## Building a Solid Foundation for the Future

The new Voxies Marketplace is constructed on a robust foundation, designed to facilitate the seamless introduction of a plethora of upcoming features. The ultimate goal is to create a dynamic ecosystem that pushes the boundaries of the Web3 gaming experience.

## Innovative Features Enrich the Platform

The new Marketplace combines the core elements gamers crave into a sleek, responsive, and user-friendly platform. The team extensively refined the UX, honing their focus on streamlining listings and accelerating purchases for an unmatched experience. As part of their ongoing mission to make the Voxies Marketplace the go-to platform for gamers, they have revolutionized the filter system, which lets users search for specific items independently, significantly enriching the browsing journey. They also introduced a brand-new notification tray, which gives essential updates to the users as they navigate the platform.

## Simplifying Connection and Usage

The improved Marketplace now supports a variety of Web3 wallets (including but not limited to MetaMask) through the new Wallet Connect feature. Users can also explore the Marketplace without needing a Web3 wallet connected first, which makes it easier for new users to start using it.

## Anticipating Swift Future Updates

The initial launch is tailored to PC users, but the team have been diligently working to ensure full functionality on mobile devices, with mobile-specific UI updates planned later this year. The team is also already primed to introduce a wealth of captivating new features such as comprehensive analytics, floor price indicators, enhanced game integrations, game statistics, and a revolutionary guild service for improved team management.

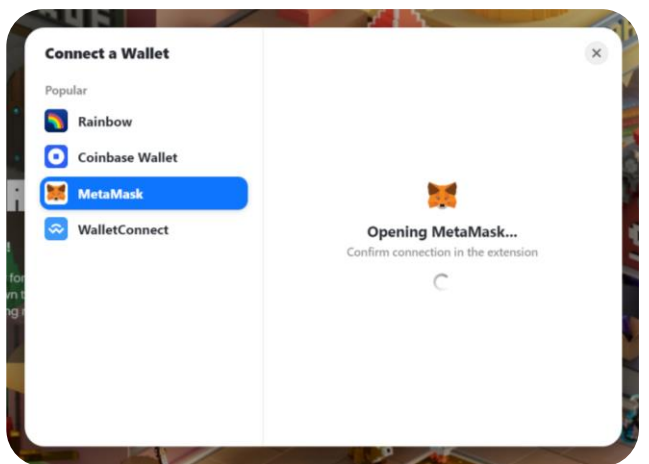

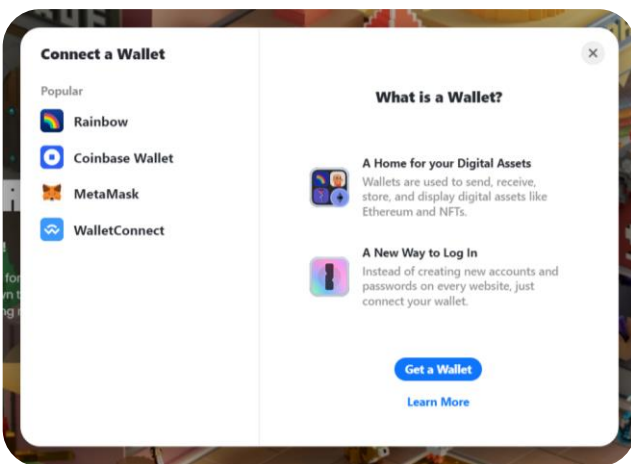

Description: This video introduces you to the sleek, intuitive, and immersive online marketplace at Voxies.io. In this video, the Voxies team walk you through the new features of the Marketplace, including the Forge, Voxies Shop, Profile Page, Tavern, and the Rentals Kiosk. Each of these features is designed to enhance your gaming experience and help you strategize your way to victory in Voxie Tactics.

## Voxies Marketplace: Profile Page

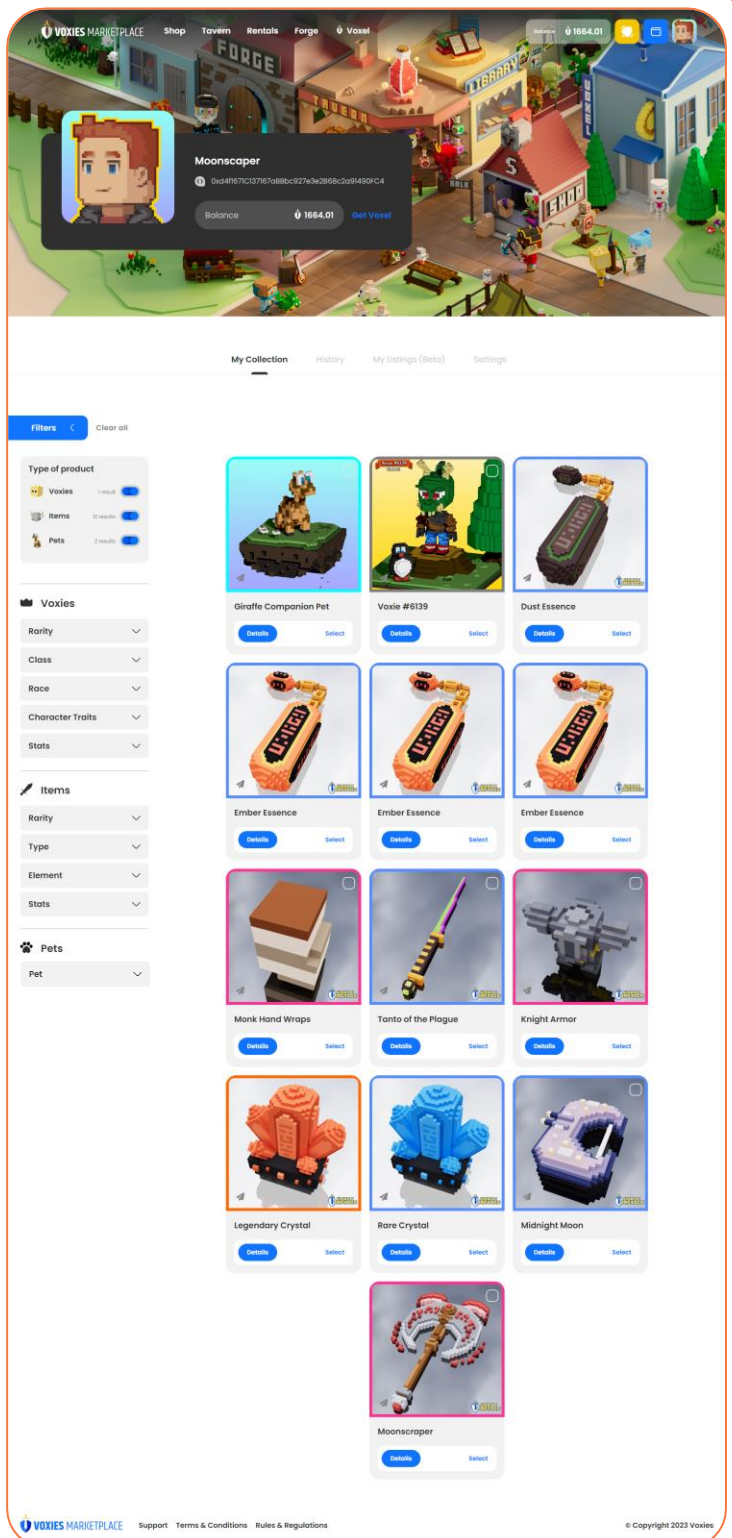

The **Profile Page** is your one stop shop for managing your Voxie Tactics assets. Click  on top right corner of the marketplace to go to your profile.

The top part of the Profile Page shows:

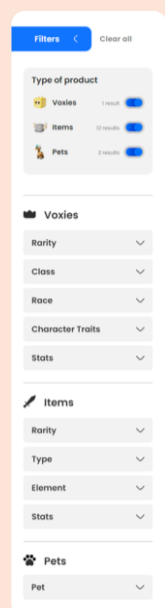

- Your Game Account Name (or your shortened wallet address if you don't have a Voxies Account yet)
- Your wallet address
- VOXEL Balance. Beside it is a link to the Buy VOXEL page

The first tab of the Profile Page is **My Collection**.

- My Collection    History    My Listings (Beta)    Settings
- The My Collection tab has the following features:
- Shows all of the Voxies NFT and Voxie Tactics Item NFT in your wallet, together with the upgraded filter system which is divided into Voxies, Items, and Pets
  - Lets you list your assets for sale or for rent in the marketplace
  - Lets you go to the NFT's details page by clicking the Details button
  - Provides a quick way to transfer an NFT to another wallet by clicking the paper airplane icon in the lower left corner of the NFT image

## The Upgraded Filter System

The new Voxies Marketplace also comes with an upgraded filter system to help you quickly look for the NFTs that you want to check. The Profile, Shop, and Rentals pages have filters that are categorized by Voxies, Items, and Pets:

- The **Voxies** filter allows you to filter by Rarity, Class, Race, Character Traits, and Stats. Character Traits contains Outfit (Top, Bottom, Hat, and Item that can be equipped in-game), Ghost property, Physical Attributes (e.g., Hair Style, Hair Color), and Other (e.g., Background, Emotion).
- The **Items** filter allows you to filter by Rarity, Type, Element, and Stats. Item Type contains Armor (Light, Medium, Heavy), Armor Slot (Head, Body, Hands, Legs), Weapon type, Off-Hand (Magical Artifact and Shield), and Others (e.g., Unidentified, Accessory).
- The **Pets** filter contains the currently available pets: pets attached to Voxies NFTs (e.g., Panda, Bat) and pet NFTs (e.g. Diamond Goat, Reindeer, Giraffe, Bone Dragon).

Each filter category will independently apply to your NFTs. For example, if all Type of product are toggled on and you chose to filter Voxies>Rarity>Rare, Items>Rarity>Rare, Pets>Giraffe, the Voxies, Items, and Pets that satisfy the filter condition will appear. You can toggle off Voxies, Items, and/or Pets under Type of product to show the specific NFT type and trait that you want.

The Type of product box also conveniently shows how many of each NFT type you have in your wallet or for sale/rent. Since pet NFTs are also Voxie Tactics Item NFTs, they are both counted in Items and Pets.

# Voxies Marketplace: Profile Page (Continued)

The second tab of the Profile Page is **History**.

My Collection   **History**   My Listings (Beta)   Settings

# Voxies Marketplace: Profile Page – Listing for Sale or Rent

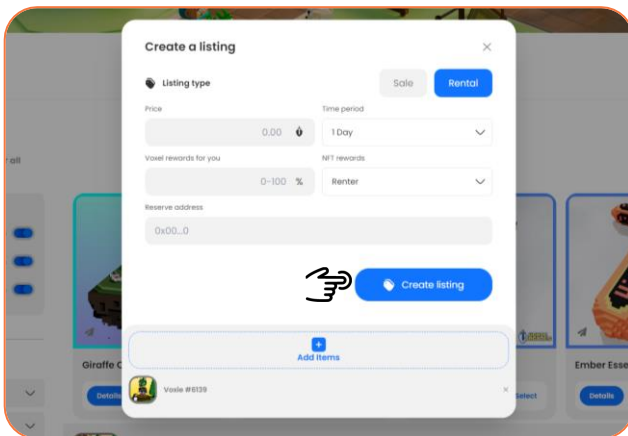

The **Profile Page** is also where you can list your Voxie Tactics NFTs for sale or rent.

1. In the **My Collection** tab, while using or not using filters, select the first (or only) NFT that will be part of your listing for sale or rent by **clicking** on the **NFT box** or the **Select** text.

2. The **Create a listing** window will appear. The default Listing Type is **Rental**, so if you want to sell an NFT, click the **Sale** button. If you want to add more items to the listing, click the **Add Items** button at the bottom of the Create a listing window. Once you have selected all the items that you need, click the **Create Listing** button in the lower right corner of the screen to bring back the Create a listing window.

## Create a listing: **Rental**

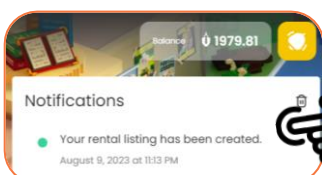

### Required inputs:

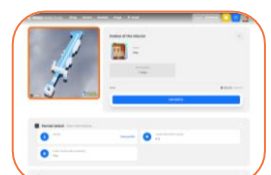

- **Price** in VOXEL, can be 0 VOXEL
- **Time Period** from 1 Day to 30 Days (the Unlimited option is only available if Price is set to 0 VOXEL)
- **Voxel rewards for you:** 0 - 100. 0% means that you won't get a share in VOXEL rewards from the renter's VOXEL rewards in-game, while 100% means that you get all the renter's VOXEL rewards in-game while the rental is active.
- **NFT rewards:** Default is Renter which means that NFT drops in-game will go to renter's wallet. You (Owner) means that all the NFT drops of the renter will go to the owner's wallet.

**Reserve address** is optional for both Rental and Sale. Paste the renter's/buyer's wallet address here if you want to sell or rent only to this specific person. Both Rental and Sale also have a **4% marketplace fee** taken from the final price.

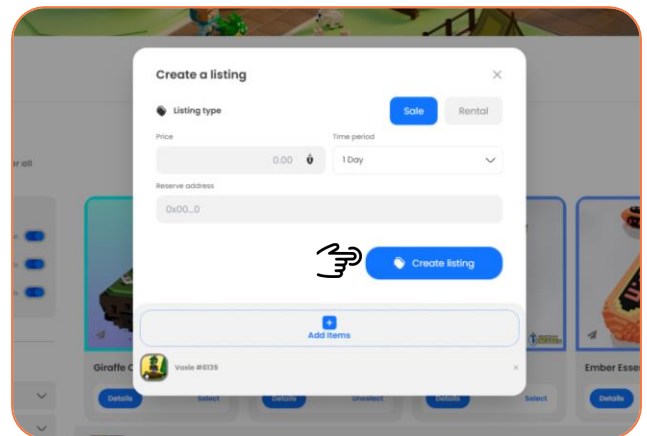

3. Once the required inputs are done, you can now click the **Create Listing** button to start the transaction. If this is your first listing, you will need to approve a separate transaction with gas in your wallet. Then **sign** the transaction and wait for the notification tray to update.

You can click the notification for the listing to directly go to its details page

## Create a listing: **Sale**

### Required inputs:

- **Sale Price** in VOXEL, can be 0 VOXEL
- **Time Period** from 1 Day to 30 Days

### What Happens to your NFTs in a Listing

When you successfully complete the rental/sale listing process, your NFTs are transferred from your wallet to the following wallets:

- **Rental:** [0x564edcE4FAa31e48421100a9Da7B8EB4A38b3654](https://voxiel.com/wallet/0x564edcE4FAa31e48421100a9Da7B8EB4A38b3654)  
NFTs will stay here until owner or renter cancels the rent
- **Sale:** [0xe9EecE80735df5e66cB7e3db8814519C127119A3](https://voxiel.com/wallet/0xe9EecE80735df5e66cB7e3db8814519C127119A3)  
NFTs will stay here until owner cancels the sale or the sale listing gets successfully bought (thru purchase or offer)

# Voxies Marketplace: Cancelling Sale/Rental Listings

After making a rental or sale listing, you might decide to cancel it possibly due to the following reasons:

- You will use the NFTs
- Changed your mind about the terms like price and time period
- A deal with another player didn't go through
- The sale listing expired without getting bought
- You want to end a rental listing that has zero rental price (0 VOXEL price; Voxel rewards to owner is greater than or equal to 0%) before it expires [Note: As an owner, you cannot cancel your rental listing during its rental period if its rental price is greater than 0 VOXEL]
- The rental listing's rental period ended and you need to collect your NFTs back

To cancel your listing:

1. Go to your [listing's details page](#) by going directly to its URL if you have a copy of it, or by going to **Profile** → **History** → **Rentals** or **Sales**, then look for the listing that you want to cancel then click the listing. The History tables have a helpful color coding:

# Voxies Marketplace: Shop

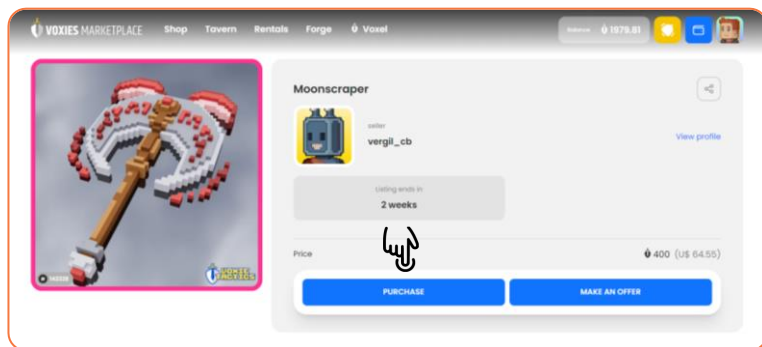

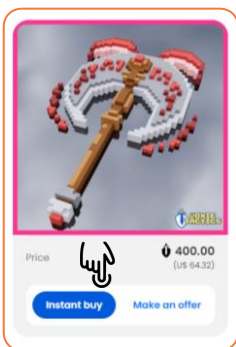

The [Shop](#) is where you can buy and own Voxel Tactics NFTs using VOXEL tokens.

To buy a sale listing:

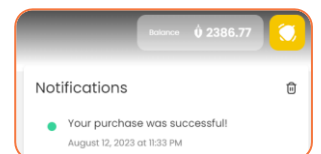

1. In the Shop page, look for the sale listing that you want to buy. You can use the filters on the left of the page to help you look for specific NFTs. Now, you can also choose the currency that will appear under the VOXEL price, which will show the equivalent price of the VOXEL price of the listing in the selected currency. You can also sort the listings based on listing date and price.

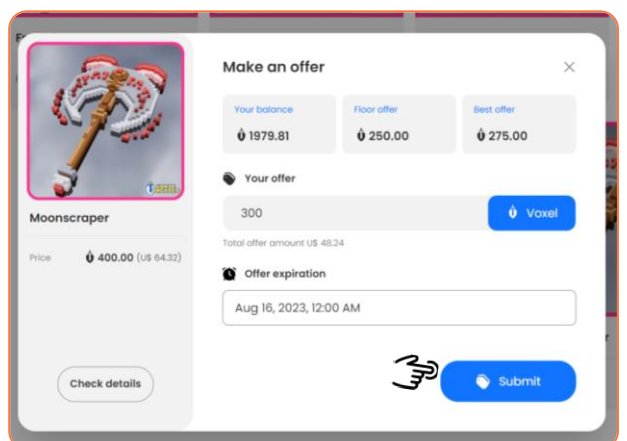

2. Once you have found the listing that you want to buy, hover your mouse over its box to show the [Instant Buy](#) and [Make an Offer](#) buttons. Alternatively, you can click on the box to go to the listing's details page which will have the [Purchase](#) and [Make an Offer](#) buttons.

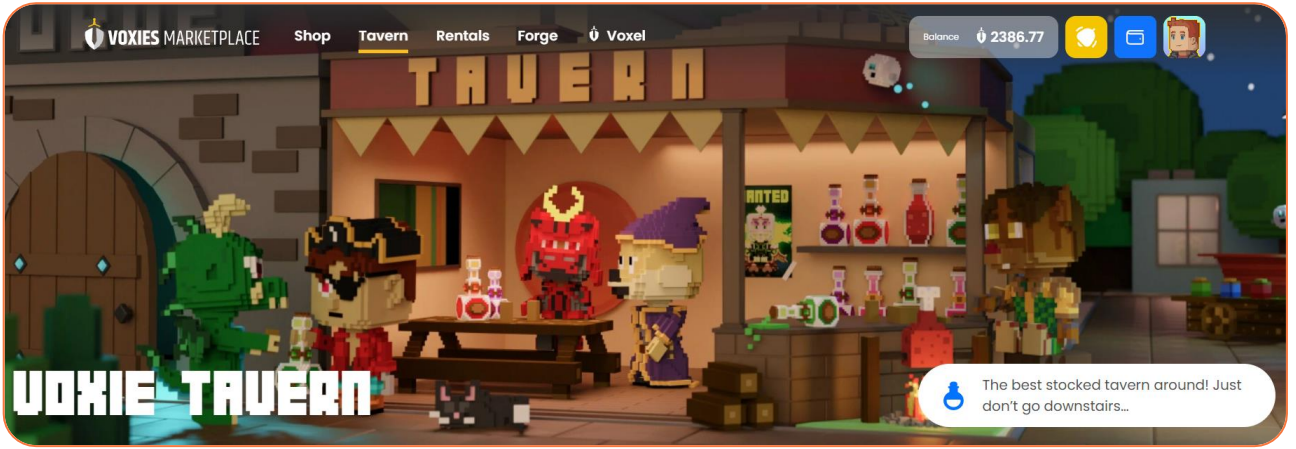

3. To buy the listing, click [Instant Buy](#) (or [Purchase](#) in the details page), then sign the transaction on your wallet. Wait for the notification to update the purchase.

4. You can also place your offer on a listing by clicking the [Make an Offer](#) button. A new window will appear that shows **Your Balance**, the current **Floor Offer**, and the **Best Offer**. Enter your offer in VOXEL in the **Your offer** box, and select the **Offer expiration** date that you want. Then click the [Submit](#) button and sign the transaction on your wallet. Once the owner accepts your offer, you get the NFT/s!

# Voxies Marketplace: Tavern

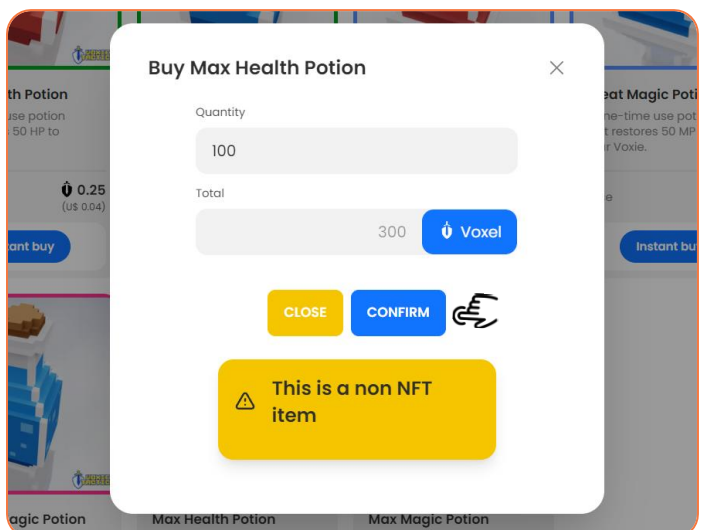

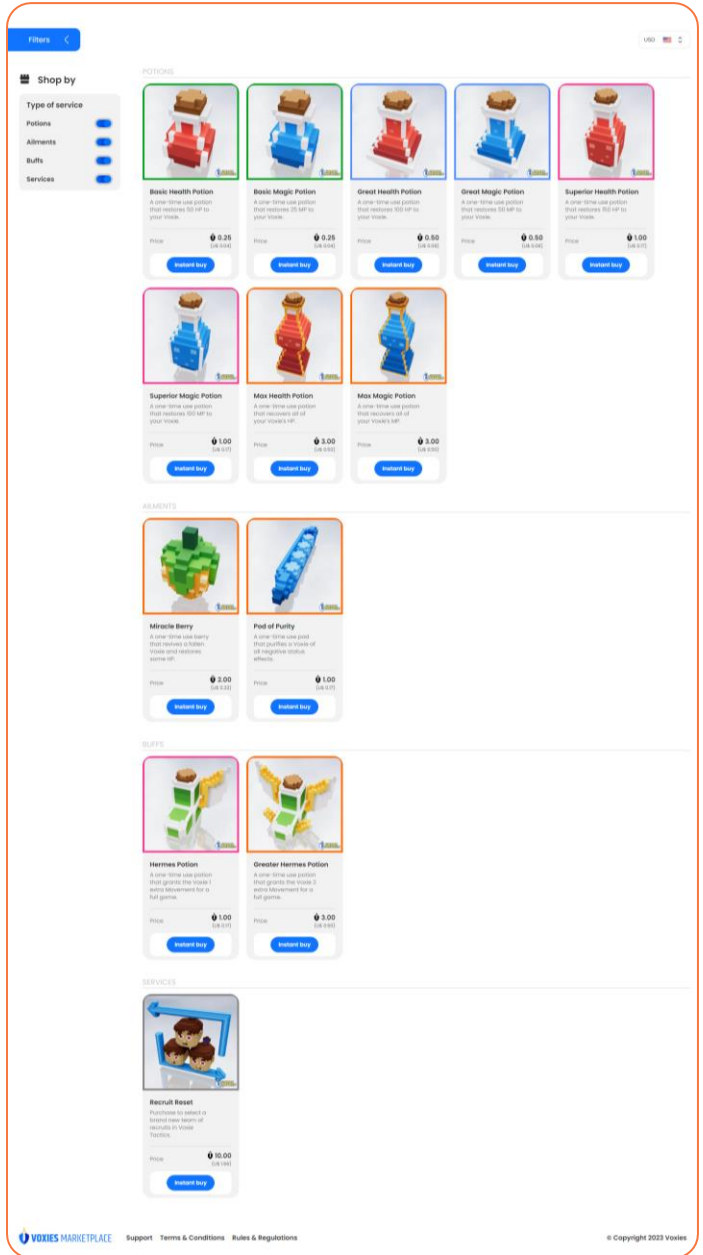

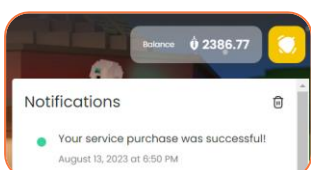

The [Tavern](#) is where you can buy consumables that can be used in-game and other services. Currently you can buy these in the Tavern:

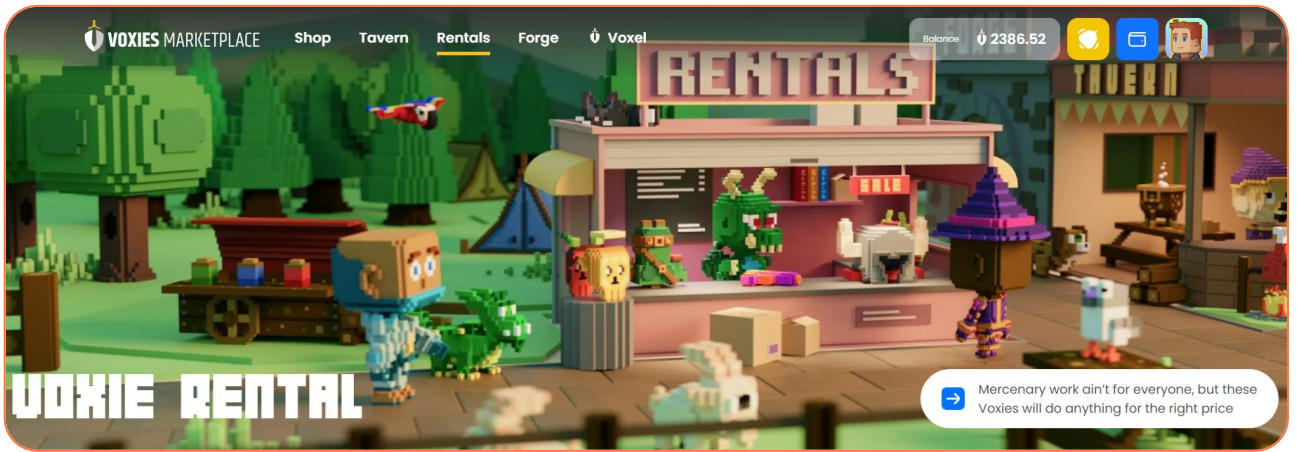

- Health and Magic Potions
- Miracle Berry (revive + heal some HP)
- Pod of Purity (cleanse/remove negative status effects)
- +1 and +2 movement Hermes Potions
- Recruit Reset service

To buy a consumable/service:

1. In the Tavern find, find the consumable or service that you want to buy. Each box displays the name, description, price (in VOXEL and in the selected currency) and the [Instant Buy](#) button.
2. Click the [Instant Buy](#) button. A new window will appear where you can enter the quantity of the consumable that you want to buy (Note: The Recruit Reset service is fixed to 1 quantity only). In the bottom, there is also a reminder that what you are buying is a **non NFT item**.
3. Enter your desired quantity in the **Quantity** box. The **Total** box will update with the value in VOXEL equal to the quantity times the unit price of the consumable.
4. Once you have confirmed the total, click the [Confirm](#) button, then sign the transaction in your wallet. Wait for the notification to update the purchase.

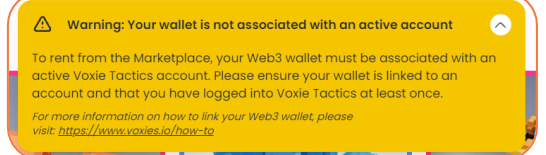

# Voxies Marketplace: Rentals

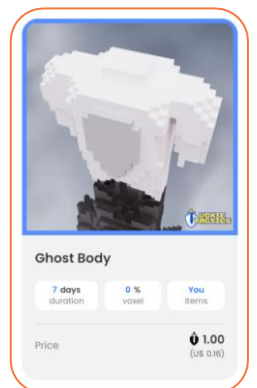

**Rentals**, or Voxel Rental, is where you can rent Voxel Tactics NFTs that you can temporarily use in-game for a price and/or percentage share of your earnings.

To rent a rental listing:

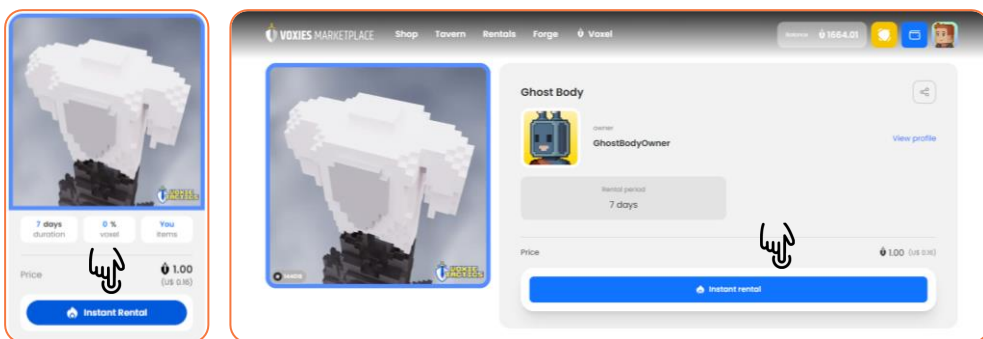

1. To be able to rent, you need to have an active Voxel Tactics account first. The Rentals page will give you a warning if you don't have an account yet.

2. Once you have an active Voxel Tactics account, look for the rental listing that you want to rent in the Rentals page. The listing box contains a summary of the rental: **Duration**, **Voxel rewards to owner, who gets the item rewards** in-game (while the rental is active), and the rental **Price** in VOXEL and the selected currency. Same as with buying in the Shop page, you can use the filters on the left of the page to help you look for specific NFTs, choose the currency that will appear under the VOXEL price, and sort the listings based on listing date and price.

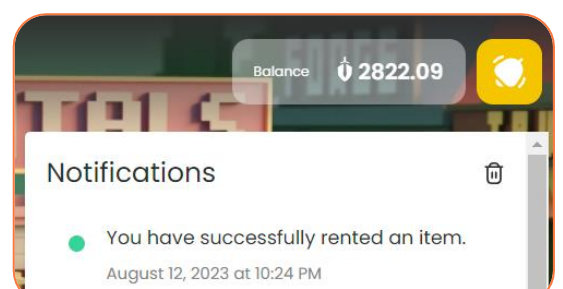

3. Once you have found the rental listing that you want to rent, hover your mouse over its box to show the **Instant Rental** button. Alternatively, you can click on the box to go to the listing's details page which also has the **Instant Rental** button but has more details for the NFTs in the rental listing in addition to the rental details.

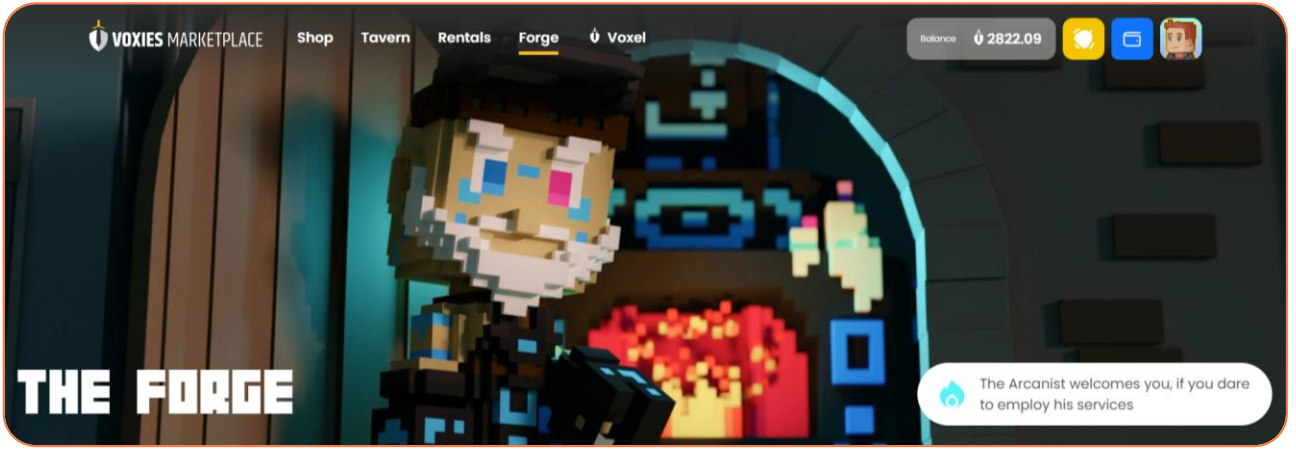

4. To rent the listing, click **Instant Rental**, then sign the transaction on your wallet. Wait for the notification to update the purchase.

5. You can now use the NFTs that you rented in the game until it expires! You can check your rented listings in your Profile page's History tab. If you want to end the rental before it expires, go to the rental's details page, then click the **End Rental** button and sign the transaction on your wallet.

# Voxies Marketplace: Forge

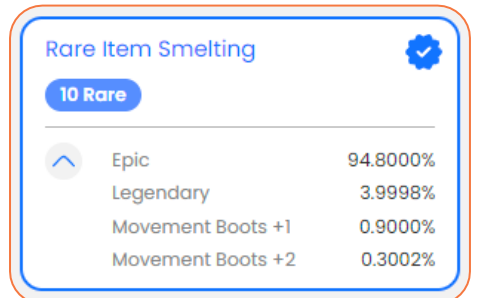

The [Forge](#) is where the Arcanist resides to help you forge new and improved items from your existing Voxie Tactics items, for a fee of course.

Currently the Forge has the following recipes:

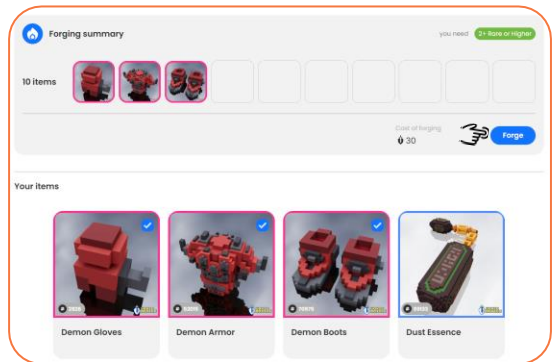

- Random (at least two Rare or higher rarity items; variable output probabilities)
- Infusion
- Identify (for Unidentified items)
- Rare/Epic/Legendary Item Smelting
- Epic/Legendary Swap
- Epic/Legendary Battle Purse (to open the Season 0 Leaderboard NFT rewards)

To forge using a recipe:

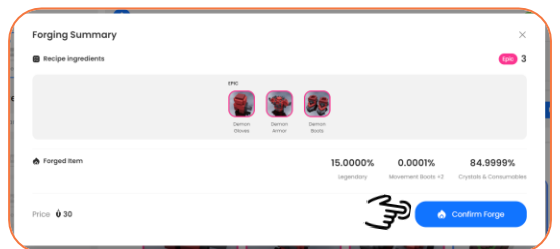

1. In the Forge page, select a recipe in the left part of the page. Each recipe has one small box (3 for Infusion) which shows the required NFT/s needed by the recipe, and **See rewards** which you can click to show the probabilities for the recipe result (except Infusion whose result is predetermined depending on the items)

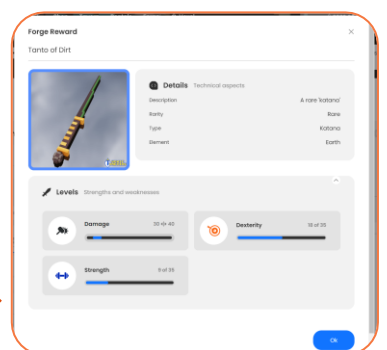

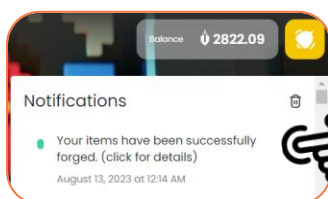

2. The **Forging summary** box will now update based on the recipe selected and also show the **Cost of forging** in VOXEL. **Your items** will show all items that can be used in the currently select recipe. Select the items that you want to use for the recipe until the **you need** box turns green and the blue **Forge** button (**Infuse** button for Infusion) becomes enabled. Click the **Forge** or **Infuse** button.

3. A **Forging Summary** window will appear. Confirm the **Recipe ingredients**, **Forged Item** probabilities, and **Price**. Then click the **Confirm Forge** button and sign the transaction on your wallet. A cool animation of the Arcanist forging will play. Wait for the notification to update the forge result.

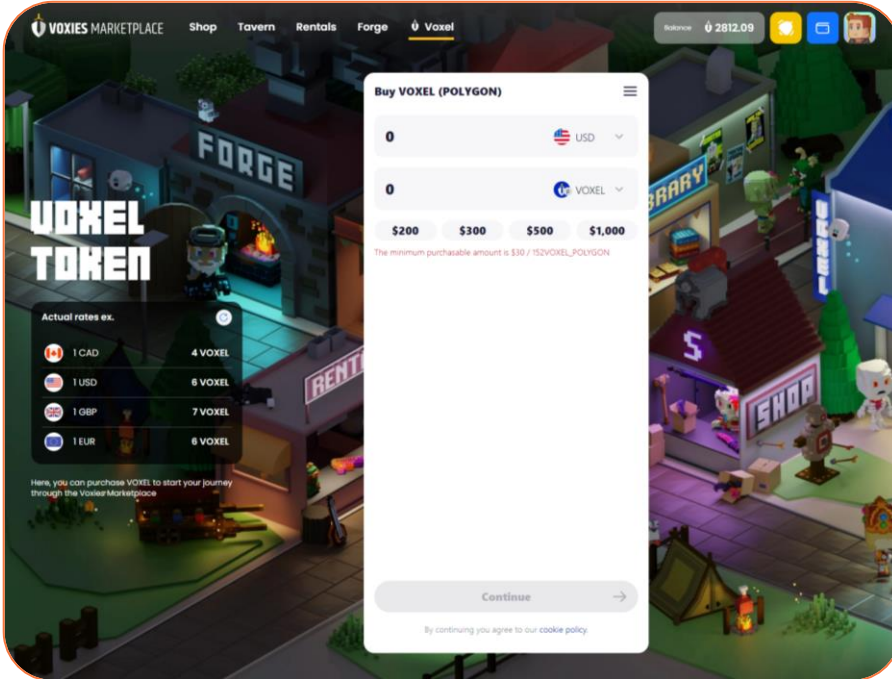

4. Click on the notification for the forge result to show the **Forge Reward** window, which shows the new item that you got and its details. The new item will also be minted in your wallet.
