Lift Electric Desks
Elevate your work experience.

Introducing our new Lift Electric Desks, designed to elevate your work experience to new heights. Featuring smooth, whisper-quiet electric motors, our Lift Electric Desks adjust to your desired height with just the touch of a button, allowing you to effortlessly transition between sitting and standing positions throughout your workday.

Uniquely customisable, you have the flexbility to design the Lift Desk to look exactly how you want it. Choose from three frame colours and a range of sizes, then choose the top shape, top finish and the addition of any cable ports and cable ways. A truly tailor-made electric desk like no other on the market.

Specifications

- Load capacity of 100kgs

Whiteboard Cabinets
Optimise your storage and make learning visible.

Whiteboard cabinets are our specialty

Choose from a wide a array of cabinet bases that include cupboards, drawers, cube crates and tote trays to enhance your unit. All upper levels have adjustable shelving, hiding behind the sliding whiteboards, making them the ultimate all-in-one storage solution and collaborative workspace. Locks can be added to all drawers, doors and whiteboards for secure storage of televisions, electronic devices and other resources.

Our sliding whiteboards feature premium quality German engineered soft closing technology, improving the safety of the user by effectively minimsing the risk of crushed fingers or hands. All our whiteboards are frameless and feature a solid MDF core with high quality and durable porcelain surface and sleek handles.

Depending on the combination of units you choose, the width of your cabinet can vary between 1600mm wide (being the smallest size) to the largest option of 4800mm wide.

Our 400 deep units are all 2000mm high x 400mm deep with the interior shelves of the base unit (lower section)being 400mm deep and depth in the top section (behind the whiteboards) being 290mm deep.

We also offer 600mm deep x 2000mm high cabinets which have been designed and developed especially for STEM rooms where bulkier items may need to be stored. The interior shelves of the base cabinets (lower section) are 600mm deep and the shelving behind the whiteboards being 490mm deep.

Whiteboard cabinets can be placed back to back to divide learning spaces
