmed plants. Iceland poppies are the best for cuts, offering tissue paper-like blooms. In areas with high heat, grow as an annual, as they prefer cool temperatures. Mix contains shades of white, orange, pink, red, and yellow.

09628 Untreated seed: 250 sds \$8.00;
1M sds \$27.24.

LEUCANTHEMUM - CRAZY DAISY

LUPINE - RUSSELL MIX

POPPY - CHAMPAGNE BUBBLES MIX

PRIMULA - LIGHTHOUSE MIX F1

VERBENA - BONAREINSIS FINESSE

RUDBECKIA - GOLDBLITZ

VERBENA - VANITY

SALVIA - NEW DIMENSION BLUE

PRIMULA

Lighthouse Mix F1

Primula is primarily sold as a pot crop and in garden beds. Colorful flowers are held on sturdy stems above the foliage.
23979 Untreated seed: 100 sds \$17.49;
500 sds \$77.40.

RUDBECKIA

Rudbeckia, also known as Black Eyed Susan, can be started indoors or direct sown in fall or early spring. We like to consider them a hardy, perennial, USA-native zinnia alternative, as they make for attractive mass plantings and cut flowers that are tolerant of poor soil and drought conditions. Loved by pollinators and deer proof, they offer beauty, aid native biodiversity, and are tougher than old boots.

Goldblitz

When gardeners dream of black-eyed Susans, this standard perennial is the plant they see. Great in gardens, backs of borders, and even in large containers. Height: 24-28"
24078 Untreated seed: 25 sds \$8.30;
100 sds \$20.48.

SALVIA

New Dimension

Common name: Sage. Compact, well-branched finished plants bloom as a first year flowering perennial, with the long lasting blooms going strong throughout the summer. Extremely tough and drought tolerant, deer proof, and beloved by pollinators. Lightly scented.
 21983 Blue
 21984 Rose
Treated seed: 250 sds \$14.74.

VERBENA

Bonariensis Finesse

Common name: Vervain. Farmers and gardeners alike enjoy growing Verbena Bonariensis perennials from seed. An abundance of magenta-purple blooms covers tall plants of this well-known perennial Verbena species. They bloom best with ample sunshine, steady moisture and they can grow up to 4 feet tall and bloom from mid-summer until the first fall frost.
03702 Untreated seed: 250 sds \$9.08;
1M sds \$26.96.

Vanity

Common name: Vervain. Well known as a perennial for whimsical gardens or wild landscapes, it's also used for accent fillers in bouquets and delicate arrangements. It's not every day we see a new variety of a classic cottage garden plant but Vanity is one to wow! Not only does this type of verbena create a pollinator paradise in your garden, but also the compact habit makes it sturdier and easier to maintain. Deep blue/purple flowers are 1-1.5" across and attract butterflies and hummingbirds. Vanity prides itself on performing well in hot dry conditions while remaining a showy garden plant.
24081 Untreated seed: 50 sds \$2.79;
250 sds \$13.28.

SALVIA - NEW DIMENSION ROSE

Decorative Foliage

 **FLARE ROSE F1**

 **LUCIR WHITE F1**

 **CRANE FEATHER QUEEN F1**

 **YOKOHAMA MIX F1**

ORNAMENTAL KALE CUT FLOWER COLLECTION

For a spectacular and unexpected display of shape and texture, try these tall ornamental kale varieties, ideal for "winter roses". Great for seasonal gifting and mixing with autumn bouquets! This collection gives you 50 seeds each of the following: **Crane Pink, Red and White.**

23845 Untreated seed: \$14.38;
Get 2 for \$13.66 ea.

 **CRANE PINK, RED AND WHITE**

KALE, ORNAMENTAL

While Kale is generally known as a crunchy, edible foliage, it is also loved for its fall and winter decorative value.

Decorative Kales can be used in seasonal flower arrangements and to update your garden displays when summer annuals fade away. Kales put on a fun color show, too, changing shades when the temperature falls below 55 degrees. Height: 20-36", 4-6" spread.

Flare™ Rose F1

Flare Rose Kale will add delightful, unique, and surprising florets of mint-green and purple foliage to your cool season bouquets and arrangements. Their delicate ruffled edges and long stems make them the perfect "cut flower" kale.

23523 Untreated seed: 100 sds \$14.82;
500 sds \$65.60.

Crane Feather Queen F1

The unusual feather-leaf cut texture brings a contemporary flair.

23210 Untreated seed: 100 sds \$15.55;
500 sds \$68.70.

Lucir White F1

Similar leaf style of the Crane Series with a glossy leaf.

21957 Untreated seed: 50 sds \$13.86;
100 sds \$24.27.

Yokohama Mix F1

The fringed leaves of Yokohama are extra curly, presenting an attractive and unique look to these compact plants. While the center of the leaves turn color under cooler temperatures, the outer edges remain a medium to dark green. A great option for "filler" in mixed containers.

23324 Untreated seed: 50 sds \$4.11;
250 sds \$9.66.

ORNAMENTAL KALE FRILLY LEAF COLLECTION

Add texture, depth, and color to your fall and winter arrangements with these lovely, whimsical Frilly Leaf Kales. This collection gives you 50 seeds each of **Nagoya Red, Rose and White.**

03848 Untreated seed: \$9.66;
Get 2 for \$9.18 ea.

 **NAGOYA RED**

 **NAGOYA ROSE**

 **NAGOYA WHITE**

ORNAMENTAL KALE FLAT LEAF COLLECTION

Refresh your summer annual pots and garden edges with a splash of cool season color. These three flat leaf ornamental kale varieties are terrific to mix in combo baskets with each other and other kale varieties, too. This collection includes 50 seeds each of the following: **Pigeon Purple, Red, and White.**

22260 Untreated seed: \$12.78;
Get 2 for \$12.14 ea.

DICHONDRA - SILVER SURFER

DICHONDRA

Silver Falls ●

Silver stemmed plants with striking small rounded silver leaves can grow up to 4 feet long. Silver falls makes dramatic spiller for window boxes. Height: 2-3", 36-48" spread.

02371 Untreated seed: 25 sds \$9.53;
100 sds \$33.21.

Silver Surfer™ ●

This is a wonderful seed option to add high value interest to your hanging baskets and combination containers. Dichondra Silver Surfer is a vigorous grower, trailing up to 60 inches long. This "spiller" presents a clean, glossy silver hue with textural interest. Additionally, it is an amazing low maintenance annual groundcover, perfect for garden borders. Height: 2-4", 10-12" spread.

24256 Film coated seed: 25 sds \$9.95;
100 sds \$25.95.

EUCALYPTUS

This popular Australian native plant is suitable for cut flower gardens and for great thrillers in a mixed container. Its bright, refreshing scent lends itself to bouquets with scentless flowers. Stems are long lasting and leaves are slightly fleshy to the touch

Silver Dollar

This silvery-grey foliage has rounded leaves on long strong branches. Extremely heat and drought tolerant.

24142 Untreated seed: 50 sds \$6.90;
250 sds \$25.74.

 **EUCALYPTUS - SILVER DOLLAR**

ORNAMENTAL HERBS

The benefit of a pleasing scent is often overlooked when considering mixed containers and even bouquets. Adding the visual beauty and enchanting aromas of ornamental herbs to the pots and beds near your sitting areas will create a welcoming atmosphere for you and your garden guests!

Basil Cardinal Organic

We are quite taken with this unusual organic basil, with its nice contrast between dark green leaves and maroon rosettes. The plants are well-branched, so you can take a number of cuts per plant for bouquets. Cardinal has exhibited a fine vase life in which the aroma of fresh basil lightly permeates the room..

20967 Organic seed: 50 sds \$2.44; 250 sds \$5.95.

Oregano Kirigami

This eye-catching, non-culinary oregano features large purple-green bracts, itty-bitty rose flowers, and light green foliage. Ideal as a decorative patio plant, with a delicious fragrance to attract pollinators as a spiller in containers and hanging baskets or ground cover in borders and rock gardens.

23334 Untreated seed: 100 sds \$10.20;
500 sds \$45.20.

Ken-Bar®
products for the grower

Made in the USA

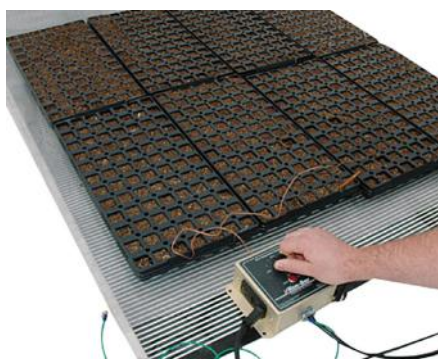

Harris Seeds's premier partner for greenhouse supplies!

*Harris Seeds is excited to offer Ken-Bar growing products.
A member of the GTI-family of brands, Ken-Bar brings over 40 years
of industry experience to our growing supplies lineup.*

*With a commitment to quality and outstanding customer service, Ken-Bar
offers American-made equipment and supplies to growers of all sizes.*

*Specializing in seed germination and greenhouse ventilation, Ken-Bar manufactures
its own line of custom Convection Tubing, Agritape Heat Mats, and High Tunnel Greenhouse
Vents – all assembled right here in the USA.*

Ken-Bar Agritape Seed Tray Heaters

*Professional-grade and fully
customizable, featuring efficient,
uniform heating for seed starts
and transplants.*

Row Covers and Support Wires

*Extend your growing season and
protect your late crops with our clear
poly row covers. And our 76" or 54"
support wires can be used to support
your low tunnels!*

Ken-Bar Convection Tubing

*Trusted by greenhouse growers
across the nation. Offering complete
customization to meet your heating,
cooling, and airflow needs.*

* Look for the Ken-Bar logo () in our supplies selection to view our current offerings.

* For custom-order and made-to-spec items we encourage you to visit ken-bar.com/directly.

JIFFY PELLETS AND PELLET SHEETS

Organic Jiffy-0 Pellets and Pellet Sheets

One of your favorite transplantable growing mediums is now available organically! The new OMRI listed Jiffy Pellets and Pellet Sheets are available for organic and controlled environment growers. You can use these to transplant into hydroponic, aquaponic, and aeroponic systems. The Pellet Sheets lightweight plastic sheets hold the pellets in a grid formation while in use. Since the Jiffy pellets are locked into the sheet, they stay put when water is added. Each insert measures 10"W x 20"L, and perfectly fit into our 1020 trays and 11"W x 22"L Permanest trays. Loose bulk pellets are also available in the 36mm and 42mm sizes.

30mm pellets expand to 2"H. 105 pellets per sheet.

36mm pellets expand to 1 $\frac{1}{3}$ "H. 72 pellets per sheet.

42mm pellets expand to 1 $\frac{1}{2}$ "H. 50 pellets per sheet.

FlexiPlugs

FlexiPlugs are the ultimate solution for easy and efficient propagation. These versatile plugs provide a convenient medium for starting seeds and rooting cuttings. Each FlexiPlug provides a balanced combination of moisture retention and aeration. The flexibility of the plugs allows for easy insertion and removal of seedling or cuttings. The roots can penetrate the plug easily, promoting strong and healthy root growth. They can be used in seedling trays, propagation trays or other suitable containers. Plugs dry measurements are approximately 1.5" deep and .5" across for the 23X40 and the 135B measure 1.25" across and 1.5" deep.

Pop and Grow Flexiplug Complete Kit

This complete multipurpose kit makes it super easy for you to start your seeds, propagate your favorite plants, or grow in your hydroponic systems. When starting seeds, simply drop the plugs in a container of water until fully moistened and then plug them into the enclosed tray for planting. Add your seeds in the pre-dibbled holes and cover them with the dome. Place the trays and dome under supplemental light and maintain constant moisture until seedlings emerge, then remove the dome and water regularly until the seedlings are ready to pot up into bigger pots or move into your hydroponic system. Kit contains 200 cell tray, a plastic no drainage tray, a clear plastic dome, and 200 dried FlexiPlugs.

JIFFY 'POLY-PAKS' SQUARE POT HANDLING SHEETS

JIFFY STRIPS - LARGE 3"

JIFFY POTS

For starting single plants.

Grow earlier vegetables and flowers by starting them in biodegradable Jiffy Pots. At transplant time, plant the whole pot into the garden. Roots are not disturbed, which encourages vigorous, sustained growth rather than checking or wilting. Choose larger pots for large, fast-growing vegetables like pumpkins or squash. Jiffy Pots are ideal when planting just a few of each variety for flower boxes or vegetable beds.

Jiffy 'Poly-Paks' Square Pot Handling Sheets

Convenient Jiffy Poly-Paks are a real time saver! Individual square pots are pre-loaded into a thin plastic handling sheet, which may be placed into a 1020 carrying tray.

Medium 2"W x 3"D Handling Sheets

04128 Jiffy Poly-Pak (50 per, 150 pots) 3ct. **\$22.95**

Large 3½"W x 4"D Handling Sheets

04126 Jiffy Poly-Pak (18 per, 54 pots) 3ct. **\$24.95; 2@ \$22.95 ea.**

JIFFY STRIPS

No transplant shock.

Fill these versatile peat strips with your favorite planting medium and experience the convenience of easy seedling/cutting handling. Break the strips apart into square pots for quick garden planting with no transplant shock. This time-tested product supports stocky plant growth.

1¾" pot - 1¾" diam. x 2"H, 12 pots per strip
2¼" pot - 2¼" diam. x 3¾"H, 12 pots per strip

Small to Medium Jiffy Strips

04155 1¾" Strips (12 per, 144 pots) 12ct. **\$23.95; 2@ \$22.95 ea.**
04157 2¼" Strips (12 per, 144 pots) 12ct. **\$18.95; 2@ \$18.25 ea.**

Large 3" Jiffy Strips

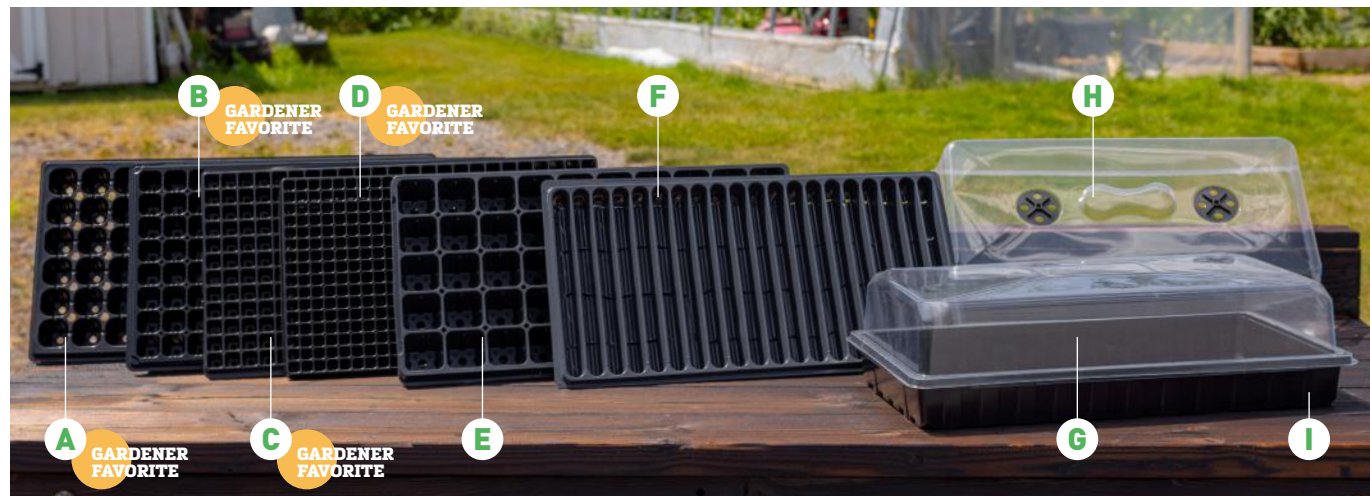

These large square pots are sold in strips of 6 each and are joined together for convenient placement into your growing trays. Recommended for large vegetable and flower transplants, they provide for a large healthy root system for better garden performance. Each pot measures 3"W x 3"D and is easily separated when transplanting into the garden.

04119 3" Strips (6 per, 72 pots) 12ct. **\$20.95**

JIFFY ROUND POTS

Great for individualizing single plants. These heavy duty, semi-rigid black plug trays allow you to easily separate species in one tray, reducing potential disease spread and for easy transplanting. Trays easily fit into our 1020 no-drainage trays and Permanest trays (lip of plug trays may rest on top of other trays so that cells are in the trays, but depending on cell size, the bottom of the cells may not touch bottom of tray. Width of cells measured from top of cell as cells taper.)

Tray measurements:

72 cell – 11"W x 21¼"L **128 cell** – 11"W x 21¼"L
288 cell – 10½"W x 20½"L **512 cell** – 10½"W x 20½"L

Cell measurements:

72 cell – 1½"W x 1⅞"D **128 cell** – 1½"W x 2"D
288 cell – ¾"W x 1"D **512 cell** – ¾"W x 1⅝"D

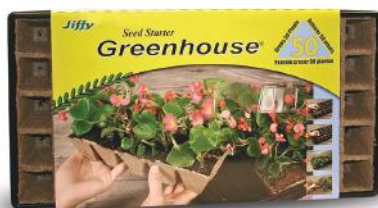

- A Plug Trays 72 Cell** ●
41948 5 ct. \$19.95
- B Plug Trays 128 Cell** ●
41949 5 ct. \$19.95
- C Plug Trays 288 Cell** ●
41950 5 ct. \$19.95
- D Plug Trays 512 Cell** ●
41951 5 ct. \$19.95

E 50 Cell Plug Tray

With its large 1⅞"W x 2½"D cells, this plug tray is for growers who wish to produce larger transplants. Great for vegetable or cut flower transplants, the cells are large enough so transplants do not get root bound. Trays are sturdy and a grower should get several seasons of use with proper care. Tray measures 11½"W x 22½"L.
40783 Tray 50 Cell 5 ct. \$20.95

F 20 Row Germination Tray

A great way to sow different seed varieties in a small space! These 20-row, heavy duty semi-rigid black germination trays allow you to easily sow and label up to 20 varieties in one tray. Separate rows also reduce potential disease spread and for easy transplanting. Simply lift out each row of seedlings as they reach transplanting size. Measuring 11"W x 21¼"L x 1½"D, the trays are sturdy enough to wash and re-use.
04108 20 Row 5 ct. \$32.95

JIFFY STRIPS-N-GREENHOUSE KIT

Jiffy Strips-n-Greenhouse Kit

This handy greenhouse kit contains fifty 1-3/4" square cells in Jiffy-Strips, as well as an 11" x 22" reusable tray and dome made from recyclable plastic. The pot strips are 100 percent biodegradable and made of Canadian sphagnum peat moss and wood pulp. Pots can be directly planted into the soil to reduce transplant shock.

41365 Jiffy Strips Greenhouse Kit \$15.50

Clear Propagation Dome for 1020 Flat

Designed to fit standard trays, these domes create an ideal microclimate for rapid germination and healthy growth. Measures 11"W x 22"L.

- G 42012 3.5" Dome 6 ct. \$23.95**
- H 42013 4" Vented Dome 6 ct. \$34.95**

1020 No Drainage Plastic Carrier Tray

Compatible with various growing mediums, these trays give you the flexibility to nurture a wide array of plants. Measures 11"W x 20 3/4" L X 2"D.

- I 42011 No Drainage Tray 6 ct. \$16.95**

JIFFY GREENHOUSE PELLET KITS

Jiffy Greenhouse 50 ct Regular Pellet Kit

Each kit comes with a 2 ¼" tall dome and the tray measures 2⅞"H x 11.1"W x 21.5"D. Regular Pellets measure 1⅞" wide by 2⅞" tall when expanded.

41369 50 ct Regular \$17.50

Jiffy Greenhouse 72 ct Medium Pellet Kit

Jiffy's Greenhouse Pellet Kits provide gardeners a great option to start their vegetable and flower transplants. Each kit comes with a 2 ¼" tall dome and the tray measures 2.1/8"H x 11.1"W x 21.5"D. Medium Pellets measure 1 ¼" wide by 1 5/8" tall when expanded. 72 count.

41367 72 ct Medium \$16.50

Jiffy Greenhouse 36 ct Super Size Pellet Kit

Jiffy's Greenhouse Pellet Kits provide gardeners a great option to start their vegetable and flower transplants. Each kit comes with a 2 ¼" tall dome and the tray measures 2.1/8"H x 11.1"W x 21.5"D. Super-Size Pellets measure 2" wide by 3 1/4" tall when expanded. 36 count.

41371 36 ct Super \$18.50

SEED STARTING & SOIL MIXES

Organic Mechanics Seed Starter Mix

Formulated for optimal seed germination and provides 4+ weeks of fertilization power. Mix holds moisture, yet drains well for healthy root growth. Start your vegetables, herbs, annuals, and perennials seeds in seedling flats, small fiber pots, or any container for planting seeds. Mix contains coconut coir, pine bark, rice hulls, worm castings, and an OMRI-listed organic fertilizer.

41149 Seed Starter Mix 16 qt. \$22.95

Jiffy Seed Starting Mix

Jiffy Mix is an optimum blend of Canadian sphagnum peat and vermiculite that can be used for seed starting, cutting propagation, and transplanting. The blend's pH is 5.5 to 6.2. Each 2.8 cu. ft. bag fills approximately 15 x 1020 flats.

04035 Jiffy Mix \$34.95

Professional Formula Seed Starter Mix

This high quality lightweight mixture of sphagnum moss and horticultural vermiculite is used by many commercial bedding plant producers. This mix is especially easy to moisten, drains well, and holds proper moisture.

04029 Seed Starter Mix 8 qt. \$14.95

04028 Seed Starter Mix 20 qt. \$21.95

GROW TENTS

3-Tier Walden Grow Tent

Designed for the professional plant hobbyists that want to get out of growing in dark basements. The sturdy, adjustable shelving system provides growers with 24 ft² of grow space. Comes with three 47½" x 24" shelves, five 6" ducting ports, two 4" electrical ports, three roll-up mesh air vents, two fan/filter straps, and a removable spill tray. Manufactured using industrial-strength zippers and 100% EcoWhite PEVA material. The toxin-free material creates a safe, stylish and easy to clean growing area that keeps insects and other pests out. Triple-layer design is made of a 600D canvas exterior, a vinyl light-blocking center and a white vinyl interior that is 10% more reflective than the most reflective mylar tents. Extra-large front viewing windows (18½" x 50") let growers check on plants. 2-year manufacturer's warranty.

41946 3-Tier Walden Grow Tent

SOIL CARE

SOIL MOIST PLUS POLYMER 7-7-7

Soil Moist Plus Polymer 7-7-7

Soil Moist Plus 7-7-7 granular is a synthetic acrylic water storing polymer blended with an 8-9 month timed release 7-7-7 fertilizer. It is a safe, non-toxic polymer used in all horticultural and landscape applications. When used according to the application rates, Soil Moist Plus 7-7-7 will reduce irrigation frequency by up to 50% and last 3-5 years in the soil. The fertilizer is effective in the soil for 8-9 months at 70°F. 8 oz. package treats up to 72 6" pots.

40583 8 ounces \$9.95

SOIL MOIST NATURAL

Soil Moist Natural

Soil Moist Natural is a grafted starch polymer derived from corn that is designed to reduce plant waterings by 50% and last in the soil for an entire season. Soil Moist Natural is completely safe and biodegradable like our other Soil Moist polymer products. Soil Moist Natural will hold several hundred times its weight in water, and readily releases it back to the plant as the soil dries out. 3 oz. package treats up to 115 6" pots.

41974 3 ounces \$6.95

GROW POTS

PLASTIC GROW BAGS

Plastic Grow Bags

The low-cost alternative to rigid plastic pots!

Made from a specially formulated plastic that provides a longer life than any other on the market, these grow bags are ensured to hold up all season. The bags have pre-punched holes for easy draining and stand upright when filled with media. They are ideal for tomatoes, bell peppers, cucumbers, and more. New color, same quality! Now sold in white.

Jump Start Digital Thermostat

This economical thermostat helps provide constant optimum temperatures for specific crops. Thermostat features water-resistant stainless steel temperature probe, controllable temperature range of 68-108°F degrees, LED indicator, and 3-prong grounded plug. Compatible with all Hydrofarm heat mats.

41883	Jump Start Digital Thermometer	\$46.95
-------	--------------------------------	---------

Proper soil temperatures are key to successful germination.

One of the main reasons many people are unsuccessful starting seed is due to soil temperature. In general, most flower and vegetable seeds like soil temperatures in the 70-75°F range. While some think their seed starting area is warm enough to germinate seed, soil temperature tends to run approximately 5°F lower than air temperature and can be too chilly for germination. To achieve the necessary soil temperatures for proper seed germination, provide additional and controlled bottom heat through heat mats. For most seeds, soil temperatures should be kept at constant temperature and vary little over the germination period. Drops in soil temperature during nighttime hours can cause lower germination rates and a prolonged germination period.

CONTROLLERS

COMPATIBLE WITH AGRITAPE HEAT MATS

Precise Thermostat

Best low cost thermostat on the market!

This quality thermostat is based off of the thermostat used in Ken-Bar's Precise Heat Mats, giving growers a lower cost option for a quality thermostat without having to step down to a less dependable model. Controller features a heavy duty plastic housing, copper probe, is adjustable from 40-100°F, **handles up to 40 sq. feet**, and has one receptacle.

70090	Thermostat	\$109.95
-------	------------	----------

Ken-Bar AT Thermostat Controllers

Heavy duty aluminum-housed controllers allow you to select desired soil temperature from 40-100°F as measured with a copper sensor probe. The **medium controller handles up to 40 sq. feet** of material. The **large controller handles up to 100 sq. feet** of material. Built for years of use and comes with a manufacturer's 1 year warranty.

Exceed Pea and Bean Inoculant

This effective inoculant provides the proper live bacteria for many legumes, helping them form nodules that take nitrogen from the air and enrich the soil. By converting nitrogen into a plant-available form, plant growth is enhanced. For peas, beans, lima beans and legumes. 1½ oz. package treats 8 lbs. of seed. 6 oz. package treats 50 lbs. of seed.

04645 Exceed Inoculant 1.5 oz. \$7.95

41135 Exceed Inoculant 6 oz. \$10.95

Exceed Pea, Vetch and Lentils Organic Inoculant

Exceed pea inoculant is a naturally occurring Rhizobium that forms nodules on the roots of the plant and converts atmospheric nitrogen to a form that the plant can use. This inoculant guarantees a minimum of 200 million (2 x 10⁸) viable cells of Rhizobium leguminosarum per gram. 5 oz. package treats up to 100 lbs. of seed. OMRI Listed for organic production.

41840 Exceed Inoculant 5 oz. \$10.95

Sea Magic

A nutrient-packed boost!

Sea Magic promotes greater nutrient uptake, resulting in better root production, greener plants, and some pest and disease resistance. Simply dissolve in water and apply to plants every 2-3 weeks. 1 oz package makes 64 gallons.

40653 1 oz. Package \$10.95

40654 8 oz. Package \$24.95

Neptune's Harvest Fish & Seaweed Fertilizer

Fertilizes & promotes strong root growth

This 2-in-1 product ensures a complete fertilization program that includes a blend of both fish hydrolysate and seaweed. Gardeners have reported increased yields and improved shelf life on fruits and vegetables. Guaranteed analysis of 2-3-1. 1 quart bottle makes 32 gallons.

41057 Fish & Seaweed Fertilizer 1 qt. \$24.50

Neptune's Harvest Rose & Flowering Fertilizer

Uniquely formulated for flowering plants to increase their vigor during flowering and to increase the volume and density of buds that produce healthy, vibrant flowers. Made with fresh fish, molasses, yucca extract, seaweed, and humic acids, this fertilizer will ensure that your plants produce lush foliage and maximize their flowering ability. Guaranteed analysis of 2-6-4.

41621 Rose & Flowering Fertilizer 1 qt. \$23.95

Nutri-Cal®

Eliminate blossom end rot!

Nutri-Cal Liquid Calcium complex provides a unique delivery system which protects the calcium from forming an insoluble compound, enabling more efficient movement of calcium in the plant. Nutri-Cal replaces traditional lime products and will not burn the plant. Nutri-Cal also improves fruit firmness and storage quality, prevents calcium related disorders like blossom end rot, corking, fruit rot, hollow heart and more. 16 oz. of concentrate makes 5.3 gallons of foliar spray.

41047 Nutri-Cal 16 oz. Concentrate \$27.95

Sustane Complete 8-2-4 WDF

This water dispersible fertilizer provides a powdered mix of organic nutrients and bio-stimulants formulated specially to provide complete nutrition. WDF is specially formulated for superior hydroponic and fertigation-based nutrient management. Sustane Complete promotes greater root development, improves buffering against changes in pH, and is rich in humic acids. Mix 1 tbsp./gallon, or 1-2 lb./100 gallons.

41619 Sustane Complete \$15.95

Neptune's Harvest Organic Hydrolyzed Fish Fertilizer

Neptune's Harvest Hydrolyzed Fish Fertilizer is an organic fertilizer made from fresh North Atlantic fish. Studies have shown Neptune's Harvest to outperform chemical fertilizers with a guaranteed analysis of 2 - 4 - 1. 1 quart bottle makes 32 gallons.

41058 Fish & Seaweed Fertilizer, 1 qt. \$22.50

Neptune's Harvest Tomato & Vegetable Fertilizer

The perfect complete fertilizer for your tomatoes, vegetables and more. Made from fresh fish, seaweed, molasses, yucca extract, and humic acids, this formula was uniquely designed for plants with intense growth or "vegetative" stages. Gardeners have seen increased stalk/stem mass resulting in higher yields, vigorous strong root zones, lush foliage, and tolerance to various diseases, temperature and drought. Guaranteed analysis of 2-4-2.

41620 Tomato & Vegetable Fertilizer 1 qt. \$23.95

Sustane All Natural Fertilizers

These all natural fertilizers are made from a combination of biologically stable compost plus natural sulfate of potash and feather meal. Sustane increases the nutrient and water holding capacity of the soil, while strengthening plant tolerance against hot dry conditions. The Flower & Vegetable promotes a rapid rate of vegetative growth while the Lawn & Landscape provides 6-12 weeks of nitrogen in the organic slow release form. Sustane replenishes the soil with a rich supply of humus and all of the essential nutrients required for quality growth

SOIL TESTING

Ensure healthy soil for healthy plants!

Professional Soil Test Kits

Test your soil for best plant performance at home! Accurately and quickly test for pH, nitrogen, phosphorus and potassium with this all-in-one, professional quality kit.

40584 Small Soil Test Kit

Contains enough solutions for 10 tests of each type. \$25.95

Electronic Soil Test Meter

Flip the switch of this meter to "pH" or "Fertilizer Analysis," and insert the meter into the soil, indoors or out. Quickly measures pH on a 0 to 9 range, and reads the relative levels of nitrogen, phosphorus, and potassium (ppm) in the soil. 1 year warranty. Requires 1 AA battery.

05314 Soil Test Meter \$22.95

GARDENER FAVORITE

Electronic 4-Way Analyzer

Quickly test your growing conditions to ensure your plants are receiving the light and nutrients they need. Just by flipping the switch, you can measure sunlight, soil pH, moisture, and combined N-P-K levels. Full instructions included.

40218 Electronic 4-Way Analyzer \$26.95

Digital 3-Way Analyzer Meter

Quickly check soil fertility, pH, and temperature!

Proper soil conditions are critical for plant growth and development. For a quick, accurate measurement of your soil's pH, temperature, and general fertility, simply place the probe of this analyzer in your soil. After measurement, consult the detailed instructions on adjusting soil pH and fertility. 1 year manufacturer's warranty. Batteries included.

41017 Digital 3-Way Analyzer \$29.95

TRELLIS & SUPPORT

Heavy Duty Support Netting

Support your crops with our heavy duty plastic support netting. Trellis your beans and cucumbers vertically or lay flat as a cut flower netting. Strong enough to support heavy crops like melons and gourds while gentle enough not to damage delicate tendrils. This long-lasting, UV stabilized material is reusable, lightweight, and easy to install. Mesh size is 6"W x 6 1/2"H.

40905 67"W x 328'L

\$84.95

\$15.95

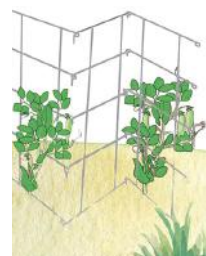

Cucumber Support Trellis

This A-frame style cucumber trellis allows you to make better use of your garden space while providing a straighter fruit and healthier plants. Trellising your cucumber plants up off the ground makes for easier harvest, but also

reduces insect and disease damage to the fruit and plant. Quickly unfolds for easy setup and for easy storage at the end of the season. Measures 48" tall and 42" wide.

41260 Support trellis

\$39.95

Folding Pea Trellis/Fence

Great for peas, cucumbers and other vining crops! Great for trellising peas and cucumbers, this long-lasting galvanized wire fence allows you to easily trellis and train your plants. The vertical growth allows

you use less space in your garden and allows for easier harvesting. The six panel fence quickly folds flat for easy storage at the end of the season. Two 7' long fences per package. The installed height is 39" and overall height is 48".

41259 Folding trellis

\$39.95

Trellis Netting

Ideal for peas, pole beans, sweet peas, morning glories, etc. Made of strong, high quality nylon, which lasts longer than string trellises. It's easy to hang and better than wire, protecting delicate tendrils from burning in the hot sun. The mesh is 7" size, making it easy to reach

through to harvest vegetables from one side.

05087	Black 4'W x 4000'L	\$267.95
05088	Black 5'W x 2000'L	\$239.95

TOMATOES

SRM Red Plastic Mulch

Increase tomato growth and yields up to 20% with the use of red plastic mulch. Results may vary depending on light availability. Mulch is 1.0 mil., embossed.

05074	SRM Red 4'W x 30'L	\$19.95
05077	SRM Red 4'W x 100'L	\$36.95
70027	SRM Red 4'W x 600'L	\$138.95

INSECT CONTROL

Metallic Plastic Mulch

Metallic plastic mulch is one mechanism to reduce detrimental pest populations. In a series of field tests, aphid populations, and the viruses they spread, were reduced on cucurbit crops (melons, squash and cucumbers). Silverleaf whitefly populations, and incidence of disease, was also reduced. The reflection from the silver color of this mulch seems to confuse certain insects and the light reflection disorients them. We suggest trialling metallic mulch first to see how it preforms in your area. Mulch is 1.25 mil., smooth.

70174	Metallic 4'W x 50'L	\$28.95
05039	Metallic 4'W x 600'L	\$129.95

WATER TIMER

Dramm Water Timer

This automatic water timer will shut off your irrigation and sprinklers after a preset duration to conserve water and prevent over-watering. Timer can be set to water for any length between 5 and 120 minutes. Fits all standard 3/4" garden hose fittings.

40207	Dramm Water Timer	\$18.95
-------	-------------------	---------

COOL-LOVING CROPS

White on Black Plastic Mulch

Lettuce, cauliflower, broccoli and other cool-loving crops will thrive in this dual-color plastic mulch. White-on-black mulch can result in a decrease in soil temperature up to 12 degrees. Mulch is 1.25 mil., embossed.

70183	White/Black 4'W x 50'L	\$21.95
40815	White/Black 4'W x 600'L	\$74.95

PLANT PROTECTORS

Extend the growing season with the use of plant protectors! Utilizing items that are hassle-free to set up and easy to use, help defend your plants against frost, wind, and insect damage.

Easy Garden Tunnels *Protect your plants from early or late season frosts!*

Made from UV-stabilized 5.9 mil. heavy-duty polyethylene, with thick gauge rust-proof galvanized steel hoops installed every 2'. It expands like an accordion and sets up in seconds. This garden tunnel has been tested to keep growing vegetation up to 25°F warmer than outside temperatures. Easy Garden Tunnel measures: 118"L x 17.7"W x 18"H (approx. 11"H when installed) and the Large Easy Garden Tunnel measures: 118"L x 23.6"W x 23.7"H (approx. 18"H when installed).

41228 Easy Garden Tunnel

\$26.90; 2@ \$25.95 ea.

41229 Large Easy Garden Tunnel

\$36.95; 2@ \$33.95 ea.

Easy Micromesh Tunnel

Protect your garden from insects!

These handy tunnels are made from ultra-fine .6mm mesh to allow light and water in while keeping insects out. Tunnels also feature thick gauge, rust-proof galvanized steel hoops installed every 2' that expand like an accordion and set up in seconds. Micromesh works great for keeping out insects like aphids, flea beetles, and cabbage moths, as well as protection from light frost. Easy Micromesh Tunnel measures: 118"L x 17.7"W x 18"H (approx. 11"H when installed) and the Giant Micromesh Tunnel measures: 118"L x 23.6"W x 23.7"H (approx. 18"H when installed).

41393 Easy Micromesh Tunnel

\$26.95; 2@ \$24.95 ea.

41394 Giant Micromesh Tunnel

\$37.95; 2@ \$35.95 ea.

Easy Fleece Tunnels

Easy Fleece Tunnels are made from UV-stabilized, 1.5 oz. heavy-weight polypropylene fleece with thick gauge, rust-proof galvanized steel hoops installed every 2'. It expands like an accordion and sets up in seconds. Simply stretch out the tunnel, pushing the hoops into the ground at the preset intervals and you're done! Easy Fleece Tunnels create warmth and insulation while allowing air, moisture, and sunlight to filter through. Tunnels form a complete barrier against frost and harsh weather while protecting against animals and other pests. Easy Fleece Tunnel measures: 118"L x 17.7"W x 18"H (approx. 11" H when installed) and the Giant Fleece Tunnel measures: 118"L x 23.6"W x 23.7"H (approx. 18"H when installed).

41222 Easy Fleece Tunnel

\$24.95; 2@ \$23.95 ea.

41223 Giant Fleece Tunnel

\$30.95; 2@ \$29.95 ea.

Wire Support Hoops

Use these versatile hoops to support row covers over delicate crops, or cover them with plastic to create a greenhouse tunnel. Simply insert one end of the wire 6" into the soil, bend it over your garden bed, and insert the other end into the soil. Made of #10 gauge wire.

70053 Hoops 54" 25ct.

\$69.95

05042 Hoops 76" 100ct.

\$166.95

Hotcaps

Set these individual waxed paper plant protectors over your plants for protection from wind, severe rains, and light frost, promoting earlier harvest and better production. Easily ventilated in warm weather. Used for a wide

range of crops including cucumbers, melons, tomatoes, etc.

Regular size: 11"D x 6"H. King size: 11"D x 9½"H.

05113 Regular 100ct.

\$110.95

05116 Regular 1000ct.

\$405.95

05112 King Size 100ct.

\$121.95

05114 King Size 500ct.

\$424.95

Kozy-Coat Plant Protectors

Be the first to have garden-fresh tomatoes, peppers, and other crops in your neighborhood! Place these protectors over your plants and fill the chambers with water. They ward off damaging cold temperatures as low as 10°F in tests. Heat is absorbed into the water-filled chambers during the day and is released to the inside section as the outside temperature drops.

04768 Kozy-Coats 6ct. \$33.95; 2@ \$32.95 ea.

Garden Staples

These garden staples easily hold down the edges for plastic, paper, and porous mulches, as well as row covers. A great alternative to weighing edges down by other means. Each staple measures 6" long and 1 ¼" wide. 20 staples/package.

40182 Garden Staples 20ct

\$10.95

Large Ground Stakes

Made of heavy duty plastic, these black ground stakes are great for securing any landscape fabric. Use them to hold plastic mulches in place or secure row covers against the wind. Stakes measure 7½" long.

40555 Ground Skates 25ct.

\$13.95

Sandbags

In addition to flood control, erosion control, and increased traction on icy roads, sandbags are excellent for securing row covers and films at your farm or greenhouse. Made from woven polypropylene that resists tearing and puncturing, they are UV stabilized to last longer in direct sunlight and come with a built-in tie for closing. Bags measure 14"W x 26"H.

41750 Bags 20ct.

\$19.95

Micromesh Blanket

Create an insect barrier around your plants! Micromesh provides the ultimate organic option for protecting your growing crops from pests and insects. Micromesh allows air and moisture to pass through so your plants stay healthy and well nourished. Even better, there is no need to remove it when watering or giving liquid feed, just apply directly through the mesh. The ultra-fine mesh is only .6mm, which is small enough to keep out beetles, worms, flies, and moths while also helping against flea beetles, aphids, and others smaller insects. Blanket measures 8'W x 8'L and can be cut to size.

41395 Micromesh Blanket \$15.95

Clip Its™

Clip Its are a quick and easy way to secure row covers, netting, tarps, and more. The clip area measures 1½" across and has 14 gripping pins. Simply push the two sides together through the material and secure through the tie down in the hinged area. Made from 100% recycled plastic.

41335 Clip Its 25ct. \$8.50

ROW COVERS

Frost and wind protection in spring and fall

AGRIBON AG-30

Agribon Row Covers

This light weight material can be used as a floating cover with or without support hoops. Row covers help protect against frost, wind, and insect damage. Polypropylene fabric is spun-bonded with UV stabilizers and comes folded in half, then rolled for ease of handling and shipping. Three weight options are available.

Agribon AG-15

This multi-purpose row cover is a lightweight grade cover that is excellent for light frost protection and insect control. It is a good choice for heat-sensitive crops as it minimally increases the temperature under it. The 0.45 oz./sq. yd. cover allows 90% light transmission and offers 2-3°F of frost protection.

41524 AG-15 118"W x 50'L \$29.95

41525 AG-15 118"W x 250'L \$98.95

Agribon AG-19

This multi-purpose row cover is a lightweight grade cover that is excellent for light frost, season extension, insect, and animal protection. The 0.55 oz./sq. yd. cover allows 85% light transmission and provides 3-4°F of frost protection.

41529 AG-19 83"W x 50'L \$26.95

41530 AG-19 83"W x 250'L \$75.95

Agribon AG-30

A medium weight grade cover that is excellent for frost, wind, season extension, insect, and animal protection. The 0.9 oz./sq. yd. cover allows 70% light transmission and provides 4-6°F of frost protection. The row cover can be used as a floating cover with or without support hoops.

41535 AG-30 83"W x 50'L \$36.95

41536 AG-30 83"W x 250'L \$97.95

HARVEST KNIVES

A Orange Handled Field Knife

Whether you're harvesting cabbage, trimming broccoli, cutting thick pumpkin vines, or dividing field-grown perennials, this knife can handle the task. The heavy duty 10" stainless steel blade is mounted on a bright poly-handle that won't get lost in the field.

40812 Orange Handled Field Knife \$17.50;
3 @ \$15.50 ea.

B Field Knife *A multi-purpose wonder!*

This 8" field knife is made out of the highest quality stainless steel and has many uses around your farm and greenhouse. Use to harvest thick stemmed pumpkins and squash, or use to split field grown perennials.

40540 Field Knife \$15.95; 3 @ \$14.95 ea.

C E Lettuce Knives

Two blades in one: Short 2½" blade for cutting through base of plant; long 7½" blade for trimming. 5" handle.

40014 Stainless Steel; Yellow Plastic Handle

40015 Carbon Steel; Wood Handle
\$15.95; 3 @ \$14.95 ea.

D F Broccoli Knives

7½" gently curved blade with 5" handle.

40012 Stainless Steel; Yellow Plastic Handle

40013 Carbon Steel; Wood Handle
\$15.95; 3 @ \$14.95 ea.

G Stainless Steel Hand Sickle

Trim berry bushes, woody shrubs, or small trees with this sturdy sickle. 6½" blade is lightly serrated and mounted on a bright plastic handle that is easy to find in the field. Both blade and handle meet requirements for food safety, making this sickle a good fit for farms and food processing operations.

40811 Stainless Steel Hand Sickle \$13.50;
3 @ \$12.50 ea.

H Small Field Knife

This 3½" stainless steel blade is strong enough to cut through the base of most plants. Use for jobs when you need a knife, but not a large blade. Use for opening bags of soil and seed or trimming stems and harvesting. Great quality at an affordable price!

40541 Small Field Knife \$7.95
3 @ \$6.95 ea.

I Grape Knife *Hooked blade protects fruit!*

This knife features a 3" stainless steel blade and a heavy duty plastic handle. The curved end of the blade allows you to get into tight spaces while harvesting without the worry of sticking or cutting the plant. Great for harvesting items like summer squash, melons, and peppers.

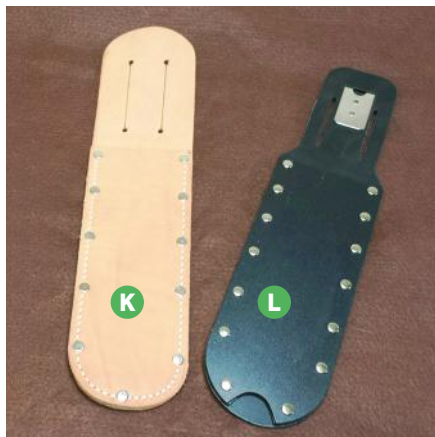

40542 Grape Knife \$8.25;
3 @ \$7.25 ea.

Knife Sheath

Each sheath can handle 8" blades and features two belt loop slits. The fine quality leather sheath works well with any of our knives. The black non-absorbent plastic knife sheath is also a great option for cleaning and sanitizing your sheath. Plastic sheath features a stainless steel metal belt clip that easily fits a 7¼" L x 2½" W knife blade.

K 40016 Leather Sheath \$15.95;
3 @ \$14.95 ea.

L 41189 Plastic Sheath \$12.50;
3 @ \$11.50 ea.

PLANT LABELS & MARKERS

Plastic Plant Labels

These rugged, weatherproof plain white 5/8"W plastic labels are of excellent quality. Mark on them with pencil, rubber stamps or the pen shown below. 250 labels per package.

04524	4"	\$17.95; 4@ \$16.95 ea.
04525	5"	\$18.95; 4@ \$17.95 ea.
04526	6"	\$20.95; 4@ \$19.95 ea.
04528	8"	\$21.95; 4@ \$20.95 ea.

Wooden Plant Labels

High quality, smooth wooden labels for use indoors or outside.

Mark variety names in seeding tray or individual pots.

04541	Stakes 4" 50ct.	\$7.95
		3 @ \$6.95 ea.
04542	Stakes 5" 50ct.	\$9.95
40762	Stakes 6" 50ct.	\$11.95
40763	Stakes 8" 50ct.	\$12.95

Harris' Marking Pens

Highly waterproof and fade-resistant for marking on wood, plastic, and metal labels. Environmentally friendly alcohol-based ink with a large ink capacity for long life. Marker features a 1.2 mm tip and the pen features a .8mm tip.

04551	Garden Marker	\$4.95
		3 @ \$4.25 ea.
41136	Fine Tip Marker	\$4.95
		3 @ \$4.25 ea.

INSECT CONTROL

A Captain Jack's Deadbug Brew®

Captain Jack's Deadbug Brew contains Spinosad, a product first isolated from a naturally occurring soil dwelling bacterium that was collected on a Caribbean island from an abandoned rum distillery. Deadbug Brew kills bagworms, borers, beetles, caterpillars, moths, loopers, leaf miners, spider mites, thrips and more! Use on ornamentals, fruit, vegetables, berries, citrus, grapes, and nuts. 32 oz. concentrate makes 16 gallons of spray. **Not available for sale in AK or HI.**

41130 Deadbug Brew 32 oz. \$29.95

B Active Eye Microscope

The Active Eye line of microscopes uses super-bright LED bulbs to illuminate your specimens with no eye strain. The lightweight construction allows you to bring the microscope into the field or greenhouse. Provides targeted, optimal illumination and features an adjustable zoom from 60x to 100x. Includes batteries and case.

41156 Active Eye \$23.95

C Thyme Guard

Made from the essential oil extracted from the thyme herb, Thyme Guard is a 100% biodegradable broad spectrum contact and systemic liquid organic bactericide, fungicide, and insecticide for use on all crops, turf, and ornamentals. Dilute into water at a rate of 0.5% (2 quart/100 gallons) to 0.125% (1 pint/100 gallons). Thyme Guard is tank mixable with most other chemicals. Do not mix with peroxides and/or sulfonates. Can be used at any time including on harvest day.

41794 Thyme Guard 32 oz. \$41.95

D Yellow Sticky Cards

Free your plants of whiteflies, gnats, and other flying insects without using pesticides. These bright yellow 3"W x 5"H cards have been coated on each side with a specially formulated non-toxic adhesive that permanently traps insects when they land.

40237 Yellow Sticky Cards 10 ct. \$11.25

40237 Yellow Sticky Cards 50 ct. \$34.95

E Wire Sticky Trap/Sign Holders

These 11" galvanized wire with loop ends are perfect for holding sticky traps. These holders allow you to place your sticky traps near the soil or higher above the plant canopy. Wire holders also work great for signs and pricing.

41204 Sticky Trap/Sign Holders 10 ct. \$14.25
2 @ \$13.25 ea.

F Blue Sticky Cards

Blue Sticky Traps attract and catches thrips and leafminers. The easy-to-open 4"x7" trap reverse folds to expose 4"x14" sticky (yellow or blue) surface with grid for precision monitoring purposes. Approximately 30 square inch adhesive area. Non-poisonous and weatherproof.

41203 Blue 5 ct. \$8.25; 2 @ \$7.25 ea.

G Neem Oil

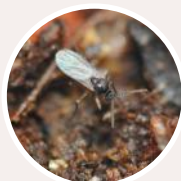

NeemMax is a plant-based, botanical product that contains the full spectrum of bioactive compounds that stop the insect lifecycle. This 4-in-1 product is a Fungicide, Insecticide, Miticide & Nematicide.

42031 Bonide NeemMax \$29.95

DISEASE CONTROL

MilStop® WP Fungicide 5 lb.

MilStop is an EPA-registered, potassium bicarbonate-based foliar fungicide that kills powdery mildew on contact by pulling water from spores and their growing strands. The patented formulation easily spreads out evenly for great leaf coverage, providing 1-2 weeks of residual protection. Milstop also helps control alternaria blight, anthracnose, black spot, botrytis blight, leaf spot, downy mildew, and more. OMRI Listed for organic production. **Not available for sale in AK, DC, HI, WY.**

41247 MilStop WP 5 lb. **\$96.50**

Armory Beneficial Bacteria

Armory is a high concentration of several select beneficial plant bacteria. These powerful species of Bacillus and Streptomyces are all scientifically proven plant growth, yield, and vigor-promoting bacteria. This unique and powerful product not only strengthens plants, but can also be used to greatly enhance soil quality. Soil that has been sterilized with overuse of chemicals, old or re-used potting soil, and other low-quality growing mixes can greatly benefit from being treated with Armory. Armory can be used as a drench, liquid feed, irrigation, spray, or seed treatment. It is compatible with fungicides, insecticides, fertilizers, and biological stimulants. Armory is 100% soluble and it will not clog machinery. Mixing rates depend on application method, 2oz package. OMRI Listed for organic production.

41852 Armory Beneficial Bacteria 2oz. **\$33.95**

Revitalize Biofungicide

This uniquely formulated fungicide triggers a plant's immune response in order to control and prevent common fungal diseases.

42030 Bonide Biofungicide **\$29.95**

SOIL NUTRIENTS

Blooms Super Sprout

10-3-3 Blooms Super Sprout Plant Nutrients is an all-purpose liquid plant food that instantly nourishes indoor/outdoor plants, garden edibles, turf, and ornamental plants. Safe and effective on all types of plants, Super Sprout maximizes plant vigor and blooms and fixes nutrient deficiencies.

42057 Super Sprout **\$24.99**

Blooms BioBoost 3in1 Soil Conditioner

A unique conditioner that redefines lawn care with its advanced formulation of soil surfactant, 6% humic acid, and nutrient-cycling enzymes. Unlike traditional synthetic fertilizers, BioBoost+ works wonders on your turf, garden, and ornamental plants, stimulating soil efficiency, increasing root growth, and enhancing nutrient uptake, all while driving microbial activity.

42058 Bio Boost+ **\$34.99**

Blooms Premium Soil Treatment

is an all-in-one soil treatment product perfect for all indoor and outdoor plants. Our advanced formula provides complete nutrition for optimal plant growth and improved soil health for stronger roots and bigger blooms. Easy to use and suitable for all types of plants, Bio Boost is the ultimate solution for all your plant care needs. Simply mix with water and apply it to the soil around the base of your plants, avoiding foliage. Use once a week for best results, depending on the type and size of your plants.

42059 Bio Boost 2 oz. **\$24.99**

BIRD & ANIMAL CONTROL

Heavy Duty Deer Fencing

Deer Fence PRO is a safe, humane alternative to wire fencing. It discourages deer and other small animals from destroying gardens and other vegetation. Deer Fence PRO is over 5 times the weight of standard Deer Fence and works more as a barrier than a deterrent. Light weight but strong, this deer fencing is easy to install (for best results, install at a slight angle to deter deer from jumping over). Made of UV resistant polypropylene strands bonded together, this fence last for years. Size: 7' x 100'. Mesh size on fencing measures .75" x .75". Fence does not come with stakes.

40341 Fencing 7'W x 100'L \$89.95

Repels All Great for deer, rabbits, and more

Made from all natural ingredients that keep animals at bay! Repels All works by sense of touch, taste, and smell. The most comprehensive animal repellent on the market. Protects plants and property for up to 2 months per application. May be used around edibles. Bottle contains 1 qt. of solution. One qt. concentrate makes 2 gallons of

spray. **Not available for sale in IN and NM.**

41183 Repels All \$21.95

DIY Deer Fence Kit

Everything you need in one handy kit!

The new Tenax DIY Deer Fence Kit is great for fencing in your vegetable garden, flowerbed, or shrubs. This fence comes ready to install with all the hardware needed. Unroll and unfold then fit to our adjustable poles with the ties included. Place sod staples around the base to keep out rabbits and other animals. Fence is 7' tall to deter deer from trying to jump over the fence. The kit includes 10 adjustable poles, 20 sod staples, 50 ties, and 100' of fence.

41088 DIY Deer Fence Kit \$189.95

Bird Netting

Protect your prized fruit, vegetables, and hard work from being damaged by destructive animals. Netting is a humane way to prevent animals from feeding on or harming plants. Bird netting is constructed by UV protected polypropylene strands that have a 3/4"W opening. 14'W x 300'L roll of netting is double folded and rolled for ease of handling.

05053 Bird Netting 14'W x 14'L \$14.95

05054 Bird Netting 28'W x 28'L \$36.50

41341 Bird Netting 14'W x 300'L \$94.95

Bird Scare Balloon

Used in commercial orchards for years, these bird scare balloons are a great deterrent. Place the balloons on trees, buildings, and poles so they intersect the bird's flight path. Place balloons about every 400 sq. ft. of area. Balloons feature reflective stickers and Mylar tails.

40639 Scare Balloon \$12.75; 6@ \$11.95 ea.

Dalen Guard'n Eyes Reflective Disks

Designed to reflect Ultraviolet and Full Spectrum sunlight to scare birds and secure decks, docks, balconies, trees, fruit, vegetables, porches, urban gardens, and more. Designed to mimic predator eyes and reflect light that deters thieving birds and other garden pests, providing effective and safe dissuasion that does not harm wildlife. Non-toxic and topped with a resistant coat to make it more durable. Double-sided and easy to install. 4-pack.

41958 Guard'n Eyes 4-pack \$15.95, 6 @ 13.95 ea.

Repellent Ribbon

Keep destructive birds out!

The double-sided reflective scarecrow tape with "moving" holograms helps protect crops as it flashes dramatically in the sunlight. Helps protect fruit trees, berries, vegetables, and grapevines from thieving birds. Simply attach to trees, posts, shrubbery, or anywhere to deter birds from the area. Double sided and 3/4"W x 100'L roll.

40643 Repellent Ribbon \$5.50
